TIM HOPKINS

PARK AND CEMETERY COMMITTEE MEETING MINUTES February 13, 2023

The meeting began at the Park at 4:45pm. Present were Trustees Elbe, Hopkins, Hildreth and Rogers along with Supervisor Klein and Engineer Saeger.

The meeting began by discussing installation of retaining wall blocks and removing trees to accommodate the wider trail around the lake. Trustee Hopkins stated that trees are needed beyond the diamond 5 outfield to make the ball easier to see. A vote will be requested at the next Board meeting for the purchase of retaining wall blocks that would be installed by the public works crew.

The layout of the proposed fence replacement between the new SAA shed and dug out was discussed. A vote will be requested at the Board meeting to have a 12 foot fence installed along the south side of the new shed plus approximately another 40 feet west towards the dugout then the height will be dropped to 4 feet at a double gate. The 4 foot fence will continue west and tie into the dugout.

The meeting was adjourned at 5:30 pm.
