ADMINISTRATION

ARTICLE I – GENERAL CODE PROVISIONS

DIVISION I - TITLE

1-1-1 **TITLE.** Upon the adoption by the Village Board of Trustees, this Village Code is hereby declared to be and shall hereafter constitute the official **"Revised Code of Ordinances of the Village of Smithton, Illinois"**. The Revised Code of Ordinances shall be known and cited as the **"Village Code"**, and it is hereby published by authority of the Village Board and shall be kept up-to-date as provided in **Section 1-1-3** under the direction of the Village Attorney, acting for said Village Board. Any reference to the number of any section contained herein shall be understood to refer to the position of the same number, its appropriate chapter and article heading and to the general penalty clause relating thereto as well as to the section itself when reference is made to this Village Code by title in any legal document. **(65 ILCS 5/1-2-3)**

1-1-2 **ACCEPTANCE.** The Village Code as hereby presented in printed form shall hereafter be received without further proof in all courts and in all administrative tribunals of this State as the ordinances of the Village of general and permanent effect, except the excluded ordinances enumerated in **Section 1-1-8. (65 ILCS 5/1-2-6)**

1-1-3 **AMENDMENTS.** Any ordinance amending this Village Code shall set forth the article, chapter, and section number of the section or sections to be amended, and this shall constitute a sufficient compliance with any statutory requirement pertaining to the amendment or revision by ordinance of any part of this Village Code. All such amendments or revisions by ordinance shall be forwarded to the codifiers on an annual basis and the ordinance material shall be prepared for insertion in its proper place in each copy of this Village Code. Each such replacement page shall be properly identified and shall be inserted in each individual copy of the Village Code on an annual basis. **(65 ILCS 5/1-2-3)**

1-1-4 **CODE ALTERATION.** It shall be deemed unlawful for any person to alter, change, replace or deface in any way, any section or any page of this Code in such a manner that the meaning of any phrase or order may be changed or omitted. Replacement pages may be inserted according to the official instructions when so authorized by the Village Board. The Clerk shall see that the replacement pages are properly inserted in the official copies maintained in the office of the Clerk.

Any person having in his custody an official copy of this Code shall make every effort to maintain said Code in an up-to-date and efficient manner. He shall see to the immediate insertion of new or replacement pages when such are delivered to him or made available to him through the office of the Village Clerk. Said Code books, while in actual possession of officials and other interested persons shall be and remain the property of the Village and shall be returned to the office of the Clerk upon termination of office or separation of duties.

1-1-5 **JURISDICTION.** Unless otherwise provided herein, this Code applies to acts performed within the corporate limits of the Village. Provisions of this Code also apply to acts performed outside the corporate limits and up to the limits prescribed by law, where the law confers power on the Village to regulate such particular acts outside the corporate limits.

1-1-6 - 1-1-7 **RESERVED.**

DIVISION II - SAVING CLAUSE

1-1-8 REPEAL OF GENERAL ORDINANCES. All general ordinances of the Village passed prior to the adoption of this Code are hereby repealed, except such as are referred to herein as being still in force or are, by necessary implication, herein reserved from repeal **[subject to the saving clauses contained in the following sections]**, from which are excluded the following ordinances, which are not hereby repealed:

Tax Levy Ordinances; Appropriation Ordinances; Ordinances Relating to Boundaries and Annexations; Franchise Ordinances and other Ordinances Granting Special Rights to Persons or Corporations; Contract Ordinances and Ordinances Authorizing the Execution of a Contract or the Issuance of Warrants; Ordinances Establishing, Naming, or Vacating Streets, Alleys, or Other Public Places; Improvement Ordinances; Bond Ordinances; Ordinances Relating to Elections; Ordinances Relating to the Transfer or Acceptance of Real Estate by or from the Village; and all Special Ordinances.

1-1-9 PUBLIC UTILITY ORDINANCES. No ordinance relating to railroads or railroad crossings with streets and other public ways or relating to the conduct, duties, service or rates of public utilities shall be repealed by virtue of the adoption of this Code or by virtue of the preceding section, excepting as this Code shall be considered as amending such ordinance or ordinances in respect to such provisions only.

1-1-10 COURT PROCEEDINGS. No new ordinance shall be construed or held to repeal a former ordinance, whether such former ordinance is expressly repealed or not, as to any offense committed against such former ordinance or as to any act done, any penalty, forfeiture or punishment so incurred, or any right accrued or claim arising under the former ordinance, or in any way whatever to affect any claim arising under the former ordinance or in any way whatever to affect any such offense or act so committed or so done, or any penalty, forfeiture or punishment so incurred or any right accrued or claim arising before the new ordinance takes effect, save only that the proceedings thereafter shall conform to the ordinance in force at the time of such proceeding, so far as practicable. If any penalty, forfeiture or punishment be mitigated by any provision of a new ordinance, such provision may be, by the consent of the party affected, applied to any judgment announced after the new ordinance takes effect.

This Section shall extend to all repeals, either by express words or implication, whether the repeal is in the ordinance making any new provisions upon the same subject or in any other ordinance.

Nothing contained in this Chapter shall be construed as abating any action now pending under or by virtue of any general ordinance of the Village herein repealed and the provisions of all general ordinances contained in this Code shall be deemed to be continuing provisions and not a new enactment of the same provision; nor shall this Chapter be deemed as discontinuing, abating, modifying or altering any penalty accrued or to accrue, or as affecting the liability of any person, firm or corporation, or as waiving any right of the Village under any ordinance or provision thereof in force at the time of the adoption of this Code.

1-1-11 SEVERABILITY OF PROVISIONS. Each section, paragraph, sentence, clause and provision of this Code is severable, and if any provision is held unconstitutional or invalid for any reason, such decision shall not affect the remainder of this Code, nor any part thereof, other than that part affected by such decision.

1-1-12 VILLAGE CLERK'S CERTIFICATE. The Village Clerk's Certificate shall be substantially in the following form:

***See Section 1-2-13
(Ord. 952; 10/5/20)**

(B) **Duties of Presiding Officer.** The presiding officer shall preserve order and decorum and may speak to points of order in preference to other Trustees, and shall decide all question of order, subject to appeal.

(C) **Duties of Members.** While the presiding officer is putting the question, no member shall walk across or out of the Board Chamber.

Every member, prior to his speaking, making a motion or seconding the same shall not proceed with his remarks until recognized and named by the Chair. He shall confine himself to the question under debate, avoiding personalities and refraining from impugning the motives of any other Trustee's argument or vote.

(D) **Visitors.** After the public comment period, no person other than a member of the Board of Trustees shall address that body on the same question unless such person has been recognized by the presiding officer.

(E) **Presentation of New Business.** When a Trustee wishes to present a communication, petition, order, resolution, ordinance or other original matter, the member shall read such matter when reached in its proper order.

(F) **Debate.** No Trustee shall speak more than once on the same question, except by consent of the presiding officer or unless **three-fourths (3/4)** of the corporate authorities agree that one's right to debate should be limited to speak only once and then not until every other Trustee desiring to speak shall have had an opportunity to do so; provided, however, that the proponent of the matter under consideration, as the case may be, shall have the right to open and close debate.

The Village Board, by motion, may limit debate. The presiding officer shall have the right to participate in debate.

While a member is speaking, no Trustee shall hold any private discussion, nor pass between the speaker and the Chair.

(G) **Call of Trustees to Order.** A Trustee, when called to order by the Chair, shall thereupon discontinue speaking and take his seat and the order or ruling of the Chair shall be binding and conclusive, subject only to the right to appeal.

(H) **Appeals from Decision of the Chair.** Any Trustee may appeal to the Board from a ruling of the Chair, and if the appeal is seconded, the Trustee making the appeal may briefly state his reason for the same, and the Chair may briefly explain his ruling; but there shall be no debate on the appeal and no other person shall participate in the discussion. The presiding officer shall have the right to participate in debate.

The Chair shall then put the question, **"Shall the decision of the Chair be sustained?"**. If a majority of the Trustees present vote **"No"**, the decision of the Chair shall be overruled; otherwise, it shall be sustained.

(I) **Question of Personal Privilege.** The right of a member to address the Board on a question of personal privilege shall be limited to cases in which his integrity, character, or motives are assailed, questioned or impugned.

(J) **Voting.** Every other member who shall be present when a question is stated from the Chair shall vote thereon, unless he is personally interested in the question, in which case, he shall take whatever steps are necessary to insure that his vote is not taken.

(K) **Special Order of Business.** Any matter before the Village Board may be set down as a special order of business at a time certain if **two-thirds (2/3)** of the Trustees present vote in the affirmative, but not otherwise.

(L) **Seconding of Motions Required; Written Motions.** No motion shall be put or debated in the meeting or in committee unless it be seconded. When a motion is seconded, it shall be stated by the presiding officer before debate, and every motion in the Board, except motions of procedure, shall be reduced to writing if required by a member, and the proposer of the motion shall be entitled to the floor.

(M) **Division of Questions.** If any question under consideration contains several distinct propositions, the Trustees, by a majority vote of the Trustees present may divide such question.

(N) **Record of Motions.** In all cases where a resolution or motion is entered in the journal, the name of the Trustee moving the same shall be entered also.

(O) **Announcement and Changes of Vote.** The result of all votes by yeas and nays shall not be announced by the Clerk, but shall be handed by him to the Chairman for announcement, and no vote shall be changed after the tally list has passed from the hands of the Clerk.

(P) **Precedence of Motions.** When a question is under debate, the following motions shall be in order and shall have precedence over each other in order, as listed:

- (1) To adjourn to a day certain.
- (2) To adjourn.
- (3) To take a recess.
- (4) To lay on the table.
- (5) The previous question.
- (6) To refer.
- (7) To amend.
- (8) To defer or postpone to a time certain.
- (9) To defer or postpone (without reference to time.)
- (10) To defer or postpone indefinitely.

Numbers (2), (4), and (5) to be decided without debate.

(Q) **Motions to Adjourn.** A motion to adjourn the Village Board shall always be in order, except:

- (1) When a Trustee is in possession of the floor.
- (2) While the yeas and nays are being called.
- (3) When the members are voting.
- (4) When adjournment was the last preceding motion.
- (5) When it has been decided that the previous question shall be taken.

A motion simply to adjourn shall not be subject to amendment or debate, but a motion to adjourn to a time certain shall be.

The Village Board may, at any time, adjourn over **one (1)** or more regular meetings on a vote of a majority of all the Trustees authorized by law to be elected.

(R) **Previous Question.** When the previous question is moved on the main question and seconded, it shall be put on this form: **"Shall the main question now be put?"**. If such motion be carried, all further amendments and all further motions and debate shall be excluded, and the question put without delay upon the pending amendment in proper order and then upon the main question.

(S) **Motions to Lay on the Table and to Take From the Table.** A motion simply to lay the question on the table shall not be debatable, but a motion to lay on the table and publish, or with any other condition shall be subject to amendment and debate.

A motion to take any motion or other proposition from the table may be proposed at the same meeting at which such motion or proposition was laid upon the table, provided **two-thirds (2/3)** of the Trustees vote therefor.

A motion to lay any particular motion or proposition on the table shall apply to that motion or proposition only. An amendment to the main question or other pending question may be laid on the table and neither the main question nor such other pending question shall be affected thereby.

(T) **Indefinite Postponement; Motion to Defer or Postpone Without Any Reference to Time.** When consideration of a motion or other proposition is postponed indefinitely, it shall not be again taken up at the same meeting.

A motion to postpone indefinitely shall not open the main question to debate.

A motion to defer or postpone without any reference to time shall not be construed as a motion to postpone indefinitely, but shall be considered to be of the same general nature and to possess the same general attributes so far as applicable under these rules, as a motion to postpone indefinitely or to a time certain.

(U) **Motion to Refer.** A motion to refer to a standing committee shall take precedence over a similar motion to refer to a special committee.

(V) **Motion to Amend.** A motion to amend an amendment shall be in order, but one to amend an amendment to an amendment shall not be entertained.

An amendment modifying the intention of a motion shall be in order; but an amendment relating to a different subject shall not be in order.

On an amendment to "**Strike Out and Insert**", the paragraph to be amended shall first be read as it stands, then the words proposed to be stricken out, then those to be inserted, and finally, the paragraph as it will stand if so amended shall be read.

An amendment to the main question or other pending questions may be referred to a committee and neither the main question nor such other pending question shall be affected thereby.

(W) **Filling of Blanks.** When a blank is to be filled and different sums or times proposed, the question shall be taken first on the least sum or the longest time.

(X) **Motion to Substitute.** A substitute for any original proposition under debate or for any pending amendment or such proposition may be entertained notwithstanding that at such time, further amendment is admissible; and if accepted by the Trustees by a vote shall entirely supersede such original proposition or amendment, as the case may be, and cut off all amendments appertaining thereto.

(Y) **Reconsideration.** A vote or question may be reconsidered at any time during the same meeting, or at the first regular meeting held thereafter. A motion for reconsideration having been once made and decided in the negative shall not be renewed, nor shall a motion to reconsider be reconsidered.

A motion to reconsider must be made and seconded by Trustees who voted on the prevailing side of the question to be reconsidered, unless otherwise provided by law; provided, however, that where a motion has received a majority vote in the affirmative, but is declared lost solely on the ground that a greater number of affirmative votes is required by statute for the passage or adoption of such motion, then in such case, a motion to reconsider may be made and seconded only by those who voted in the affirmative on such question to be reconsidered.

(Z) **Adoption of Robert's "Rules of Order Revised".** The rules of parliamentary practice comprised in the latest published edition of **Robert's "Rules of Order Revised"** shall govern the Board in all cases to which they are applicable and in which they are not inconsistent with the special rules of the Board.

(AA) **Temporary Suspension of Rules - Amendment of Rules.** These rules may be temporarily suspended by a vote of **two-thirds (2/3)** of the corporate authorities entitled by law to be elected and shall not be repealed, altered or amended, unless by concurrence of **two-thirds (2/3)** of all the corporate authorities entitled by law to be elected.

(BB) **Censure of Trustees - Expulsion of Trustees.** Any Trustee acting or appearing in a lewd or disgraceful manner, or who uses opprobrious, obscene and insulting language to or about any member of the Board, or who does not obey the order of the Chair, shall be, on motion, censured by a majority vote of the members present, or expelled by a **two-thirds (2/3) vote** of all Trustees elected. **(65 ILCS 5/3.1-40-15)**

1-2-12 **AGENDA.** An itemized agenda, along with all necessary supporting documentation shall be furnished to each member of the Village Board no later than **forty-eight (48) hours** prior to the regular Village Board meeting. In the case of matters of emergency which could not have been reasonably foreseen in sufficient time to comply with this section, a revised agenda shall be furnished to each member of the Village Board prior to the opening of the Board meeting. **(5 ILCS 120/2.02)**

1-2-13 **ADDRESS BY NON-MEMBERS.**

(A) **Public Comment Request.** Any person not a member of the Village Board may address the Village Board with regard to items of proposed business under the following rules:

- (1) He or she shall rise (if not physically impaired) and state his or her name for the record and unless further time is granted by the Board to limit

remarks to **five (5) minutes**. All remarks shall be addressed to the Village Board, not to any member thereof.

- (2) No person other than the Board member recognizing the individual addressing the Board and the person having the floor shall be permitted to enter into any discussion directly or through a member of the Board without the permission of the Mayor. No questions shall be asked of an Trustee except through the Mayor. Any person making personal or impertinent remarks or who shall become disruptive addressing the Village Board shall be forthwith evicted from the Board room by the Mayor.

(B) **Auxiliary Aid or Service.** The Village shall take appropriate steps to ensure that communications with applicants, participants, members of the public, and companions with disabilities are as effective as communications with orders.

- (1) The Village shall furnish appropriate auxiliary aid(s) and service(s) where necessary to afford qualified individuals with disabilities including applicants, participants, companions, and members of the public, an equal opportunity to participate in, and enjoy the benefits, of a service, program, or activity of the Village.
- (2) Auxiliary aids and services shall be provided in a timely manner.
- (3) Individuals shall notify the Village Clerk **fourteen (14) days** in advance specifying the appropriate auxiliary aids or services required. **(See Addendum "B", Request for Auxiliary Aid(s) and/or Services)**

(C) The Chief of Police or his authorized designee shall be the Sergeant at Arms at the Board meetings. He or she shall carry out all orders and instructions of the Mayor for the purposes of maintaining order and decorum. The Sergeant at Arms shall remove any person violating order and decorum of the meeting. Such removal may be accompanied by further prosecution for any violation of any ordinance under this Code. **[5 ILCS 120/2.06]**

DIVISION III - ORDINANCES

1-2-14 ORDINANCES.

(A) **Attorney.** It shall be the duty of the Village Attorney to prepare such ordinances as may be required by the Village Board. It shall be the duty of the Village Attorney to review all ordinances before passage.

(B) **Introduced.** When a bill for ordinance shall be introduced, a vote on the passage of said bill may be taken upon motion and a second of the Village Trustees at that time.

(C) **Committees.** When a bill for ordinance shall be introduced, unless a vote on its passage pursuant to and provide in subparagraph (B) above is taken, it may be referred to the appropriate committee by the President or upon a motion and second by a Village Trustee, for further study, amendment, alteration or change. At any time, upon a motion and second of the Village Trustees, any bill previously referred to an appropriate committee, may be reported back to the Board of Trustees and considered for final passage. **(Ord. No. 400; 10-90)**

(D) **Vote required-Yeas and Nays Record.** The passage of all ordinances for whatever purpose, and of any resolution or motion (1) to create any liability against a Village or (2) for the expenditure or appropriation of its money, shall require the concurrence of a majority of all members then holding office on the Village Board, including the Mayor, unless otherwise expressly provided by the Code or any other act governing the passage of any ordinance, resolution, or motion; provided that, where the Board consists of an odd number of Trustees, the vote of the majority of the trustees shall be sufficient to pass an ordinance. The yeas and nays shall be taken upon the question of the passage of the designated ordinances, resolutions, or motions and recorded in the journal of the Village Board. In addition, the corporate authorities at any meeting may by unanimous consent to take a single vote by yeas or nays on the several questions of the passage on any **two (2)** or more of the designated ordinances, orders, resolutions or motions placed together for voting purposes in a single group. The single vote shall be entered separately in the journal under the designation "omnibus vote", and in such

event the Clerk may enter the words "omnibus vote" or "consent agenda" in the journal in each case in lieu of entering names of the members of Village Board voting "yea" and of those voting "nay" on the passage of each of the designated ordinances, orders, resolutions and motions included in such omnibus group or consent agenda. The taking of such single or omnibus vote and such entries of the words "omnibus vote" or "consent agenda" in the journal shall be a sufficient compliance with the requirements of this Section to all intents and purposes and with like effect as if the vote in each case had been separately by yeas and nays on the question of the passage of each ordinance, order, resolution and motion included in such omnibus group, and separately recorded in the journal. Likewise, the yeas and nays shall be taken upon the question of the passage of any other resolution or motion at the request of any trustee and shall be recorded in the journal. **(65 ILCS 5/3.1-40-40)**

(E) **Ordinances - Approval-Veto.** All resolutions and motions (1) which create any liability against the Village, or (2) that provide for the expenditure or appropriation of its money, or (3) to sell any Village property, and all ordinances, passed by the Village Board shall be deposited with the Village Clerk. If the Mayor approves an ordinance or resolution, the Mayor shall sign it. Those ordinances, resolutions and motions which the Mayor disapproves shall be returned to the Village Board, with the Mayor's written objections, at the next regular meeting of the Village Board occurring not less than **five (5) days** after their passage. The Mayor may disapprove of any **one (1)** or more sums appropriated in any ordinance, resolution, or motion making an appropriation, and, if so, the remainder shall be effective. However, the Mayor may disapprove entirely of an ordinance, resolution, or motion making an appropriation. If the Mayor fails to return any ordinance or any specified resolution or motion with his written objections, within the designated time, it shall become effective despite the absence of the Mayor's signature. **(65 ILCS 5/3.1-40-45)**

1-2-15 RECONSIDERATION--PASSING OVER VETO. Every resolution and motion, specified in **Section 1-2-14** and every ordinance, that is returned to the Village Board by the Mayor shall be reconsidered by the Village Board at the next regular meeting following the regular meeting at which the Village Board receives the Mayor's written objection. If, after reconsideration, **two-thirds (2/3)** of all the Trustees then holding office on the Village Board agree at that regular meeting to pass an ordinance, resolution, or motion, notwithstanding the Mayor's refusal to approve it, then it shall be effective. The vote on the question of passage over the Mayor's veto shall be by yeas and nays, and shall be recorded in the journal. **(65 ILCS 5/3.1-40-50)**

1-2-16 NO VOTE TO BE RECONSIDERED AT SPECIAL MEETING. No vote of the Village Board shall be reconsidered or rescinded at a special meeting unless there are present at the special meeting at least as many Village Trustees as were present when the vote was taken. **(65 ILCS 5/3.1-40-55)**

(D) **Books Delivered to Successor.** Every officer shall, upon going out of office, deliver to his successor, all books, papers, furniture, and other things appertaining to such office, and which are the property of the Village. Within **five (5) days** after notification and request, any person who has been an officer of a municipality is required to deliver to his successor in office, all property, books and effects in his possession belonging to the municipality, or pertaining to the office he has held. (G) Under either of the following circumstances, a municipal officer may hold a position on the board of a not-for-profit corporation that is interested in a contract, work, or business of the municipality:

- (1) If the municipal officer is appointed by the governing body of the municipality to represent the interests of the municipality on a not-for-profit corporation's board, then the municipal officer may actively vote on matters involving either that board or the municipality, at any time, so long as the membership on the not-for-profit board is not a paid position, except that the municipal officer may be reimbursed by the not-for-profit board for expenses incurred as the result of membership on the not-for-profit board.

1-2-36 - 1-2-47 RESERVED.

DIVISION VI - VACANCIES

1-2-48 VACANCY BY RESIGNATION. A resignation is not effective unless it is in writing, signed by the person holding the elective office, and notarized.

(A) **Unconditional Resignation.** An unconditional resignation by a person holding the elective office may specify a future date, not later than **sixty (60) days** after the date the resignation is received by the officer authorized to fill the vacancy, at which time it becomes operative, but the resignation may not be withdrawn after it is received by the officer authorized to fill the vacancy. The effective date of a resignation that does not specify a future date at which it becomes operative is the date the resignation is received by the officer authorized to fill the vacancy. The effective date of a resignation that has a specified future effective date is that specified future date or the date the resignation is received by the officer authorized to fill the vacancy, whichever date occurs later.

(B) **Conditional Resignation.** A resignation that does not become effective unless a specified event occurs can be withdrawn at any time prior to the occurrence of the specified event, but if not withdrawn, the effective date of the resignation is the date of the occurrence of the specified event or the date the resignation is received by the officer authorized to fill the vacancy, whichever date occurs later.

(C) **Vacancy Upon the Effective Date.** For the purpose of determining the time period that would require an election to fill the vacancy by resignation or the commencement of the **sixty (60) day** time period referred to in **Section 1-2-52**, the resignation of an elected officer is deemed to have created a vacancy as of the effective date of the resignation.

(D) **Duty of the Clerk.** If a resignation is delivered to the Clerk of the Municipality, the Clerk shall forward a certified copy of the written resignation to the official who is authorized to fill the vacancy within **seven (7) business days** after receipt of the resignation.

1-2-49 VACANCY BY DEATH OR DISABILITY. A vacancy occurs in an office by reason of the death of the incumbent. The date of the death may be established by the date shown on the death certificate. A vacancy occurs in an office by permanent physical or mental disability rendering the person incapable of performing the duties of the office. The corporate authorities have the authority to make the determination whether an officer is incapable of performing the duties of the office because

of a permanent physical or mental disability. A finding of mental disability shall not be made prior to the appointment by a court of a guardian ad litem for the officer or until a duly licensed doctor certifies, in writing, that the officer is mentally impaired to the extent that the officer is unable to effectively perform the duties of the office. If the corporate authorities find that an officer is incapable of performing the duties of the office due to permanent physical or mental disability, that person is removed from the office and the vacancy of the office occurs on the date of the determination.

1-2-50 VACANCY BY OTHER CAUSES.

(A) **Abandonment and Other Causes.** A vacancy occurs in an office by reason of abandonment of office; removal from office; or failure to qualify; or more than temporary removal of residence from the Municipality, as the case may be. The corporate authorities have the authority to determine whether a vacancy under this Section has occurred. If the corporate authorities determine that a vacancy exists, the office is deemed vacant as of the date of that determination for all purposes including the calculation under **Sections 1-2-52 or 1-2-53.**

(B) **Guilty of a Criminal Offense.** An admission of guilt of a criminal offense that upon conviction would disqualify the municipal officer from holding the office, in the form of a written agreement with State or federal prosecutors to plead guilty to a felony, bribery, perjury, or other infamous crime under State or federal law, constitutes a resignation from that office, effective on the date the plea agreement is made. For purposes of this Section, a conviction for an offense that disqualifies a municipal officer from holding that office occurs on the date of the return of a guilty verdict or, in the case of a trial by the court, on the entry of a finding of guilt.

(C) **Election Declared Void.** A vacancy occurs on the date of the decision of a competent tribunal declaring the election of the officer void.

1-2-51 ELECTION OF AN ACTING MAYOR. The election of an acting Mayor pursuant to **Section 1-2-53 or 1-2-54** does not create a vacancy in the original office of the person on the Village Board, unless the person resigns from the original office following election as acting Mayor. If the person resigns from the original office following election as acting Mayor, then the original office must be filled pursuant to the terms of this Section and the acting Mayor shall exercise the powers of the Mayor and shall vote and have veto power in the manner provided by law for a Mayor. If the person does not resign from the original office following election as acting Mayor, then the acting Mayor shall exercise the powers of the Mayor but shall be entitled to vote only in the manner provided for as the holder of the original office and shall not have the power to veto. If the person does not resign from the original office following election as acting Mayor, and if that person's original term of office has not expired when a Mayor is elected and has qualified for office, the acting Mayor shall return to the original office for the remainder of the term thereof.

1-2-52 APPOINTMENT TO FILL TRUSTEE VACANCY. An appointment by the Mayor or acting Mayor, as the case may be, of a qualified person as described in **Section 1-2-23** of this Code to fill a vacancy in the office of Trustee must be made within **sixty (60) days** after the vacancy occurs. Once the appointment of the qualified person has been forwarded to the corporate authorities, the corporate authorities shall act upon the appointment within **thirty (30) days**. If the appointment fails to receive the advice and consent of the corporate authorities within **thirty (30) days**, the Mayor or acting Mayor shall appoint and forward to the corporate authorities a second qualified person as described in **Section 1-2-23**. Once the appointment of the second qualified person has been forwarded to the corporate authorities, the corporate authorities shall act upon the appointment within **thirty (30) days**. If the appointment of the second qualified person also fails to receive the advice and consent of the corporate authorities, then the Mayor or acting Mayor, without the advice and consent of the corporate authorities, may make a temporary appointment from those persons who were appointed but whose appointments failed to receive the advice and consent of the corporate authorities. The person receiving the temporary appointment shall serve until an appointment has received the advice and

consent and the appointee has qualified or until a person has been elected and has qualified, whichever first occurs.

1-2-53 ELECTION TO FILL VACANCIES IN MUNICIPAL OFFICES WITH FOUR (4) YEAR TERMS. If a vacancy occurs in an elective municipal office with a **four (4) year term** and there remains an unexpired portion of the term of at least **twenty-eight (28) months**, and the vacancy occurs at least **one hundred thirty (130) days** before the general municipal election next scheduled under the general election law, then the vacancy shall be filled for the remainder of the term at that general municipal election. - (3) a quorum of the Covered Body must be physically present.

(C) **Voting Procedure.** After roll call, a vote of the Covered Body shall be taken, considering the prerequisites set forth in paragraph (B), on whether to allow an off-site board member to participate remotely. All of the members physically present are permitted to vote on whether remote participation will be allowed. A vote may be taken to permit remote participation for a stated series of meetings if the same reason applies in each case. Otherwise, a vote must be taken to allow each remote participation.

(D) **Quorum and Vote Required.** A quorum must be established by members physically present at any meeting before it can be considered whether to allow a member to participate in the meeting remotely. A vote of a majority of a quorum shall be necessary to decide the issue. For the meeting to continue there shall always need to be a quorum physically present.

(E) **Minutes.** The member participating remotely shall be considered an off-site participant and counted as present by means of video or audio conference, for that meeting of the members and is allowed to participate. This section shall not be interpreted to prohibit an act of a licensed veterinarian in causing a cat's death in a humane manner with the approval of the owner of the cat.

Payment for neutering must be made at the time of release and will be forwarded to a licensed veterinarian who will present a statement signed by the veterinarian and the owner stating that the surgery has been performed.

BUSINESS CODE

ARTICLE I – ADMINISTRATION

7-1-1 LICENSE REQUIRED AND APPLICATIONS.

(A) No person, as that term is defined in this Code shall engage in, conduct, manage, operate or carry on any business, profession, or occupation of any kind or nature whatsoever within the Village unless and until said person has completed and submitted an application for a license or permit and a license or permit is issued in accordance with the provisions of this Chapter and all other sections of the Code or other ordinances of the Village, in such case made and provided. Any business, profession or occupation operating without a license or permit is in violation of this Code and must immediately cease operation unless and until the business license or permit required by this Code is issued.

(B) No license shall be issued for the conduct of any business if the premises and building to be used do not fully comply with all Village building, zoning, health, fire and safety ordinances, the State Environmental Protection Act, the State Fire Marshall Act and all other applicable state regulations or statutes.

(C) All licenses shall be subject to the ordinances that may be in force at the time of issuance of the license or that may subsequently be passed by the Board of Trustees. A separate license shall be required for each location from which business is conducted.

(D) Application for all licenses and permits required by this Chapter shall be in writing and submitted to the Municipal Clerk.

(E) Each application shall contain the following information:

- (1) the name of the applicant;
- (2) the license or permit desired;
- (3) the location to be used, if any;
- (4) Zoning district;
- (5) the time covered;
- (6) the fee to be paid;
- (7) the number of the Certificates of Registration required under the Retailers Occupation Tax Act, Service Occupation Tax Act, and/or the User Tax Act, if applicable.

(F) The licensee shall also provide such additional information or may be requested by the applicable Municipal Officials issuing the license or permit applied for.

(G) Any person convicted of a violation of the terms and provisions of this Article shall be subject to and have imposed the penalty prescribed by Chapter 1, Administration, Article I, General Code Provisions, Division IV General Penalty 1-1-20 Penalties. That every day the violation exists or continues shall constitute a separate offense for which a penalty shall be imposed. **(Ord. No. 748; 09-02-08)**

7-1-2 PERSONS SUBJECT TO LICENSE. Whenever a license or permit is required in this Code or in any municipal ordinance for the maintenance, operation, or conduct of any business or establishment, or for doing business or engaging in any activity or occupation, any person, firm, or corporation shall be subject to the requirement if by himself or itself, or through an agent, employee or partner, he or it is held forth as being engaged in the business, activity or occupation, or if he or it solicits patronage therefor actively or passively; or if he or it performs or attempts to perform any part of such business, activity or occupation in this municipality.

7-1-3 FORM OF LICENSE. Every license shall be signed by the Mayor and attested by the Clerk under the corporate seal, and no license shall be valid until signed and countersigned as aforesaid, nor shall any person be deemed to be licensed until the same shall have been issued to him in due form.

- 7-1-4 INVESTIGATIONS.**
- (A) Upon the receipt of an application for a license or permit, where an investigation or inspection is required by ordinance before the issuance of such permit or license, or where an inspection or investigation shall be deemed reasonably necessary or appropriate, the Clerk, within **forty-eight (48) hours** shall refer the application to the appropriate official(s) for the making of such investigation or inspection,
- (B) The official(s) to whom the application has been referred shall make a report thereon, favorable or otherwise **within ten (10) days** after receiving such application or a copy thereof.
- (C) The Code Enforcement Officer shall make or cause to be made an inspection regarding such permits and licenses as relate to the care and handling of food, the prevention of nuisances and the spread of disease, and the protection of health. **[The Zoning Administrator shall make or cause to be made any inspections which relate to compliance with the Zoning Code and other related regulations.]** All other investigations, except where otherwise provided, shall be made by the Chief of Police or by some other officer designated by the Mayor.
- (D) Upon receipt of all related investigative reports, the Clerk shall forward such reports, together with the application, to the Mayor for evaluation and determination.
- (E) If it shall appear to the Mayor that the matters and circumstances relating to an application require further information before a proper determination can be made, such application shall be returned to the Clerk for the inclusion of such additional information as may be specified necessary and appropriate.
- (F) If, after due consideration of the information contained with the application and the related investigative reports, the Mayor shall determine that the matters concerning the application are unsatisfactory, he may disapprove such application, indicating the reasons therefor. Thereupon, the Clerk shall be directed to promptly notify the applicant that his application is disapproved and that no license or permit will be issued.
- (G) If, after due consideration of the information contained within the application and the related investigative reports, the Mayor shall determine that the application is satisfactory, he shall approve the application. Thereupon, the Clerk shall be directed to promptly notify the applicant that his application is approved and the license or permit may be issued.

7-1-5 FEES. In the absence of provision to the contrary, all fees and charges for licenses or permits shall be paid in advance at the time application therefor is made to the Clerk in the amounts prescribed by the corporate authorities. When an applicant has not engaged in the business or activity until after the expiration of the current license year, the license fee shall be prorated by quarters and the fee paid for each quarter or fraction thereof during which the business or activity has been or will be conducted. Except as otherwise provided, all license and permit fees shall become a part of the corporate fund. In no event shall any rebate or refund be made of any license or permit fee, or part thereof, by reason of death or departure of the licensee or permittee; nor shall any rebate or refund be made by reason of non-use of the license or discontinuance of the operation or conduct of the licensed establishment, business or activity. The license fee shall be Twenty-Five Dollars (\$25.00) per year for each and every said license and shall be paid in full no later than April 30th of each year. If said fee is not paid on or before said date, the fee shall increase to One Hundred Dollars (\$100.00). If said fee is not paid on or before June 1st said business shall be subject to suspension or revocation pursuant to the provisions of 7-1-13 Suspension, Revocation of License or Permit of Article I of the Business Code. **(Ord. No. 900; 02-06-18)(Ord. No. 965; 07-06-21)(Ord.No.973; 01-18-22)(Ord.No. 994; 07-19-22)**

The Clerk shall notify all licensees of this municipality of the time of expiration of the license held by the licensee (if an annual), **three (3) weeks** prior to the date of such expiration. Provided, however, that a failure to make such notification or the failure of the licensee to receive it shall not excuse the licensee from the obligation to obtain a new licensee or a renewal thereof, nor shall it be a defense in an action based upon operation without a license.

7-1-7 BUILDING AND PREMISES. No license shall be issued for the conduct of any business, and no permit shall be issued for any purpose or activity, if the premises and building to be used for the purpose do not fully comply with all applicable ordinances and regulations of this municipality and the State of Illinois. No such license or permit shall be issued for the conduct of any business or performance of any act which would involve a violation of this Code and/or of the Zoning Code. **(See Chapter 40 - Zoning Code)**

7-1-8 CHANGE OF LOCATION. The location of any licensed business or occupation, or the location of any permitted act may be changed, provided that **ten (10) days** notice thereof is given to the Clerk, in the absence of any provision to the contrary; provided further, however, that all applicable ordinances and regulations of this municipality shall be complied with. **(See Chapter 40 - Zoning Code)**

7-1-9 LOCATION. No license for the operation of a business or establishment in this municipality shall be construed to permit the operation of a licensed business or establishment in more than **one (1) location** in this municipality; a separate license shall be required for each location of a licensed establishment. For the purpose of this Code, the existence of a single location shall be evidenced by the fact that all buildings containing the principal or accessory uses shall be connected or shall be located on the same lot or parcel; shall be operated and managed by the same person or owner; and shall be an establishment with the same classification.

 - (h) Compensation received by the holder that is derived from the operation of the holder's network to provide cable service or video service with respect to commissions that are received by the holder as compensation for promotion or exhibition of any products or services on the holder's network, such as a "home shopping" or similar channel, subject to subsection (i).
 - (i) In the case of a cable service or video service that is bundled or integrated functionally with other services, capabilities, or applications, the portion of the holder's revenue attributable to the other services, capabilities, or applications shall be included in the gross revenue unless the holder can reasonably identify the division or exclusion of the revenue from its books and records that are kept in the regular course of business.

A State-issued authorization shall not affect any requirement of the holder with respect to payment of the Village's simplified municipal telecommunications tax or any other tax as it applies to any telephone service provided by the holder. A State-issued authorization shall not affect any requirement of the holder with respect to payment of the local unit of government's 911 or E911 fees, taxes or charges.

8-2-5 AUDITS OF CABLE/VIDEO SERVICE PROVIDER.

(A) **Audit Requirement.** The Village will notify the holder of the requirements it imposes on other cable service or video service providers to submit to an audit of its books and records. The holder shall comply with the same requirements the Village imposes on other cable service or video service providers in its jurisdiction to audit the holder's books and records and to recomputed any amounts determined to be payable under the requirements of the Village. If all local franchises between the Village and cable operator terminate, the audit requirements shall be those adopted by the Village pursuant to the Local Government Taxpayers' Bill of Rights Act, **50 ILCS 45/1 et seq.** No acceptance of amounts remitted should be construed as an accord that the amounts are correct.

(B) **Additional Payments.** Any additional amount due after an audit shall be paid within **thirty (30) days** after the municipality's submission of an invoice for the sum.

8-2-6 LATE FEES/PAYMENTS. All fees due and payments which are past due shall be governed by ordinances adopted by this municipality pursuant to the Local Government Taxpayers' Bill of Rights Act, **50 ILCS 45/1 et seq.**

8-3-3

REGULATION OF SMALL WIRELESS FACILITIES.

(A) **Permitted Use.** Small wireless facilities shall be classified as permitted uses and subject to administrative review, except as provided in **Section 8-3-3(C)(9)** regarding Height Exceptions or Variances, but not subject to zoning review or approval if they are collocated (i) in rights-of-way in any zoning district, or (ii) outside rights-of-way in property zoned exclusively for commercial or industrial use.

(B) **Permit Required.** An applicant shall obtain one or more permits from the Village to collocate a small wireless facility. An application shall be received and processed, and permits issued shall be subject to the following conditions and requirements:

- (1) **Application Requirements.** A wireless provider shall provide the following information to the Village, together with the Village's Small Cell Facilities Permit Application, as a condition of any permit application to collocate small wireless facilities on a utility pole or wireless support structure:
 - (a) Site specific structural integrity and, for a municipal utility pole, make-ready analysis prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989;
 - (b) The location where each proposed small wireless facility or utility pole would be installed and photographs of the location and its immediate surroundings depicting the utility poles or structures on which each proposed small wireless facility would be mounted or location where utility poles or structures would be installed. This should include a depiction of the completed facility;
 - (c) Specifications and drawings prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989, for each proposed small wireless facility covered by the application as it is proposed to be installed;
 - (d) The equipment type and model numbers for the antennas and all other wireless equipment associated with the small wireless facility;
 - (e) A proposed schedule for the installation and completion of each small wireless facility covered by the application, if approved; and
 - (f) Certification that the collocation complies with the Collocation Requirements and Conditions contained herein, to the best of the applicant's knowledge.
 - (g) In the event that the proposed small wireless facility is to be attached to an existing pole owned by an entity other than the Village, the wireless provider shall provide legally competent evidence of the consent of the owner of such pole to the proposed collocation.
- (2) **Application Process.** The Village shall process applications as follows:
 - (a) The first completed application shall have priority over applications received by different applicants for collocation on the same utility pole or wireless support structure.
 - (b) An application to collocate a small wireless facility on an existing utility pole or wireless support structure, or replacement of an existing utility pole or wireless support structure shall be processed on a nondiscriminatory basis and shall be deemed approved if the Village fails to approve or deny the application within **ninety (90) days** after the submission of a completed application.
 However, if an applicant intends to proceed with the permitted activity on a deemed approved basis, the applicant shall notify the Village in writing of its intention to invoke the deemed approved remedy no sooner than **seventy-five (75) days** after the submission of a completed application.
 The permit shall be deemed approved on the latter of the **ninetieth (90th) day** after submission of the complete application or the **tenth (10th) day** after the receipt of the deemed approved notice by the Village. The receipt of the

deemed approved notice shall not preclude the Village's denial of

- the permit request within the time limits as provided under this Article.
- (c) An application to collocate a small wireless facility that includes the installation of a new utility pole shall be processed on a nondiscriminatory basis and deemed approved if the Village fails to approve or deny the application within **one hundred twenty (120) days** after the submission of a completed application. However, if an applicant intends to proceed with the permitted activity on a deemed approved basis, the applicant shall notify the Village in writing of its intention to invoke the deemed approved remedy no sooner than **one hundred five (105) days** after the submission of a completed application. The permit shall be deemed approved on the latter of the **one hundred twentieth (120th) day** after submission of the complete application or the **tenth (10th) day** after the receipt of the deemed approved notice by the Village. The receipt of the deemed approved notice shall not preclude the Village's denial of the permit request within the time limits as provided under this Article.
- (d) The Village shall deny an application which does not meet the requirements of this Article. If the Village determines that applicable codes, ordinances or regulations that concern public safety, or the Collocation Requirements and Conditions contained herein require that the utility pole or wireless support structure be replaced before the requested collocation, approval shall be conditioned on the replacement of the utility pole or wireless support structure at the cost of the provider. The Village shall document the basis for a denial, including the specific code provisions or application conditions on which the denial is based, and send the documentation to the applicant on or before the day the Village denies an application. The applicant may cure the deficiencies identified by the Village and resubmit the revised application once within **thirty (30) days** after notice of denial is sent to the applicant without paying an additional application fee. The Village shall approve or deny the revised application within **thirty (30) days** after the applicant resubmits the application or it is deemed approved. Failure to resubmit the revised application within **thirty (30) days** of denial shall require the application to submit a new application with applicable fees, and recommencement of the Village's review period. The applicant must notify the Village in writing of its intention to proceed with the permitted activity on a deemed approved basis, which may be submitted with the revised application. Any review of a revised application shall be limited to the deficiencies cited in the denial. However, this revised application does not apply if the cure requires the review of a new location, new or different structure to be collocated upon, new antennas, or other wireless equipment associated with the small wireless facility.
- (e) **Pole Attachment Agreement.** Within **thirty (30) days** after an approved permit to collocate a small wireless facility on a municipal utility pole, the Village and the applicant shall enter

into a Master Pole Attachment Agreement, provided by the Village for the initial collocation on a municipal utility pole by the application. For subsequent approved permits to collocate on a small wireless facility on a municipal utility pole, the Village and the applicant shall enter into a License Supplement of the Master Pole Attachment Agreement.

- (3) **Completeness of Application.** Within **thirty (30) days** after receiving an application, the Village shall determine whether the application is complete and notify the applicant. If an application is incomplete, the Village must specifically identify the missing information. An application shall be deemed complete if the Village fails to provide notification to the applicant within **thirty (30) days** after all documents, information and fees specifically enumerated in the Village's permit application form are submitted by the applicant to the Village. Processing deadlines are tolled from the time the Village sends the notice of incompleteness to the time the applicant provides the missing information.
- (4) **Tolling.** The time period for applications may be further tolled by:
 - (a) An express written agreement by both the applicant and the Village; or
 - (b) A local, State or federal disaster declaration or similar emergency that causes the delay.
- (5) **Consolidated Applications.** An applicant seeking to collocate small wireless facilities within the jurisdiction of the Village shall be allowed, at the applicant's discretion, to file a consolidated application and receive a single permit for the collocation of up to **twenty-five (25)** small wireless facilities if the collocations each involve substantially the same type of small wireless facility and substantially the same type of structure.
If an application includes multiple small wireless facilities, the Village may remove small wireless facility collocations from the application and treat separately small wireless facility collocations for which incomplete information has been provided or that do not qualify for consolidated treatment or that are denied. The Village may issue separate permits for each collocation that is approved in a consolidated application.
- (6) **Duration of Permits.** The duration of a permit shall be for a period of not less than **five (5) years**, and the permit shall be renewed for equivalent durations unless the Village makes a finding that the small wireless facilities or the new or modified utility pole do not comply with the applicable Village codes or any provision, condition or requirement contained in this Article.
If the Act is repealed as provided in Section 90 therein, renewals of permits shall be subject to the applicable Village code provisions or regulations in effect at the time of renewal.
- (7) **Means of Submitting Applications.** Applicants shall submit applications, supporting information and notices to the Village by personal delivery at the Village's designated place of business, by regular mail postmarked on the date due or by any other commonly used means, including electronic mail.

(C) **Collocation Requirements and Conditions.**

- (1) **Public Safety Space Reservation.** The Village may reserve space on municipal utility poles for future public safety uses, for the Village's electric utility uses, or both, but a reservation of space may not preclude the collocation of a small wireless facility unless the Village reasonably

determines that the municipal utility pole cannot accommodate both uses.

- (2) **Installation and Maintenance.** The wireless provider shall install, maintain, repair and modify its small wireless facilities in safe condition and good repair and in compliance with the requirements and conditions of this Article. The wireless provider shall ensure that its employees, agents or contractors that perform work in connection with its small wireless facilities are adequately trained and skilled in accordance with all applicable industry and governmental standards and regulations.
- (3) **No Interference with Public Safety Communication Frequencies.** The wireless provider's operation of the small wireless facilities shall not interfere with the frequencies used by a public safety agency for public safety communications.
- A wireless provider shall install small wireless facilities of the type and frequency that will not cause unacceptable interference with a public safety agency's communications equipment.
- Unacceptable interference will be determined by and measured in accordance with industry standards and the FCC's regulations addressing unacceptable interference to public safety spectrum or any other spectrum licensed by a public safety agency.
- If a small wireless facility causes such interference, and the wireless provider has been given written notice of the interference by the public safety agency, the wireless provider, at its own expense, shall remedy the interference in a manner consistent with the abatement and resolution procedures for interference with public safety spectrum established by the FCC including 47 CFR 22.970 through 47 CFR 22.973 and 47 CFR 90.672 through 47 CFR 90.675.
- The Village may terminate a permit for a small wireless facility based on such interference if the wireless provider is not in compliance with the Code of Federal Regulations cited in the previous paragraph. Failure to remedy the interference as required herein shall constitute a public nuisance.
- (4) The wireless provider shall not collocate small wireless facilities on Village utility poles that are part of an electric distribution or transmission system within the communication worker safety zone of the pole or the electric supply zone of the pole.
- However, the antenna and support equipment of the small wireless facility may be located in the communications space on the Village utility pole and on the top of the pole, if not otherwise unavailable, if the wireless provider complies with applicable codes for work involving the top of the pole.
- For purposes of this subparagraph, the terms "communications space", "communication worker safety zone", and "electric supply zone" have the meanings given to those terms in the National Electric Safety Code as published by the Institute of Electrical and Electronics Engineers.
- (5) The wireless provider shall comply with all applicable codes and local code provisions or regulations that concern public safety.
- (6) The wireless provider shall comply with written design standards that are generally applicable for decorative utility poles, or reasonable stealth, concealment and aesthetic requirements that are set forth in a Village ordinance, written policy adopted by the Village, a comprehensive plan or other written design plan that applies to other occupiers of the rights-of-way, including on a historic landmark or in a historic district.
- (7) **Alternate Placements.** Except as provided in this Collocation Requirements and Conditions Section, a wireless provider shall not be required to collocation small wireless facilities on any specific utility pole,

or category of utility poles, or be required to collocate multiple antenna systems on a single utility pole. However, with respect to an application for the collocation of a small wireless facility associated with a new utility pole, the Village may propose that the small wireless facility be collocated on an existing utility pole or existing wireless support structure within **one hundred (100) feet** of the proposed collocation, which the applicant shall accept if it has the right to use the alternate structure on reasonable terms and conditions, and the alternate location and structure does not impose technical limits or additional material costs as determined by the applicant.

If the applicant refuses a collocation proposed by the Village, the applicant shall provide written certification describing the property rights, technical limits or material cost reasons the alternate location does not satisfy the criteria in this paragraph.

- (8) **Height Limitations.** The maximum height of a small wireless facility shall be no more than **ten (10) feet** above the utility pole or wireless support structure on which the small wireless facility is collocated.

New or replacement utility poles or wireless support structures on which small wireless facilities are collocated may not exceed the higher of:

- (a) **ten (10) feet** in height above the tallest existing utility pole, other than a utility pole supporting only wireless facilities, that is in place on the date the application is submitted to the Village, that is located within **three hundred (300) feet** of the new or replacement utility pole or wireless support structure and that is in the same right-of-way within the jurisdictional boundary of the Village, provided the Village may designate which intersecting right-of-way within **three hundred (300) feet** of the proposed utility pole or wireless support structures shall control the height limitation for such facility; or

- (b) **forty-five (45) feet** above ground level.

- (9) **Height Exceptions or Variances.** If an applicant proposes a height for a new or replacement pole in excess of the above height limitations on which the small wireless facility is proposed for collocation, the applicant shall apply for a variance in conformance with procedures, terms and conditions as shall be established by the Board of Trustees.

- (10) **Contractual Design Requirements.** The wireless provider shall comply with requirements that are imposed by a contract between the Village and a private property owner that concern design or construction standards applicable to utility poles and ground-mounted equipment located in the right-of-way.

- (11) **Ground-mounted Equipment Spacing.** The wireless provider shall comply with applicable spacing requirements in applicable codes and ordinances concerning the location of ground-mounted equipment located in the right-of-way if the requirements include a waiver, zoning or other process that addresses wireless provider requests for exception or variance and do not prohibit granting of such exceptions or variances.

- (12) **Undergrounding Regulations.** The wireless provider shall comply with local code provisions or regulations concerning undergrounding requirements that prohibit the installation of new or the modification of existing utility poles in a right-of-way without prior approval if the requirements include a waiver, zoning or other process that addresses requests to install such new utility poles or modify such existing utility poles and do not prohibit the replacement of utility poles.

- (13) **Collocation Completion Deadline.** Collocation for which a permit is granted shall be completed within **one hundred eighty (180) days** after issuance of the permit, unless the Village and the wireless provider agree to extend this period or a delay is caused by make-ready work for a municipal utility pole or by the lack of commercial power or backhaul availability at the site, provided the wireless provider has made a timely request within **sixty (60) days** after the issuance of the permit for commercial power or backhaul services, and the additional time to complete installation does not exceed **three hundred sixty (360) days** after issuance of the permit. Otherwise, the permit shall be void unless the Village grants an extension in writing to the applicant.

(D)

Application Fees. Application fees are imposed as follows:

- (1) Applicant shall pay an application fee of **Six Hundred Fifty Dollars (\$650.00)** for an application to collocate a single small wireless facility on an existing utility pole or wireless support structure, and **Three Hundred Fifty Dollars (\$350.00)** for each small wireless facility addressed in a consolidated application to collocate more than one small wireless facility on existing utility poles or wireless support structures.
- (2) Applicant shall pay an application fee of **One Thousand Dollars (\$1,000.00)** for each small wireless facility addressed in an application that includes the installation of a new utility pole for such collocation.
- (3) Notwithstanding any contrary provision of State law or local ordinance, applications pursuant to this Section shall be accompanied by the required application fee. Application fees shall be non-refundable.
- (4) The Village shall not require an application, approval or permit, or require any fees or other charges, from a communications service provider authorized to occupy the rights-of-way, any fees or other charges, from a communications service provider authorized to occupy the rights-of-way, for:
 - (a) routine maintenance;
 - (b) the replacement of wireless facilities with wireless facilities that are substantially similar, the same size, or smaller if the wireless provider notifies the Village at least **ten (10) days** prior to the planned replacement and includes equipment specifications for the replacement of equipment consistent with (d) under the Section titled Application Requirements; or
 - (c) the installation, placement, maintenance, operation or replacement of micro wireless facilities suspended on cables that are strung between existing utility poles in compliance with applicable safety codes.
- (5) Wireless providers shall secure a permit from the Village to work within rights-of-way for activities that affect traffic patterns or require lane closures.

(E) **Exceptions to Applicability.** Nothing in this Article authorizes a person to collocate small wireless facilities on:

- (1) property owned by a private party or property owned or controlled by the Village or another unit of local government that is not located within rights-of-way, or a privately owned utility pole or wireless support structure without the consent of the property owner;

The provisions of this Article do not apply to an electric or gas public utility or such utility's wireless facilities if the facilities are being used, developed and maintained consistent with the provisions of subsection (i) of Section 16-108.5 of the Public Utilities Act.

For the purposes of this subsection, "public utility" has the meaning given to that term in Section 3-105 of the Public Utilities Act. Nothing in this Article shall be construed to relieve any person from any requirement (a) to obtain a franchise or a State-issued authorization to offer cable service or video service or (b) to obtain any required permission to install, place, maintain, or operate communications facilities, other than small wireless facilities subject to this Article.

(F) **Pre-Existing Agreements.** Existing agreements between the Village and wireless providers that relate to the collection of small wireless facilities in the right-of-way, including the collocation of small wireless facilities on Village utility poles, that are in effect on **June 1, 2018**, remain in effect for all small wireless facilities collocated on the Village's utility poles pursuant to applications submitted to the Village before **June 1, 2018**, subject to applicable termination provisions contained therein. Agreements entered into after **June 1, 2018**, shall comply with this Article.

A wireless provider that has an existing agreement with the village on the effective date of the Act may accept the rates, fees and terms that the Village makes available under this Article for the collocation of small wireless facilities or the installation of new utility poles for the collocation of small wireless facilities that are the subject to an application submitted **two (2) or more years** after the effective date of the Act by notifying the Village that it opts to accept such rates, fees and terms. The existing agreement remains in effect, subject to applicable termination provisions, for the small wireless facilities the wireless provider has collocated on the Village's utility poles pursuant to applications submitted to the Village before the wireless provider provides such notice and exercises its option under this paragraph.

(G) **Annual Recurring Rate.** A wireless provider shall pay to the Village an annual recurring rate to collocate a small wireless facility on a Village utility pole located in a right-of-way that equals (i) **Two Hundred Dollars (\$200.00)** per year or (ii) the actual, direct and reasonable costs related to the wireless provider's use of space on the Village utility pole.

If the Village has not billed the wireless provider actual and direct costs, the fee shall be **Two Hundred Dollars (\$200.00)** payable on the first day after the first annual anniversary of the issuance of the permit or notice of intent to collocate, and on each annual anniversary date thereafter.

(H) **Abandonment.** A small wireless facility that is not operated for a continuous period of **twelve (12) months** shall be considered abandoned. The owner of the facility shall remove the small wireless facility within **ninety (90) days** after receipt of written notice from the Village notifying the wireless provider of the abandonment.

The notice shall be sent by certified or registered mail, return receipt requested, by the Village to the owner at the last known address of the wireless provider. If the small wireless facility is not removed within **ninety (90) days** of such notice, the Village may remove or cause the removal of such facility pursuant to the terms of its pole attachment agreement for municipal utility poles or through whatever actions are provided for abatement of nuisances or by other law for removal and cost recovery.

A wireless provider shall provide written notice to the Village if it sells or transfers small wireless facilities within the jurisdiction of the Village. Such notice shall include the name and contact information of the new wireless provider.

8-3-4 **DISPUTE RESOLUTION.** The Circuit Court of Crawford County, Illinois shall have exclusive jurisdiction to resolve all disputes arising under the Small Wireless Facilities Deployment Act. Pending resolution of a dispute concerning rates for collocation of small wireless facilities on municipal utility poles within the right-of-way, the Village shall allow the collocating person to collocate on its poles at annual rates of no more than **Two Hundred Dollars (\$200.00)** per year per municipal utility pole, with rates to be determined upon final resolution of the dispute.

8-3-5 INDEMNIFICATION. A wireless provider shall indemnify and hold the Village harmless against any and all liability or loss from personal injury or property damage resulting from or arising out of, in whole or in part, the use or occupancy of the Village improvements or right-of-way associated with such improvements by the wireless provider or its employees, agents, or contractors arising out of the rights and privileges granted under this Article and the Act. A wireless provider has no obligation to indemnify or hold harmless against any liabilities and losses as may be due to or caused by the sole negligence of the Village or its employees or agents. A wireless provider shall further waive any claims that they may have against the Village with respect to consequential, incidental, or special damages, however caused, based on the theory of liability.

8-3-6 INSURANCE. The wireless provider shall carry, at the wireless provider's own cost and expense, the following insurance:

- (A) property insurance for its property's replacement cost against all risks;
- (B) workers' compensation insurance, as required by law; or
- (C) commercial general liability insurance with respect to its activities on the Village improvements or rights-of-way to afford minimum protection limits consistent with its requirements of other users of Village improvements or rights-of-way, including coverage for bodily injury and property damage.

The wireless provider shall include the Village as an additional insured on the commercial general liability policy and provide certification and documentation of inclusion of the Village in a commercial general liability policy prior to the collocation of any wireless facility.

A wireless provider may self-insure all or a portion of the insurance coverage and limit requirement required by the Village. A wireless provider that self-insures is not required, to the extent of the self-insurance, to comply with the requirement for the name of additional insureds under this Section. A wireless provider that elects to self-insure shall provide to the Village evidence sufficient to demonstrate its financial ability to self-insure the insurance coverage limits required by the Village.

8-3-7 SEVERABILITY. If any provision of this Article or application thereof to any person or circumstances is ruled unconstitutional or otherwise invalid, such invalidity shall not affect other provisions or applications of this Article that can be given effect without the invalid application or provision, and each invalid provision or invalid application of this Article is severable.

The standard of proof in all hearings conducted under this Article shall be by the preponderance of the evidence.

FLOODPLAIN AND SPECIAL FLOOD HAZARD AREA (SFHA): They are synonymous. Those lands within the jurisdiction of the Village that are subject to inundation by the base flood. The floodplains of the Village are generally identified as such on the Flood Insurance Rate Map of the Village prepared by the Federal Emergency Management Agency and dated **June 25, 1976**. The floodplains of those parts of unincorporated **St. Clair County** that are within the extraterritorial jurisdiction of the Village or that may be annexed into the Village are generally identified as such on the Flood Insurance Rate Map prepared for **St. Clair County** by the Federal Emergency Management Agency and dated **June 25, 1976**.

FLOODPROOFING: Any combination of structural or nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate, property and their contents.

FLOODPROOFING CERTIFICATE: A form published by the Federal Emergency Management Agency that is used to certify that a building has been designed and constructed to be structurally dry floodproofed to the flood protection elevation.

FLOOD PROTECTION ELEVATION OR FPE: The elevation of the base flood plus **one (1) foot** of freeboard at any given location in the floodplain.

[ED. NOTE: NFIP Regulations require protection to or above the base flood elevation. One (1) foot of freeboard is recommended by IDOT/DWR. A municipality may use higher freeboard requirements if it desires.]

FLOODWAY: That portion of the floodplain required to store and convey the base flood. The floodway for each of the floodplains of the Village shall be according to the best data available from Federal, State, or other sources.

IDOT/DWR: Illinois Department of Transportation/Division of Water Resources.

MANUFACTURED HOME: A structure transportable in **one (1)** or more sections, that is built on a permanent chassis and is designed to be used with or without a permanent foundation when connected to required utilities.

NFIP: National Flood Insurance Program.

SFHA: See definition of floodplain.

SUBSTANTIAL IMPROVEMENT: Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds **fifty percent (50%)** of the market value of the structure either, (a) before the improvement or repair is started, or (b) if the structure has been damaged, and is being restored, before the damage occurred.

SUBSTANTIAL IMPROVEMENT: is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include either (1) any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions or (2) any alteration of a structure listed on the National Register of Historic Places or the Illinois Register of Historic Places.

14-1-3 BASE FLOOD ELEVATION. This Code's protection standard is the base flood. The best available base flood elevation data are listed below. **Whenever a party disagrees with the best available data, the party may finance the detailed engineering study needed to replace the existing data with better data and submit it to the Federal Emergency Management Agency for approval.**

[See: NFIP Requirement: 44 CFR 60.3(b).]

(A) The base flood elevation for each of the floodplains delineated as an "A Zone" on the Flood Insurance Rate Map of the Village shall be according to the best data available from Federal, State or other sources. Should no other data exist, an engineering study must be financed to determine base flood elevations.

(B) The base flood elevation for the floodplains of those parts of unincorporated **St. Clair County** that are within the extraterritorial jurisdiction of the Village, or that may be annexed into the Village, shall be as delineated on the 100-year flood profiles of the Flood Insurance Study of **St. Clair County** prepared by the Federal Emergency Management Agency.

14-1-4 DUTIES OF THE BUILDING OFFICIAL. The Zoning Administrator shall be responsible for the general administration of this Code and ensure that all development activities within the floodplains under the jurisdiction of the Village meet the requirements of this Code. Specifically, the Zoning Administrator shall:

(A) Process development permits in accordance with **Section 14-1-5;**

(B) Ensure that all development in a floodway (or a floodplain with no delineated floodway) meets the damage prevention requirements of **Section 14-1-6.**

(C) Ensure that the building protection requirements for all buildings subject to **Section 14-1-7** are met and maintain a record of the "as-built" elevation of the lowest floor (including basement) or floodproof certificate;

[See: NFIP Requirements: 44 CFR 60.3(b)(5)(iii) and 59.22(a)(9)(iii).]

(D) Assure that all subdivisions and annexations meet the requirements of **Section 14-1-8;**

(E) If a variance is requested, ensure that the requirements of **Section 14-1-9** are met and maintain documentation of any variances granted;

(F) Inspect all development projects and take any and all actions outlined in **Section 14-1-11** as necessary to ensure compliance with this Code;

(G) Assure that applicants are aware of and obtain any and all other required local, state and federal permits;

(H) Provide information and assistance to citizens upon request about permit procedures and floodplain construction techniques;

(I) Cooperate with State and Federal floodplain management agencies to coordinate base flood data and to improve the administration of this Code; and

(J) Maintain for public inspection base flood data, floodplain maps, copies of state and federal permits, and documentation of compliance for development activities subject to this Code.

14-1-5 DEVELOPMENT PERMIT. No person, firm, corporation, or governmental body, not exempted by state law, shall commence any development in the floodplain without first obtaining a development permit from the Zoning Administrator. The Administrator shall not issue a development permit if the proposed development does not meet the requirements of this Code.

(A) **Application Documents.** The application for development permit shall be accompanied by:

- (1) drawings of the site, drawn to scale showing property line dimensions;
- (2) existing grade elevations and all changes in grade resulting from excavation or filling;
- (3) the location and dimensions of all buildings and additions to buildings, and
- (4) the elevation of the lowest floor (including basements) of all proposed buildings subject to the requirements of **Section 14-1-7** of this Code.

(B) **Elevation Comparisons.** Upon receipt of an application for development permit, the Zoning Administrator shall compare the elevation of the site to the base flood elevation. Any development located on land that can be shown by survey data to have been higher than the base flood elevation as of the date of the site's first Flood Insurance Rate Map identification is not in the floodplain and therefore not subject to the requirements of this Code.

The documentation of the existing ground elevation at the development site and certification that this ground elevation existed prior to the date of the site's first Flood Insurance Rate Map identification.

[ED. NOTE: Although survey data may show the development site to be entirely above the base flood elevation, a Letter of Map Amendment (LOMA) will still be required to remove the site from the mapped floodplain for insurance requirements.]

14-1-6 PREVENTING INCREASED FLOOD HEIGHTS AND RESULTING DAMAGES.

Within the Village's floodplains, the following standards shall apply:

[NFIP Requirements: 44 CFR 60.3(a)(4)(1), 60.3(c)(10), and 60.3(d)(3).]

(A) Except as provided in **Section 14-1-6(B)**, no development shall be allowed which, acting in combination with existing and anticipated development, will cause any increase in flood heights or velocities or threat to public health and safety. The following specific development activities shall be considered as meeting this requirement:

- (1) Barge fleeting facilities meeting the conditions of IDOT/DWR Statewide Permit No. 3;
- (2) Aerial utility crossings meeting the conditions of IDOT/DWR Statewide Permit No., 4;
- (3) Minor boat docks meeting the conditions of IDOT/DWR Statewide Permit No. 5;
- (4) Minor, non-obstructive activities meeting the conditions of IDOT/DWR Statewide Permit No. 6;
- (5) Outfall structures and drainage ditch outlets meeting the conditions of IDOT/DWR Statewide Permit No. 7;
- (6) Underground pipeline and utility crossings meeting the conditions of IDOT/DWR Statewide Permit No. 8;
- (7) Bank stabilization projects meeting the conditions of IDOT/DWR Statewide Permit No. 9;
- (8) Accessory structures and additions to existing residential buildings meeting the conditions of IDOT/DWR Statewide Permit No. 10;
- (9) Minor maintenance dredging activities meeting the conditions of IDOT/DWR Statewide Permit No. 11; and
- (10) Any development determined by IDOT/DWR to be located entirely in a flood fringe area.

- (B) Other development activities not listed in (A) may be permitted only if:
- (1) A permit has been issued for the work by IDOT/DWR (or written documentation is provided that an IDOT/DWR permit is not required); and
 - (2) Sufficient data has been provided to FEMA when necessary to approve a revision of the regulatory map and base flood elevation.

(See 615 ILCS Sec. 5/5 through 29A)

14-1-7

PROTECTING BUILDINGS.

(A) **Requirements.** In addition to the damage prevention requirements of **Section 14-1-6**, all buildings to be located in the floodplain shall be protected from flood damage below the flood protection elevation. This building protection requirement applies to the following situations:

- (1) Construction or placement of a new building valued at more than **One Thousand Dollars (\$1,000.00)**;
- (2) Substantial improvements made to an existing building;
- (3) Structural alterations made to an existing building that increase the floor area by more than **twenty percent (20%)**;
- (4) Installing a manufactured home on a new site or a new manufactured home on an existing site (the building protection requirements do not apply to returning a manufactured home to the same site it lawfully occupied before it was removed to avoid flood damage); and
- (5) Installing a travel trailer on a site for more than **one hundred eighty (180) days.**

(B) **Alternative Methods.** Residential or non-residential buildings can meet the building protection requirements by one of the following methods:

[See NFIP Requirements: 44 CFR 60.3(c)(2).]

- (1) The building may be constructed on permanent landfill in accordance with the following:
 - (a) The lowest floor (including basement) shall be at or above the flood protection elevation;
 - (b) The fill shall be placed in layers no greater than **one (1) foot** before compaction and should extend at least **ten (10) feet** beyond the foundation before sloping below the flood protection elevation;
 - (c) The fill shall be protected against erosion and scour during flooding by vegetative cover, riprap, or other structural measure;
 - (d) The fill shall be composed of rock or soil and not incorporated debris or refuse materials; and
 - (e) The fill shall not adversely affect the flow of surface drainage from or onto neighboring properties; or
- (2) The building may be elevated in accordance with the following:

[See: NFIP Requirements: 44 CFR 60.3(a)(3) and 60.3(c)(5).]

 - (a) The building or improvements shall be elevated on stilts, piles, walls, or other foundation that is permanently open to flood waters;
 - (b) The lowest floor and all electrical, heating, ventilating, plumbing, and air conditioning equipment and utility meters shall be located at or above the flood protection elevation;
 - (c) If walls are used, all fully enclosed areas below the base flood elevation shall address hydrostatic pressures by having a minimum of **two (2) permanent openings** no more than **one (1) foot** above grade and providing a total net area of not less than **one (1) square inch** for every **one (1) square foot** of enclosed area subject to flooding below the base flood elevation;

- (d) The foundation and supporting members shall be anchored and aligned in relation to flood flows and adjoining structures so as to minimize exposure to hydrodynamic forces such as current, waves, ice and floating debris;
- (e) All structural components below the flood protection elevation shall be constructed of materials resistant to flood damage;
- (f) Water and sewer pipes, electrical and telephone lines, submersible pumps, and other service facilities may be located below the flood protection elevation provided they are waterproofed; and
- (g) No area below the flood protection elevation shall be used for storage of items or materials.

(C) Manufactured homes and travel trailers to be installed on site for more than **one hundred eighty (180)** days shall be:

- (1) elevated to or above the flood protection elevation; and
- (2) anchored to resist flotation, collapse, or lateral movement by being tied down in accordance with the Rules and Regulations for the Illinois Mobile Home Tie-Down Act issued pursuant to 77 IL Adm. Code 870.

(D) **Non-Residential** buildings may be structurally floodproofed (in lieu of elevation) provided a registered professional engineer certifies that:

- (1) below the flood protection elevation, the structure and attendant utility facilities are watertight and capable of resisting the effects of the base flood;
- (2) the building design accounts for flood velocities, duration, rate of rise, hydrostatic and hydrodynamic forces, the effects of buoyancy, and impact from debris and ice; and
- (3) floodproofing measures will be operable without human intervention and without an outside source of electricity.

(E) For the purposes of this Section, in the case of garages or sheds constructed ancillary to a residential use, wet floodproofing meeting the following conditions shall be sufficient:

- (1) The garage or shed must be non-habitable; and
- (2) The garage or shed must be used only for the storage of vehicles and tools and cannot be modified later into workshops, greenhouses, living areas, etc.; and
- (3) The garage or shed must be located outside of the floodway; and
- (4) The garage or shed must be on a single-family lot and be accessory to an existing principal structure on the same lot; and
- (5) Below the base flood elevation, the garage or shed must be built of materials not susceptible to flood damage as provided in FEMA Technical Bulletin 2-93; and
- (6) All utilities, plumbing, heating, air conditioning, electrical, etc. must be elevated above the flood protection elevation; and
- (7) The garage or shed must have at least **one (1)** permanent opening on each wall no more than **one (1) foot** above grade with **one (1) square inch** of opening for every square foot of floor area as provided in FEMA Technical Bulletin 1-93; and
- (8) The garage or shed must be less than **Seven Thousand Dollars (\$7,000.00)** in market value or replacement cost, whichever is greater, or less than **six hundred (600) square feet**; and
- (9) The structure shall be anchored to resist flotation and overturning; and
- (10) All flammable or toxic materials (gasoline, paint, insecticides, fertilizers, etc.) shall be stored above the flood protection elevation; and
- (11) The lowest floor elevation should be documented and the owner advised of the flood insurance requirements.

(F) Levees, berms, floodwalls and similar works are not considered floodproofing for the purpose of this Section.

[See NFIP Requirements: 44 CFR 60.3(c)(4).]

14-1-8 SUBDIVISION AND OTHER DEVELOPMENT REQUIREMENTS. The Village Board shall take into account flood hazards, to the extent that they are known, in all official actions related to land management use and development.

(A) **Data Required.** New subdivisions, manufactured home parks, annexation agreements, planned unit developments, and additions to manufactured home parks and subdivisions shall meet the damage prevention and building protection standards of **Sections 14-1-6** and **14-1-7** of this Code. Any proposal for such development shall include the following data:

- (1) The base flood elevation and the boundary of the floodplain (where the base flood elevation is not available from an existing study, the applicant shall be responsible for calculating the base flood elevation);
- (2) The boundary of the floodway when available; and
- (3) A signed statement by a Registered Professional Engineer that the proposed plat or plan accounts for changes in the drainage of surface waters in accordance with the Plat Act (**765 ILCS 205/2**).

(B) **Health Standards.** Public health standards must be met for all floodplain development. In addition to the requirements of **Sections 14-1-6** and **14-1-7**, the following standards apply:

- (1) No development in the floodplain shall include locating or storing chemicals, explosives, buoyant materials, flammable liquids, pollutants, or other hazardous or toxic materials below the flood protection elevation unless such materials are stored in a storage tank or floodproofed building constructed according to the requirements of **Section 14-1-7** of this Code.
- (2) New and replacement sanitary sewer lines and on-site waste disposal systems may be permitted providing all manholes or other above ground openings located below the flood protection elevation are watertight.

(C) All other activities defined as development shall be designed so as not to alter flood flows or increase potential flood damages.

[ED. NOTE: This Section sets minimum subdivision design review and recording standards when subdivisions are located within a floodplain. It also provides guidance for other activities defined as "development" which may occur in a floodplain. NFIP Requirement: 44 CFR 60.2(c)]

NFIP Requirement: 44 CFR 60.3(b)(3) only applies to subdivisions greater than five (5) acres or fifty (50) lots.

All new plats recorded must show the location of any floodplains and must be signed, sealed, and certified by a Professional Land Surveyor as per the requirements of Public Act 85-267.]

14-1-9 VARIANCES. Whenever the standards of this Code place undue hardship on a specific development proposal, the applicant may apply to the Zoning Board for a variance. The Zoning Board shall review the applicant's request for a variance and shall submit its recommendation to the Village Board. The Village Board may attach such conditions to granting of a variance as it deems necessary to further the intent of this Code.

(A) **Requirements for Variance.** No variance shall be granted unless the applicant demonstrates that:

- (1) The development activity cannot be located outside the floodplain;
- (2) An exceptional hardship would result if the variance were not granted;
- (3) The relief requested is the minimum necessary;

- (4) There will be no additional threat to public health or safety, or creation of a nuisance;
 - (5) There will be no additional public expense for flood protection, rescue or relief operations, policing, or repairs to roads, utilities, or other public facilities;
 - (6) The applicant's circumstances are unique and do not establish a pattern inconsistent with the intent of the NFIP; and
 - (7) All other required local, state and federal permits have been obtained.
- [65 ILCS 5/11-13-4 and 5/11-13-5 establishes specific municipal zoning variance criteria.]**

(B) **Notification of Applicant.** The Zoning Administrator shall notify an applicant in writing that a variance from the requirements of the building protection standards of **Section 14-1-7** would lessen the degree of protection to a building will:

- (1) Result in increased premium rates for flood insurance up to **Twenty-Five Dollars (\$25.00)** for **One Hundred Dollars (\$100.00)** of insurance coverage;
- (2) Increase the risks to life and property; and
- (3) Require that the applicant proceed with knowledge of these risks and that the applicant acknowledge in writing the assumption of the risk and liability.

[NOTE: The Standard Flood Insurance Policy permits an insurance adjustor to not pay for damage that was caused by something the owner did which increased the hazard to the property. Section 1316 of the National Flood Insurance Act authorizes local officials to request denial of flood insurance for buildings in violation of local floodplain codes.]

(C) Variances to the building protection requirements of **Section 14-1-7** of this Code requested in connection with the reconstruction, repair or alteration of a site or building included on the National Register of Historic Places or the Illinois Register of Historic Places may be granted using criteria more permissive than the requirements of **Section 14-1-19 (A)(1-5)**.

[NOTE: Communities in the NFIP are required to maintain a record of all variance actions, including justification for their issuance, and report them to FEMA. FEMA may review variances and suspend a community from the NFIP if the review "indicates a pattern inconsistent with the objectives of sound floodplain management..."]

14-1-10 DISCLAIMER OF LIABILITY. The degree of protection required by this Code is considered reasonable for regulatory purposes and is based on available information derived from engineering and scientific methods of study. Larger floods may occur or flood heights may be increased by man-made or natural causes. This Code does not imply that development either inside or outside of the floodplain will be free from flooding or damage. This Code does not create liability on the part of the City or any officer or employee thereof for any flood damage that results from reliance on this Code or any administrative decision made lawfully thereunder.

14-1-11 PENALTY. Failure to obtain a permit for development in the floodplain or failure to comply with the conditions of a permit or a variance shall be deemed to be a violation of this Code. Upon due investigation, the Zoning Administrator may determine that a violation of the minimum standards of this Code exist. The Zoning Administrator shall notify the owner in writing of such violation.

- (A) If such owner fails, after **ten (10) days'** notice, to correct the violation:
 - (1) The Village may make application to the Circuit Court for an injunction requiring conformance with this Code or make such other order as the court deems necessary to secure compliance with this Code.

- (2) Any person who violates this Code shall, upon conviction thereof, be fined not less than **Seventy-Five Dollars (\$75.00)** nor more than **Seven Hundred Fifty Dollars (\$750.00)**.
- (3) A separate offense shall be deemed committed upon each day during or on which a violation occurs or continues.
- (B) The Village Attorney shall inform the owner that any such violation is considered a willful act to increase flood damages and therefore may cause coverage by a Standard Flood Insurance Policy to be suspended.
- (C) Nothing herein shall prevent the Village from taking such other lawful action to prevent or remedy any violations. All costs connected therewith shall accrue to the person or persons responsible.

14-1-12 ABROGATION AND GREATER RESTRICTIONS. This Code repeals and replaces other ordinances adopted by the Village Board to fulfill the requirements of the National Flood Insurance Program including the 1978 Code. However, this Code does not repeal the original ordinance adopted to achieve eligibility in the Program. Nor does this Code repeal, abrogate, or impair any existing easements, covenants or deed restrictions. Where this Code and other ordinance easements, covenants or deed restrictions conflict or overlap, whichever imposes the more stringent restrictions shall prevail. **[See: NFIP Requirement: 44 CFR 60.2(B).]**

ADDENDUM "A"

AN ORDINANCE RENEWING AN EXISTING FRANCHISE AND GRANTING FOR A PERIOD OF 20 YEARS TO AMEREN ILLINOIS, A CORPORATION, ITS SUCCESSORS AND ASSIGNS, THE FRANCHISE, RIGHT, PERMISSION AND AUTHORITY TO CONSTRUCT, RECONSTRUCT, EXCAVATE FOR, PLACE, REMOVE, EXTEND, MAINTAIN, AND OPERATE A GAS UTILITY SYSTEM IN THE VILLAGE OF SMITHTON, COUNTY OF ST. CLAIR AND STATE OF ILLINOIS.

BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF SMITHTON, COUNTY OF ST. CLAIR, AND THE STATE OF ILLINOIS, AS FOLLOWS:

SECTION 1. It is the intent of the parties by this Ordinance to extend for an additional term, subject to the terms and conditions here stated, the authorization to Ameren Illinois, its successors and assigns, to construct, operate and maintain a gas utility system within the Village as originally authorized by Ordinance No. 181 approved on October 4, 1960. The parties acknowledge that by so doing they are continuing an existing relationship authorizing the services of a utility for the provision of gas energy and other purposes within the Village for the benefit of its citizens and residents as well as other consumers of gas energy located within its corporate limits.

SECTION 2. There is hereby given and granted to Ameren Illinois, its successors and assigns (hereinafter referred to as the "Company"), the right, privilege and authority to construct, operate, maintain and/or extend within the corporate limits, as the same now exists or may hereafter be extended, of the Village of Smithton (hereinafter referred to as "Municipality"), a gas utility system for the transmission, distribution and/or sale of gas energy and other purposes (the "System"), together with the right, privilege and authority to lay, erect, construct, install, operate and/or maintain all necessary mains, pipes, valves, equipment and/or other apparatus as may be necessary or convenient for the System, in, upon, along, over, under, through and/or across each and all of the streets, avenues, alleys, bridges, easements, rights of way and/or other public places.

SECTION 3. All mains, pipes, valves and apparatus shall, so far as practicable, be placed underground and shall be so located and laid as not to interfere with any pipes, conduits, sewers, drains, pavements, or other public improvements existing at the time of such location, and said Company shall forthwith repair any damage caused to such improvements to the satisfaction of the official or officials of said Municipality having charge of the supervision thereof. There shall be no unnecessary obstruction to the streets, avenues, alleys, public places of said Municipality in the laying, installation, operation or maintenance of any of said mains, pipes, valves or apparatus. All facilities of Company in said Municipality shall be installed and maintained in accordance with the applicable rules and regulations of the Illinois Commerce Commission.

When any street, avenue, or other public place shall be graded, curbed, paved or otherwise changed so as to make the resetting or relocation of any pipes or other equipment placed or installed under this Ordinance necessary, the Company shall make such resetting or relocation, at the Company's cost and expense. Municipality shall provide the Company with a suitable location for the resetting or relocation of such pipes or other equipment, and the Company's obligation shall be limited to resetting or relocating pipes or other equipment of the same type and configuration as the displaced pipes or other equipment. Company shall make such resetting or relocation within a reasonable time after receiving written notice of the need for the same from the authorized representative of the Municipality, and the establishment by the Municipality of the permanent grade at the new location.

SECTION 4. The rates to be charged by the Company for gas service rendered under this Ordinance shall be such as are approved from time to time by the Illinois Commerce Commission of the State of Illinois and/or such other duly constituted governmental authority as shall have jurisdiction

thereof. All Rules and Regulations of the Illinois Commerce Commission of the State of Illinois applicable to the rights, privileges and authority granted by this Ordinance, in the event of conflict herewith, shall govern.

SECTION 5. As a further consideration for the rights, privileges and authorities granted by this Ordinance, the Company shall, throughout the period in which Company shall exercise the rights, privileges and authority granted by this Ordinance furnish to the said Municipality, compensation in the amount of \$6,000, payable annually, within 30 days of the anniversary date. Municipality may request a revision to the compensation amount after five years from the date of passage of this Ordinance if Municipality has a reasonable belief that its population has increased or decreased by 3% or more. Municipality must request the revision at least 60 days prior to the next anniversary date. If Company confirms that the number of customers served by the System within Municipality's corporate limits has increased or decreased by 3% or more, the compensation amount will be revised by that percentage for the next and succeeding payments. Municipality may request similar revisions to compensation amounts under these criteria in additional five year periods throughout the term of this Ordinance.

SECTION 6. The rights, privileges and authority hereby granted shall inure to and be vested in Company, its successors and assigns, successively, subject to all of the terms, provisions and conditions herein contained, and each of the obligations hereby imposed upon Company shall devolve and be binding upon its successors and assigns, successively, in the same manner.

SECTION 7. This Ordinance shall confer no right, privilege or authority on Company, its successors or assigns, unless Company shall within ninety (90) days after due notice to the Company of the enactment of this Ordinance, file with the Village Clerk an acceptance of the terms and provisions hereof; provided, however, that if such acceptance be not so filed within said period of ninety (90) days, all rights, privileges, and authority herein granted shall become null and void.

SECTION 8. All rights, privileges and authority given and granted by this Ordinance are granted for a term of 20 years from and after the passage and acceptance of this Ordinance by the Municipality, as hereinafter provided (the "Initial Term"), and thereafter on a year-to-year basis (each a "Subsequent Term") unless either the Company or Municipality notifies the other in writing of its desire to terminate this Ordinance at least six (6) months prior to the expiration of the Initial Term or any Subsequent Term.

SECTION 9. The Municipality acknowledges that Company is vested in rights, permissions and authority independent of this Ordinance. Neither acceptance of this Ordinance nor compliance with its provisions shall impair in any way or waive any right, permission or authority which Company may have independent of this Ordinance. In addition, neither use by Company of public property or places as authorized by this Ordinance nor service rendered by Company in said Municipality shall be treated as use solely of the rights, permission and authority provided for by this Ordinance and in no way shall indicate non-use of any right, permission or authority vested in the Company independent of this Ordinance. In the event the Municipality vacates any streets, avenues, alleys, easements, rights of way, bridges or other public places during the term of this Ordinance, Municipality agrees to reserve unto Company the rights, privileges and authority herein given and granted to the Company in upon, under, along, over and across each and all of such vacated premises which are at that time in use by the Company.

SECTION 10. All ordinances and parts of ordinances in conflict with this Ordinance or with any of its provisions are, to the extent of such conflict, hereby repealed.

SECTION 11. This Ordinance shall not relieve Company of the obligation to comply with any ordinance now existing in the Municipality or enacted in the future requiring Company to obtain written permits or other approval from the Municipality prior to commencement of construction of facilities within the streets thereof, except Company shall not be required to obtain permits or other approval from the Municipality for the maintenance, upgrading and repair of its facilities. Except in cases of emergency, prior to engaging in any excavation activity that is expected to create an obstruction or other hazardous

condition in any street avenue, alley or public place, the Company shall notify Municipality of the location and extent of the planned excavation. In cases of emergency, Company shall notify Municipality of the location and extent of any such activity as soon as practicable after the emergency has been abated.

SECTION 12. If any provision of this Ordinance, or the application of such provision to particular circumstances, shall be held invalid, the remainder of this Ordinance, or the application of such provision to circumstances other than those as to which it is held invalid, shall not be affected thereby.

SECTION 13. If, at any time, during the term of this contract, Municipality permits another entity or person to provide gas distribution or similar services, and Company reasonably believes the other entity or person is granted more favorable treatment, terms, or conditions, then Company shall notify Municipality of such treatment, terms, or conditions. Alternatively, if Municipality reasonably believes the other entity or person grants Municipality more favorable treatment, terms, or conditions, then Municipality shall notify Company of such treatment, terms, or conditions. Upon receipt of such notice, Municipality and Company shall negotiate in good faith to amend this Ordinance to provide Company or Municipality such more favorable treatment, terms or conditions on an equivalent basis. Such amendment shall take into consideration all circumstances that distinguish between Company and the entity or person receiving the more favorable or less favorable treatment, terms, or conditions.

SECTION 14. The Company shall be exempt from any special tax, assessment, license, rental or other charge during the term of this Ordinance, on all mains, pipes, valves, equipment and other apparatus placed under the streets, alleys, avenues, bridges, easements, rights of way or other public places within the corporate limits of Municipality.

SECTION 15. MANDATED POLICIES

ARTICLE I – IDENTITY THEFT

22-1-1 PROGRAM ADOPTION. The Village of Smithton adopted this Identity Theft Prevention Program ("Program") pursuant to the Federal Trade Commission's Red Flags Rule ("Rule"), which implements Sections 114 and 315 of the Fair and Accurate Transactions Act of 2003. After consideration of the size and complexity of the Village's operations and account systems, and the nature and scope of the Village's activities, the Board of Trustees has determined that this Program was appropriate for the Village and therefore approves this Program by the adoption of Ordinance Number 750.

22-1-2 PROGRAM PURPOSE AND DEFINITIONS.

(A) **Fulfilling Requirements of the Red Flags Rule.** Under the Red Flags Rule, every financial institution and creditor is required to establish an identity theft prevention program tailored to its size, complexity and the nature of its operation. The program must contain reasonable policies and procedures to:

- (1) Identity relevant Red Flags as defined in the Rule and this program for new and existing covered accounts and incorporate those Red Flags into the Program;
- (2) Detect Red Flags that have been incorporated into the Program;
- (3) Respond appropriately to any Red Flags that are detected to prevent and mitigate identity theft; and
- (4) Update the Program periodically to reflect changes in risks to customers or to the safety and soundness of the District from identity theft.

(B) For the purposes of this Program, the following definitions apply:

- (1) **Account.** "Account" means a continuing relationship established by a person with a creditor to obtain a product or service for personal, family, household or business purposes.
- (2) **Covered Account.** A "covered account" means:
 - (a) any account the Village offers or maintains primarily for personal, family or household purposes, that involves multiple payments or transactions; and
 - (b) Any other account the Village offers or maintains for which there is a reasonably foreseeable risk to customers or to the safety and soundness of the Village from Identity Theft.
- (3) **Creditor.** "Creditor" has the same meaning as defined in Section 702 of the Equal Credit Opportunity Act, 15 U.S.C. 169a, and includes a person or entity that arranges for the extension, renewal or continuation of credit, including the District.
- (4) **Customer.** A "customer" means a person or business entity that has a covered account with the Village.
- (5) **Financial Institution.** "Financial institution" means a state or national bank, a state or federal savings and loan association, a mutual savings bank, a state or federal credit union, or any other entity that holds a "transaction account" belonging to a customer.
- (6) **Identifying Information.** "Identifying information" means any name or number that may be used, along or in conjunction with any other information, to identify a specific person, including name, address, telephone number, social security number, date of birth, government issued driver's license or identification number, alien registration

number, government passport number employer or taxpayer identification number or unique electronic identification number.

- (7) **Identity Theft.** "Identity Theft" means fraud committed using the identifying information of another person.
- (8) **Red Flag.** A "Red Flag" means a pattern, practice, or specific activity that indicates the possible existence of Identity Theft.
- (9) **Service Provider.** "Service Provider" means a person or business entity that provides a service directly to the Village relating to or connection with a covered account.

22-1-3 IDENTIFICATION OF RED FLAGS. In order to identify relevant Red Flags, the Village shall review and consider the types of covered accounts that it offers and maintains, the methods it provides to open covered accounts, the methods it provides to access its covered accounts, and its previous experiences with Identity Theft. The Village identifies the following Red Flags, in each of the listed categories:

- (A) **Notifications and Warnings From Credit Reporting Agencies.**
 - (1) Report of fraud accompanying a credit report;
 - (2) Notice or report from a credit agency of a credit freeze on a customer or applicant;

 - (4) Indication from a credit report of activity that is inconsistent with a customer's usual pattern or activity.
- (B) **Suspicious Documents; Red Flags.**
 - (1) Identification document or card that appears to be forged, altered or inauthentic;
 - (2) Identification document or card on which a person's photograph or physical description is not consistent with the person presenting the document;
 - (3) Other document with information that is not consistent with existing customer information (such as a person's signature on a check appears forged); and
 - (4) Application for service that appears to have been altered or forged.
- (C) **Suspicious Personal Identifying Information; Red Flags.**
 - (1) Identifying information presented that is inconsistent with other information the customer provides (such as inconsistent birth dates);
 - (2) Identifying information presented that is inconsistent with other sources of information (for instance, an address not matching an address on a driver's license);
 - (3) Identifying information presented that is the same as information as shown on other applications that were found to be fraudulent;
 - (4) Identifying information presented that is consistent with fraudulent activity (such as an invalid phone number or fictitious billing address);
 - (5) Social security number presented that is the same as one given by another customer;
 - (6) An address or phone number presented that is the same as that of another person;
 - (7) Failing to provide complete personal identifying information on an application when reminded to do so (however, by law social security numbers must not be required); and
 - (8) Identifying information which is not consistent with the information that is on file for the customer.

- (D) **Suspicious Account Activity or Unusual Use of Account; Red Flags.**
- (1) Change of address for an account followed by a request to change the account holder's name;
 - (2) Payments stop on an otherwise consistently up-to-date account;
 - (3) Account used in a way that is not consistent with prior use (such as very high activity);
 - (4) Mail sent to the account holder is repeatedly returned as undeliverable;

- (E) **Alerts From Others; Red Flag.**
- (1) Notice to the Village from a customer, a victim of identity theft, a law enforcement authority or other person that it has opened or is maintaining a fraudulent account for a person engaged in Identity Theft.

22-1-4 DETECTING RED FLAGS.

(A) **New Accounts.** In order to detect any of the Red Flags identified above associated with the opening of a **new account**, Village personnel will take the following steps to obtain and verify the identity of the person opening the account:

- (1) Require certain identifying information such as name, date of birth, residential or business address, principal place of business for an entity, driver's license or other identification;
- (2) Verify the customer's identity (for instance, review a driver's license or other identification card);
- (3) Review documents showing the existence of a business entity; and
- (4) Independently contact the customer.

(B) **Existing Accounts.** In order to detect any of the Red Flags identified above for an **existing account**, Village personnel will take the following steps to monitor transactions with an account:

- (1) Verify the identification of customers if they request information (in person, via telephone, via facsimile, via email);
- (2) Verify the validity of requests to change billing addresses; and
- (3) Verify changes in banking information given for billing and payment purposes.

22-1-5 PREVENTING AND MITIGATING IDENTITY THEFT. In the event Village personnel detect any identified Red Flags, such personnel shall take one or more of the following steps, depending on the degree of risk posed by the Red Flag:

- (1) Monitor a covered account for evidence of Identity Theft;
- (2) Contact the customer with the covered account;
- (3) Change any passwords or other security codes and devices that permit access to a covered account;
- (4) Not open a new covered account;
- (5) Close an existing covered account;
- (6) Reopen a covered account with a new number;
- (7) Not attempt to collect payment on a covered account;
- (8) Notify the Program Administrator for determination of the appropriate step(s) to take;
- (9) Notify law enforcement; or

- (10) Determine that no response is warranted under the particular circumstances.

(B) **Protect Customer Identifying Information.** In order to further prevent the likelihood of Identity Theft occurring with respect to Village accounts, the Village should take the following steps with respect to its internal operating procedures to protect customer identifying information:

- (1) Secure the Village website but provide clear notice that the website is not secure;
- (2) Undertake complete and secure destruction of paper documents and computer files containing customer information;
- (3) Make office computers password protected and provide that computer screens lock after a set period of time;
- (4) Keep offices clear of papers containing customer identifying information;
- (5) Request only the last four digits of social security numbers (if any);
- (6) Maintain computer virus protection is up to date; and
- (7) Require and keep only the kinds of customer information that are necessary for Village purposes.

22-1-6 PROGRAM UPDATES. The program will be periodically reviewed and updated to reflect changes in risks to customers and to the safety and soundness of the Village from Identity Theft. The Program Administrator shall at least annually consider the Village's experiences with Identity Theft, changes in Identity Theft methods, changes in Identity Theft detection and prevention methods, changes in types of accounts the Village maintains and changes in the Village's business arrangements with other entities and service providers. After considering these factors, the Program Administrator shall determine whether changes to the Program, including the listing of Red Flags, are warranted. If warranted, the Program Administrator shall present the Program Administrator's recommended changes to the Board of Trustees for review and approval.

22-1-7 PROGRAM ADMINISTRATION.

(A) **Oversight.** The Program Administrator shall be responsible for developing, implementing and updating the program.

(B) **Staff Training and Reports.** Village staff responsible for implementing the Program shall be trained either by or under the direction of the Program Administrator in the detection of Red Flags, and the responsive steps to be taken when a Red Flag is detected.

(C) **Service Provider Arrangements.** In the event the Village engages a service provider to perform an activity in connection with one or more covered accounts, the Village shall take the following steps to require that the service provider performs its activity in accordance with reasonable policies and procedures designed to detect, prevent and mitigate the risk of Identity Theft.

- (1) Require, by contract, that service providers acknowledge receipt and review of the Program and agree to perform its activities with respect to Village covered accounts in compliance with the terms and conditions of the Program and with all instructions and directives issued by the Program Administrator relative to the Program; or
- (2) Require, by contract, that service providers acknowledge receipt and review of the Program and agree to perform its activities with respect to Village covered accounts in compliance with the terms and conditions of the service provider's identity theft prevention program and will take appropriate action to prevent and mitigate identity theft; and that the service providers agree to report promptly to the Village in writing if the service provider in connection with a Village covered account detects an incident of actual or attempted identity theft or is unable to resolve one or more Red Flags that the service provider detects in connection with a covered account.

(D) **Customer Identifying Information and Public Disclosure.** The identifying information of Village customers with covered accounts shall be confidential and shall be exempt from the public disclosure to the maximum extent authorized by law, including RCW 42.56230(4). The Board of Trustees also finds and determines that public disclosure of the Village specific practices to identify, detect, prevent and mitigate identity theft may compromise the effectiveness of such practices and hereby directs that, under the Program, knowledge of such specific practices shall be limited to the Program Administrator and those Village employees and service providers who need to be aware of such practices for the purpose of preventing Identity Theft.

(Ord. No. 750; 11-18-08)

22-3-2 DESIGNATION, DUTIES AND TRAINING OF FREEDOM OF INFORMATION ACT OFFICERS.

(A) The Village Administrative Assistant is hereby designated to act as Freedom of Information Officer. The Officer shall receive requests submitted to the Village under the Freedom of Information Act, insure that the Village responds to requests in a timely fashion, and issue responses under the Freedom of Information Act. The Freedom of Information officer shall develop a list of documents or categories of records that the Village shall immediately disclose upon request.

(B) Upon receiving a request for a public record, the Freedom of Information Officer shall:

- (1) Note the date the Village receives the written request;
- (2) Compute the date on which the period for response will expire and make a notation of that date on the written request;
- (3) Maintain an electronic or paper copy of the written request including all documents submitted with the request until the request has been complied with or denied; and
- (4) Create a file for the retention of the original request, a copy of the response, a record of written communications with the person making the request, and a copy of other communications regarding the request.

(C) The Freedom of Information Act officers shall successfully complete an electronic training curriculum to be developed by the Public Access Counselor in the office of the Attorney General of the State of Illinois and thereafter successfully complete an annual training program. Thereafter when a new Freedom of Information officer is designated by the Village, that person shall successfully complete the electronic training curriculum within **thirty (30) days** after assuming the position. Successful completion of the required training curriculum within the periods provided shall be a prerequisite to continue serving as a Freedom of Information officer.

22-3-3 PROCEDURES. The Village shall prominently display at the Village Clerk's office, display on its website, make available for inspection and copying, and send through the mail as requested, each of the following:

(A) A brief description of the Village, which will include, but not be limited to a block diagram giving its functional departments, the total amount of its operating budget, the number and location of all of its separate offices, the approximate number of full and part-time employees and the identification and membership of any board, commission, committee or council which operates in an advisory capacity relative to the operation of the Village, or which exercises control over its policies or procedures; and

22-3-4 REQUESTS TO INSPECT OR COPY. All requests to inspect or copy records or documents prepared, maintained or under the control of the Village shall be made in the following manner:

(A) All requests shall be in writing, shall state with reasonable particularity what records are to be inspected or copied, shall state whether the records are requested for a commercial

purpose, and shall be signed by the person making the request. The request may be, but is not required to be, submitted on a form provided by the Village.

(C) The Officer receiving the request shall date stamp the request and indicate the date by which a response to the request must be made.

(D) Each request for other than commercial purposes shall be granted or denied in writing within **five (5) business days** after its receipt by the Village, except as hereafter stated. The failure to grant or deny a request within **five (5) business days** shall operate as a denial, except as provided hereinbelow.

(E) The time limit set forth hereinabove may be extended for an additional **five (5) business days** by notice in writing to the person making the request of the **five (5) business days** extension. The notification shall state the reason(s) for the **five (5) business day's** extension and contain a date certain on which the requested record(s) will be available. The failure to grant or deny a request within the additional **five (5) business days** shall operate as a denial. The person making the request and the Village may agree in writing to extend the time for compliance for a period to be determined by the parties. If the person making the request and the Village agree to extend the period for compliance, a failure by the Village to comply with any previous deadlines shall not be treated as a denial of the request for the records.

(F) Charges for copies of records and/or documents shall be imposed in accordance with the following:

- (1) No fees shall be charged for the first **fifty (50) pages** of black and white, letter or legal sized copies requested.

- (4) **Ten Cents (\$0.10)** for each audio recording.

(G) It shall be the responsibility of the person making the request to pick up the requested documents at Village Hall. If the person making the request asks the Village to mail the documents, he or she shall provide the Village with his/her correct mailing address so as to efficiently process all requests. Copies of records requested to be mailed will be forwarded United States Certified Mail to the address provided. Pre-payment of **Two Dollars Fifty Cents (\$2.50)** per ounce shall be required.

(H) When a person requests a copy of a record maintained in an electronic format, the Village shall furnish it in the electronic format specified by the person making the request, if feasible. If it is not feasible to furnish the public records in the specified electronic format, then the Village shall furnish it in the format in which it is maintained by the Village, or in paper format at the option of the person making the request.

22-3-5 REQUEST FOR COMMERCIAL PURPOSES. The Village shall respond to a request for records to be used for a commercial purpose within **twenty-one (21) working days** after receipt. The response shall (1) provide to the person making the request an estimate of the time required by the Village to provide the records requested and an estimate of the fees to be charged, which the Village may require the person to pay in full before copying the requested documents, (2) deny the request pursuant to **one (1)** or more of the exemptions set out in the Freedom of Information Act, **5 ILCS 140/1 et seq.**, (3) notify the person making the request that the request is unduly burdensome and extend an opportunity to the person making the request to attempt to reduce the request to manageable portions, or (4) provide the records requested.

Unless the records are exempt from disclosure, the Village shall comply with a commercial request within a reasonable period considering the size and complexity of the request, and giving priority to records requested for non-commercial purposes.

It is unlawful for a person to knowingly obtain a public record for a commercial purpose within disclosing that it is for a commercial purpose, and any person obtaining a public record for commercial purpose without disclosing that it is for a commercial purpose shall be fined in accordance with the Village Code.

22-3-6 FEES. The Village Clerk shall determine when the established fees are subject to waiver or reduction because the release of the requested information is in the public interest.

22-3-7 PUBLIC FILE. The Village Clerk shall establish and maintain a central file, open to the public, of all denials of requests for records which shall be indexed according to the exemption utilized to deny a request for records, and to the extent possible, according to the types of records requested.

22-3-8 GRANTING OR DENIAL OF REQUESTS. A request for all records within a category shall be granted unless the request constitutes an undue burden upon the Village. Prior to denying a request based upon the burdensome nature of the request, an opportunity to narrow the request to manageable proportions shall be provided. If the attempt to narrow the request fails, the request may be denied because compliance will unduly burden the operations of the Village and the burden outweighs the public interest in the information. The denial shall be in writing, specifying the reasons why compliance will be unduly burdensome and the extent to which compliance will so burden the operations of the Village. Repeated requests from the same person for the same records that are unchanged or identical to records previously provided are properly denied under the Freedom of Information Act shall be deemed unduly burdensome under this Section.

22-3-9 CERTAIN INFORMATION EXEMPT FROM INSPECTION AND COPYING. If any record exempt from disclosure contains material which is not exempt, the information which is exempt shall be deleted and the remaining information shall be available for inspection and copying.

22-3-10 NOTICE OF DENIAL OF REQUEST; APPEALS.
(A) If the Village denies the request, the Village shall notify the person making the request in writing of:

- (1) the decision to deny the request;
- (2) the reasons for the denial, including a detailed factual basis for the application of any exemption claim;
- (3) the names and titles or positions of each person responsible for the denial;
- (4) the right to review by the Public Access Counselor and the address and phone number for the Public Access Counselor; and
- (5) the right to judicial review.

If an exemption is claimed, then the denial must include the specific reasons for the denial, including a detailed factual basis and a citation to support a legal authority.

(B) If the Village asserts an exemption under Subsection (1)(c) or (1)(f) of Section 7 of the Freedom of Information Act, it shall, within the time periods provided for Respondent to request, provide written notice to the person making the request and the Public Access Counselor of its intent to deny the request in whole or in part. The notice shall include:

- (1) a copy of the request for access to records;
- (2) the proposed response from the Village;
- (3) a detailed summary of the Village's basis for asserting its exemption.

If the Public Access Counselor determines that further inquiry is warranted, the procedures set forth in the Freedom of Information Act, as amended from time to time, regarding the review of denials shall be applicable. Times for response compliance by the Village to the request shall be tolled until the Public Access Counselor concludes his or her inquiry.

However, any amendment that makes its provisions optional for adoption by municipalities shall not be incorporated into this Section by reference without formal action by the corporate authorities of the Village.

(I) If the Illinois Supreme Court declares the Act unconstitutional in its entirety, then this Section shall be repealed as of the date that the Illinois Supreme Court’s decision becomes final and not subject to any further appeals or rehearings. This Section shall be deemed repealed without further action by the Corporate Authorities of the Village if the Act is found unconstitutional by the Illinois Supreme Court.

(J) If the Illinois Supreme Court declares part of the Act unconstitutional but upholds the constitutionality of the remainder of the Act, or does not address the remainder of the Act, then the remainder of the Act as adopted by this Section shall remain in full force and effect; however, that part of this Section relating to the part of the Act found unconstitutional shall be deemed repealed without further action by the Corporate Authorities of the Village.

22-7-3 **CONTRACTING WITH NON-COMPLAINTS.** The Village will not contract with other agencies, banks, businesses, vendors, etc., who practice or establish a pattern of discrimination based on race, color, religion, sex, national origin, ancestry, age, order of protection status, marital status, physical or mental disability, military status, sexual orientation, or unfavorable discharge from military.

(A) The Village will incorporate into any contract for construction work, or modification thereof, subject to the relevant rules, regulations, and orders of the Secretary of Labor or of any prior authority that remain in effect, which is paid for in whole or in part with the aid of such financial assistance, the following "Equal Opportunity Clause":

- (1) In the event of the contractor's noncompliance with the provisions of this Equal Employment Opportunity Clause, the Act or the Rules and Regulations of the Department, the contractor may be declared ineligible for future contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations, and the contract may be cancelled or voided in whole or in part, and other sanctions or penalties may be imposed or remedies invoked as provided by statute or regulation. During the performance of this contract, the contractor agrees as follows:

 - (b) That, if he or she hires additional employees in order to perform this contract or any portion of this contract, he or she will determine the availability (in accordance with the Department's Rules and Regulations) of minorities and women in the areas from which he or she may reasonably recruit and he or she will hire for each job classification for which employees are hired in a way that minorities and women are not underutilized.
 - (c) That, in all solicitations or advertisements for employees placed by him or her or on his or her behalf, he or she will state that all applicants will be afforded equal opportunity without discrimination because of race, color, religion, sex, sexual orientation, marital status, national origin or ancestry, citizenship status, age, physical or mental disability unrelated to ability, sexual orientation, military status or an unfavorable discharge from military service.
 - (d) That he or she will send to each labor organization or representative of workers with which he or she has or is bound by a collective bargaining or other agreement or understanding, a notice advising the labor organization or representative of the contractor's obligations under the Act and the Department's Rules and Regulations. If any labor organization or representative fails or refuses to cooperate with the contractor in his or her efforts to comply with the Act and Rules and Regulations, the contractor will promptly notify the Department and the contracting agency and will recruit employees from other sources when necessary to fulfill its obligations under the contract.

In the same manner as with other provisions of this contract, the contractor will be liable for compliance with applicable provisions of this clause by subcontractors; and further it will promptly notify the contracting agency and the Department in the event any subcontractor fails or refuses to comply with the provisions. In addition, the contractor will not utilize any subcontractor declared by the Illinois Human Rights Commission to be ineligible for contracts or subcontracts with the State of Illinois or any of its political subdivisions or municipal corporations.

22-9-1 DRUG AND ALCOHOL FREE WORKPLACE POLICY. The Village is committed to maintaining a drug free workplace pursuant to the federal and state Drug Free Workplace Acts, 41 U.S.C.A. § 701 *et seq.*, **30 ILCS 580/1 *et seq.*** It is the policy of the Village that the public has the reasonable right to expect persons employed by the Village to be free from the effects of alcohol and drugs. The Village, as the employer, has the right to expect its employees to report for work fit and able for duty. This policy is intended to ensure that Village employees are not impaired in their ability to perform assigned duties in a safe, healthy and productive manner and to protect any such employee and the public from the risks associated with the adverse effects of drugs and alcohol. Accordingly, the unlawful manufacture, distribution, possession, or use of a controlled substance, including cannabis and alcohol, is prohibited in the workplace or while acting on behalf of the Village. Employees are required to sign a release and consent/authorization form, a copy of which is included with this policy, at the time the policy is distributed to the employee.

22-9-2 DEFINITIONS. For purposes of this policy, the following definitions apply:

(A) **"Abuse of alcohol" or "being under the influence of alcohol"** means the consumption of any beverage, mixture or preparation, including any medication containing alcohol, which results in an employee being intoxicated. Intoxicated or a positive test for alcohol shall mean a test result which shows an alcohol concentration of .02 or more for all persons covered by Federal DOT regulations and .08 or more for all persons not covered by Federal DOT regulations.

(B) **"Abuse of any drug"** means the use of any illegal drug, the use of any prescription drug which has not been legally prescribed and dispensed, or the misuse of any legally prescribed drug.

(B) Manufacture, distribution, dispensation, possession, use, sale, purchase, being under the influence of or abuse of any drug at any time and at any place.

(C) Failure to immediately disclose to his or her Department Head or immediate supervisor any drug or other medication-related work restrictions, or failure to disclose the taking of any drug or medication whose container has warnings that such drug or medication may affect any such employee's ability to perform his or her job, or to drive or operate machinery.

(D) Testing positive for any drug or for the abuse of alcohol or being under the influence of any drug and/or alcohol during working hours.

(E) Failure to comply with this policy.

(F) Refusal to submit to any drug or alcohol test under this policy, which shall also include, but not be limited to, any attempt to tamper with or substitute any sample to be used in connection with any such test.

22-9-4 APPLICABILITY. This Drug/Alcohol Testing Policy and Procedure is not intended to replace the Drug Free Workplace Programs but to define and clarify, who will be tested, when the employees will be tested and where employees will be tested. The following four employee categories define under which category each full time, part time/temporary and volunteer employee will be tested:

(A) Any employee who drives a Village vehicle, tractor, tractor mower or similar motor powered equipment that moves under its own power will be tested under the Federal DOT testing standards.

(B) Testing for employees of the Police Department shall be controlled by the provisions set forth in their union contract.

(C) All other Village employees who are not included within the two categories listed above in (A) or (B) will be subject to testing to comply with the requirements necessary to establish a Drug Free Workplace within the Village.

(E) Part time/temporary employees and volunteer employees of the Village will remain exempt from pre-employment and random testing as defined in this testing program, but they can be included for testing if reasonable suspicion should arise, or an accident should occur during the tenure of their part time/temporary or volunteer employment. After reasonable suspicion of abuse of drugs or alcohol has been established or an accident should occur, the decision to request a drug and alcohol test for the employee must be deemed necessary and reasonable by the Mayor and/or the supervisor of the employee.

22-9-5 TESTING PROCEDURE. In conducting any drug testing under this policy, the Village shall:

(A) Use only a clinical laboratory or hospital facility that is licensed pursuant to the Illinois Clinical Laboratory and Blood Bank Act, **210 ILCS 25/101 *et seq.***, that has been or is capable of being accredited by the National Institute of Drug Abuse ("NIDA").

(B) Insure that the laboratory or facility selected conforms to all NIDA standards.

(C) Follow all Federal DOT guidelines for the collection, testing and reporting procedures.

(D) In conducting any alcohol testing under this policy, the Village shall use a facility that:

- (1) Ensures that all technicians are trained and equipment is calibrated.

- (5) Retesting at the request of the employee after a positive drug or alcohol test shall be at the employee's sole expense.
- (6) Drug/Alcohol test for renewal of CDL Driver's License shall be paid by the Village.

22-9-6 SCREENING AND TESTING.

(A) **Pre-Employment Testing.**

- (1) All employee applicants shall be advised of the Village Drug/Alcohol testing requirements at the time of interview. After having successfully completed the interview process, the selected prospective full time employee shall then be required to successfully complete the Village's drug screening test, as part of his/her background investigation.
- (2) All applicants for full time employment shall sign a release and consent/authorization form for Drug/Alcohol testing.
- (3) An applicant will not be employed or considered for employment if:
the test results confirm POSITIVE;
he/she refuses to complete the test;
he/she tampers with, or adulterates the specimen;

he/she fails to cooperate in the testing process (including executing all required documentation).

(B) **Testing Based on Reasonable Suspicion.** If there is a reasonable suspicion that any Village employee, paid or volunteer, has violated any of the prohibited actions covered by this policy, such employee may be required to undergo drug and/or alcohol testing. Reasonable suspicion exists if the facts and circumstances warrant a rational inference that an employee has violated any of the acts prohibited by this policy. Reasonable suspicion shall be based upon the following:

- (1) Observable phenomena, such as direct observation of use or the verifiable physical symptoms resulting from the abuse of drugs or being under the influence of alcohol which may include by way of example but is not limited to a pattern of abnormal conduct or erratic behavior, a dramatic decline in work performance, excessive sick leave usage, difficulty in walking, slurred speech, needle marks, glazed stare, and possession of alcohol, or unauthorized banned substance or drug paraphernalia at work.
- (2) Information provided by an identifiable, reliable and credible third party that an employee has committed any of the acts prohibited by this policy.

In the event reasonable suspicion exists, the Village shall arrange for a drug and/or alcohol test. When testing is ordered, the employee may be temporarily reassigned or relieved from duty and placed on leave with pay pending the receipt of the test results by the Village. The Village shall also provide the employee with written notice setting forth the objective facts and reasonable inferences to be drawn from those facts which form the basis of the reasonable suspicion.

The employee will then be escorted to the testing facility or collection facility by a designated supervisor immediately.

After completing the test, the employee will be escorted to his/her residence or at the option of his/her supervisor to another location to await the test results, and the employee shall be off work with pay pending the results of the tests. Under no circumstances shall the employee be allowed to leave the work site or the test site driving his/her own vehicle or a Village vehicle.

Employees who test positive for either drugs or alcohol will be subject to disciplinary action, up to and including termination.

(C) **Random Testing.** Random drug testing shall be conducted during working hours. Employees will be selected at random for a drug test by a random drawing/lottery. The testing times and dates are unannounced and are with unpredictable frequency throughout the year.

When testing is ordered, the employee will be directed to the testing facility or collection facility within a reasonable period of time.

After completing the test, the employee will return to work pending the results of the test.

Employees who test positive for drugs will be subject to disciplinary action, up to and including termination.

(D) **Post Accident Testing.** Post accident drug/alcohol testing is required immediately following any accident involving a Village employee, paid or volunteer, who operates Village equipment or operates a Village vehicle where an injury to a person has occurred or where damage to equipment, or property has occurred and that damage exceeds **One Hundred Dollars (\$100.00)**, based on actual cost or reliable estimates of damage.

When testing is ordered, the employee will be escorted to the testing facility or collection facility by a designated supervisor within a reasonable period of time following the accident.

Employees who test positive for either drugs or alcohol will be subject to disciplinary action, up to and including termination.

(E) **Testing Required for Position Required to Have a CDL.** In addition to the provisions of this policy, any employee who is appointed to a position required to have a commercial driver's license ("CDL") shall be subject to drug and/or alcohol screening following any work related accident. Mandatory drug screening shall also be required of all applicants chosen to be hired for positions requiring a CDL. Those who fail the pre-employment drug screening shall not be hired for those positions.

22-9-7 CONFIDENTIALITY OF TEST RESULTS. Any employee subject to a drug and/or alcohol test under this policy will be provided a copy of all information and reports received by the Village in connection with any drug and/or alcohol test and any results thereof under this policy. Any results of drug and alcohol test will be disclosed to any employee tested, the applicable supervisor, Village Attorney and those permitted by law.

22-9-8 CONSEQUENCES OF POSITIVE TEST RESULT OR REFUSAL TO COOPERATE. Any employee who refuses to cooperate in testing or who fails a test or violates the Drug and Alcohol Policy shall be subject to disciplinary action, up to and including termination.

ARTICLE X – POLICY PROHIBITING SEXUAL HARASSMENT

22-10-1 PROHIBITION ON SEXUAL HARASSMENT. It is unlawful to harass a person because of that person's sex. The courts have determined that sexual harassment is a form of discrimination under Title VII of the U.S. Civil Rights Act of 1964, as amended in 1991. All persons have a right to work in an environment free from sexual harassment. Sexual harassment is unacceptable misconduct which affects individuals of all genders and sexual orientations. It is a policy of this Village to prohibit harassment of any person by any municipal official, municipal agent, municipal employee or municipal agency or office on the basis of sex or gender. All municipal officials, municipal agents, municipal employees and municipal agencies or offices are prohibited from sexually harassing any person, regardless of any employment relationship or lack thereof.

22-10-2 DEFINITION OF SEXUAL HARASSMENT. This policy adopts the definition of sexual harassment as stated in the Illinois Human Rights Act, which currently defines sexual harassment as:

(A) Any unwelcome sexual advances or requests for sexual favors or any conduct of a sexual nature when:

- (1) Submission to such conduct is made a term or condition of an individual's employment, either explicitly or implicitly; or
- (2) Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
- (3) Such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

(B) Conduct which may constitute sexual harassment includes, but is not limited to:

- (1) **Verbal Harassment.** Sexual innuendoes, suggestive comments, insults, humor, jokes about: sex, anatomy or gender-specific traits, sexual propositions, threats, repeated requests for dates, or statements of a sexual nature about other employees, even outside of their presence.
- (2) **Non-verbal Harassment.** Suggestive or insulting sounds (whistling), leering, obscene gestures, sexually suggestive bodily gestures, "catcalls", "smacking" or "kissing" noises.
- (3) **Visual.** Posters, signs, pin-ups or slogans of a sexual nature, viewing pornographic material or websites.
- (4) **Physical Harassment.** Touching, unwelcome hugging or kissing, pinching, brushing the body, any coerced sexual act or actual assault.
- (5) **Textual/Electronic Harassment.** "Sexting" (electronically sending messages with sexual content, including pictures or video), the use of sexually explicit language, harassment, cyber stalking and threats via all forms of electronic communication (e-mail, text/picture/ video messages, intranet/on-line postings, blogs, instant messages and posts on social network websites like Facebook and Twitter).

(C) The most severe and overt forms of sexual harassment are easier to determine. On the other end of the spectrum, some sexual harassment is more subtle and depends, to some extent, on individual perception and interpretation. The courts will assess sexual harassment by a standard of what would offend a "reasonable person."

22-10-3 PROCEDURE FOR REPORTING AN ALLEGATION OF SEXUAL HARASSMENT.

(A) An employee who either observes sexual harassment or believes herself/himself to be the object of sexual harassment should deal with the incident(s) as directly and firmly as possible

by clearly communicating his/her position to the offending employee, and his/her immediate supervisor. It is not necessary for sexual harassment to be directed at the person making the report.

(B) Any employee may report conduct which is believed to be sexual harassment, including the following:

- (1) **Electronic/Direct Communication.** If there is sexual harassment behavior in the workplace, the harassed employee should directly and clearly express his/her objection that the conduct is unwelcome and request that the offending behavior stop. The initial message may be verbal. If subsequent messages are needed, they should be put in writing in a note or a memo.
- (2) **Contact with Supervisory Personnel.** At the same time direct communication is undertaken, or in the event the employee feels threatened or intimidated by the situation, the problem must be promptly reported to the immediate supervisor of the person making the report, a department head, a director of human resources, an ethics officer, the village manager or administrator, or the chief executive officer of the Municipality.
The employee experiencing what he/she believes to be sexual harassment must not assume that the employer is aware of the conduct. If there are no witnesses and the victim fails to notify a supervisor or other responsible officer, the Municipality will not be presumed to have knowledge of the harassment.
- (3) **Resolution Outside Municipality.** The purpose of this policy is to establish prompt, thorough and effective procedures for responding to every report and incident so that problems can be identified and remedied by the Municipality. However, all municipal employees have the right to contact the Illinois Department of Human Rights (IDHR) or the Equal Employment Opportunity Commission (EEOC) for information regarding filing a formal complaint with those entities. An IDHR complaint must be filed within **three hundred (300) days** of the alleged incident(s) unless it is a continuing offense. A complaint with the EEOC must also be filed within **three hundred (300) days**.
- (4) **Allegations of Sexual Harassment Made Against an Elected Official of the Governmental Unit by Another Elected Official of a Governmental Unit.** In addition to the methods of reporting included above, an elected official may request an independent review of a complaint of sexual harassment by another elected official. The request shall be made to the human resources director, the village manager or administrator or the chief elected official of the Village. The official receiving the request shall take immediate action in keeping with the procurement process of the Village to retain a qualified individual or entity for the independent review of the allegations of sexual harassment in violation of this policy. The outcome of the independent review shall be reported to the corporate authorities.

(C) Documentation of any incident may be submitted with any report (what was said or done, the date, the time and the location), including, but not limited to, written records such as letters, notes, memos and telephone messages.

(D) All allegations, including anonymous reports, will be accepted and investigated regardless of how the matter comes to the attention of the Municipality. However, because of the serious implications of sexual harassment charges and the difficulties associated with their investigation and the questions of credibility involved, the claimant's willing cooperation is a vital component of an effective inquiry and an appropriate outcome.

22-10-4 PROHIBITION ON RETALIATION FOR REPORTING SEXUAL HARASSMENT ALLEGATIONS.

(A) No municipal official, municipal agency, municipal employee or municipal office shall take any retaliatory action against any municipal employee or official due to a municipal employee's or official's:

- (1) Disclosure or threatened disclosure of any violation of this policy,
- (2) Providing information related to an investigation or testimony before any public body conducting an investigation, hearing or inquiry into any violation of this policy, or
- (3) Assistance with or participation in a proceeding to enforce the provisions of this policy.

(B) For the purposes of this policy, retaliatory action means the reprimand, discharge, suspension, demotion, denial of promotion or transfer, or change in the terms or conditions of employment of any municipal employee that is taken in retaliation for a municipal employee's or official's involvement in protected activity pursuant to this policy.

(C) No individual making a report will be retaliated against, even if a report made in good faith is not substantiated. In addition, any witness will be protected from retaliation.

(D) Similar to the prohibition against retaliation contained herein, the State Officials and Employees Ethics Act (**5 ILCS 430/15-10**) provides whistleblower protection from retaliatory action, and this policy prohibits retaliatory action such as reprimand, discharge, suspension, demotion, or denial of promotion or transfer that occurs in retaliation for an employee who does any of the following:

- (1) Discloses or threatens to disclose to a supervisor or to a public body an activity, policy or practice of any officer, member, agency or other employee that the employee reasonably believes is in violation of a law, rule, or regulation; or
- (2) Provides information to or testifies before any public body conducting an investigation, hearing or inquiry into any violation of a law, rule or regulation by any officer, member, agency or other employee; or
- (3) Assists or participates in a proceeding to enforce the provisions of the State Officials and Employees Ethics Act or this policy.

(E) Pursuant to the Whistleblower Act (**740 ILCS 174/15(a)**), an employer may not retaliate against an employee who discloses information in a court, an administrative hearing, before a legislative commission or committee or in any other proceeding, where the employee has reasonable cause to believe that the information discloses a violation of a State or federal law, rule or regulation. In addition, an employer may not retaliate against an employee for disclosing information to a government or law enforcement agency, where the employee has reasonable cause to believe that the information discloses a violation of a State or federal law, rule or regulation. (**740 ILCS 174/15(b)**).

(F) According to the Illinois Human Rights Act (**775 ILCS 5/6-101**), it is a civil rights violation for a person, or for two or more people to conspire to retaliate against a person because he/she has opposed that which he/she reasonably and in good faith believes to be sexual harassment in employment, because he/she has made a charge, filed a complaint, testified, assisted or participated in an investigation, proceeding or hearing under the Illinois Human Rights Act.

(G) An employee who is suddenly transferred to a lower paying job or passed over for a promotion after filing a complaint with IDHR or EEOC, may file a retaliation charge – either due within **three hundred (300) days** of the alleged retaliation.

22-10-5 CONSEQUENCES OF A VIOLATION OF THE PROHIBITION ON SEXUAL HARASSMENT.

In addition to any and all other discipline that may be applicable pursuant to municipal policies, employment agreements, procedures, employee handbooks and/or collective bargaining agreements, any person who violates this policy or the Prohibition on Sexual Harassment contained in **5 ILCS 430/5-65**, may be subject to a fine of up to **Five Thousand Dollars (\$5,000.00)** per offense, applicable disciplinary actions or discharge by the Municipality and any applicable fines and penalties established pursuant to local ordinance, State law or Federal law. Each violation may constitute a

separate offense. Any discipline imposed by the Municipality shall be separate and distinct from any penalty imposed by an ethics commission and any fines or penalties imposed by a court of law or a State or Federal agency.

22-10-6 CONSEQUENCES FOR KNOWINGLY MAKING A FALSE REPORT. A false report is a report of sexual harassment made by an accuser to accomplish an outcome other than stopping sexual harassment or stopping retaliation for reporting sexual harassment. A false report is not a report made in good faith which cannot be proven. Given the seriousness of the consequences for the accused, a false or frivolous report is a severe offense that can itself result in disciplinary action. Any person who intentionally makes a false report alleging a violation of any provision of this policy shall be subject to disciplinary action or discharge pursuant to applicable municipal policies, employment agreements, procedures, employee handbooks and/or collective bargaining agreements.

In addition, any person who intentionally makes a false report alleging a violation of any provision of the State Officials and Employees Ethics Act to an ethics commission, an inspector general, the Illinois State Police, a State's Attorney, the Attorney General or any other law enforcement official is guilty of a Class A misdemeanor. CHAPTER 23

MANUFACTURED HOUSING CODE
ARTICLE I – GENERAL PROVISIONS

23-1-1 **DEFINITIONS.** The terms used in this Code shall have the following meanings:

"AFFIDAVIT" means an oath in writing, sworn before and attested by an individual who has authority to administer an oath.

"APPLICANT" means any person making application for a license or permit.

"CORPORATE AUTHORITIES" shall mean the Mayor and the Village Board of Trustees.

"IMMOBILIZED MANUFACTURED HOME": As applied to a manufactured home, "immobilize" means to remove the wheels, tongue and hitch and to affix to a permanent foundation. The term implies that, once affixed to a permanent foundation, the destruction of said foundation would be necessary in order to move the dwelling to another location.

"IMMEDIATE FAMILY" means a person's parents, or spouse of a person's parent if that parent has remarried, and siblings, as well as his/her own family. It also refers to a person's spouse and children, as well as individuals not related by blood, such as stepchildren or adopted children. **(Ord. 1032; 3/5/24)**

"LICENSE" means a license certificate issued by the Village allowing a person to operate and maintain a manufactured home park under the provisions of this Code and the rules and regulations issued hereunder.

"LICENSEE" means any person having a license or permit under this Chapter.

"MANUFACTURED HOME" means a structure designed for permanent habitation and so constructed as to permit its transport on wheels, temporarily or permanently attached to its frame, from the place of its construction to the location or subsequent location at which it is intended to be a permanent habitation and designed to permit the occupancy thereof as a dwelling place for one (1) or more persons. The term shall include all manufactured homes either placed in a mobile home park or as a replacement for a mobile home/manufactured home pre-existing outside a mobile home park and shall not be older than seven (7) years of age as evidenced by its date of construction and in accordance with the Federal "National Manufactured Housing Construction and Safety Standards Act of 1974." Compliance with this standard is indicated by a 2-inch by 4-inch metal plate attached to the exterior taillight end of the manufactured home. The average width and/or length of the living area (excluding garages, carports, porches, or attachments) of a manufactured home shall not exceed a ratio of 3 to 1. As with all residences, a manufactured home shall have a minimum 4/12 pitch roof with residential style siding and roofing, six (6) inch minimum eave overhang, and shall have a minimum living area of not less than nine hundred (900) square feet. Provided that any such structure resting on a permanent foundation with wheels, tongue and hitch permanently removed shall not be construed as a "manufactured home", but shall be an "immobilized manufactured home". A manufactured home should not be confused with a "camping trailer" or "recreational vehicle". (See 210 ILCS Sec. 115/2.10) **(Ord. 1032; 3/5/24)**

"MANUFACTURED HOME, DEPENDENT" means a manufactured home which does not have a toilet and bath or shower facilities. **(See 210 ILCS Sec. 115/2.3)**

"MANUFACTURED HOME, DOUBLE-WIDE" consists of **two (2) mobile units** joined at the side into a single home, but kept on their separate chassis for repeated transportation to a site.

"MANUFACTURED HOME, INDEPENDENT" means a manufactured home which has self-contained toilet and bath or shower facilities. **(See 210 ILCS Sec. 115/2.4)**

"MANUFACTURED HOME LOT" means a parcel of land for the placement of a manufactured home and the exclusive use of its occupants.

"MANUFACTURED HOME PAD" means that part of an individual manufactured home space or lot beneath the manufactured home, including the concrete portion of the pad.

"MANUFACTURED HOME PARK" means a tract of land or two (2) or more contiguous tracts of land upon which contain sites with the necessary utilities for two (2) or more independent manufactured homes for permanent habitation either free of charge or for revenue purposes, and shall include any building, structure, vehicle, or enclosure used or intended for use as a part of the equipment of such manufactured home park. Separate ownership of contiguous tracts of land shall not preclude the tracts of land from common licensure as a manufactured home park if they are maintained and operated jointly. Neither an immobilized manufactured home nor a motorized recreational vehicle shall be construed as being a part of a manufactured home park. **(See 210 ILCS Sec. 115/2.5)**

"MANUFACTURED HOME SALES AREA" means a parcel of land used for the display, sale, and repair of new or used manufactured homes.

"MANUFACTURED HOME SPACE" means a portion of a manufactured home park designed for the use or occupancy of **one (1) manufactured home**.

"MANUFACTURED HOUSING UNIT" includes all forms of housing units listed in this Section and as regulated in this Code.

"MOBILE HOME" means a structure designed for permanent habitation and so constructed as to permit its transport on wheels, temporarily or permanently attached to its frame, from the place of its construction to the location or subsequent location at which it is intended to be a permanent habitation and designed to permit the occupancy thereof as a dwelling place for one (1) or more persons. The term "mobile home" shall only include homes either placed in a mobile home park or as a replacement for a mobile home pre-existing outside a mobile home park and shall not be older than seven (7) years of age, in accordance with the Federal "National Manufactured Housing Construction and Safety Standards Act of 1974." **(Ord. 1032; 3/5/24)**

"MODULAR HOME": A modular home is a factory-fabricated single-family home built in **one (1)** or more sections. The average width and/or length of the living area (excluding garages, carports, porches, or attachments) of a modular home shall not exceed a ratio of 3 to 1. All modular homes shall be placed on a full perimeter foundation, extending below the frost depth. All wheels and towing devices shall be removed. As with all residences, a modular home shall have a minimum 4/12 pitch roof with residential style siding and roofing, six (6) inch minimum eave overhang, and shall have a minimum living area of not less than nine hundred (900) square feet. Modular homes shall have a yellow seal in the shape of the State of Illinois on the electrical panel box of the home or on the inside of the kitchen sink cabinet. Local officials may require additional items other than the minimum state requirements such as the National Manufactured Home Construction and Safety Standards (HUD Code) or the International Building Code (IBC). All structures shall be placed on a permanent foundation in order that they may be assessed as real estate.

"OWNER" or "OPERATOR" means the licensee.

"PERMANENT FOUNDATION": A foundation which extends into the ground below the frost line so as to attach and become a part of the real estate. Materials such as concrete, mortared concrete block, poured wall or mortared brick extending into the ground below the frost line shall satisfy the requirement for a permanent foundation. In addition, piers may be used, extending into the ground below the frost line, and sufficient in number to properly support the structure, provided the support beams are affixed to the permanent perimeter foundation.

"REVOCATION" means to declare invalid a permit or license issued to the applicant or licensee by this Village for an indefinite period of time.

"SPACE" shall be synonymous with **"Manufactured Home Space"**.

"SUSPENSION" means to declare invalid a permit or license issued to the applicant or licensee by this Village for a temporary period of time with an expectation of resumption.

23-1-2 STATE REQUIREMENTS ADOPTED BY REFERENCE. The Illinois Manufactured Home Park Act and the Manufactured Home Tiedown Act (77 Ill. Adm. 24-2-3 **SIGNS AND SIGNALS.** It shall be unlawful for the driver of any vehicle to disobey the instructions of any traffic sign or signal placed in view by authority of the corporate authorities or in accordance with the laws of the State of Illinois except upon direction of a police officer. 24-2-4 **UNAUTHORIZED SIGNS.** No person shall place, maintain or display upon or in view of any street, any unauthorized sign, signal, marking, light, reflector or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal, or which attempts to direct the movement of traffic, nor shall any person or place, maintain or display upon or in view of any street, any other sign which hides from view or interferes with the movement of traffic or effectiveness of any traffic-control device or any railroad sign or signal, and no person shall place or maintain, nor shall any public authority permit upon any highway, any traffic sign or signal bearing thereon any commercial advertising. No tree, bush or foliage of any kind shall be so placed, maintained, allowed to remain, or be displayed upon either public or private property in such a manner as to hide from view or interfere with the movement of traffic or the effectiveness of any traffic-control device, sign or signal.

24-2-7 ANIMALS OR BICYCLES. Any person riding a bicycle or an animal or driving any animal drawing a vehicle upon any street shall be subject to the provisions of this Code applicable to the driver of a vehicle, except those provisions which can have no application to one riding a bicycle or driving or riding an animal. **(625 ILCS 5/11-206)**

24-2-8 LAMPS AND OTHER EQUIPMENT ON BICYCLES.

(A) Every bicycle, when in use at nighttime, shall be equipped with a lamp on the front which shall emit a white light visible from a distance of at least **five hundred (500) feet** to the front and with a red reflector on the rear of a type approved by the Department which shall be visible from all distances of **one hundred (100) feet to six hundred (600) feet** to the rear when directly in front of lawful lower beams of headlights on a motor vehicle. A lamp emitting a red light visible from a distance of **five hundred (500) feet** to the rear may be used in addition to the red reflector.

(B) A bicycle shall not be equipped with, nor shall any person use any siren upon a bicycle.

(C) Every bicycle shall be equipped with a brake which will adequately control movement of and stop and hold such bicycle.

(D) No person shall sell a new bicycle or pedal for use on a bicycle that is not equipped with a reflex reflector or conforming to specifications prescribed by the State on each pedal, visible from the front and rear of the bicycle during darkness from a distance of **two hundred (200) feet**.

(E) No person shall sell or offer for sale a new bicycle that is not equipped with side reflectors. Such reflectors shall be visible from each side of the bicycle from a distance of **five hundred (500) feet** and shall be essentially colorless or red to the rear of the center of the bicycle and essentially colorless or amber to the front of the center of the bicycle provided. The requirements of this paragraph may be met by reflective materials which shall be at least **three-sixteenths of an inch (3/16th)** wide on each side of each tire or rim to indicate as clearly as possible the continuous circular shape and size of the tires or rims of such bicycle and which reflective materials may be of the same color on both the front and rear tire or rim. Such reflectors shall conform to specifications prescribed by the State.

(F) No person shall sell or offer for sale a new bicycle that is not equipped with an essentially colorless front-facing reflector.

(G) Any person charged with a violation of this Section shall pay a fine of **One Dollar (\$1.00)** for the first offense and for a similar charge during the same year a fine of **Five Dollars (\$5.00)**. **(See 625 ILCS 5/11-1507)**

ARTICLE III - STOP AND THROUGH STREETS

24-3-1 THROUGH STREETS. The streets and parts of streets of the Village designated by ordinance as "through streets" are hereby declared to be through streets. The driver of a vehicle shall stop at the entrance to a through street and shall yield the right-of-way to other vehicles which have entered the intersection or which are approaching so close on a through street as to constitute an immediate hazard unless directed otherwise by the traffic officer. See **Schedule "A"** for applicable through and stop streets.

24-3-2 ONE-WAY STREETS OR ALLEYS. It shall be unlawful to operate any vehicle on any streets or alleys designated as one-way streets or alleys by ordinance in any direction other than that so designated. See **Schedule "B"** for the designated one-way streets and alleys. **(625 ILCS 5/11-208)**

24-3-3 STOP STREETS. The driver of a vehicle shall stop in obedience to a stop sign at an intersection where a stop sign is erected pursuant to ordinance at one or more entrances thereto and shall proceed cautiously, yielding to the vehicles not so obliged to stop which are within the intersection or approaching so close as to constitute an immediate hazard, unless traffic at such intersection is controlled by a police officer on duty, in which event, the directions of the police officer shall be complied with. See **Schedule "A"** for designated stop intersections. **(625 ILCS 5/11-302)**

24-3-4 YIELD RIGHT-OF-WAY STREETS. The driver of a vehicle approaching a yield sign, in obedience to such sign, shall slow down to a speed reasonable for the existing conditions and if required for safety to stop, shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway. After slowing or stopping, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection. **(See Schedule "C")**

24-3-5 POSTING SIGNS. Appropriate signs shall be posted to show all through, stop and yield right-of-way streets, all one-way streets and alleys and all stop intersections. **(625 ILCS 5/11-304)**

ARTICLE IV - DRIVING RULES

24-4-1 **ILLINOIS VEHICLE CODE; RULES OF THE ROAD ADOPTED.** The Illinois Vehicle Code, **Illinois Compiled Statutes, Chapter 625, 5/11-100 et seq.**, entitled "**Rules of the Road**", as passed, approved and amended by the Illinois General Assembly is hereby adopted by the Village and the provisions thereof shall be controlling within the corporate limits of the Village except for the following changes, deletions and omissions:

- (A) **Omissions:**
 - (1) Omit Sections 11-207, 11-208.1, 11-208.2, 11-209.1, 11-302, 11-303, 11-310(f), 11-313, 11-401 to and including 11-416, 11-500 to and including 11-502, 11-602, 11-603, 11-604, 11-606(b), 11-608, 11-1419, and 11-1422.
- (B) **Changes and Additions:**
 - (1) Change 11-904(a) to read: "Preferential right-of-way at an intersection may be indicated by stop or yield signs as authorized by this Code."
 - (2) Change 11-1416(a) to read: "Any person who shall willfully and unnecessarily attempt to delay, hinder or obstruct any other person in lawfully driving and traveling upon or along any highway within this State or who shall offer for barter or sale, merchandise on said highway so as to interfere with the effective movement of traffic shall, upon conviction, be guilty of a violation of this Code."

24-4-2 **DRIVING RULES.**

(A) **Careless Driving.** It shall be unlawful to operate a vehicle in the Village in a careless manner so as to interfere with the safe or lawful operation of any other vehicle or so as to interfere with or to injure, damage, or endanger persons or property engaged in the lawful use of the street.

(B) **Drag Racing.** No person shall participate within the Village in drag racing as such activity is defined by **625 ILCS 5/11-504.**

(C) **Fleeing or Attempting to Elude Police Officer.** Any driver or operator of a motor vehicle who, having been given a visual or audible signal by a police officer directing such driver or operator to bring his vehicle to a stop, willfully fails to or refuses to obey such direction, increases his speed, extinguishes his lights or otherwise flees or attempts to elude the officer is guilty of a violation of this Chapter. The signal given by the police officer may be by hand, voice, siren, red or blue light. Provided, however, the officer giving such signal shall be in police uniform and if driving a vehicle, such vehicle shall be marked showing it to be an official police vehicle.

(D) **Unlawful Possession of Highway Sign or Marker.** Traffic control signals, signs or markers owned by the Village shall be possessed only by the Village's employees, police officers, contractors, or their employees engaged in highway construction, contract or work upon the roadways or public ways approved by the Village. No person shall possess a traffic control signal, sign or marker owned by the Village except as provided in this paragraph without the prior written authority of the Village. It shall be a violation of this Chapter for a person to possess such a traffic control signal, sign or marker without lawful authority. (**625 ILCS 5/11-313**)

(E) **Special Speed Limitations on Elevated Structures.** No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure when such structure is sign-posted.

Upon the trial of any person charged with the violation of this Section, proof of the determination of the maximum speed by the Village and the existence of such signs is conclusive evidence of the maximum speed which can be maintained with safety to such bridge or structure. (**625 ILCS 5/11-608**)

(F) **General Speed Restrictions.** The speed limits on the various streets shall be approved by the Village Board, but shall not exceed **twenty miles per hour (20 MPH)** in a school zone

and not to exceed **twenty-five miles per hour (25 MPH)** on a residential street; otherwise, **thirty miles per hour (30 MPH)** on an arterial street unless otherwise posted. **(See Schedule "D") (625 ILCS 5/11-604) (65 ILCS 5/11-40-1)**

(G) **Special Speed Limit While Passing Schools.** No person shall drive a motor vehicle at a speed in excess of **twenty miles per hour (20 MPH)** while passing a school zone or while traveling upon any public thoroughfare on or across which children pass going to and from school during school days when school children are present.

This section shall not be applicable unless appropriate signs are posted upon streets and maintained by the Village or State wherein the school zone is located. **(625 ILCS 5/11-605)**

(H) **Failure to Reduce Speed.** A vehicle shall be driven upon the streets and alleys of this Village at a speed which is reasonable and proper with regard to traffic conditions and the use of the street or alley. The fact that the vehicle does not exceed the applicable maximum speed limit does not relieve the driver of the duty to decrease speed when approaching and crossing an intersection or when special hazard exists with respect to pedestrian or other traffic or by reason of weather or highway conditions. Speed must be decreased as may be necessary to avoid colliding with any person or vehicle on or entering the highway in compliance with legal requirements and the duty of all persons to use due care.

(I) **Traffic Lane Usage.** Whenever any roadway within the Village has been divided into **two (2)** or more clearly marked lanes for traffic, a vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(J) **U-Turns Prohibited.** No driver of a vehicle shall make a "U-turn" on any street or at any intersection of any streets in the Village.

24-4-3 DUTY TO REPORT ACCIDENT. The driver of a vehicle which is in any manner involved in an accident within the Village shall, without unnecessary delay, notify the Police Department and shall make a report of such action. Failure to report an accident within the Village within **twenty-four (24) hours** shall result in arrests of the person or persons involved. **(625 ILCS 5/11-415)**

24-4-4 TRANSPORTING LIQUOR IN VEHICLES. No person shall transport, carry, possess or have any alcoholic liquor within the passenger area of any motor vehicle in this Village except in the original container and with the seal unbroken. **(625 ILCS 5/11-502)**

24-4-5 EXCESSIVE NOISE - STOPPED VEHICLE. No operator of a motor vehicle shall, when the motor vehicle is stopped, unreasonably accelerate the engine thereof with the gears of the vehicle in neutral, thereby causing an unreasonably loud or excessive noise.

24-4-6 EXCESSIVE NOISE - WHEELS. No operator of a motor vehicle shall when the motor vehicle is stopped, accelerate the engine with the gears of such vehicle in neutral and while so accelerating the engine, shift the gears of the vehicle into a forward or reverse movement, thereby causing an unreasonably loud noise with the drive wheels of the vehicle.

24-4-7 EXCESSIVE NOISE - SQUEALING TIRES. No operator of a motor vehicle shall cause the wheels of such vehicle to spin violently, thereby causing an unreasonably loud or excessive noise. **(625 ILCS 5/11-505)**

24-4-8 RECKLESS, NEGLIGENT OR CARELESS DRIVING. It shall be unlawful to operate any vehicle in the Village in a careless, reckless, negligent or wanton manner, or carelessly so as to endanger life or property.

24-4-9 EXCESSIVE NOISE WHILE DRIVING. No operator of a motor vehicle shall, when operating the vehicle, accelerate the vehicle or rapidly stop the vehicle causing an unreasonably loud noise.

24-5-3 **SOUND AMPLIFICATION SYSTEM.** No driver of any motor vehicle within this Village shall operate or permit operation of any sound amplification system which can be heard outside the vehicle from **seventy-five (75) feet** or more when the vehicle is being operated upon a highway, unless such system is being operated to request assistance or warn of a hazardous situation. This Section shall not apply to authorized emergency vehicles. **(625 ILCS 5/12-611)**

24-5-4 **EXCESSIVE ENGINE BRAKING NOISE PROHIBITED.** It shall be unlawful for an operator of a commercial vehicle as defined in **625 ILCS 5/1-111.8** to operate or actuate any engine braking system within the Village that emits excessive noise unless it is an emergency. The Superintendent is authorized and directed to post signs stating: "**EXCESSIVE ENGINE BRAKING NOISE PROHIBITED**" at appropriate locations. **(625 ILCS 5/12-602.1)**

(B) **Village Parking Lots.** No person shall park a motor vehicle on a Village parking lot unattended for more than **five (5) consecutive days**.

24-6-10 PRIMA FACIE PROOF. The fact that a vehicle which is illegally parked or operated is registered in the name of a person shall be considered prima facie proof that such person was in control of the vehicle at the time of such violation.

24-6-11 SNOW ROUTES. It shall be unlawful to park a vehicle on the following designated streets in **Schedule "K"** at any time within **eighteen (18) hours** after a snowfall of **three (3) inches** or more, unless the street has been cleared of snow.

24-6-12 PARKING TICKETS - STATE STATUTE. The Village Board intends to utilize **Illinois Compiled Statutes, Chapter 625; Section 5/6-306.5** and the procedure set forth therein.

The appropriate authorities are hereby authorized to utilize the statute and the procedure set forth therein.

**ARTICLE VII – ABANDONED, LOST, STOLEN OR
UNCLAIMED VEHICLES**

24-7-1 **DEFINITIONS.** For the purpose of this Code, the following words shall have the meanings ascribed to them as follows:

“ABANDONED VEHICLE” shall mean all motor vehicles or other vehicles in a state of disrepair, rendering the vehicle incapable of being driven in its condition; or any motor vehicle or other vehicle that has not been moved or used for **seven (7) consecutive days** or more and is apparently deserted.

“ANTIQUE VEHICLE” means any motor vehicle or other vehicle **twenty-five (25) years** of age or older.

“COMPONENT PART” means any part of a vehicle other than a tire having a manufacturer’s identification number or an identification number issued by the Secretary of State.

“DERELICT VEHICLE” means any inoperable, unregistered, or discarded motor vehicle, regardless of title, having lost its characteristic as a substantial property and left unattended without justification on the owner’s, lienholder’s or other legally entitled person’s land contrary to the public policy expressed in this Code.

“HIGHWAY” means any street, alley or public way within this municipality.

“REMOVE” means to remove, deface, cover, or destroy.

“VEHICLE” means every device in, upon or by which any person or property is or may be transported or drawn upon a street or highway, whether subject to or exempt from registration, excepting, however, bicycles, snowmobiles and devices used exclusively upon stationary rails or tracks. **(See 625 ILCS 5/4-201)**

24-7-2 **ABANDONMENT OF VEHICLES PROHIBITED.**

(A) The abandonment of a vehicle or any part thereof on any highway in this Village is unlawful and subject to penalties as set forth under **Section 1-1-20** of this Code.

(B) The abandonment of a vehicle or any part thereof on private or public property, other than a highway, in view of the general public, anywhere in this Village is unlawful except on property of the owner or bailee of such abandoned vehicle. A vehicle or any part thereof so abandoned on private property shall be authorized for removal, by the Village, after a waiting period of **seven (7) days** or more, or may be removed immediately if determined to be a hazardous dilapidated motor vehicle under Section 5/11-40-3.1 of the Illinois Municipal Code. A violation of subsections (A) or (B) of this Section is subject to penalties as set forth under **Section 1-1-20** of this Code.

(C) A towing service may begin to process an unclaimed vehicle as abandoned by requesting a record search by the Secretary of State up to **ten (10) days** after the date of the tow, or any later date acceptable to the Secretary of State. This paragraph shall not apply to vehicles towed by order or authorization of the Village or a law enforcement agency. **(625 ILCS 5/4-201)**

24-7-3 **ABANDONED, LOST, STOLEN OR UNCLAIMED VEHICLE NOTIFICATION
TO LAW ENFORCEMENT AGENCIES.** When an abandoned, lost, stolen or unclaimed vehicle comes into the temporary possession or custody of a person in this Village, not the owner of the vehicle, such person shall immediately notify the municipal police when the vehicle is within the corporate limits of any Village having a duly authorized police department, or the State Police or the county sheriff when the vehicle is outside the corporate limits of the Village. Upon receipt of such notification, the municipal

police will authorize a towing service to remove and take possession of the abandoned, lost, stolen or unclaimed vehicle. The towing service will safely keep the towed vehicle and its contents, maintain a record of the tow as set forth in **625 ILCS 5/4-204** for law enforcement agencies, until the vehicle is claimed by the owner or any other person legally entitled to possession thereof or until it is disposed of as provided in this Code. **(625 ILCS 5/4-202)**

24-7-4 REMOVAL OF MOTOR VEHICLES OR OTHER VEHICLES; TOWING OR HAULING AWAY.

(A) When a vehicle is abandoned on a highway in an urban district **ten (10) hours** or more, its removal by a towing service may be authorized by a law enforcement agency having jurisdiction.

(B) When a vehicle is abandoned or left unattended on a highway other than a toll highway, interstate highway, or expressway, outside of an urban district for **twenty-four (24) hours** or more, its removal by a towing service may be authorized by a law enforcement agency having jurisdiction.

(C) When an abandoned, unattended, wrecked, burned or partially dismantled vehicle is creating a traffic hazard because of its position in relation to the highway or its physical appearance is causing the impeding of traffic, its immediate removal from the highway or private property adjacent to the highway by a towing service may be authorized by a law enforcement agency having jurisdiction.

24-7-5 POLICE TOWS; REPORTS, RELEASE OF VEHICLES, PAYMENT. When a vehicle is authorized to be towed away as provided in **Section 24-7-3** or **24-7-4**:

(A) The authorization, any hold order, and any release shall be in writing, or confirmed in writing, with a copy given to the towing service.

(B) The police headquarters or office of the law officer authorizing the towing shall keep and maintain a record of the vehicle towed, listing the color, year of manufacture, manufacturer's trade name, manufacturer's series name, body style, Vehicle Identification Number, license plate year and number and registration sticker year and number displayed on the vehicle. The record shall also include the date and hour of tow, location towed from, location towed to, reason for towing and the name of the officer authorizing the tow.

(C) The owner, operator, or other legally entitled person shall be responsible to the towing service for payment of applicable removal, towing, storage, and processing charges and collection costs associated with a vehicle towed or held under order or authorization of the law enforcement agency. If a vehicle towed or held under order or authorization of a law enforcement agency is seized by the ordering or authorizing agency or any other law enforcement or governmental agency and sold, any unpaid removal, towing, storage, and processing charges and collection costs shall be paid to the towing service from the proceeds of the sale. If applicable law provides that the proceeds are to be paid into the treasury of the appropriate civil jurisdiction, then any unpaid removal, towing, storage, and processing charges and collection costs shall be paid to the towing service from the treasury of the civil jurisdiction. That payment shall not, however, exceed the amount of proceeds from the sale, with the balance to be paid by the owner, operator, or other legally entitled person.

(D) Upon delivery of a written release order to the towing service, a vehicle subject to a hold order shall be released to the owner, operator, or other legally entitled person upon proof of ownership or other entitlement and upon payment of applicable removal, towing, storage, and processing charges and collection costs. **(625 ILCS 5/4-204)**

24-7-6 RECORD SEARCHES FOR UNKNOWN OWNER.

(A) When a law enforcement agency authorizing the impounding of a vehicle does not know the identity of the registered owner, lienholder or other legally entitled person, that law

enforcement agency will cause the vehicle registration records of the State of Illinois to be searched by the Secretary of State for the purpose of obtaining the required ownership information.

(B) The law enforcement agency authorizing the impounding of a vehicle will cause the stolen motor vehicle files of the State Police to be searched by a directed communication to the State Police for stolen or wanted information on the vehicle. When the State Police files are searched with negative results, the information contained in the National Crime Information Center (NCIC) files will be searched by the State Police. The information determined from these record searches will be returned to the requesting law enforcement agency for that agency's use in sending a notification by certified mail to the registered owner, lienholder and other legally entitled persons advising where the vehicle is held, requesting a disposition be made and setting forth public sale information. Notification shall be sent no later than **ten (10) business days** after the date the law enforcement agency impounds or authorizes the impounding of a vehicle, provided that if the law enforcement agency is unable to determine the identity of the registered owner, lienholder or other person legally entitled to ownership of the impounded vehicle within a **ten (10) business day period** after impoundment, then notification shall be sent no later than **two (2) days** after the date the identity of the registered owner, lienholder or other person legally entitled to ownership of the impounded vehicle is determined. Exceptions to a notification by certified mail to the registered owner, lienholder and other legally entitled persons are set forth in **625 ILCS 5/4-209**.

(C) When ownership information is needed for a towing service to give notification as required under this Code, the towing service may cause the vehicle registration records of the State of Illinois to be searched by the Secretary of State.

The written request of a towing service, in the form and containing the information prescribed by the Secretary of State by rule, may be transmitted to the Secretary of State in person, by U.S. Mail or other delivery service, by facsimile transmission, or by other means the Secretary of State deems acceptable.

The Secretary of State shall provide the required information, or a statement that the information was not found in the vehicle registration records of the State, by U.S. Mail or other delivery service, facsimile transmission, as requested by the towing service, or by other means acceptable to the Secretary of State.

(D) The Secretary of State may prescribe standards and procedures for submission of requests for record searches and replies via computer link.

(E) Fees for services provided under this Section shall be in amounts prescribed by the Secretary of State under Section 3-821.1 of the Illinois Municipal Code. Payment may be made by the towing service using cash, any commonly accepted credit card, or any other means of payment deemed acceptable by the Secretary of State. **(625 ILCS 5/4-205)**

24-7-7 IDENTIFYING AND TRACING OF VEHICLE. When the registered owner, lienholder or other person legally entitled to the possession of a vehicle cannot be identified from the registration files of this State or from the registration files of a foreign state, if applicable, the law enforcement agency having custody of the vehicle shall notify the State Police, for the purpose of identifying the vehicle owner or other person legally entitled to the possession of the vehicle. The information obtained by the State Police will be immediately forwarded to the law enforcement agency having custody of the vehicle for notification purposes as set forth in **Section 24-7-6** of this Code. **(625 ILCS 5/4-206)**

24-7-8 RECLAIMED VEHICLES; EXPENSES.

(A) Any time before a vehicle is sold at public sale or disposed of as provided in **Section 24-7-9**, the owner, lienholder or other person legally entitled to its possession may reclaim the vehicle by presenting to the law enforcement agency having custody of the vehicle proof of ownership or proof of the right to possession of the vehicle.

(B) No vehicle shall be released to the owner, lienholder, or other person under this Section until all towing, storage, and processing charges have been paid. **(625 ILCS 5/4-207)**

24-7-9 DISPOSAL OF UNCLAIMED VEHICLE.

(A) When an abandoned, lost, stolen or unclaimed vehicle **seven (7) years** of age or newer remains unclaimed by the registered owner, lienholder or other legally entitled person for a period of **thirty (30) days** after notice has been given as provided in **Sections 24-7-6** and **24-7-7** of this Article, the law enforcement agency or towing service having possession of the vehicle shall cause it to be sold at public auction to a person licensed as an automotive parts recycler, rebuilder or scrap processor under **Article 5 of Chapter 625 of the Illinois Compiled Statutes** or the towing operator which towed the vehicle. Notice of the time and place of the sale shall be posted in a conspicuous place for at least **ten (10) days** prior to the sale on the premises where the vehicle has been impounded. At least **ten (10) days** prior to the sale, the law enforcement agency where the vehicle is impounded, or the towing service where the vehicle is impounded, shall cause a notice of the time and place of the sale to be sent by certified mail to the registered owner, lienholder, or other legally entitled persons. Notice as provided in **Sections 24-7-6** and **24-7-7** of this Article as provided in this Section shall state the time and place of sale and shall contain a complete description of the vehicle to be sold and what steps must be taken by any legally entitled persons to reclaim the vehicle.

(B) If an abandoned, lost, stolen, or unclaimed vehicle displays dealer plates, notice under this Section and **Section 24-7-10** of this Code shall be sent to both the dealer and the registered owner, lienholder, or other legally entitled persons.

(C) In those instances where the certified notification specified in **Section 24-7-6** and **24-7-7** of this Article has been returned by the postal authorities to the law enforcement agency or towing service, the sending of a second certified notice will not be required. **(625 ILCS 5/4-208)**

24-7-10 DISPOSAL OF UNCLAIMED VEHICLES WITHOUT NOTICE.

(A) **New Car.** When the identity of the registered owner, lienholder, or other person legally entitled persons of an abandoned, lost, or unclaimed vehicle of **seven (7) years** of age or newer cannot be determined by any means provided for in this Article, the vehicle may be sold as provided for in **Section 24-7-9** without notice to any person whose identity cannot be determined.

(B) **Old Car.** When an abandoned vehicle of more than **seven (7) years** of age is impounded as specified by this Article, or when any such vehicle is towed at the request or with the consent of the owner or operator and is subsequently abandoned, it will be kept in custody or storage for a minimum of **ten (10) days** for the purpose of determining the identity of the registered owner, lienholder, or other legally entitled persons and contacting the registered owner, lienholder, or other legally entitled persons by the U.S. Mail, public service or in person for a determination of disposition; and an examination of the State Police stolen vehicle files for theft and wanted information. At the expiration of the **ten (10) day** period, without the benefit of disposition information being received from the registered owner, lienholder, or other legally entitled persons, the vehicle may be disposed of in either of the following ways:

- (1) The law enforcement agency having jurisdiction will authorize the disposal of the vehicle as junk or salvage.
- (2) The towing service may sell the vehicle in the manner provided in **Section 24-7-9** of this Article, provided that the paragraph shall not apply to vehicles towed by order or authorization of a law enforcement agency.

(C) **Antique Vehicle.** A vehicle classified as an antique vehicle, custom vehicle, or street rod may, however, be sold to a person desiring to restore it. **(625 ILCS Sec. 5/4-209)**

24-7-11 DISPOSAL OF HAZARDOUS DILAPIDATED MOTOR VEHICLES. Any hazardous dilapidated motor vehicle impounded pursuant to the provisions of this Article and **65 ILCS 5/11-40-3.1**, whether impounded at a public facility or on the property of private towing service, shall be kept in custody for a period of **ten (10) days** for the purpose of determining the identity of the registered owner or lienholder and contacting such owner or lienholder, if known, by regular U.S. Mail.

At the expiration of the **ten (10) day** period, without benefit of disposition information being received from the registered owner or lienholder, the law enforcement agency having jurisdiction will authorize the disposal of the vehicle as junk. **(65 ILCS 5/4-209.1)**

24-7-12 COLLECTION OF UNPAID CHARGES. In an action to collect towing, storage, and processing charges that remain unpaid after disposition of a vehicle towed or relocated under this Code, the towing service may recover reasonable collection costs.

24-7-13 POLICE RECORD FOR DISPOSED VEHICLE. When a vehicle in the custody of the Village or law enforcement agency is reclaimed by the registered owner, lienholder or other legally entitled person, or when the vehicle is sold at public sale or otherwise disposed of as provided in this Article, a report of the transaction will be maintained by that law enforcement agency for a period of **one (1) year** from the date of the sale or disposal. **(625 ILCS 5/4-210)**

24-7-14 PUBLIC SALE PROCEEDS; DISPOSITION OF.
 (A) When a vehicle located within the corporate limits is authorized to be towed away by a law enforcement agency having jurisdiction and disposed of as set forth in this Article, the proceeds of the public sale or disposition after the deduction of towing, storage and processing charges shall be deposited in the treasury of the Municipality.
 (B) The provisions of this Section shall not apply to vehicles disposed of or sold at public sale under subsection (k) of **625 ILCS 5/4-107** of the Illinois Vehicle Code. **(625 ILCS 5/4-211)**

24-7-15 LIABILITY OF LAW ENFORCEMENT OFFICERS.
 (A) A law enforcement officer or agency, a department of municipal government designated under **625 ILCS 5/4-212.1** or its officers or employees, or a towing service owner, operator, or employee shall not be held to answer or be liable for damages in any action brought by the registered owner, former registered owner, or his legal representative, lienholder or any other person legally entitled to the possession of a vehicle when the vehicle was processed and sold or disposed of as provided by this Article.
 (B) A towing service, and any of its officers or employees, that removes or tows a vehicle as a result of being directed to do so by a law enforcement officer or agency or a department of municipal government or its officers or employees shall not be held to answer or be liable for injury to, loss of, or damages to any real or personal property that occurs in the course of the removal or towing of a vehicle or its contents on a limited access highway in a designated Incident Management Program that uses fast lane clearance techniques as defined by the Department of Transportation. **(625 ILCS 5/4-213)**

24-7-16 VIOLATIONS OF ARTICLE.
 (A) Any person who violates **Section 24-7-25** of this Article or who aids and abets in that violation:
 (1) shall be subject to a mandatory fine of **Two Hundred Dollars (\$200.00)**; and
 (2) shall be required by the court to make a disposition on the abandoned or unclaimed vehicle and pay all towing, storage, and processing charges and collection costs pursuant to **Section 24-7-4(A) and (E)**.

(B) When a vehicle is abandoned, it shall be presumed that the last registered owner is responsible for the abandonment and shall be liable for all towing, storage, and processing charges and collection costs, less any amounts realized in the disposal of the vehicle. The last registered owner's liability for storage fees may not exceed a maximum of **thirty (30) days'** storage fees.

The presumption established under this paragraph may be rebutted by a showing that, prior to the time of the tow:

- (1) a report of vehicle theft was filed with respect to the vehicle; or
- (2) the vehicle was sold or transferred and the last registered owner provides the towing service with the correct identity and address of the new owner at the time of the sale or transfer.

If the presumption established under this Section is rebutted, the person responsible for theft of the vehicle or to whom the vehicle was sold or transferred is liable for all towing, storage, and processing charges and collection costs. **(625 ILCS 5/4-214)**

ARTICLE VIII – INTOXICATED DRIVING

24-8-1 PERSON INTOXICATED. No person who is under the influence of intoxicating liquor may drive or be in actual physical control of any vehicle within this Village.

24-8-2 PERSON ON DRUGS. No person who is a habitual user of or under the influence of any narcotic drug or who is under the influence of any other drug to a degree which renders him incapable of safely driving a vehicle may drive or be in actual physical control of any vehicle within this Village. The fact that a person charged with a violation of this paragraph is or has been entitled to use such drug under the law of this State does not constitute a defense against any charge of violation of this Section.

24-8-3 BLOOD TESTS. Upon the trial of any action or proceeding arising out of the acts alleged to have been committed by any person while driving or in physical control of the vehicle under the influence of intoxicating liquor, evidence of the amount of alcohol in the person's blood at the time of the act alleged as shown by a chemical analysis of his breath, blood, urine, saliva or other bodily substance is admissible, as provided hereinafter and the result of any such analysis shall give rise to the following presumptions:

(A) If there was, at the time of such analysis, 0.05 percent or less by weight of alcohol in the person's blood, it shall be presumed that the person was not under the influence of intoxicating liquor.

(B) If there was, at the time of such analysis, in excess of 0.05 percent, but not less than 0.10 percent by weight of alcohol in the person's blood, such fact shall not give rise to any presumption that the person was or was not under the influence of intoxicating liquor, but such fact may be considered with other competent evidence in determining whether such person was under the influence of intoxicating liquor.

(C) If there was, at the time of such analysis, 0.10 percent or more by weight of alcohol in the person's blood, it shall be presumed that the person was under the influence of intoxicating liquor.

Percent by weight of alcohol in the blood shall be based upon grams of alcohol per **one hundred (100) cubic centimeters** of blood. Evidence based upon a chemical analysis of blood, urine, breath or other bodily substance shall not be admitted unless such substance was produced and such analysis made with the consent of the person as provided by State law, as amended, whose bodily substance was so analyzed.

The foregoing provisions of this subsection shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether or not the person being tried was under the influence of intoxicating liquor.

24-8-4 ADOPTION OF STATUTES. The provisions of the **Illinois Compiled Statutes**, as amended, regarding standards for chemical analysis and the evidentiary use thereof shall be observed.

ARTICLE IX – OPERATION OF NON-HIGHWAY VEHICLES

24-9-1 UNLAWFUL OPERATIONS. It shall be lawful for any person who has attained the age of **eighteen (18) years** or older to operate non-highway or low speed vehicles that are identified, defined, and specified by state statutory enactments **625 ILCS 5/11-1426.1** and **625 ILCS 5/11-1426.2** as well as all other statutory enactments cited within or referenced by said statutes.

24-9-2 STATE STATUTES APPLICABLE. Any person who operates a low speed or non-highway vehicle at any time over and upon municipal streets or roadways within the Village shall at all times and under all circumstances conform to and be in absolute compliance with all terms, provisions, conditions and limitations stated, described, defined, or imposed by the following state statutes: **625 ILCS 5/11-1426.1, 625 ILCS 5/11-1426.2, 625 ILCS 5/12-709, 625 ILCS 5/11-201, 625 ILCS 5/11-1427.3, 625 ILCS 5/11-1427, 625 ILCS 5/1-101.8, 625 ILCS 5/1-123.9, 625 ILCS 5/1-153.1, 625 ILCS 5/1-158.8, 625 ILCS 5/3-805.5, 625 ILCS 5/11-1427.5.**

24-9-3 REQUIRED PERMIT. No person shall operate a low speed or non-highway vehicle as defined by the statutes cited and specified herein on any municipal streets or roadways located within the geographic boundaries of the Village unless said person obtains a permit issued by the Village pursuant to the terms and provisions specified herein. **(See Appendix "A" and "B")**

(A) Any and all permits issued hereunder shall be granted for a period not to exceed **one (1) year** and shall be renewed annually.

(B) Permits shall be issued only to applicants who own the low-speed or non-highway vehicle which is the subject of said permit.

(C) The cost of said permit shall be **Twenty-Five Dollars (\$25.00)** for Village residents and **Thirty Dollars (\$30.00)** for non-residents whether issued initially or for renewal.

(D) A permit shall be required for each and every vehicle any person seeks to operate on any street or roadway within geographic boundaries of the Village.

(E) Permit stickers shall be attached to the rear of every low-speed or non-highway vehicle and shall be clearly visible.

(F) Every person who requests a permit shall complete in full an application supplied by the Village which shall require the following information:

(1) Name and address of the applicant.

(2) The serial number, make, model, and description of each low-speed or non-highway vehicle that the applicant seeks to operate on the streets and roadways of the Village.

(3) A copy of the liability coverage insurance policy issued specifically for the vehicle which applicant proposes to operate pursuant to the permit.

(G) A physically handicapped applicant or other person who seeks to operate any said vehicle shall submit a certificate signed by a physician under oath, certifying that said person is able to safely operate said low-speed or non-highway vehicle on Village streets and roadways.

(H) The Village may suspend or revoke any permit granted hereunder upon a finding by the Board of Trustees that the holder thereof has violated any provision of this Article or there is evidence that the permittee cannot safely operate a low-speed or non-highway vehicle upon the street or roadway of the Village.

(I) No permit shall be granted unless the low speed or non-highway vehicle which is the subject of the permit requested is inspected by the Chief of Police or other law enforcement officer designated by him to act on his behalf in order to determine that said vehicle is in full compliance with the statutory provisions specified herein, that said vehicle contains or has attached thereto all of the equipment required by said statutory provisions, that the vehicle is safe to operate on Village streets and roadways and that said vehicle is in full compliance with all other ordinances of the Village as well as the State of Illinois Motor Vehicle Code.

24-9-4 **PENALTY.** Any person convicted of any violation of any provision or term of this Article shall be fined not less than **Seventy-Five Dollars (\$75.00)**, no more than **Seven Hundred Fifty Dollars (\$750.00)** for any one (1) offense. A separate offense shall be deemed committed upon each day such duty or obligation remains unperformed or such violation continues. (**Ord. No. 896; 12-19-17**)

ARTICLE XI – ADULT USES REGULATED

27-11-1 PURPOSE AND ADDITIONAL FINDINGS.

(A) **Purpose.** It is the purpose of this Article to regulate public nudity in order to promote the health, safety, morals, and general welfare of the citizens of the Village. The provisions of this Article have neither the purpose nor effect of imposing a limitation or restriction on the content of any communicative materials.

(B) **Findings.** The Village Board finds:

- (1) Public places allowing nudity lend themselves to ancillary unlawful and unhealthy activities that are presently uncontrolled.
- (2) Sexual acts, including masturbation, and oral and anal sex, occur at adult oriented businesses, especially those which provide private or semi-private booths or cubicles for viewing films, videos, live sex shows or public nudity.
- (3) Allowing public nudity creates unhealthy conditions.
- (4) Persons frequent certain adult theaters, adult arcades, and other adult oriented businesses for the purpose of engaging in sex within the premises of such adult oriented businesses.
- (5) At least **fifty (50)** communicable diseases may be spread by activities occurring in adult oriented businesses involving public nudity, including, but not limited to, syphilis, gonorrhea, human immunodeficiency virus infection (HIV-AIDS), genital herpes, hepatitis B, Non A, Non B amebiasis, salmonella infections and shigella infections.
- (6) Since 1981 and to the present, there has been an increasing cumulative number of reported cases of AIDS caused by the human immunodeficiency virus (HIV) in the United States.
- (7) The Surgeon General of the United States in his report of **October 22, 1986**, has advised the American public that AIDS and HIV infection may be transmitted through sexual contact, intravenous drug abuse, exposure to infected blood and blood components, and from an infected mother to her newborn.
- (8) According to the best scientific evidence, AIDS and HIV infection, as well as syphilis and gonorrhea, are principally transmitted by sexual acts.
- (9) Sanitary conditions in some adult oriented businesses and those places allowing public nudity are unhealthy, in part, because the activities conducted there are unhealthy, and, in part, because of the unregulated nature of the activities, including nudity, and the failure of the owners and the operators of the facilities to self-regulate those activities and maintain those facilities.
- (10) Numerous studies and reports have determined that semen is found in the areas of adult oriented businesses allowing public nudity and where persons view "adult" oriented films.
- (11) The findings noted in paragraphs (1) through (10) raise substantial governmental concerns.
- (12) Public places allowing nudity have operational characteristics which should be reasonably regulated in order to protect those substantial governmental concerns.
- (13) The general welfare, health, morals and safety of the citizens of the Village will be promoted by the enactment of this Article.

This term shall not be deemed to include places where a person's conduct of being nude is used for his or her profit or where being nude is used for the promotion of business or is otherwise commercially exploited.

(F) **"Public Place"** means any location frequented by the public, or where the public is present or likely to be present, or where a person may reasonably be expected to be observed by members of the public. Public Places include, but are not limited to, streets, sidewalks, parks, beaches, business and commercial establishments (whether for profit or not for profit, whether open to the public at large, or whether entrance is limited by a cover charge or membership requirement), hotels, motels, restaurants, night clubs, country clubs, cabarets, and meeting facilities utilized by any religious, social, fraternal or similar organizations. ARTICLE XII - OBSCENITY

27-12-1 OBSCENITY.

(A) **Elements of the Offense.** A person commits an obscenity offense when, with the knowledge of the nature or content thereof or recklessly failing to exercise reasonable inspection which would have disclosed the nature or content thereof, he:

- (1) sells, delivers or provides or offers or agrees to sell, deliver or provide any obscene writing, picture, record or other representation or embodiment of the obscene; or
- (2) presents or directs an obscene play, dance, or other performance or participates directly in that portion thereof which makes it obscene; or
- (3) publishes, exhibits or otherwise makes available anything obscene; or
- (4) performs an obscene act or otherwise presents an obscene exhibition of his body for gain; or
- (5) creates, buys, procures or possesses obscene matter or material with intent to disseminate it in violation of this Section, or of the penal laws or regulations of any other jurisdiction; or
- (6) advertises or otherwise promotes the sale of material represented or held out by him to be obscene, whether or not it is obscene.

(B) **Obscene Defined.** Any material or performance is obscene if:

- (1) the average person, applying contemporary adult community standards, would find that, taken as a whole, it appeals to the prurient interest; and
- (2) the average person, applying contemporary adult community standards, would find that it depicts or describes, in a patently offensive way, ultimate sexual acts or sadomasochistic sexual acts, whether normal or perverted, actual or simulated, or masturbation, excretory functions or lewd exhibition of the genitals; and
- (3) taken as a whole, it lacks serious literary, artistic, political or scientific value.

(C) **Interpretation of Evidence.** Obscenity shall be judged with reference to ordinary adults except that it shall be judged with reference to children or other specially susceptible audiences if it appears from the character of the material or the circumstances of its dissemination to be specially designed for or directed to such an audience.

Where circumstances of production, presentation, sale, dissemination, distribution, or publicity indicate that material is being commercially exploited for the sake of its prurient appeal, such evidence is probative with respect to the nature of the matter and can justify the conclusion that the matter is lacking in serious literary, artistic, political or scientific value.

In any prosecution for an offense under this Section, evidence shall be admissible to show:

- (1) the character of the audience for which the material was designed or to which it was directed;
- (2) what the predominant appeal of the material would be for ordinary adults or a special audience, and what effect, if any, it would probably have on the behavior of such people;
- (3) the artistic, literary, scientific, educational or other merits of the material, or the absence thereof;
- (4) the degree, if any, of public acceptance of the material in this State;
- (5) appeal to prurient interest or absence thereof in advertising or other promotion of the material;
- (6) purpose of the author, creator, publisher or disseminator.

(D) **Prima Facie Evidence.** The creation, purchase, procurement or possession of a mold, engraved plat or other embodiment or obscenity, specially adapted for reproducing multiple copies, or the possession of more than **three (3) copies** of obscene material shall be prima facie evidence of an intent to disseminate. **(65 ILCS 5/11-5-1)**

27-12-2

HARMFUL MATERIAL.

(A) **Elements of the Offense.** A person who, with knowledge that a person is a child; that is, a person under **eighteen (18) years** of age, or who fails to exercise reasonable care in ascertaining the true age of a child, knowingly distributes to, or sends or causes to be sent to, or exhibits to or offers to distribute or exhibit any harmful material to a child is guilty of a violation of this Code.

(B)

Definitions.

- (1) Material is harmful if, to the average person applying contemporary standards, its predominant appeal, taken as a whole, is to prurient interest; that is, shameful or morbid interest in nudity, sex, or excretion which goes substantially beyond customary limits of candor in description or representation of such matters and is material, the redeeming social importance of which is substantially less than its prurient appeal.
- (2) **"Material"** as used in this Code means any writing picture, record or other representation or embodiment.
- (3) **"Distribute"** means to transfer possession of material whether with or without consideration.
- (4) **"Knowingly"** as used in this Section means having knowledge of the contents of the subject matter or recklessly failing to exercise reasonable inspection which would have disclosed the contents thereof.

(C)

Interpretation of Evidence. The predominant appeal to prurient interest of the material shall be judged with reference to average children of the same general age of the child to whom such material was offered, distributed, sent or exhibited unless it appears from the nature of the matter or the circumstances of its dissemination, distribution or exhibition that it is designed for specially susceptible groups, in which case, the predominant appeal of the material shall be judged with reference to its intended or probable recipient group.

In prosecutions under this Section where circumstances of production, presentation, sale, dissemination, distribution, or publicity, indicate the material is being commercially exploited for the sake of its prurient appeal, such evidence is probative with respect to the nature of the material and can justify the conclusion that the redeeming social importance of the material is, in fact, substantially less than its prurient appeal.

(D)

Affirmative Defenses.

- (1) Nothing in this Section shall prohibit any public library or any library operated by an accredited institution of higher education from circulating harmful material to any person under **eighteen (18) years** of age, provided such circulation is in aid of a legitimate scientific or educational purpose, and it shall be an affirmative defense in any prosecution for a violation of this Section that the act charged was committed in aid of legitimate scientific or educational purposes.
- (2) Nothing in this Section shall prohibit any parent from distributing to his child any harmful material.
- (3) Proof that the defendant demanded, was shown and acted in reliance upon any of the following documents as proof of the age of a child shall be a defense to any criminal prosecution under this Section:
 - (a) A document issued by the federal government or any state, county or municipal government, or subdivision or agency thereof, including, but not limited to a motor vehicle operator's license, a registration certificate issued under the Federal Selective Service Act or an identification card issued to a member of the armed forces.
- (4) In the event an advertisement of harmful material as defined in this Section culminates in the sale or distribution of such harmful material to a child, under circumstances where there was no personal confrontation of the child by the defendant, his employees or agents as where the order or request for such harmful material was transmitted by mail, telephone, or similar means of communication and delivery of such

ARTICLE XIII – SMOKE FREE AIR CODE

27-13-1 BACKGROUND. Smoking creates the hazard of injury to the personal health of those in the environment of such smoke as well as the potential of damage to property that may result from the incendiary nature of such activity. It has been determined that breathing ambient smoke is a health hazard to both smokers and nonsmokers. Cigarette smoking also produces several substances that are considered hazardous to health including carbon monoxide, hydrogen cyanide, nitrous oxide and formaldehyde. Secondhand smoke (68% of the total smoke produced by a cigarette) affects the health of the bystander, interfering with respiratory tract defenses, often causing nonsmokers to have allergic or irritative reactions, and is a known cause of lung cancer.

Because the hazards of smoking have a potentially harmful effect, material and direct, on the public health, safety, welfare, comfort, and property of residents of the Village, it is necessary and desirable to establish regulations that prohibit smoking in all enclosed public places, in all enclosed places of employment, near entrances to all such public places and places of employment, in and near open air public dining areas, and within certain unenclosed public places including school grounds, parks and recreation areas and outdoor venues.

Any order or proclamation declaring, continuing or terminating a local disaster emergency shall be given prompt and general publicity, and shall be filed promptly with the Municipal Clerk.
- (B) The effect of a declaration of a local disaster emergency is to activate any and all applicable local emergency operations plans and to authorize the furnishing of aid and assistance thereunder.
- (C) During a local disaster emergency, the Mayor may suspend the provisions of any municipal ordinance prescribing procedures for the conduct of municipal business, or the orders, rules and regulations of any municipal agency, if strict compliance with the provisions of any ordinance, rule or

regulation would in any way prevent, hinder or delay necessary action in coping with the emergency, as authorized by "**The Illinois Emergency Management Agency Act**", provided that, if the Village Board meets at such time, he shall act subject to the directions and restrictions imposed by that body.

30-3-8 TESTING OF DISASTER WARNING DEVICES. The testing of disaster devices including outdoor warning sirens shall be held only on the first Tuesday of each month at **10 o'clock** in the morning.

30-3-9 MUTUAL AID ARRANGEMENTS BETWEEN POLITICAL SUBDIVISIONS. The coordinator for emergency management operations may, in collaboration with other public agencies within his immediate vicinity, develop or cause to be developed mutual aid arrangements with other political subdivisions, municipal corporations or bodies politic within this state for reciprocal disaster response and recovery in case a disaster is too great to be dealt with unassisted. The mutual aid shall not, however, be effective unless and until approved by each of such political subdivisions, municipal corporations or bodies politic as are parties thereto, in the manner provided by law, and unless and until filed with and approved in writing by the state director. Such arrangements shall be consistent with the state and local emergency management operations plan and program, and in the event of such disaster as described in **Section 30-3-3** of this Code, it shall be the duty of each local and department for emergency management operations to render assistance in accordance with the provisions of such mutual aid arrangements.

30-3-10 COMMUNICATIONS. The Local Incident Emergency Management Agency shall ascertain what means exist for rapid and efficient communications in times of disaster emergencies. The agency shall consider the desirability of supplementing these communications resources or of integrating them into a comprehensive system or network. In studying the character and feasibility of any system or its several parts, the agency shall evaluate the possibility of multipurpose use thereof for general municipal and local governmental purposes. The agency shall make recommendations to the Mayor as appropriate.

30-3-11 IMMUNITY. Neither the municipality, the agency or any member thereof or any person acting at their direction, engaged in any emergency management operations or disaster activities, while complying with or attempting to comply with this Code or any rule or regulations promulgated pursuant to this Code is liable for the death of or any injury to persons, or damage to property, as a result of such activity. This Section does not, however, affect the right of any person to receive benefits to which he would otherwise be entitled under this act under the Worker's Compensation Act or the Worker's Occupational Diseases Act, or under any pension law, and this Section does not affect the right of any such person to receive any benefits or compensation under any Act of Congress.

30-3-12 PROFESSIONS, TRADES AND OCCUPATIONS. If such disaster as is described in **Section 30-3-3** occurs in this Municipality and the services of persons who are competent to practice any profession, trade or occupation are required in this Municipality to cope with the disaster situation and it appears that the number of persons licensed or registered in this Municipality to practice such profession, trade or occupation may be insufficient for such purpose, then any persons who are licensed elsewhere to practice any such profession, trade or occupation may, if a member of another political subdivision rendering aid in this Municipality pursuant to the order of the head of that political subdivision and upon the request of the Municipality, or if otherwise requested so to do by the Mayor or the coordinator of this Municipality, during the time the disaster condition continues, practice such profession, trade or occupation in this Municipality without being licensed or registered in this Municipality.

30-3-13 APPROPRIATIONS AND LEVY OF TAX. The Village Board may make appropriations for emergency management operations in the manner provided by law for making appropriations for the ordinary expenses of such political subdivision. The Village Board may also levy for emergency management operations a tax not to exceed **.05%** of the full, fair cash value as equalized or assessed by the Department of Revenue on all taxable property in the Municipality for the current year. However, the amount collectible under such a levy shall in no event exceed **Twenty-Five Cents (\$0.25)** per capita. The annual tax shall be in addition to and in excess of the amount authorized to be levied for general corporate purposes.

30-3-14 AUTHORITY TO ACCEPT SERVICES, GIFTS, GRANTS OR LOANS. Whenever the federal or state governments, or any agency or officer thereof, or whenever any person, firm or corporation shall offer to the Municipality services, equipment, supplies, materials or funds by way of gift or grant for purposes of emergency management, the Municipality, acting through the Mayor or through its Village Board, may accept such offer and upon such acceptance the Mayor or the Village Board may authorize any officer of the Municipality to receive such services, equipment, supplies, materials or funds on behalf of the Municipality.

30-3-15 ORDERS, RULES AND REGULATIONS.
(A) The Mayor shall file a copy of every rule, regulation or order and any amendment thereof made by him pursuant to the provisions of this Code in the office of the Municipal Clerk. No such rule, regulation or order, or any amendment thereof, shall be effective until **ten (10) days** after such filing; provided, however, that upon the declaration of such a disaster emergency by the Mayor as is described in **Section 30-3-7**, the provision relating to the effective date of any rule, regulation order or amendment issued pursuant to this Code and during the state of such disaster emergency, is abrogated, and said rule, regulation, order or amendment shall become effective immediately upon being filed with the Municipal Clerk, accompanied by a certificate stating the reason for the emergency.

(B) The Local Incident Emergency Management Agency established pursuant to this Code, and the coordinator thereof, shall execute and enforce such orders, rules and regulations as may be made by the Governor under authority of the Illinois Emergency Management Agency Act. The Local Incident Emergency Management Agency shall have available for inspection at its office all orders, rules and regulations made by the Governor, or under this authority. The State Emergency Management Agency shall furnish such orders, rules and regulations to the agency.

30-3-16 UTILIZATION OF EXISTING AGENCY, FACILITIES AND PERSONNEL. In carrying out the provisions of this Code, the Mayor and the coordinator of the emergency management agency are directed to utilize the services, equipment, supplies and facilities of existing departments, offices and agencies of the Municipality to the maximum extent practicable, and the officers and personnel of all such departments, offices and agencies are directed, upon request, to cooperate with and extend such services and facilities to the coordinator and the emergency management agency.

30-3-17 NO PRIVATE LIABILITY.
(A) Any person owning or controlling real estate or other premises who voluntarily and without compensation grants a license or privilege, or otherwise permits the designation or use of the whole or any part or parts of such real estate or premises for the purpose of sheltering persons during an actual or impending disaster, or a mock or practice disaster response activity together with his successors in interest, if any, shall not be civilly liable for negligently causing the death of, or injury to, any person on or about such real estate or premises under such license, privilege or other permission, or for negligently causing loss of, or damage to, the property of such person.

(B) Any private person, firm or corporation and employees and agents of such person, firm or corporation in the performance of a contract with, and under the direction of, the

Municipality under the provisions of this Code, shall not be civilly liable for causing death of, or injury to, any person or damage to any property except in the event of willful misconduct.

(C) Any private person, firm or corporation, and any employee or agency of such person, firm or corporation, who renders assistance or advice at the request of the Municipality, shall not be civilly liable for causing the death of, or injury to, any person or damage to any property except in the event of willful misconduct. The immunities provided in Subsection (C) shall not apply to any private person, firm or corporation, or to any employee or agent of such person, firm or corporation whose act or omission caused in whole or in part such actual or impending disaster and who would otherwise be liable therefore.

30-3-18 SUCCESSION. In the event of the death, absence from the Municipality or other disability of the Mayor preventing him from acting under this Code or for any other municipal purpose, and until the office is filled in the manner prescribed by law, the Mayor Pro-Tem appointed by the Village Board shall succeed to the duties and responsibilities of the Mayor.

30-3-19 COMPENSATION. The Emergency Service Coordinator shall be paid a salary of **Seven Thousand Dollars (\$7,000.00)** per annum, said sum to be paid on a quarterly basis in **four (4)** equal installments. The Village Board may also, in its discretion, provide other office staff and personnel as may be expressly provided for in this Article. Nothing herein contained shall prohibit any member of the agency from receiving compensation from the State of Illinois Emergency Management Agency under any provisions of that agency. **(Ord. No. 851; 08-05-14)**

30-3-20 PERSONNEL OATH. Each person, whether compensated or non-compensated, who is appointed to serve in any capacity in the municipal Emergency Management Agency, shall, before entering upon his duties, take an oath, in writing, before the coordinator of the municipal Emergency Management Agency before a person authorized to administer oaths in this Municipality, which oath shall be filed with the coordinator of the Emergency Management Agency, and which oath shall be substantially as follows:

"I, _____ do solemnly swear (or affirm) that I will support and defend and bear true faith and allegiance to the Constitution of the United States and the Constitution of the State of Illinois, and the territory, institutions and facilities thereof, both public and private, against all enemies, foreign and domestic; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties upon which I am about to enter. And I do further swear (or affirm) that I do not advocate, nor am I, nor have I been a member of any political party or organization that advocates the overthrow of the government of the United States or of this State by force or violence; and that during such time I am affiliated with the Village, I will not advocate nor become a member of any political party or organization that advocates the overthrow of the government of the United States or of this State by force or violence."

30-3-21 EMERGENCY TERMINATION OR REDUCTION OF ELECTRICAL SERVICE.
(A) **Declaration of Emergency Condition.** When in the judgment of the Mayor or Village Board, as provided herein in **Section 30-3-7(A)**, a local disaster emergency requires the termination or reduction of electrical service, the Mayor or Village Board shall forthwith declare in writing the existence of the emergency condition and order the termination or reduction.

CHAPTER 32

STORMWATER CONTROL CODE

ARTICLE I – PURPOSE AND SCOPE

32-1-1 **PURPOSE.** The purpose of this Chapter is to diminish threats to public health, safety, and welfare caused by increases in stormwater runoff from new development and redevelopment. Excessive stormwater could result in the inundation of damageable properties, erosion and destabilization of downstream channels, the threat to public health and safety, and pollution of valuable stream and lake resources. Increases in stormwater runoff quantity and rate and impairment of quality are caused by development and land improvements and, as such, this Chapter regulates these activities to prevent stormwater adverse impacts caused by new development and redevelopment.

This Chapter is adopted to accomplish the following objectives:

- (A) Prevent flood and drainage hazards resulting from new development or redevelopment;
- (B) Prevent the creation of unstable conditions susceptible to erosion;
- (C) Protect new buildings and major improvements from flood damage due to increased stormwater runoff;
- (D) Protect human life and health from the hazards of increased flooding on a watershed basis;
- (E) Lessen the burden on taxpayers for flood control projects, repairs to flood-damaged public facilities and utilities, correction of channel erosion problems, and flood rescue and relief operations caused by increased stormwater runoff quantities from new development;
- (F) Protect, conserve, and promote the orderly development of land and water resources;
- (G) Protect the hydrologic, hydraulic, and other beneficial functions of streams, lakes, wetlands, floodplains and flood-prone areas;
- (H) Preserve stream corridors to moderate flooding and stormwater impacts, improve water quality, reduce soil erosion, protect aquatic and riparian habitat, provide recreational opportunities, provide aesthetic benefits, and enhance community and economic development;
- (I) Prevent additional disruption of governmental services and the economy due to flooding and drainage problems;
- (J) Establish requirements and promote regular, planned maintenance of stormwater management facilities.

32-1-2 **SCOPE.** No person shall develop or redevelop any land for residential, commercial, industrial, institutional, or public uses without providing a stormwater management plan and obtaining a stormwater management permit.

Adverse Impacts: Any deleterious impact on water resources or wetlands affecting their beneficial uses including recreation, aesthetics, aquatic habitat, quality, and quantity.

Agricultural Land: Land predominantly used for agricultural purposes.

Applicant: Any person, firm, corporation, or agency that submits an application for a stormwater permit. The applicant is the current owner of the property or a representative for the owner.

Base Flood³: The flood having a **one percent (1%)** chance of being equaled or exceeded in any given year. The base flood is also known as the 100-year frequency flood event.

Basement³: That portion of the building having its floor subgrade (below ground level) on all sides.

Best Management Practice (BMP): A measure used to control the adverse stormwater-related effects of development, and includes structural devices (for example, swales, filter strips, infiltration trenches, and site runoff storage basins designed to remove pollutants, reduce runoff rates and volumes, and protect aquatic habitats) and nonstructural approaches, such as public education efforts to prevent the dumping of household chemicals into storm drains.

Building³: A walled and roofed structure, including gas or liquid storage tank, that is principally above ground, including manufactured homes, prefabricated buildings, and gas or liquid storage tanks. The term also includes recreational vehicles and travel trailers installed on a site for more than **one hundred eighty (180) days** per year.

Channel modification includes damming, riprapping (or other armoring), widening, deepening, straightening, relocating, lining, and significant removal of native vegetation from the bottom or banks. Channel modification does not include the clearing of dead or dying vegetation, debris, or trash from the channel. Channelization is a severe form of channel modification involving a significant change in the channel cross-section typically involving relocation of the existing channel (e.g., straightening).

Combined Sewer Systems: Sewers that are designed to collect rainwater runoff, domestic sewage, and industrial wastewater in the same pipe. Mostly, combined sewer systems transport their wastewater to a sewage treatment plant, where it is treated and discharged to a water body.

Combined Sewer Overflow: The excess capacity of flow in a combined sewer system, typically occurring during periods of heavy precipitation. Overflow discharges directly to a nearby stream, river, or other water body.

Compensatory Storage³: An artificially excavated, hydraulically equivalent volume of storage within the floodplain used to balance the loss of natural flood storage and flow conveyance capacity when artificial fill or structures are placed within the floodplain. The uncompensated loss of natural floodplain storage and conveyance capacity can increase off-site floodwater elevations and flows.

Conduit: Any channel, pipe, sewer, or culvert used for the conveyance or movement of water, whether open or closed.

Development does not include routine maintenance of existing buildings and facilities such as re-roofing or re-surfacing of roads when there is no increase in elevation, or gardening, plowing, and similar agricultural practices that do not involve filling, grading, or construction of levees.

Development Site: The specific area of land where regulated activities in the municipality are planned, conducted, or maintained.

Floodplain³: That land typically adjacent to a body of water with ground surface elevations at or below the base flood elevation (BFE) (the 100-year frequency flood elevation). Floodplains may also include detached Special Flood Hazard Areas (see definition), ponding areas, etc.

Flood-proofing³: Any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, and structures and their contents.

Flood Fringe²: That portion of the floodplain outside of the regulatory floodway.

Flood Protection Elevation (FPE)³: The elevation of the base flood or 100-year frequency floods plus **one (1) foot** of freeboard at any given location in the Special Flood Hazard Area (SFHA).

Floodway: See Regulatory Floodway.

Freeboard: An increment of height added to the BFE, groundwater table, or 100-year design water surface elevation to provide a factor of safety for uncertainties in calculations, unknown local conditions, wave action, non-stationary climate, and unpredictable effects such as those caused by ice or debris jams.

Green Infrastructure: Any stormwater management technique or practice that reduces runoff volume through preserving, restoring, utilizing, or enhancing the processes of infiltration, evapotranspiration, and reuse. Approaches may include green roofs, naturalized detention facilities, trees and tree boxes, rain gardens, vegetated swales, vegetated buffer, wetlands, infiltration planters, porous and permeable pavements, porous piping systems, dry wells, vegetated median strips, reforestation/revegetation, rain barrels, and cisterns, and protection and enhancement of riparian buffers and floodplains.

Groundwater: Water that is located beneath the ground or pavement surface.

Hydraulics: The science and study of the conveyance of liquid through physical systems, such as pipes and channels.

Illinois Urban Manual: A publication of best management practices commonly used in an urban setting produced by the Association of Illinois Soil and Water Conservation Districts, published October 2013. <http://www.aiswcd.org/illinois-urban-manual/>

Impervious Area: Land cover such as, but not limited to, non-porous asphalt or asphalt sealants, non-porous concrete, roofing materials except planted rooftops designed to reduce runoff, and gravel surfaces used as roadways or parking lots that prevent infiltration.

Infiltration: The passage or movement of water into the soil horizon.

Karst: A type of topography or landscape characterized by features, including but not limited to, surface depressions, sinkholes, rock pinnacles/uneven bedrock surfaces, underground drainage, and caves. Karst is formed on carbonate rocks, such as limestone or dolomite.

Maximum Extent Practicable: Highest level of runoff volume reduction that is achievable for the development as determined by the applicant and approved by the (*enforcement officer*).

Minor Drainage System: All infrastructure including curb, gutter, culverts, roadside ditches and swales, and storm sewers and subsurface drainage systems intended to convey stormwater runoff less than or equal to the design storm event required by the Chapter.

Mitigation³: Measures necessary to minimize the negative effects that stormwater drainage and development activities might have on the public health, safety and welfare. Examples of mitigation include compensatory storage, soil erosion and sedimentation control, and channel restoration.

Natural⁶: When used in reference to channels, those formed by the existing surface topography of the earth prior to man-made changes. A natural stream tends to follow a meandering path; its floodplain is not constrained by levees; the area near the bank has not been cleared, mowed, or cultivated; the stream flows over soil and geologic materials typical of the area with no substantial alteration of the course or cross-section of the stream caused by filling or excavating. A modified channel may regain some natural characteristics over time as the channel meanders and vegetation is re-established. Similarly, a modified channel may be restored to more natural conditions by man through regrading and revegetation.

Open Channel: A conveyance system with a definable bed and banks carrying the discharge from field tiles, surface drainage, and/or storm sewer system, but does not include grassed swales within farm fields under agricultural production which are ephemeral.

One Hundred-Year (100-yr) Event: A rainfall, runoff, or flood event having a **one percent (1%)** chance of occurring in any given year.

Peak Flow: The maximum flow rate of water at a given point in a channel or conduit.

Post-Development: Refers to conditions that reasonably may be expected or anticipated to exist after completion of the land-disturbing activity on a specific site or tract of land.

Redevelopment: Any human-induced activity or change to an existing developed property (including but not limited to, demolition, grading, paving, excavation, dredging, fill, or mining; alteration, subdivision, change in land use or practice; building; or storage of equipment or materials) undertaken by private or public entities that affects the volume, flow rate, drainage pattern, or composition of the site stormwater runoff on the previously developed land. The term shall not be understood to include maintenance.

- Increases the floor area by more than **twenty percent (20%)**.

"Substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. This term includes structures which have incurred repetitive loss or substantial damage, regardless of the actual repair work done.

- (G) Non-structural BMPs shall be utilized to the maximum extent practicable, with a goal to treat at least **twenty-five percent (25%)** of the water quality requirements and volume controls before implementing structural BMPs.
- (H) Impervious areas:
- (1) The measurement of an impervious area shall include all of the impervious areas in the total proposed development, even if development is to take place in stages or phases.
 - (2) For development taking place in stages or phases, the entire development plan must be used in determining conformance with this Chapter.
 - (3) Any areas designed to initially be gravel or crushed stone shall be assumed to be impervious.
 - (4) For new permeable pavement, designers should use one-half of the measured infiltration rate during design to approximate long-term infiltration rates or similar design standards based on the specifications of pavement used in the design.
- (I) The design of all stormwater management facilities over karst shall include an evaluation of measures to minimize adverse effects.
- (J) A planting plan is required for all vegetated stormwater BMPs.

 - (2) Invasive vegetation may not be included in any planting schedule.
 - (3) Prior to construction, a tree protection zone shall be delineated at the dripline of the tree canopy. All trees scheduled to remain during construction shall be marked; however, where groups of trees exist, only the trees on the outside edge need to be marked. A **forty-eight (48) inch** high snow fence or **forty-eight (48) inch** high construction fence

Easements shall provide for ingress and egress to a public right-of-way.

(L) Drainage easements shall be provided where the conveyance, treatment, or storage of stormwater, either existing or proposed, is identified on the SWM permit. Drainage easements shall be provided to contain and convey the 100-year frequency flood.

(M) The (municipality) may require additional stormwater control measures for stormwater discharges to special management areas including, but not limited to:

- (1) Water bodies listed as "impaired" on Illinois's Clean Water Act 303(d)/305(b) Integrated list.
- (2) Any water body or watershed with an approved Total Maximum Daily Load (TMDL).

- (3) A description of all permanent public or private access maintenance easements and overland flow paths, and compensatory storage areas.
- (4) A description of dedicated sources of funding for the required maintenance.

32-5-2 WATER QUALITY AND VOLUME CONTROLS. The standards of this Section shall apply to all regulated development that increases impervious areas. Public road developments that result in less than **one and one-half (1.5) acres** of a new impervious area or less than the rate of **one and one-half (1.5) acres** of an impervious area per linear mile shall meet the water quality and buffer standards to the extent that is practicable due to limited site conditions.

The development shall provide water quality treatment for runoff from increased impervious areas to minimize impacts of post-development stormwater runoff on water quality. The development shall provide volume control for runoff to meet the requirements of **Section 32-5-3**. The SWM plan shall include a description of the water quality protection and volume control measures incorporated into the site design. Volume control practices may be incorporated into the water quality control practices.

(A) The first inch of runoff from the new impervious area of development on the site shall be the water quality control storage.

(B) Volume control practices shall provide water quality treatment of the water quality control storage. Water quality and volume control practices shall be designed according to the following hierarchy. Appendix A outlines design specifications for the following control practices for water quality.

- (1) Preservation of natural resource features of the development site (e.g., floodplains, wetlands, prairies, and woodlands);
- (2) Preservation of the existing natural streams, channels, and drainageways;
- (3) Minimizing impervious surfaces (e.g., narrowing road width, minimizing driveway length and width, clustering homes and shared driveways) created at the site, while maintaining compliancy with other community ordinances (i.e., fire vehicle access, etc.);

- (4) The use of native, deep-rooted landscaping as an alternative to turf grass;
 - (5) the use of open vegetated channels, filter strips, and infiltration (basins, trenches, floodplain restoration, etc.) to convey, filter, and infiltrate stormwater runoff and minimize the usage of minor stormwater systems;

 - (7) Structural measures that provide water quality and volume control (stormwater wetlands, wet detention facilities, sedimentation traps, etc.);
 - (8) Structural measures that provide only quantity control and conveyance;
 - (9) Other methods as may be found in the Illinois Urban Manual.
- (C) All volume reductions plus volume control practices from proposed BMPs shall equal or exceed the required control volume (1" x new impervious area).

32-5-3 SITE RUNOFF CONTROLS. Site runoff control for large storms, up to the 100-year event, is essential to protect against immediate downstream erosion and flooding.

(A) Post-development discharge rates shall not exceed the existing conditions discharge rates for the 2-, 10-, 25-, 50- and 100-year critical duration storm events. If it is shown that the peak rates of discharge indicated by the post-development analysis are less than or equal to the peak rates of discharge indicated by the existing conditions analysis for 2-, 10, 25-, 50-, and 100-year critical duration storms, then the requirements of this Section have been met. Otherwise, the applicant shall provide additional controls as necessary to satisfy the peak rate of discharge requirement. Peak runoff rates shall be based on the critical duration storm.

(B) Any concentrated stormwater discharges leaving a site must be conveyed into an existing channel, storm sewer, or overland flow path with adequate downstream stormwater capacity and will not result in increased erosion, flood damage, or other drainage hazard.

Demonstration of this shall include a comparison of existing and post-development velocity, discharge, and hydrograph at the location where stormwater leaves the site. Post-development velocity, peak discharge, and runoff volume shall be less than **one hundred ten percent (110%)** of the existing conditions of velocity, peak discharge and volume for the 100-year critical duration storm.

(C) Where a single pipe outlet or orifice plate is to be used to control discharge, it shall have a minimum diameter of **twelve (12) inches**. If this minimum size permits release rates greater than those specified in this Section, alternative outlet designs shall be utilized which incorporate self-cleaning flow restrictors. The minimum area for the flow restrictor is **12.56 square inches** (equivalent to a **four (4) inch** circular pipe). The outlet pipe and control devices shall be designed to minimize maintenance requirements and prevent tampering.

(D) The design of stormwater management systems shall not result in any transfer of water between watersheds unless no reasonable alternative exists as determined by the (*enforcement officer*).

(E) Concentrated stormwater discharge shall not be connected to an existing field tile or any other drainage tile system unless the applicant submits a maintenance agreement, recorded easement, and a report that indicates the existing system, from the connections to the discharge point in an open channel, has adequate hydraulic capacity and structural integrity. The recorded easement and maintenance agreement must extend from the connection to the discharge point in an open channel. The recorded easement and maintenance agreement must be approved by the (municipal engineer) prior to issuance of a stormwater management permit.

(F) **Calculation Methodology.**

- (1) TR-20, WinTR-20, HEC-1, HEC-HMS, or a (municipality)-approved hydrograph producing a hydrologic model shall be used for the following:
 - (a) To determine peak runoff rates for areas with a drainage area of **one hundred (100) acres** or greater; and,
 - (b) To confirm the stormwater storage requirements for stormwater facilities that have a drainage area of **ten (10) acres** or more.

- (2) TR-55 may be used to calculate discharges for areas that drain less than **one hundred (100) acres**. TR-55 with a pond-routing program such as TR-20 or HEC-1 may be used to confirm stormwater storage requirements.
- (3) The Rational Method may be used to calculate discharges for drainage areas of less than **twenty (20) acres** and the storm sewer design. The Rational Method or the Modified Rational Formula shall not be used to determine detention storage requirements.
- (4) Climatic Sectional rainfall data with appropriate application of the areal to point ratio as presented in the Illinois State Water Survey Bulletin 70 shall be used for all hydrologic analysis.
- (5) Rainfall should be distributed using the appropriate Illinois State Water Survey Circular 173 Huff rainfall distribution (Huff, 1990), except that SCS Type II distribution is acceptable with TR-55.
- (6) Runoff calculations for all offsite tributary land shall be based on either the anticipated future land use conditions or existing land use conditions. Anticipated future land use conditions will be based on future land use and existing offsite storage facilities. Existing land use conditions will be based on existing land use and existing offsite storage facilities.

32-5-4 DETENTION FACILITIES.

(A) Detention, along with green infrastructure, non-structural and structural BMPs, are recommended for projects involving more than **one (1) acre** of new impervious area. Green infrastructure and non-structural BMPs are required to control stormwater runoff for projects with less than **one (1) acre** of new impervious area.

(B) The area of development shall be used to calculate the detention volume and allowable release rate from a detention facility.

(C) The allowable release rate for a storage facility shall not exceed **0.04 cfs** per acre for the 2-year, critical duration storm and **0.15 cfs** per acre for the 100-year, critical duration storm.

(D) All stormwater infiltration, retention, and detention facilities shall be provided with an emergency overflow structure or path capable of passing the inflow from a critical duration 100-year storm without damages to any structures on adjacent land. The emergency overflow structure shall have an invert elevation at or above the design high water elevation. A minimum freeboard of **one (1) foot** shall be provided above the design high water elevation. The freeboard should be measured from the design high water elevation to the top of the berm. The overflow path shall not be located on top of the outlet pipe.

(E) Single pipe outlets shall have a minimum inside diameter of **twelve (12) inches**. Control devices such as perforated risers, weirs, and orifices may be used to meet restricted release rates. The minimum area for the control device is **12.56 square inches** (equivalent to a **four (4) inch** circular pipe). The outlet pipe and control devices shall minimize maintenance requirements and prevent tampering.

(F) In no cases shall the restricted release rate exceed that described in the Site Runoff Controls (**Section 32-5-3**) above, for the entire area of the facility.

(G) Online detention facilities shall meet the following requirements:

- (1) Online detention shall not be permissible on perennial streams. This shall include, but not be limited to, all streams designated as Hydrographic Category perennial in the NHD Flowline feature class in the of the National Hydrography Dataset (NHD) database.
- (2) Online detention shall not be permissible with an off-site to on-site drainage area ratio greater than 10:1.
- (3) Online detention shall not be permissible if the drainage area is greater than **six hundred forty (640) acres**.
- (4) The required online detention volume shall be calculated based on the hydrologically disturbed area of the ownership parcel and release rates, which shall not exceed **0.04 cfs** per acre for the 2-year, critical duration storm and **0.15 cfs** per acre for the 100-year, critical duration storm. The control structure shall be designed based on the total tributary area (on-

site and off-site) and release rates which shall not exceed **0.04 cfs** per acre for the 2-year, critical duration storm and **0.15 cfs** per acre for the 100-year, critical duration storm at the impoundment elevations established by the required detention volumes. The (*enforcement officer*) may modify the control structure design standard if warranted by on-site or off-site conditions.

- (5) A stable overflow structure capable of passing the 100-year, critical duration offsite flow rate shall be provided. The offsite flow-rates shall be calculated assuming existing conditions or future conditions with detention required per this Chapter, whichever is greater.
- (6) All permitting requirements of USACE, IEPA, and IDNR/OWR shall be met.
- (7) Online detention volume shall be in addition to the existing floodplain storage.

(H) **Inlet and Outlet Orientation.** To the extent feasible, the distance between detention inlets and outlets should be maximized. If possible, they should be at opposite ends of the basin. There shall be no low flow bypass between the inlet and outlet, and paved low flow channels shall not be used.

(I) **Side Slopes.** The side slopes at the shoreline of wet and wetland detention basins (from at least **six (6) inches** below to at least **six (6) inches** above normal water level) shall be no steeper than 10:1 to prevent shoreline erosion due to wave action and fluctuating water levels. Above shoreline areas, or in dry bottom portions, the maximum side slope shall be 4:1.

(J) A **twenty (20) foot** minimum setback shall be required from all property lines and roadways to the normal pool elevation.

(K) **Safety Shelf.** A safety shelf with a minimum **eight (8) foot** width and no slope shall be constructed no more than **one (1) foot** below normal water level.

(L) **Bank Erosion Protection.** The shoreline of wet detention basins shall be protected from erosion. The preferred method of shoreline stabilization is native wetland and wet prairie vegetation with a deep root system to stabilize the soils.

(M) Off-site flow may be diverted around a proposed detention facility provided that the other applicable standards regarding regulatory floodplain or flood-prone areas are met.

(N) Any development involving the construction, modification, or removal of a dam as defined in 17 Ill. Admin. Code Part 3702 (Rules for Construction of Dams) shall obtain an IDNR/OWR Dam Safety permit or a letter stating no permit is required prior to the start of such activity.

(O) Berms for stormwater infiltration, retention, and detention facilities shall not be constructed in a regulatory floodplain or a flood-prone area unless approved by the municipality's Chief Engineer or the (*enforcement officer*). If a berm is constructed in a regulatory floodplain or a flood-prone area, the development must meet the requirements of the floodplain ordinance. The volume inside the stormwater facility shall not be considered available for compensatory storage unless the volume is in addition to the required detention volume and is available at the appropriate storage interval.

(P) Detention facilities may connect to existing drain tiles or storm sewers only if the applicant submits a maintenance agreement, recorded easement, and a report that indicates the existing system from the connection to the discharge point in an open channel has adequate hydraulic capacity and structural integrity. The recorded easement and maintenance agreement must extend from the connection to the discharge point in an open channel. The recorded easement and maintenance agreement must be approved by the (*enforcement officer*) prior to issuance of a stormwater management permit.

(Q) Infiltration basins may be used as detention facilities subject to the following:

- (1) The basin must be designed to dewater within **seventy-two (72) hours** following the end of the 100-year critical duration storm event.
- (2) The underlying soils must have an infiltration rate of at least **one-half (0.5) inch** per hour as determined by an engineer.
- (3) Pretreatment facilities must be provided to prevent obstruction.
- (4) The basin must be at least **two hundred (200) feet** away from any water supply wells or maximum setback zone if established.

- (6) The bottom of the infiltration basin must be at least **four (4) feet** above the seasonal high groundwater elevation.

(R) Drainage into, or detention within, wetlands classified as Waters of the United States (WOTUS) may be allowed, subject to obtaining regulatory permitting or written clearance from the USACE. In addition to the other requirements for this Chapter, the following requirements shall be met for all development whose drainage flows into the WOTUS.

- (1) The water quality standards of **Section 32-5-2**.
- (2) The 2-year discharge rate to the WOTUS shall not exceed **0.04 cfs/acre** (the 2-year detention volume must be provided upstream of the WOTUS).
- (3) The existing depressional storage of the WOTUS shall be maintained. The volume of detention storage provided to meet the discharge rate requirements shall be in addition to the existing depressional storage.
- (4) The site drainage patterns shall not be altered to substantially decrease or increase the area tributary to the WOTUS.

32-5-5 NON-STRUCTURAL BMPs.

(A) Infiltration BMPs shall be spread out, made as shallow as practicable, and located to maximize use of natural on-site infiltration features while still meeting the other requirements of this Chapter.

(B) Infiltration BMPs intended to receive runoff from developed areas shall be selected based on suitability of soils and development site conditions and shall be constructed on soils that have the following characteristics:

- (1) A minimum depth of **twenty-four (24) inches** between the bottom of the facility and the infiltration horizon, unless it is demonstrated to the satisfaction of the (municipality) that the selected BMP has design criteria which allow for a smaller separation.
- (2) A stabilized infiltration rate sufficient to accept the additional stormwater load and drain completely as determined by field tests conducted by the applicant's professional designer. The stabilized infiltration rate is to be determined in the same location and within the same soil horizon as the bottom of the infiltration facility.

(C) Areas proposed for infiltration BMPs shall be protected from sedimentation and compaction during the construction phase to maintain maximum infiltration capacity. Staging of earthmoving activities and selection of construction equipment should consider this protection.

(D) Infiltration BMPs shall not be constructed nor receive runoff from disturbed areas until the entire contributory drainage area to the infiltration BMP has achieved final stabilization.

(E) Roof drains and sump pumps shall be tributary to infiltration or vegetative BMPs. Use of catchment facilities for the purpose of reuse is also permitted.

32-5-6 STORMWATER CONVEYANCE SYSTEMS.

(A) Storm Sewers and Swales.

- (1) The 10-year critical duration storm shall be used as a minimum for the design of storm sewers, storm inlets, and minor swales. Storm sewer design shall be sized on the assumption that they will flow full or practically full under the design discharge but will not be placed under the pressure head. Hydraulic grade line calculations shall be performed that demonstrate that sewer rims are not inundated at the design storm.
- (2) Storm sewers and swales shall not connect to sanitary sewers.
- (3) Storm sewers and swales may connect to existing drain tiles or storm sewers only if the applicant submits a maintenance agreement, recorded easements, and a report that indicates the existing system from the connection to the discharge point in an open channel has adequate hydraulic capacity and structural integrity. The recorded easement and maintenance agreement must extend from the connection to the discharge

point in an open channel. The recorded easement and maintenance agreement must be approved by the (*enforcement officer*) prior to issuance of a stormwater management permit.

- (4) Field tile systems disturbed during development must be reconnected by those responsible for their disturbance unless the approved drainage plan includes provisions for the system. All abandoned field tiles on the site shall be removed in their entirety.
- (5) All storm sewers and minor swales shall be located in a public road right-of-way, a maintenance easement, or a covenant running with the land of sufficient size to maintain and reconstruct the conveyance system.
- (6) Design practices intended to minimize erosion shall be provided at the inlets and outlets for all pipes, transitions, and channels.
- (7) The minimum storm sewer size shall be **twelve (12) inches** for the first pipe reach (except when using pipe as a releasing control device for upstream pipe detention) and greater than or equal to the preceding reach for all subsequent reaches unless approved by the (*enforcement officer*).
- (8) The minimum design velocity for a storm sewer shall be **two and one-half (2.5) feet** per second. The maximum design velocity for a storm sewer shall be **eight (8) feet** per second.

(B)

Overland Flow Paths.

- (1) All areas of development must provide an overland flow path that will pass the 100-year flood flow (including offsite tributary flow) without damage to structures or property. If the drainage area is less than **twenty (20) acres**, the storm sewer pipe and inlet may be sized for the 100-year flow instead of providing an overland flow path.
- (2) The overland flow path shall be protected from any development, such as fencing, landscaping, storage sheds, or other obstructions which could impair its function by impeding flow. This protection shall be established through a properly recorded covenant running with the land, restricting the use of the overland flow path area.
- (3) The overland flow path shall be placed over natural grade, not overtop a pipe.
- (4) Structures adjacent to an overland flow path shall have the following lowest opening elevation for the following tributary areas:
 - (a) **One-half (1/2) foot** above the BFE for tributary areas of **twenty (20) acres** or less.
 - (b) **One (1) foot** above the BFE for tributary areas of **twenty (20) acres** or greater.

(C)

Streams and Channels.

If the proposed activity involves a channel modification, it shall be demonstrated that:

- (1) There are no practicable alternatives to the activity that would accomplish its purpose with less impact to the natural conditions of the body of water affected. Possible alternatives include levees, bank stabilization, flood-proofing of existing structures, removal of structures from the floodplain, clearing the channel, high flow channel, or the establishment of a stream side buffer strip or green belt. Channel modification is acceptable if the purpose is to restore natural conditions and improve water quality and fish and wildlife habitat;
- (2) Water quality, habitat, and other natural functions would be improved by the modification and no significant habitat area may be destroyed, or the impacts are offset by the replacement of an equivalent degree of natural resource values;
- (3) Migration of fish and other aquatic organisms will not be adversely impacted, sediment bedload transport (a critical component of stream geomorphology and function) will not be impaired, temporary or

permanent accumulation of sediment will not result, and increases in stream water temperatures will not occur;

- (4) The activity has been planned and designed to maintain the carrying capacity of an altered or relocated watercourse and will be constructed in a way which will minimize its adverse impacts on the natural conditions of the body of water affected, consistent with the following criteria:
- (a) The physical characteristics of the modified channel shall match as closely as possible to those of the existing channel in length, cross-section, slope, and sinuosity. If the existing channel has been previously modified, restoration of more natural physical conditions should be incorporated into a channel modification design, where practical.
 - (b) Hydraulically effective transitions shall be provided at both the upstream and downstream ends of the project, designed such that they will prevent erosion.
 - (c) One-sided construction of a channel shall be used when feasible. For example, removal of streamside (riparian) vegetation should be limited to one side of the channel, where possible, to preserve the shading and stabilization effects of the vegetation.
 - (d) Clearing of stabilization vegetation shall be limited to that which is essential for construction of the channel.
 - (e) Channel banks shall be constructed with a side slope no steeper than 3:1 horizontal to vertical, wherever practicable.
 - (f) All disturbed areas associated with the modifications shall be seeded or otherwise stabilized as soon as possible upon completion of construction to control erosion during normal and flood flows. An erosion blanket or an equivalent material shall be required to stabilize disturbed channel banks prior to establishment of the vegetative cover. Permanent stabilization shall be installed as soon as practical but not later than **ten (10) days** after the channel construction is complete.
 - (g) Temporary erosion control shall be installed prior to excavation associated with a channel modification and must be maintained throughout the construction period. The temporary erosion control shall be removed upon written notification from the (*enforcement officer*).
 - (h) If the existing channel contains considerable bottom diversity such as deep pools, riffles, and other similar features, such features shall be provided in the new channel. Spawning and nesting areas and flow characteristics compatible with fish habitat shall also be established, where appropriate.
 - (i) New or relocated channels should be built in the dry. All items of construction, including vegetation, should be completed prior to diversion of water into the new channel.
 - (j) There shall be no increases in stage or velocity as the channel enters or leaves the project or unless necessitated by a public flood control project.
 - (k) Unless the modification is for a public flood control project, there shall be no reduction in the volume of floodwater storage outside the floodway as a result of the modification (i.e., no floodplain fill).
 - (l) A channel maintenance easement is required along all channels draining **one hundred (100) acres** or more. The minimum width of the maintenance easement shall be **twenty-five (25) feet** centered on the channel or the distance between the tops of banks plus **twenty (20) feet**, whichever is greater.

32-5-7 BUFFER AREAS. Buffer areas shall be required for all areas defined as Waters of the United States (WOTUS). The buffer area for all WOTUS shall extend landward from the ordinary high-water mark. The buffer area for jurisdictional or mitigated wetlands shall extend from the edge of the delineated wetland. A property may contain a buffer area that originates from WOTUS on another property. Buffer areas are divided into two types, linear buffers and water body buffers.

(A) Linear buffers shall be designated along both sides of all channels meeting the definition of WOTUS:

- (1) When the channel has a watershed greater than **twenty (20) acres**, the minimum buffer shall be **thirty (30) feet** on each side of the channel.
- (2) Channels with an Index of Biotic Integrity (IBI) greater than **thirty-five (35)** shall have a minimum buffer width of **one hundred (100) feet** on each side of the channel. (Initial IBI based on IDNR, IEPA data, or site-specific assessment, whichever is most current.)

(B) Water body buffers shall encompass all non-linear bodies of water meeting the definition of WOTUS including wetlands, lakes, and ponds.

- (1) For all water bodies with a total surface area of **one-tenth (0.10) acre** but less than **one (1) acre**, a minimum buffer width of **thirty (30) feet** shall be established.
- (2) For all water bodies with a total surface area greater than **one (1) acre** but less than **two and one-half (2.5) acres**, a minimum buffer width of **forty (40) feet** shall be established.
- (3) For all water bodies with a total surface area of **two and one-half (2.5) acres**, a minimum buffer width of **fifty (50) feet** shall be established.

(C) **Additional Buffer Requirements.**

- (1) Areas having state or federal threatened and endangered species present or for Illinois Natural Area Inventory Sites, buffer widths shall be modified upon approval of the (*enforcement officer*), to meet the terms and conditions specified during consultation with the IDNR or United States Fish and Wildlife Service pursuant to state and federal laws and regulations.
- (2) All roadside drainage ditches, existing excavated detention facilities, borrow pits, quarries, and improvements to existing public road developments or alignments are exempt from buffer requirements.
- (3) Filling WOTUS to meet buffer requirements of this Chapter or any other applicable regulatory program shall not be allowed.

(D) Buffer areas shall be located within special easements or covenants with adjacent stormwater facilities, ponds, lakes, or channels that are under the control of a local unit of government, homeowners association, not-for-profit land trust, or other entity acceptable to the (*enforcement officer*). Any site development activity that requires the use of buffers shall:

- (1) Depict the surveyed location extent of any required buffers on the site plan.
- (2) Provide a written characterization of the current condition of the buffer area(s), including the existing plant community(s) present; a specific list of plant species present characterized individually as native or non-native; any plant community management requirements to control non-native or invasive plant species; soil erosion and sediment control practices required to control any existing or potential channel, streambank, or shoreline stabilization problems; and provide representative photographs of the buffer area(s).
- (3) Include a copy of the recorded conservation easement/covenant language to be enacted for the buffer area(s). This document shall include the identification of the entity that will regulate the conservation easement/covenant.
- (4) Identify the source of any funding mechanism used to implement future land management activities proposed for the buffer area(s).

(E) Buffer areas not occupied by trails, water-dependent structures, or other permissible use, shall be vegetated to **one hundred percent (100%)** cover using the following criteria:

- (1) Existing communities of desirable, native plant species within proposed buffer areas shall be protected from any development impacts. Buffer areas hydrologically disturbed shall be revegetated using the Native Plant Guide for Streams and Stormwater Facilities in Northeastern Illinois, (NRCS, et al., as amended) as a guideline.
- (2) Buffer areas shall withstand erosive forces due to wave action, streamflow, and changes in water level. Deep-rooted vegetation and gradual slopes are preferred for shoreline stabilization. Abrupt structural measures such as seawalls, gabion baskets, concrete blocks, retaining walls, or rip-rap armoring shall be avoided.
- (3) Mowing of buffer areas will only be allowed if timed to control the seed production of undesirable species, the growth of invasive, woody species, or to replicate the benefits of controlled burn management. The cut surface of any vegetation located within a buffer area can be no less than **eight (8) inches** in height above the ground surface, unless a site-specific buffer management plan is approved by the (*enforcement officer*).
- (4) Any maintenance requiring the selective application of herbicides shall use registered herbicides approved for use in or near aquatic environments in accordance with the manufacturer's guidelines, and shall only be applied by an herbicide applicator registered with the Illinois Department of Agriculture.

(F) All buffer areas shall be maintained free from development including disturbance of the soil, dumping or filling, erection of structures, and placement of impervious surfaces except as follows:

- (1) Passive recreation (e.g., birdwatching, picnicking).
- (2) Pedestrian, bicycle, or equestrian trails running parallel to the axis of the buffer. The trail shall be no wider than **twelve (12) feet** and the runoff from such facilities is diverted away from the WOTUS or enters the buffer area as sheet flow. Permeable surfaces are required, unless site runoff characteristics at specific locations warrant a non-erodible surface.
- (3) Pedestrian, bicycle, or equestrian trails running perpendicular to the axis of the buffer. The trial shall be no wider than **six (6) feet**. Only one such access path is allowed every **one hundred (100) linear feet** of WOTUS shoreline. Permeable surfaces are required, unless site runoff characteristics at specific locations warrant a non-erodible surface.
- (4) Minor structures relating to parks and recreation and accessory structures are less than **three hundred (300) square feet**. Except for the case of water-dependent facilities, a minimum buffer width of **ten (10) feet** shall be maintained between the proposed structure and the buffered water body.
- (5) Utility structures and maintenance of utilities including drainage facilities. However, new, on-site waste disposal systems, such as septic systems, shall not be constructed within buffer areas.
- (6) Anchoring and placement of boat docks, ramps, and piers.
- (7) A sand beach or canoe launch area.
- (8) Unimproved access through buffer areas for maintenance purposes.
- (9) Water quality management systems designed to: restore wetland hydrology to adjacent buffer areas, provide water quality filtering, contribute to aquatic habitat restoration, or other environmental benefits. A buffer of native vegetation shall be established between designed normal and high water levels around constructed water quality treatment basins.
- (10) Detention facilities.

(G) The provision of additional buffer width extending outward from the edge of the stormwater detention area located within a water body buffer may be required by the (*enforcement officer*). Proposed stormwater management features that require a buffer may not be located in such a way that the

newly created buffer area boundaries extend into an adjoining property unless a written agreement and recorded buffer easement is platted on the adjoining property prior to construction.

(H) In the event the implementation of the buffer requirements of this Chapter preclude an otherwise legally buildable parcel from being developed, the (*enforcement officer*) may allow the minimal amount of variance from the buffer requirements in order to restore the parcel to a buildable condition. The (*enforcement officer*) may require a "fee-in-lieu-of" payment or other arrangement to mitigate the environmental impacts of the loss of buffer area.

32-5-8

SOIL EROSION AND SEDIMENTATION CONTROL.

(A) Soil erosion and sediment control-related measures are required to be constructed and maintained for any land disturbance activity permitted under **Section 32-4-1**. The following requirements shall be met:

- (1) Soil disturbance shall be conducted in such a manner as to minimize erosion. Areas of the development site that are not to be graded shall be protected from construction traffic or other disturbance until final seeding is performed. Soil stabilization measures shall consider the time of year, site conditions, and the use of temporary or permanent measures.
- (2) Properties and channels adjoining development sites shall be protected from erosion and sedimentation. At points where concentrated flow leaves a development site, energy dissipation devices shall be placed at discharge locations and along the length of any outfall channel as necessary to provide a non-erosive velocity of flow from the structure to the watercourse so that the natural physical and biological characteristics and functions are maintained and protected.
- (3) Soil erosion and sediment control features shall be constructed prior to the commencement of hydrologic disturbance of upland areas.
- (4) Disturbed areas shall be stabilized with temporary or permanent measures within **fourteen (14) calendar days** following the end of active hydrologic disturbance, or redistribution, consistent with the following criteria or using an appropriate measure as approved by the (*enforcement officer*).
 - (a) Appropriate temporary or permanent stabilization measures shall include seeding, mulching, sodding, and/or non-vegetative measures.
 - (b) Areas of embankments having slopes greater than or equal to 3H:1V shall be stabilized with staked-in-place sod, mat, or blanket in combination with seeding.
 - (c) Erosion control blankets shall be required on all interior detention basin side slopes between the normal water level and high water level.
 - (d) The **fourteen (14) day** stabilization requirement may be precluded by snow cover or where construction activity will resume within **twenty-one (21) days** from when the active hydrologic disturbance ceased, then stabilization measures do not have to be initiated on that portion of the site by the **fourteenth (14th) day** after construction activity temporarily ceased, given that portion of the site has appropriate soil erosion and sediment controls.
- (5) Land disturbance activities in streams shall be avoided, where possible. If disturbance activities are unavoidable, the following requirements shall be met:
 - (a) Where stream construction crossings are necessary, temporary crossings shall be constructed of non-erosive material.
 - (b) The time and area of disturbance of a stream shall be kept to a minimum. The stream, including bed and banks, shall be

- restabilized within **forty-eight (48) hours** after channel disturbance is completed or interrupted.
- (6) Soil erosion and sediment control measures shall be appropriate with regard to the amount of tributary drainage area as follows:
 - (a) Disturbed areas draining greater than **five thousand (5,000) square feet** but less than **one (1) acre** shall, at a minimum, be protected by a filter barrier (including filter fences, which at a minimum, meet the applicable sections of the *AASHTO Standard Specification 288-00*, or equivalent control measures) to control all off-site runoff. Vegetated filter strips, with a minimum width of **twenty-five (25) feet**, in the direction of flow, may be used as an alternative only where runoff in sheet flow is expected.
 - (b) Disturbed areas draining more than **one (1)** but fewer than **five (5) acres** shall, at a minimum, be protected by a sediment trap or equivalent control measure at a point downslope of the disturbed area.
 - (c) Disturbed areas draining more than **five (5) acres** or more, shall, at a minimum, be protected by a sediment basin with a perforated filtered riser pipe or equivalent control measures at a point downslope of the disturbed area.
 - (d) Sediment basins shall have both a permanent pool (dead storage) and additional volume (live storage) with each volume equal to the runoff amount of a **two (2) year, twenty-four (24) hour** event over the onsite hydrologically disturbed tributary drainage area to the sediment basin. The available sediment volume below normal water level, in addition to the dead storage volume shall be sized to store the estimated sediment load generated from the site over the duration of the construction period. For construction periods exceeding **one (1) year**, the **one (1) year** sediment load and a sediment removal schedule may be submitted. If the detention basin for the proposed development condition of the site is used for the sediment basin, the above volume requirements will be explicitly met. Until the site is finally stabilized, the basin permanent pool of water shall meet the above volume requirements and have a filtered perforated riser protecting the outflow pipe.
 - (7) All storm sewers that are or will be functioning during construction shall be protected by an appropriate sediment control measure and cleaned once the site has been stabilized.
 - (8) If dewatering services are used, adjoining properties and discharge locations shall be protected from erosion. Discharges shall be routed through an effective sediment control measure (e.g., sediment trap, sediment basin, or other appropriate measures).
 - (9) All temporary soil erosion and sediment control measures shall be removed within **thirty (30) days** after final site stabilization is achieved or after the temporary measures are no longer needed. Trapped sediment and other disturbed soil areas shall be permanently stabilized.
 - (10) A stabilized mat of aggregate underlain with filter cloth (or other appropriate measures) shall be located at any point where traffic will be entering or leaving a construction site of a major development to or from a public right-of-way, street, alley, or parking area. Any sediment or soil reaching an improved public right-of-way, street, alley, or parking area shall be removed by scraping or street cleaning as accumulations warrant and transported to a controlled sediment disposal area. The (enforcement officer) may require additional stabilized construction entrance methods.

- (11) Earthen embankments shall be constructed with side slopes no steeper than 3H:1V.
- (12) Stormwater conveyance channels, including ditches, swales, and diversions, and the outlet of all channels and pipes shall be designed and constructed to withstand the expected flow velocity from the **ten (10) year** frequency storm without erosion. All constructed or modified channels shall be stabilized within **forty-eight (48) hours**.
- (13) Temporary diversions shall be constructed, as necessary, to direct all runoff from hydrologically disturbed areas to the appropriate sediment trap or basin.
- (14) Soil stockpiles shall not be located in a flood-prone area or a designated buffer protecting Waters of the United States. Soil stockpiles are defined as having greater than **one hundred (100) cubic yards** of soil and will remain in place for more than **seven (7) days**. Soil stockpile locations shall be shown on the soil erosion and sediment control plan and shall have the appropriate measures to prevent erosion of the stockpile.
- (15) **Handbooks.** Standards and specifications contained in the *Illinois Urban Manual*, as amended, and the planning procedures sections of the *Illinois Procedures and Standards for Urban Soil Erosion and Sedimentation Control*, as amended, are referenced in this Chapter as guidance for presenting soil erosion and sediment control plan specifications and delineating procedures and methods of operation under site development for soil erosion and sediment control. In the event of conflict between provisions of said manuals and this Chapter, this Chapter shall govern.
- (16) The applicant shall provide adequate receptacles for the deposition of all construction material debris generated during the development process. The applicant shall not cause or permit the dumping, depositing, dropping, throwing, discarding or leaving of construction material debris upon or into any development site, channel, or Waters of the U.S. The applicant shall maintain the development site free of construction material debris.

(B) **Maintenance.** All temporary measures and permanent erosion and sediment control must be maintained in an effective working condition as identified by required inspections. This includes, but is not limited to, the following:

- (1) Repair, replace, or maintain erosion and sediment control structures after a singular or cumulative rainfall event(s) of **one-half (0.5) inch** or more over a **twenty-four (24) hour** period.
- (2) Make adjustments to the sedimentation and erosion control plan and methods, as needed, to accomplish the intended purpose.

(C) **Inspections.** Plans for upgrading, stripping, excavating, and filling work bearing the stamp of approval of the (*enforcement officer*) shall be maintained at the site during the progress of the work. The permittee shall inspect and maintain on-site records of such inspections at the intervals specified below.

- (1) Upon completion of installation of sediment and runoff control measures (including perimeter controls and diversions), prior to proceeding with any other earth disturbance or grading.
- (2) After rough grading.
- (3) After final grading, and
- (4) Weekly and after each rainfall event of **one-half (0.5) inch** or more over a **twenty-four (24) hour** period.

Any necessary repairs to soil erosion and sediment control measures shall be made and reported in the on-site inspection records. Copies of the inspection records shall be submitted to the (*enforcement officer*) in a monthly inspection report.

(D) **Notifications.** To facilitate inspections by the (*enforcement officer*) and to ensure compliance with the approved erosion and sediment control plan, the grading or building permit, and this

Chapter, the permittee shall notify the (*enforcement officer*) within **two (2) working days** of the completion of the construction stages specified below:

For Intermediate and Major Development:

- (1) Upon completion of installation of sediment and runoff control (controls and diversions), prior to proceeding with any other earth disturbance or grading.
- (2) After stripping and clearing.
- (3) After rough grading.
- (4) After final grading.
- (5) After seeding and landscaping deadlines, and
- (6) After final stabilization and landscaping, prior to removal of sediment controls.

If stripping, clearing, grading, and/or landscaping are to be done in phases or areas, the permittee shall give notice at the completion of each of the above work stages in each phase or area.

(E) **Special Precautions.**

- (1) If at any stage of the grading of any development site the (*enforcement officer*) determines by inspection that the nature of the site is such that further work authorized by an existing permit is likely to imperil any property, public way, stream, lake, wetland, or drainage structure, the (*enforcement officer*) may require, as a condition of allowing the work to be done, that such reasonable special precautions be taken as is considered advisable to avoid the likelihood of such peril. "Special Precautions" may include, but shall not be limited to, a more level exposed slope, construction of additional drainage facilities, berms, terracing, compaction, or cribbing, installation of plant materials for erosion control, and
- (2) Recommendations of a soil scientist and/or engineering geologist, which may outline requirements for further work.
- (3) Where it appears that storm damage may occur due to incomplete grading at the site, work may be stopped and the permittee required to install temporary structures or take such other measures as may be required to protect adjoining property or the public safety. On large development or where unusual site conditions prevail, the (*enforcement officer*) may specify the start and end dates for grading operations or may require that the operations be conducted in specific stages so as to ensure completion of protective measures or devices prior to the advent of seasonal rains.

32-5-9 FLOODPLAIN MANAGEMENT. Please see the Floodplain Chapter for your Village, if applicable. Contact IDNR/OWR or the (*enforcement officer*) for clarification and/or questions.

32-5-10 WETLAND PROVISIONS. In order to protect wetland, lake, and stream resources, wetland impacts to WOTUS are prohibited by this Stormwater Management Code, unless no feasible alternatives exist and all applicable regulatory approvals or clearances are granted prior to the onset of the regulated development.

(A) Areas subject to this Chapter include:

- (1) Waters of the United States (WOTUS). Wetland impacts to WOTUS on or adjacent to a development site will require regulatory approval or clearance from the USACE, the IDNR/OWR, and the IEPA.
- (2) Buffer Areas (as defined in Section 506) to WOTUS required by the USACE and/or this Chapter.

(B) Areas not subject to this Chapter include wetland restoration activities requiring minor earthmoving or grading in buffer areas. These activities are exempt upon receiving written approval from the (*enforcement officer*) prior to the onset of the activity.

- (C) **Applicability.** A stormwater management permit is required for any development:
- (1) that proposes wetland impact(s) within an area(s) defined as Waters of the United States; or
 - (2) within buffer area(s) adjacent to Waters of the United States required by the regulatory authority of the USACE; or
 - (3) that proposes wetland impact(s) with a total and cumulative impact area of **0.10 acre** in size or greater,
 - (4) within buffer area(s) required by this Chapter.
- (D) **Requirements for Wetland Delineation.**
- (1) A wetland specialist shall identify the boundaries, extent, function, and quality of all possible wetland areas on the development site and prepare a Wetland Determination Report. The presence and extent of jurisdictional wetland areas shall be determined using an on-site wetland procedure in accordance with the current Federal wetland delineation methodology. Farmed wetlands will be determined using the National Food Security Act Manual or by contacting the Natural Resources Conservation Service (NRCS).
 - (2) **Wetland Determination Report.** The following are minimum requirements for the Wetland Determination Report:
 - (a) A plan showing the exact location and extent of all wetlands within the development boundaries. The boundary of the wetland(s) shall be flagged in the field and surveyed;
 - (b) An aerial photograph map delineating the identified wetland(s) and the development boundary, as well as the estimated location and extent of any off-site wetland(s) contiguous to, or extending off-site from, the development parcel. The map should be at an appropriate scale (for most projects, a scale of **one (1) inch to one hundred (100) or two hundred (200) feet**, not to exceed **one (1) inch to four hundred (400) feet**);
 - (c) The most recent copy of the following maps, delineating the development boundary:
 - (i) National Hydrography Dataset;
 - (ii) NRCS Wetland Inventory map;
 - (iii) FEMA floodplain map; and
 - (iv) County soil survey.
 - (d) USACE wetland delineation data sheets with representative color photographs provided for each wetland;
 - (e) A written description of the wetland(s) that includes a Floristic Quality Assessment, as determined by methodology contained in the publication *Plants of the Chicago Region* (Swink & Wilhelm 4th Edition, The Indiana Academy of Science, Lisle, Illinois 1994). Floristic quality assessments shall be conducted during the local growing season between May 15 and October 1. Non-growing season assessments may be considered for sites with apparent plant community monocultures or low floristic diversity potential; however, the (*enforcement officer*) reserves the right to require additional sampling during the growing season prior to issuing a permit.
 - (f) A functional assessment for each wetland using the Modified Michigan Department of Natural Resources Method or the Ludwig wildlife habitat evaluation methodology. Other functional assessment methods are allowed but shall be approved prior to submittal.

(E) **Wetland Mitigation Requirements.** In order to further the goal of “no net-loss” of the Village’s wetland resources, all permitted wetland impacts shall be mitigated at the ratio specified by this Chapter. The objective shall be to replace the impacted wetland functions where they can be most successfully protected and maintained in perpetuity.

- (1) Mitigation for impacts shall provide for the replacement of the wetland environment lost to development at a rate of 3:1 (i.e., creation acreage to impact acreage):
 - (a) Upon receipt of an approved permit authorizing a wetland impact, up to **0.10 acre** may be filled without providing mitigation. All other regulatory aspects of this Chapter (such as drainage, compensatory storage, etc.) will be complied with before the exemption is granted.
 - (b) The **0.10 acre** mitigation exemption may only be exercised one time per approved ordinance permit.
 - (c) The (*enforcement officer*) may deny the mitigation exemption.
- (2) On-site wetland mitigation is preferred, but only if the applicant can document that it can expand the extent or improve the quality of other existing, undisturbed on-site or adjacent wetlands.
- (3) The mitigated wetland(s) shall be designed to duplicate or improve the hydrologic, biologic, botanic, and wildlife features of the original wetland(s) impacted.
- (4) Creation of wetlands for the mitigation of wetland impacts shall take place only within areas not currently composed of jurisdictional WOTUS.
- (5) Preference for the ownership of wetland mitigation sites is as follows:
 - (a) Land owned and managed by a governmental entity, not-for-profit land trust, or other appropriate non-governmental organization for conservation purposes.
 - (b) Wetland mitigation bank approved by the USACE and/or the (*enforcement officer*).
 - (c) Privately owned sites with appropriate deed restrictions, covenants, or easements with a dedicated funding source in place to fund and protect the mitigation site in perpetuity.
- (6) To the extent practicable, all wetland mitigation shall be provided at a suitable location as close to the wetland impact site as possible. Whenever possible, wetland mitigation shall take place within the same sub-watershed or watershed.
- (7) As geographic distance increases between wetland impact site and mitigation site, the (*enforcement officer*) may impose a mitigation multiplier on the mitigation ratio.
- (8) Development in or affecting a wetland environment shall be initiated only after a mitigation plan has been approved and adequate securities, such as a performance bond or letter of credit, are provided as specified in this Chapter.
- (9) A plan for the perpetual management, operation, and maintenance of the mitigation areas, including the designation of the person(s) or organization legally responsible for long-term operation and maintenance, and dedicated funding sources shall be submitted.
- (10) All wetland impacts mitigated on private property shall be protected by a conservation easement, deed restriction, or other legal mechanism recorded on the plat of survey for the parcel on which the mitigation is located.

(F) **Wetland Banking.**

- (1) Where development affecting WOTUS meets the requirements of this Chapter and the long-term preservation of existing wetland functions or characteristics is unlikely as a result of existing or proposed land use

practices in adjacent upland areas, then the applicant may provide mitigation wholly or in part through investment in a USACE-certified wetland banking project, [or payment into the wetland restoration fund in lieu of constructing new wetlands.]

- (2) Such wetland banking shall be allowed only if the adverse impacts of development in isolated wetlands are fully mitigated.
- (3) Wetland Banks must be certified by the USACE.
- (4) A stormwater management permit will not be issued until a copy of the receipt of payment is provided.

(G)

Wetland Hydrology.

- (1) The following hydrology threshold requirements shall be met by the regulated development. If the development activity exceeds the hydrology threshold limits, a wetland impact shall be assumed, and the mitigation requirements of this Section of the Chapter shall apply.
- (2) The design shall maintain between **eight percent (80%)** and **one hundred fifty percent (150%)** of the existing condition **two (2) year, twenty-four (24) hour** storm event runoff volume from the onsite tributary drainage area. The design shall meet the total off-site release rate requirements of this Chapter. The following minimum information shall be submitted to address this provision:
 - (a) An exhibit illustrating the existing condition and proposed condition drainage areas;
 - (b) Existing condition and proposed conditions runoff volume calculations.

ARTICLE VI – STORMWATER MANAGEMENT PLANS

32-6-1 REVIEW AND APPROVAL OF STORMWATER MANAGEMENT PLANS.

(A) For any proposed development, the developer shall submit a stormwater management plan (SWM plan) or waiver application to the Village for review and approval, unless otherwise exempted. The stormwater management plan shall contain supporting computations, drawings, and sufficient information describing the manner, location, and type of measures in which stormwater runoff will be managed from the entire development. The Village shall review the plan to determine compliance with the requirements of this Chapter prior to approval. The plan shall serve as the basis for all subsequent construction.

(B) Notification of approval or reasons for disapproval or modification shall be given to the applicant within **forty-five (45) days** after submission of the completed stormwater plan. If a decision is not made within **forty-five (45) days**, the applicant shall be informed of the status of the review process and the anticipated completion date. The stormwater management plan shall not be considered approved without the inclusion of the signature and date of signature of the (*enforcement officer*) on the plan.

32-6-2 CONTENTS OF THE STORMWATER MANAGEMENT PLAN.

(A) The developer is responsible for submitting a stormwater management plan that meets the design requirements of this Chapter. The plan shall be accompanied by a report that includes sufficient information to evaluate the environmental characteristics of affected areas, the potential impacts of the proposed development on water resources, and the effectiveness and acceptability of measures proposed for managing stormwater runoff. The developer or builder shall certify on the drawings that all clearing, grading, drainage, construction, and development shall be conducted in strict accordance with the plan. If a stormwater management plan involves direction of some or all runoff of the site, it is the responsibility of the developer to obtain from adjacent property owners any easements or necessary property interests concerning flowage of water. Approval of a stormwater management plan does not create or affect any right to direct runoff onto adjacent property without that property owner's permission. The minimum information submitted for support of a stormwater management plan or application for a waiver shall be as follows.

(B) Reports submitted for stormwater management plan approval shall include:

- (1) A brief narrative description of the project;
- (2) Geotechnical investigations including soil maps, borings, site-specific recommendations, and any additional information necessary for the proposed stormwater management design;

ARTICLE VII – OPERATIONS AND MAINTENANCE (O&M)

32-7-1 MAINTENANCE RESPONSIBILITY.

- (A) The owner shall maintain all stormwater management facilities in good working order in accordance with the approved O & M Plan.
- (B) the owner shall convey to the Village easements to assure access for inspections and maintenance, if required.
- (C) The owner shall keep on file with the Village the name, address, and telephone number of the person or company responsible for maintenance activities; in the event of a change, new information will be submitted to the Village within **ten (10) days** of the change.
- (D) Enumerate permanent SWM facilities as permanent real estate appurtenances and record as deed restrictions or easements that run with the land.
- (E) The record owner of the development site shall sign and record an Operation and Maintenance (O&M) Agreement covering all SWM facilities, including riparian buffers and riparian forest buffers, which are to be privately owned. The O&M Plan and Agreement shall be recorded as a restrictive covenant agreement that runs with the land.

32-7-2 OPERATION AND MAINTENANCE AGREEMENTS.

- (A) The Operation and Maintenance Agreement includes the Operation and Maintenance Plan and shall be subject to the review and approval of the (*enforcement officer*).
- (B) The Village is exempt from the requirement to sign and record an O&M agreement.

32-7-3 OPERATION AND MAINTENANCE PLAN. The O&M Plan shall clearly establish the operation and maintenance necessary to ensure the proper functioning of all temporary and permanent stormwater management facilities and erosion and sedimentation control facilities. The O&M Plan shall be submitted with the stormwater management permit application to the (*enforcement officer*).

- (A) O&M Plans shall be kept on file by the Village for all stormwater management systems.
- (B) The following shall be addressed in the O&M Plan:
 - (1) Description of maintenance requirements, including, but not limited to, the following:
 - (a) Regular inspection of the SWM facilities. To assure proper implementation of BMPs, maintenance and care SWM BMPs should be inspected by a qualified person, which may include the landowner, or the owner's designee (including the Village for dedicated and owned facilities), according to the following minimum frequencies:
 - (i) The first year of operation.
 - (ii) Once every **three (3) years** thereafter.
 - (iii) During or immediately after the cessation of a 10-year or greater storm.
 - (b) All pipes, swales, and detention facilities shall be kept free of any debris or other obstruction and in original design condition.
 - (c) Removal of silt from all permanent structures which trap silt or sediment in order to keep the material from building up in grass waterways, pipes, detention or retention basins, infiltration structures, or BMPs, and thus reducing their capacity to convey or store water.
 - (d) Re-establishment of vegetation of scoured areas or areas where vegetation has not been successfully established. Selection of seed mixtures shall be subject to approval by the Village.

(C) After notification is provided to the owner of any deficiencies discovered from an inspection of a stormwater management system, the owner shall have **thirty (30) days** to correct the deficiencies. Village shall then conduct a subsequent inspection to ensure completion of the repairs.

(D) If, after an inspection by the Village, the condition of a stormwater management facility presents an immediate danger to the public health or safety because of an unsafe condition or improper maintenance, the Village shall take such action as may be necessary to protect the public and make the facility safe. Any cost incurred by the Village shall be assessed against the owner(s).

ARTICLE VIII – VARIANCES AND APPEALS

32-8-1

VARIANCES.

(A) The (*enforcement officer*) upon application, after public hearing, and subject to the process and standards that follow, may grant variances to the provisions of this Chapter as will not cause detriment to the public good, safety, or welfare nor be contrary to the spirit, purpose, and intent of this Chapter where, by reason of unique and exceptional physical circumstances or condition of a particular property, the literal enforcement of the provisions of this chapter would result in an unreasonable hardship.

- (1) The community's (*enforcement officer*) shall administer the variance provisions.
- (2) A public notice will be issued in accordance with your local zoning and planning guidance.
- (3) No variance shall be granted unless the applicant demonstrates that all of the following conditions are met:
 - (a) Showing of good and sufficient cause, and
 - (b) A determination that the variance is the minimum necessary to afford relief, considering the flood hazard and water quality, and
 - (c) A finding that failure to grant the variance would result in exceptional hardship to the applicant, and
 - (d) A finding that the granting of a variance would not result in increased flood heights or damages, additional threats to public safety, extraordinary public expense, a created nuisance, fraud, or victimization of the public, nor conflict with existing local laws or stated purpose of any ordinances, and
 - (e) A finding that all buildings will be protected by methods that will minimize flood damage up to the FPE, and
 - (f) A finding that the development activity cannot be located outside the regulatory floodplain or flood prone area, and
 - (g) The applicant's circumstances are unique and do not establish a pattern inconsistent with the intent of the NFIP; and
 - (h) The activity is not in a designated floodway; and
 - (i) The granting of the variance will not alter the essential character of the area involved including existing stream uses; and
 - (j) All other required state and federal permits or waivers have been obtained.
- (4) Upon consideration of the factors noted above and the intent of this Chapter, the (*enforcement officer*) may attach such conditions to the granting of a variance deemed necessary to further the purposes and objectives herein.
- (5) Variances requested in connection with restoration of a historic site or building listed on the National Register of Historical Places or documented as worthy of preservation by the Illinois Historic Preservation Agency or Certified Local Government, may be granted using criteria more permissive than the requirements contained in this Chapter.
- (6) In a flood-prone area or a regulatory floodplains (without a mapped regulatory floodway) where the tributary drainage area is **six hundred forty (640) acres** or more, a variance may not be granted that will reduce the regulatory floodplain or flood-prone area storage volume by greater than **five percent (5%)** of the existing regulatory floodplain or flood-prone area storage volume on the site. In addition, hydrologic and hydraulic analysis must demonstrate that issuance of a variance will not result in singular or cumulative increases in flood heights.

- (7) Variances requested in connection with the redevelopment of previously developed sites, that will further the public policy goals of downtown redevelopment and neighborhood revitalization, may be granted a variance provided the variance would not result in an increase in the pre-redevelopment runoff rate or volume and there will exist adequate downstream stormwater capacity.
- (8) Variances to Buffer Areas Requirements and Stormwater Management Requirements requested for public road development that will continue the public policy of minimizing the condemnation of private or public property may be granted using criteria less restrictive than the Stormwater Management requirements to the extent necessary to reduce the amount of condemnation provided the variance will not result in a downstream drainage hazard, and
- (9) Written findings shall be made public for all variances and shall be on file with the Village.

32-8-2 APPEALS.

(A) Any person aggrieved by a decision of an (*enforcement officer*) may request review thereof by the Village's board of elected officials or the appropriate body.

(BN) Any person aggrieved by a decision, requirement, ruling, or interpretation of this Chapter by the Village Chief Engineer may appeal it to the Village by written notice filed with the Chief Engineer within **ten (10) days** of the determination.

ARTICLE IX – INSPECTIONS

ARTICLE X – VIOLATION AND PENALTY

32-10-1 VIOLATION AND PENALTY. Any person who violates, disobeys, omits, neglects, refuses to comply with, or resists the enforcement of any provision of this Chapter, including but not limited to: obtaining a required stormwater management permit, violating a condition of an issued stormwater management permit, failing to submit or follow an O&M plan, or violating a stop work order shall be in violation of this Chapter and subject to various available legal or equitable actions, remedies, and penalties.

(A) Failure to comply with any of the requirements of this Chapter shall constitute a violation, and any person convicted thereof shall be fined not more than **Seven Hundred Fifty Dollars (\$750.00)** for each offense. Each day the violation continues shall be considered a separate offense.

(B) Whenever the (*enforcement officer*) finds a violation of this Chapter, or of any permit or stop work order within his or her respective jurisdiction, the (*enforcement officer*) may pursue any one or more of the following legal or equitable actions, remedies, and penalties against any person found to be in violation of this Chapter including but not limited to:

- (1) The (*enforcement officer*) may initiate a complaint and civil legal action in a court of competent jurisdiction against any person in violation of this Chapter;
- (2) The (*enforcement officer*) may revoke any stormwater management permit issued;
- (3) The (*enforcement officer*) may require the person to apply for an “after-the-fact” stormwater management permit, including any and all supporting documentation required thereto, for any unpermitted, unauthorized development, disturbance, or impact;

- (5) The (*enforcement officer*) may take other legal action including, but not limited to, a temporary restraining order and other preliminary or permanent injunctive relief necessary to prevent further harm or violation and/or remedy any harm or violation that has already occurred, and, if applicable, require removal, correction, remediation and/or mitigation for said harm and violation. In addition to any fine or other relief, all costs and expenses, including reasonable attorney’s fees incurred, may be recovered;
- (6) The (*enforcement officer*) may require removal, correction, remediation and/or mitigation for any harm and violation that has occurred and require that the area be fully restored to its condition prior to such development, disturbance, or impact.

ARTICLE XI – DISCLAIMER OF LIABILITY

32-11-1 DISCLAIMER OF LIABILITY. It is recognized that the degree of flood protection required by this Chapter is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. However, on occasion, greater floods than the base flood will occur and will result in greater flood heights and flood damage. Furthermore, flood heights may be increased by other man-made or natural causes. These provisions do not imply that land outside the floodplain or flood-prone areas or that uses permitted within such areas will be free from flooding or flood damages. These provisions shall not create liability on the part of the Stormwater Committee nor any certified community nor any officer or employee thereof for any flood damages that result from reliance on this Chapter or any administrative decision lawfully made thereunder.

ARTICLE XII – SEVERABILITY

32-12-1 SEVERABILITY. If any portion of this Chapter is held invalid or unconstitutional by a court of competent jurisdiction, such portion shall not affect the validity of the remaining portions of this Chapter. It is the intent of the Village that this Chapter shall stand, even if a section, subsection, sentence, clause, phrase, or portion may be found invalid.

ARTICLE XIII – EFFECTIVE DATE

32-13-1 EFFECTIVE DATE. And be it further enacted that this Chapter shall take effect (time frame) from the date it becomes adopted.

APPENDIX A

WATER QUALITY VOLUME CONTROL PRACTICES DESIGN SPECIFICATIONS

From the Department of Environmental Protection, bureau of Watershed Management
 Pennsylvania Stormwater Best Management Practices Manual, Chapter 5: Non-Structural BMPs and
 Chapter 8: Stormwater Calculations and Methodology, December, 2006

Preservation of natural resource features of the development site (e.g., floodplains, wetlands, prairies, and woodlands)

Preserved natural resource features are not to be included in the runoff Volume calculation

Stormwater management Area = (total Area – Preserved Area)

Runoff from the Preserved Areas may be excluded from peak rate calculations for runoff control, provided that the runoff from the Preserved Area is not conveyed to and/or through stormwater management control structures. If necessary, runoff from Preserved Areas should be directed around BMPs and stormwater pipes and inlets by means of vegetated swales or low berms that direct flow to natural drainage ways.

Preservation of the existing natural streams, channels, and drainage ways

A volume reduction may be credited based upon the area of the natural drainage feature that is vegetated.

Volume Reduction (ft³) = Area x ¼" runoff

= Vegetated Area of Natural Drainage Feature (ft²) x ¼"/12

The peak rate is reduced by a longer travel time of runoff through natural drainage features. The time of travel (Tt) after development may be considered the same as the Tt before development for flows through natural drainage features. When calculating flow rates:

Tt_{before} = Tt_{after}

Minimizing impervious surfaces

Minimizing impervious surfaces is "self-crediting" in that the use of this BMP automatically provides a reduction in impervious area and a corresponding reduction in stormwater impacts.

The use of natural landscaping as an alternative to turf grass

A volume reduction may be credited in the same manner as for preservation:

Volume Reduction (ft³) = Area x ¼" runoff

= Vegetated Area of Natural Landscaping (ft²) x ¼"/12

The peak rate for runoff will be reduced by using the reduced volume as calculated above.

The use of open vegetated channels, filter strips, and infiltration (basins, trenches, floodplain restoration, etc.) to convey, filter, and infiltrate stormwater runoff

Storage volume equals the amount of runoff the facility can hold.

Preservation of the natural infiltration and storage characteristics of the site (e.g. disconnection of impervious cover, on-lot bioretention facilities, rooftop detention, parking lot detention)

A volume reduction may be credited based upon the area that will be disconnected from a storm sewer or other structural facility and drain into an infiltrating area instead.

$$\text{Volume Reduction (ft}^3\text{)} = \text{Disconnected area (ft}^2\text{)} \times \frac{1}{4}"/12$$

The peak rate for runoff will be reduced by using the reduced volume as calculated above.

Structural measures that provide water quality and quantity control (stormwater wetlands, wet detention facilities, sedimentation traps, etc.);

Storage volume equals the amount of runoff the facility can hold.

Structural measures that provide only quantity control and conveyance.

Storage volume equals the amount of runoff the facility can hold.

APPENDIX "B"

"WATERS OF THE UNITED STATES" DEFINITION**Clean Water Rule: Definition of "Waters of the United States"****40 CFR 230.3****PART 230 – SECTION 404(b)(1) GUIDELINES FOR SPECIFICATION OF DISPOSAL SITES FOR DREDGED OR FILL MATERIAL**

§230.3 Definitions

(o) The term *waters of the United States* means:(1) For purposes of the Clean Water Act, 33 U.S.C. 1251 *et. Seq.* and its implementing regulations, subject to the exclusions in paragraph (o)(2) of this section, the term "waters of the United States" means:

(i) All waters which are currently used, were used in the past, or may be susceptible to use in interstate or foreign commerce, including all waters which are subject to the ebb and flow of the tide;

(ii) All interstate waters, including interstate wetlands;

(iii) The territorial seas;

(iv) All impoundments of waters otherwise identified as waters of the United States under this section;

(v) All tributaries, as defined in paragraph (o)(3)(iii) of this section, of waters identified in paragraphs (o)(1)(i) through (iii) of this section;

(vi) All waters adjacent to a water identified in paragraphs (o)(1)(i) through (v) of this section, including wetlands, ponds, lakes, oxbows, impoundments, and similar waters;

(vii) All waters in paragraphs (o)(1)(vii)(A) through (E) of this section where they are determined, on a case-specific basis, to have a significant nexus to a water identified in paragraphs (o)(1)(i) through (iii) of this section. The waters identified in each of paragraphs (o)(1)(vii)(A) through (E) of this section are similarly situated and shall be combined, for purposes of a significant nexus analysis, in the watershed that drains to the nearest water identified in paragraphs (o)(1)(i) through (iii) of this section. Waters identified in this paragraph shall not be combined with waters identified in paragraph (o)(1)(vi) of this section when performing a significant nexus analysis. If waters identified in this paragraph are also an adjacent water under paragraph (o)(1)(vi), they are an adjacent water and no case-specific significant nexus analysis is required.

(A) *Prairie potholes*. Prairie potholes are a complex of glacially formed wetlands, usually occurring in depressions that lack permanent natural outlets, located in the upper Midwest.(B) *Carolina bays and Delmarva bays*. Carolina bays and Delmarva bays are ponded, depressional wetlands that occur along the Atlantic coastal plain.(C) *Pocosins*. Pocosins are evergreen shrub and tree dominated wetlands found predominantly along the Central Atlantic coastal plain.(D) *Western vernal pools*. Western vernal pools are seasonal wetlands located in parts of California and associated with topographic depression, soils with poor drainage, mild, wet winters and hot, dry summers.(E) *Texas coastal prairie wetlands*. Texas coastal prairie wetlands are freshwater wetlands that occur as a mosaic of depressions, ridges, intermound flats, and mima mound wetlands located along the Texas Gulf Coast.

(viii) All waters located within the 100-year floodplain of a water identified in paragraphs (o)(1)(i) through (iii) of this section and all waters located within 4,000 feet of the high tide line or ordinary high water mark of a water identified in paragraphs (o)(1)(i) through (v) of this section where they are determined on a case-specific basis to have a significant nexus to a water identified in paragraphs (o)(1)(i) through (iii) of this section. For waters determined to have a significant nexus, the entire water is a water of the United States if a portion is located within the 100-year floodplain of a water identified in paragraphs (o)(1)(i) through (iii) of this section or

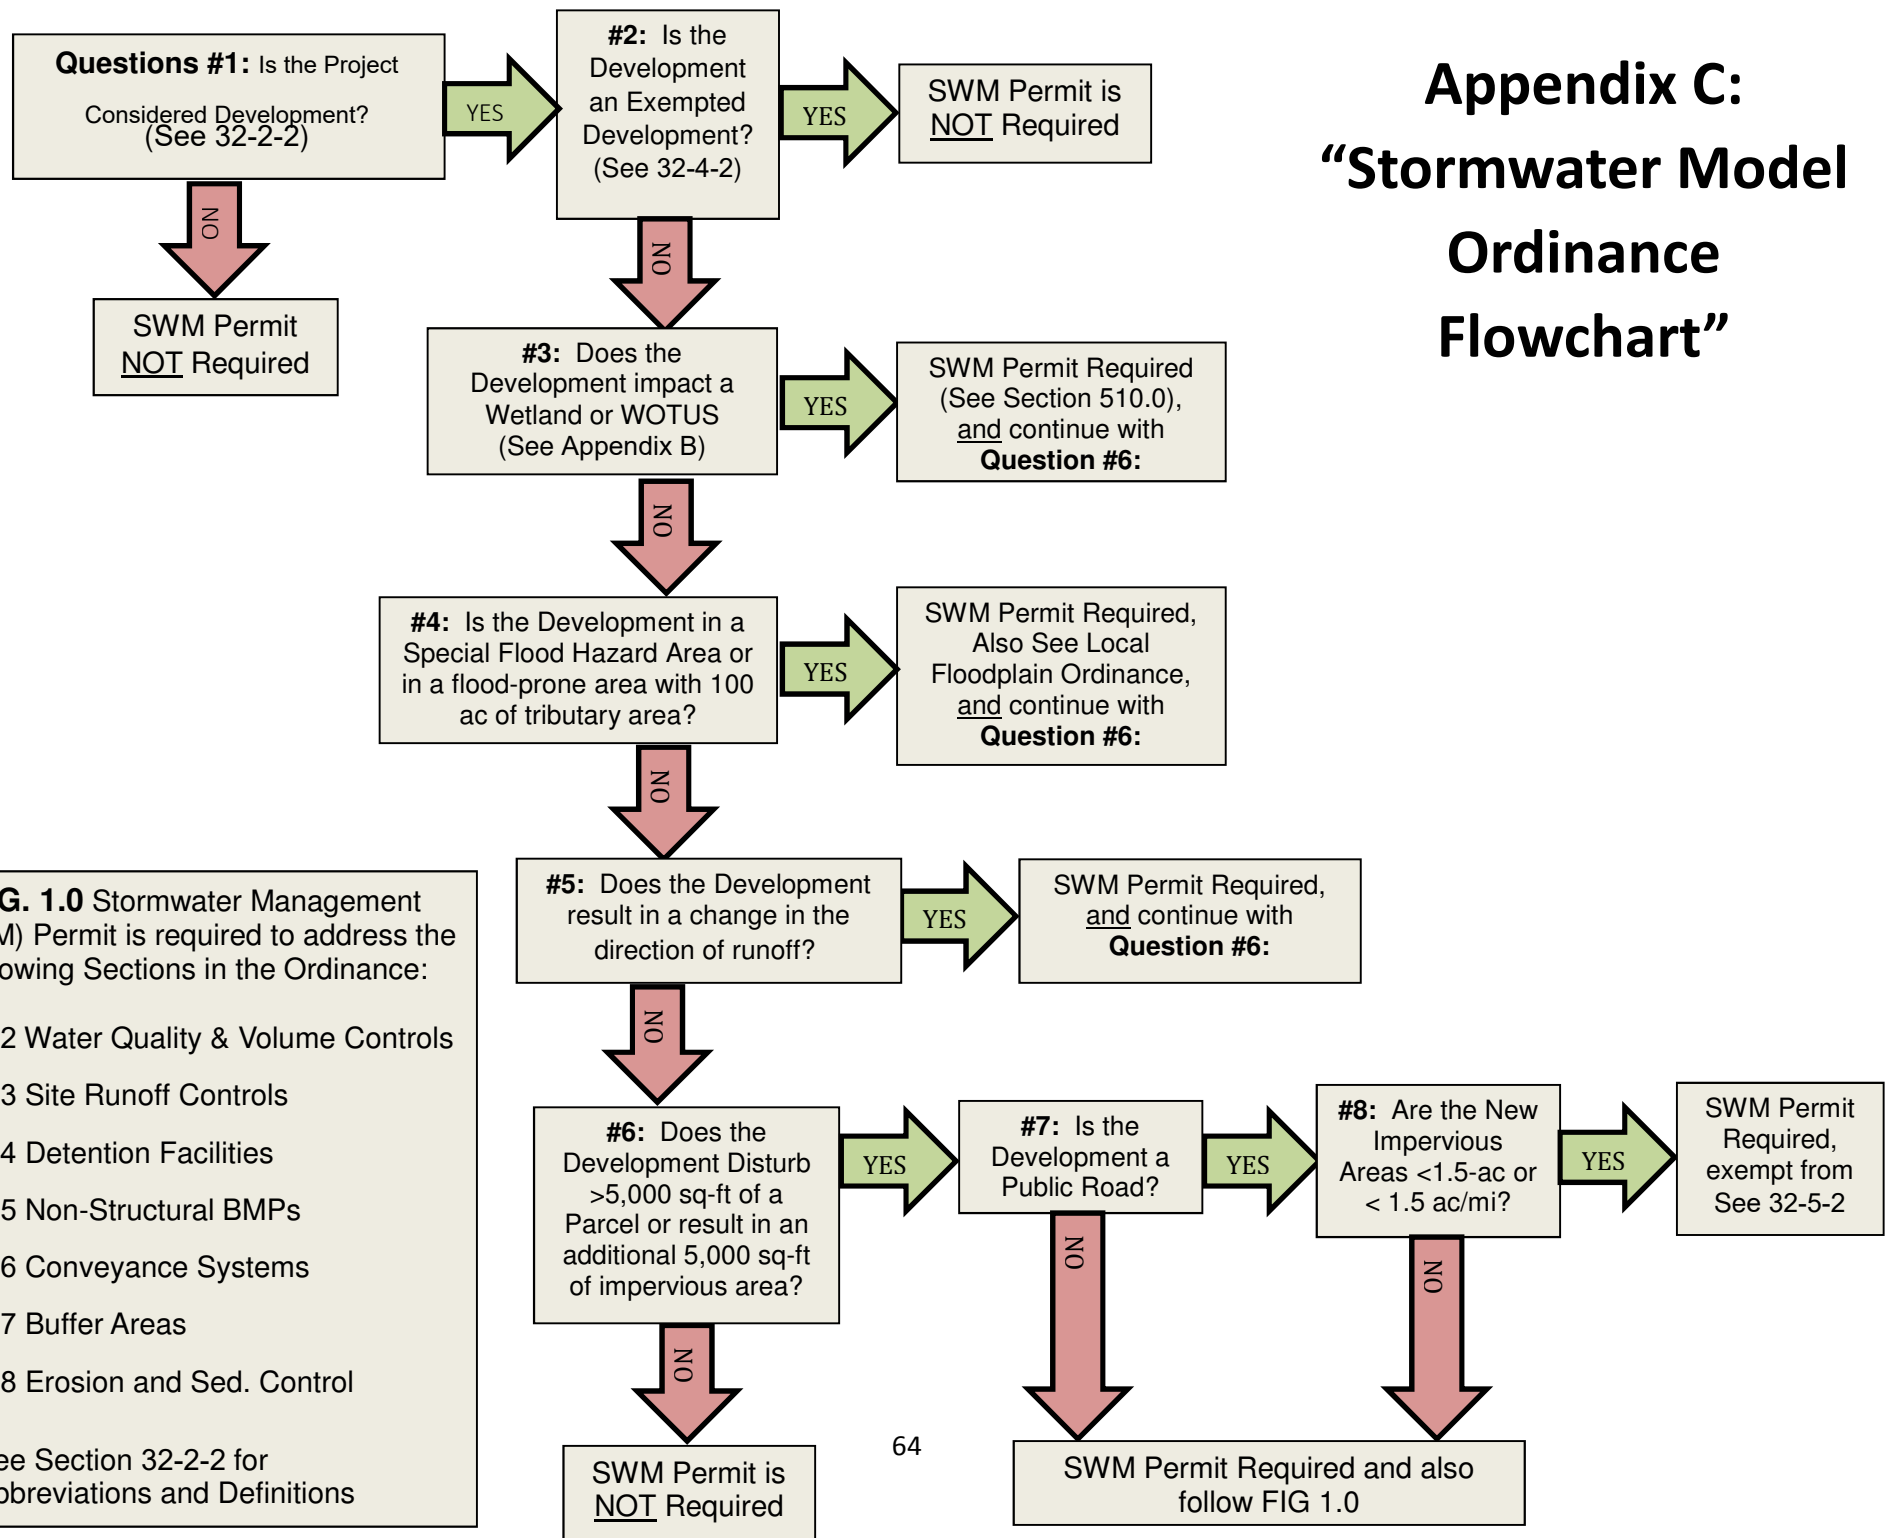

- within 4,000 feet of the high tide line or ordinary high water mark. Waters identified in this paragraph shall not be combined with waters identified in paragraphs (o)(1)(vi) of this section when performing a significant nexus analysis. If waters identified in this paragraph are also an adjacent water under paragraph (o)(1)(vi), they are an adjacent water and no case-specific significant nexus analysis is required.
- (2) The following are not “waters of the United States” even where they otherwise meet the terms of paragraphs (o)(1)(iv) through (viii) of this section.
- (i) Waste treatments systems, including treatment ponds or lagoons designed to meet the requirements of the Clean Water Act are not waters of the United States.
 - (ii) Prior converted cropland. Notwithstanding the determination of an area’s status as prior converted cropland by any other Federal agency, for the purposes of the Clean Water Act, the final authority regarding Clean Water Act jurisdiction remains with EPA.
 - (iii) The following ditches:
 - (A) Ditches with ephemeral flow that are not a relocated tributary or excavated in a tributary.
 - (B) Ditches with intermittent flow that are not a relocated tributary, excavated in a tributary, or drain wetlands.
 - (C) Ditches that do not flow, either directly or through another water, into a water identified in paragraphs (o)(1)(i) through (iii) of this section.
 - (iv) The following features:
 - (A) Artificially irrigated areas that would revert to dry land should application of water to that area cease;
 - (B) Artificial, constructed lakes and ponds created in dry land such as farm and stock watering ponds, irrigation ponds, settling basins, fields flooded for rice growing, log cleaning ponds, or cooling ponds;
 - (C) Artificial reflecting pools or swimming pools created in dry land;
 - (D) Small ornamental waters created in dry land;
 - (E) Water-filled depressions created in dry land incidental to mining or construction activity, including pits excavated for obtaining fill, sand, or gravel that fill with water;
 - (F) Erosional features, including gullies, rills, and other ephemeral features that do not meet the definition of tributary, non-wetland swales, and lawfully constructed grassed waterways; and
 - (G) Puddles.
 - (v) Groundwater, including groundwater drained through subsurface drainage systems.
 - (vi) Stormwater control features constructed to convey, treat, or store stormwater that are created in dry land.
 - (vii) Wastewater recycling structures constructed in dry land; detention and retention basins built for wastewater recycling; groundwater recharge basins; percolation ponds built for wastewater recycling; and water distributary structures built for wastewater recycling.
- (3) In this paragraph (o), the following definitions apply:
- (i) *Adjacent*. The term *adjacent* means bordering, contiguous, or neighboring a water identified in paragraphs (o)(1)(i) through (v) of this section, including waters separated by constructed dikes or barriers, natural river berms, beach dunes, and the like. For purposes of adjacency, an open water such as a pond or lake includes any wetlands within or abutting its ordinary high water mark. Adjacency is not limited to waters located laterally to a water identified in paragraphs (o)(1)(i) through (v) of this section. Adjacent waters also include all waters that connect segments of a water identified in paragraphs (o)(1)(i) through (v) or are located at the head of a water identified in paragraphs (o)(1)(i) through (v) of this section and are bordering, contiguous, or neighboring such water. Waters being used for established normal farming, ranching, and silviculture activities (33 U.S.C. 1344(f)) are not adjacent.
 - (ii) *Neighboring*. The term *neighboring* means:
 - (A) All waters located within 100 feet of the ordinary high water mark of a water identified in paragraphs (o)(1)(i) through (v) of this section. The entire water is neighboring if a portion is located within 100 feet of the ordinary high water mark;
 - (B) All waters located within the 100-year floodplain of a water identified in paragraphs (o)(1)(i) through (v) of this section and not more than 1,500 feet from the ordinary high water

mark of such water. The entire water is neighboring if a portion is located within 1,500 feet of the ordinary high water mark and within the 100-year floodplain;

- (C) All waters located within 1,500 feet of the high tide line of a water identified in paragraphs (o)(1)(i) or (iii) of this section, and all waters within 1,500 feet of the ordinary high water mark of the Great Lakes. The entire water is neighboring if a portion is located within 1,500 feet of the high tide line or within 1,500 feet of the ordinary high water mark of the Great Lakes.
- (iii) *Tributary* and *tributaries*. The terms *tributary* and *tributaries* each mean a water that contributes flow, either directly or through another water (including an impoundment identified in paragraph (o)(1)(iv) of this section), to a water identified in paragraphs (o)(1)(i) through (iii) of this section that is characterized by the presence of the physical indicators of a bed and banks and an ordinary high water mark. These physical indicators demonstrate there is volume, frequency, and duration of flow sufficient to create a bed and banks and an ordinary high water mark, and thus to qualify as a tributary. A tributary can be a natural, man-altered, or man-made water and includes waters such as rivers, streams, canals, and ditches not excluded under paragraph (o)(2) of this section. A water that otherwise qualifies as a tributary under this definition does not lose its status as a tributary if, for any length, there are one or more constructed breaks (such as bridges, culverts, pipes, or dams), or one or more natural breaks (such as wetlands along the run of a stream, debris piles, boulder fields, or a stream that flows underground) so long as a bed and banks and an ordinary high water mark can be identified upstream of the break. A water that otherwise qualifies as a tributary under this definition does not lose its status as a tributary if it contributes flow through a water of the United States that does not meet the definition of tributary or through a non-jurisdictional water to a water identified in paragraphs (o)(1)(i) through (iii) of this section.
- (iv) *Wetlands*. The term *wetlands* means those areas that are inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marches, bogs, and similar areas.
- (v) *Significant nexus*. The term *significant nexus* means that a water, including wetlands, either alone or in combination with other similarly situated waters in the region, significantly affects the chemical, physical, or biological integrity of a water identified in paragraphs (o)(1)(i) through (iii) of this section. The term "in the region" means the watershed that drains to the nearest water identified in paragraphs (o)(1)(i) through (iii) of this section. For an effect to be significant, it must be more than speculative or insubstantial. Waters are similarly situated when they function alike and are sufficiently close to function together in affecting downstream waters. For purposes of determining whether or not a water has a significant nexus, the water's effect on downstream (o)(1)(i) through (iii) waters shall be assessed by evaluating the aquatic functions identified in paragraphs (o)(3)(v)(A) through (I) of this section. A water has a significant nexus when any single function or combination of functions performed by the water, alone or together with similarly situated waters in the region, contributes significantly to the chemical, physical, or biological integrity of the nearest water identified in paragraphs (o)(1)(i) through (iii) of this section. Functions relevant to the significant nexus evaluation are the following:
- (A) Sediment trapping,
 - (B) Nutrient recycling,
 - (C) Pollutant trapping, transformation, filtering, and transport,
 - (D) Retention and attenuation of flood waters,
 - (E) Runoff storage,
 - (F) Contribution of flow,
 - (G) Export of organic matter,
 - (H) Export of food resources, and
 - (I) Provision of life cycle dependent aquatic habitat (such as foraging, feeding, nesting, breeding, spawning, or use as a nursery area) for species located in a water identified in paragraphs (o)(1) through (3) of this section.

- (vi) *Ordinary high water mark.* The term *ordinary high water mark* means that line on the shore established by the fluctuations of water and indicated by physical characteristics such as a clear, natural line impressed on the bank, shelving, changes in the character of soil, destruction of terrestrial vegetation, the presence of litter and debris, or other appropriate means that consider the characteristics of the surrounding areas.
- (vii) *High tide line.* The term *high tide line* means the line of intersection of the land with the water's surface at the maximum height reached by a rising tide. The high tide line may be determined, in the absence of actual data, by a line of oil or scum along shore objects, a more or less continuous deposit of fine shell or debris on the foreshore or berm, other physical markings or characteristics, vegetation lines, tidal gages, or other suitable means that delineate the general height reached by a rising tide. The line encompasses spring high tides and other high tides that occur with periodic frequency but does not include storm surges in which there is a departure from the normal or predicted reach of the tide due to the piling up of water against a coast by strong winds such as those accompanying a hurricane or other intense storm.

33-1-2 **COMMITTEE ON STREETS.** The Village Board Standing Committee on Streets shall exercise a general supervision over the affairs of the Street Department. It shall ascertain the needs and conditions thereof and shall, from time to time, report the same to the Mayor and Village Board.

ARTICLE II - GENERAL REGULATIONS

33-2-1 **UNDERMINING.** No person shall undermine in any manner, any street or any other ground or real estate situated in the Village or belonging to any private person.

33-2-2 **OPEN DOORS.** No person shall open or allow to remain open, any door, any gate, or the grating of any vault belonging to the premises occupied by him, on any street, alley or sidewalk in the Village for any purpose, except the taking in and removing goods; and any person allowing such grating to remain open shall warn passersby of the danger.

33-2-3 **REPAIRING SIDEWALKS, ETC.** When any private sidewalk, pavement, or cellar door on the same becomes worn out or out of repair, or is torn up or broken and uneven, it shall be the duty of the Street Superintendent to immediately report such fact to the Mayor or Street and Alley Committee, and upon verbal or written order from either of them, to give notice to the party owning the adjoining property to repair such sidewalk or cellar door without delay.

33-2-4 **STAIRWAY - RAILING.** Steps or stairways leading into any building shall not extend from the wall of such building onto any pavement or sidewalk, and in such case, the person making or causing to be made such passage shall erect a railing on the side of the stairs toward the street to prevent persons from falling into the street.

33-2-5 **CLOSING STREET.** Whenever public safety or the improvement or repair of any street, alley or public place requires it, the Mayor may order any street, alley, or public place temporarily closed to traffic and the placing of signs indicating that the street, alley or public place is closed by order of the Mayor. Whenever such signs are so placed, no person shall ride or drive upon or cross such street, alley or public place, or in any manner, destroy, deface, or remove any such sign.

ARTICLE IV - CONSTRUCTION OF UTILITY FACILITIES IN THE RIGHTS-OF-WAY**33-4-1 PURPOSE AND SCOPE.**

(A) **Purpose.** The purpose of this Article is to establish policies and procedures for constructing facilities on rights-of-way within the Village's jurisdiction, which will provide public benefit consistent with the preservation of the integrity, safe usage, and visual qualities of the Village rights-of-way and the Village as a whole.

(B) **Intent.** In enacting this Article, the Village intends to exercise its authority over the rights-of-way in the Village and, in particular, the use of the public ways and property by utilities, by establishing uniform standards to address issues presented by utility facilities, including without limitation:

- (1) prevent interference with the use of streets, sidewalks, alleys, parkways and other public ways and places;
- (2) prevent the creation of visual and physical obstructions and other conditions that are hazardous to vehicular and pedestrian traffic;
- (3) prevent interference with the facilities and operations of the Village's utilities and of other utilities lawfully located in rights-of-way or public property;
- (4) protect against environmental damage, including damage to trees, from the installation of utility facilities;
- (5) protect against increased stormwater run-off due to structures and materials that increase impermeable surfaces;
- (6) preserve the character of the neighborhoods in which facilities are installed;
- (7) preserve open space, particularly the tree-lined parkways that characterize the Village's residential neighborhoods;
- (8) prevent visual blight from the proliferation of facilities in the rights-of-way; and
- (9) assure the continued safe use and enjoyment of private properties adjacent to utility facilities locations.

(C) **Facilities Subject to this Article.** This Article applies to all facilities on, over, above, along, upon, under, across, or within the rights-of-way within the jurisdiction of the Village. A facility lawfully established prior to the effective date of this Article may continue to be maintained, repaired and operated by the utility as presently constructed and located, except as may be otherwise provided in any applicable franchise, license or similar agreement.

(D) **Franchises, Licenses, or Similar Agreements.** The Village, in its discretion and as limited by law, may require utilities to enter into a franchise, license or similar agreement for the privilege of locating their facilities on, over, above, along, upon, under, across, or within the Village rights-of-way. Utilities that are not required by law to enter into such an agreement may request that the Village enter into such an agreement. In such an agreement, the Village may provide for terms and conditions inconsistent with this Article.

(E) **Effect of Franchises, Licenses, or Similar Agreements.**

- (1) **Utilities Other Than Telecommunications Providers.** In the event that a utility other than a telecommunications provider has a franchise, license or similar agreement with the Village, such franchise, license or similar agreement shall govern and control during the term of such agreement and any lawful renewal or extension thereof.
- (2) **Telecommunications Providers.** In the event of any conflict with, or inconsistency between, the provisions of this Article and the provisions of any franchise, license or similar agreement between the Village and any telecommunications provider, the provisions of such franchise, license or similar agreement shall govern and control during the term of such agreement and any lawful renewal or extension thereof.

(F) **Conflicts With Other Articles or Chapters.** This Article supersedes all Articles or Chapters or parts of Articles or Chapters adopted prior hereto that are in conflict herewith, to the extent of such conflict.

(G) **Conflicts With State and Federal Laws.** In the event that applicable federal or State laws or regulations conflict with the requirements of this Article, the utility shall comply with the requirements of this Article to the maximum extent possible without violating federal or State laws or regulations.

(H) **Sound Engineering Judgment.** The Village shall use sound engineering judgment when administering this Article and may vary the standards, conditions, and requirements expressed in this Article when the Village so determines. Nothing herein shall be construed to limit the ability of the Village to regulate its rights-of-way for the protection of the public health, safety and welfare.

33-4-4 PERMIT REQUIRED; APPLICATIONS AND FEES.
(A) Permit Required. No person shall construct (as defined in this Article) any facility on, over, above, along, upon, under, across, or within any Village right-of-way which:

- (1) changes the location of the facility;
- (2) adds a new facility;
- (3) disrupts the right-of-way (as defined in this Article), or
- (4) materially increases the amount of area or space occupied by the facility on, over, above, along, under, across or within the right-of-way, without first filing an application with the Superintendent and obtaining a permit from the Village therefor, except as otherwise provided in this Article.

No permit shall be required for installation and maintenance of service connections to customers' premises where there will be no disruption of the right-of-way.

(B) Permit Application. All applications for permits pursuant to this Article shall be filed on a form provided by the Village and shall be filed in such number of duplicate copies as the Village may designate. The applicant may designate those portions of its application materials that it reasonably believes contain proprietary or confidential information as "proprietary" or "confidential" by clearly marking each page of such materials accordingly.

(E) **Applicant's Duty to Update Information.** Throughout the entire permit application review period and the construction period authorized by the permit, any amendments to information contained in a permit application shall be submitted by the utility in writing to the Village within **thirty (30) days** after the change necessitating the amendment.

(F) **Application Fees.** Unless otherwise provided by franchise, license, or similar agreement, all applications for permits pursuant to this Article shall be accompanied by a base fee in the amount of \$100.00. Additional application review costs will vary with the complexity of the project and will be determined on a case by case basis and shall be paid prior to issuance of final permit. No application fee is required to be paid by any electricity utility that is paying the municipal electricity infrastructure maintenance fee pursuant to the Electricity Infrastructure Maintenance Fee Act.

33-4-5 ACTION ON PERMIT APPLICATIONS.

(A) **Village Review of Permit Applications.** Completed permit applications, containing all required documentation, shall be examined by the Superintendent within a reasonable time after filing. If the application does not conform to the requirements of all applicable ordinances, codes, laws, rules, and regulations, the Superintendent shall reject such application in writing, stating the reasons therefor. If the Superintendent is satisfied that the proposed work conforms to the requirements of this Article and all applicable ordinances, codes, laws, rules, and regulations, the Superintendent shall issue a permit therefor as soon as practicable. In all instances, it shall be the duty of the applicant to demonstrate, to the satisfaction of the Superintendent, that the construction proposed under the application shall be in full compliance with the requirements of this Article.

(B)
Retailers.

Additional Village Review of Applications of Telecommunications

- (1) Pursuant to Section 4 of the Telephone Company Act, 220 ILCS 65/4, a telecommunications retailer shall notify the Village that it intends to commence work governed by this Article for facilities for the provision of telecommunications services. Such notice shall consist of plans, specifications, and other documentation sufficient to demonstrate the purpose and intent of the facilities, and shall be provided by the telecommunications retailer to the Village not less than **ten (10) days** prior to the commencement of work requiring no excavation and not less than **thirty (30) days** prior to the commencement of work requiring excavation. The Superintendent shall specify the portion of the right-of-way upon which the facility may be placed, used or constructed.
- (2) In the event that the Superintendent fails to provide such specification of location to the telecommunications retailer within either (a) **ten (10) days** after service of notice to the Village by the telecommunications retailer in the case of work not involving excavation for new construction or (b) **twenty-five (25) days** after service of notice by the telecommunications retailer in the case of work involving excavation for new construction, the telecommunications retailer may commence work without obtaining a permit under this Article.
- (3) Upon the provision of such specification by the Village, where a permit is required for work pursuant to **Section 33-4-4** of this Article the telecommunications retailer shall submit to the Village an application for a permit and any and all plans, specifications and documentation available regarding the facility to be constructed. Such application shall be subject to the requirements of paragraph (A) of this Section.

(C) **Additional Village Review of Applications of Holders of State Authorization Under the Cable and Video Competition Law of 2007.** Applications by a utility that is a holder of a State-issued authorization under the Cable and Video Competition Law of 2007 shall be deemed granted **forty-five (45) days** after submission to the Village, unless otherwise acted upon by the Village, provided the holder has complied with applicable Village codes, ordinances, and regulations.

33-4-6

EFFECT OF PERMIT.

(A) **Authority Granted; No Property Right or Other Interest Created.** A permit from the Village authorizes a permittee to undertake only certain activities in accordance with this Article on Village rights-of-way, and does not create a property right or grant authority to the permittee to impinge upon the rights of others who may have an interest in the public rights-of-way.

(B) **Duration.** No permit issued under this Article shall be valid for a period longer than **six (6) months** unless construction is actually begun within that period and is thereafter diligently pursued to completion.

(C) **Pre-Construction Meeting Required.** No construction shall begin pursuant to a permit issued under this Article prior to attendance by the permittee and all major contractors and subcontractors who will perform any work under the permit at a pre-construction meeting. The pre-construction meeting shall be held at a date, time and place designated by the Village with such Village representatives in attendance as the Village deems necessary. The meeting shall be for the purpose of reviewing the work under the permit, and reviewing special considerations necessary in the areas where work will occur, including, without limitation, presence or absence of other utility facilities in the area and their locations, procedures to avoid disruption of other utilities, use of rights-of-way by the public during construction, and access and egress by adjacent property owners.

(D) **Compliance With All Laws Required.** The issuance of a permit by the Village does not excuse the permittee from complying with other requirements of the Village and applicable statutes, laws, ordinances, rules, and regulations.

33-4-7 REVISED PERMIT DRAWINGS. In the event that the actual locations of any facilities deviate in any material respect from the locations identified in the plans, drawings and specifications submitted with the permit application, the permittee shall submit a revised set of drawings or plans to the Village within **ninety (90) days** after the completion of the permitted work. The revised drawings or plans shall specifically identify where the locations of the actual facilities deviate from the locations approved in the permit. If any deviation from the permit also deviates from the requirements of this Article, it shall be treated as a request for variance in accordance with **Section 33-4-21** of this Article. If the Village denies the request for a variance, then the permittee shall either remove the facility from the right-of-way or modify the facility so that it conforms to the permit and submit revised drawings or plans therefor.

33-4-8 INSURANCE.
(A) **Required Coverages and Limits.** Unless otherwise provided by franchise, license, or similar agreement, each utility occupying right-of-way or constructing any facility in the right-of-way shall secure and maintain the following liability insurance policies insuring the utility as named insured and naming the Village, and its elected and appointed officers, officials, agents, and employees as additional insureds on the policies listed in paragraphs (1) and (2) below:

- (1) Commercial general liability insurance, including premises-operations, explosion, collapse, and underground hazard (commonly referred as "X", "C", and "U" coverages) and products-completed operations coverage with limits not less than:
 - (a) **Five Million Dollars (\$5,000,000.00)** for bodily injury or death to each person;
 - (b) **Five Million Dollars (\$5,000,000.00)** for property damage resulting from any one accident; and
 - (c) **Five Million Dollars (\$5,000,000.00)** for all other types of liability;
- (2) Automobile liability for owned, non-owned and hired vehicles with a combined single limit of **One Million Dollars (\$1,000,000.00)** for personal injury and property damage for each accident;
- (3) Worker's compensation with statutory limits; and
- (4) Employer's liability insurance with limits of not less than **One Million Dollars (\$1,000,000.00)** per employee and per accident.

If the utility is not providing such insurance to protect the contractors and subcontractors performing the work, then such contractors and subcontractors shall comply with this Section.

(B) **Excess or Umbrella Policies.** The coverages required by this Section may be in any combination of primary, excess, and umbrella policies. Any excess or umbrella policy must provide excess coverage over underlying insurance on a following-form basis such that when any loss covered by the primary policy exceeds the limits under the primary policy, the excess or umbrella policy becomes effective to cover such loss.

(C) **Copies Required.** The utility shall provide copies of any of the policies required by this Section to the Village within **ten (10) days** following receipt of a written request therefor from the Village.

(D) **Maintenance and Renewal of Required Coverages.** The insurance policies required by this Section shall contain the following endorsement:

"It is hereby understood and agreed that this policy may not be canceled nor the intention not to renew be stated until **thirty (30) days** after receipt by the Village, by registered mail or certified mail, return receipt requested, of a written notice addressed to the Village Administrator of such intent to cancel or not to renew."

Within **ten (10) days** after receipt by the Village of said notice, and in no event later than **ten (10) days** prior to said cancellation, the utility shall obtain and furnish to the Village evidence of replacement insurance policies meeting the requirements of this Section.

(E) **Self-Insurance.** A utility may self-insure all or a portion of the insurance coverage and limit requirements required by paragraph (A) of this Section. A utility that self-insures is not required, to the extent of such self-insurance, to comply with the requirement for the naming of additional insureds under paragraph (A), or the requirements of paragraphs (B), (C) and (D) of this Section. A utility that elects to self-insure shall provide to the Village evidence sufficient to demonstrate its financial ability to self-insure the insurance coverage and limit requirements required under paragraph (A) of this Section, such as evidence that the utility is a "private self insurer" under the Workers Compensation Act.

(F) **Effect of Insurance and Self-Insurance on Utility's Liability.** The legal liability of the utility to the Village and any person for any of the matters that are the subject of the insurance policies or self-insurance required by this Section shall not be limited by such insurance policies or self-insurance or by the recovery of any amounts thereunder.

(G) **Insurance Companies.** All insurance provided pursuant to this Section shall be effected under valid and enforceable policies, issued by insurers legally able to conduct business with the licensee in the State of Illinois. All insurance carriers and surplus line carriers shall be rates "A-" or better and of a class size "X" or higher by A.M. Best Company.

33-4-9 INDEMNIFICATION. By occupying or constructing facilities in the right-of-way, a utility shall be deemed to agree to defend, indemnify and hold the Village and its elected and appointed officials and officers, employees, agents and representatives harmless from and against any and all injuries, claims, demands, judgments, damages, losses and expenses, including reasonable attorney's fees and costs of suit or defense, arising out of, resulting from or alleged to arise out of or result from the negligent, careless or wrongful acts, omissions, failures to act or misconduct of the utility or its affiliates, officers, employees, agents, contractors or subcontractors in the construction of facilities or occupancy of the rights-of-way, and in providing or offering service over the facilities, whether such acts or omissions are authorized, allowed or prohibited by this Article or by a franchise, license, or similar agreement; provided, however, that the utility's indemnity obligations hereunder shall not apply to any injuries, claims, demands, judgments, damages, losses or expenses arising out of or resulting from the negligence, misconduct or breach of this Article by the Village, its officials, officers, employees, agents or representatives.

33-4-10 SECURITY.

(A) **Purpose.** The permittee shall establish a Security Fund in a form and in an amount as set forth in this Section. The Security Fund shall be continuously maintained in accordance with this Section at the permittee's sole cost and expense until the completion of the work authorized under the permit. The Security Fund shall serve a security for:

- (1) The faithful performance by the permittee of all the requirements of this Article;
- (2) Any expenditure, damage, or loss incurred by the Village occasioned by the permittee's failure to comply with any codes, rules, regulations, orders, permits and other directives of the Village issued pursuant to this Article; and
- (3) The payment by permittee of all liens and all damages, claims, costs, or expenses that the Village may pay or incur by reason of any action or non-performance by permittee in violation of this Article including, without limitation, any damage to public property or restoration work the permittee is required by this Article to perform that the Village must perform itself or have completed as a consequence solely of the permittee's failure to perform or complete, and all other payments due the Village from the permittee pursuant to this Article or any other applicable law.

(B) **Form.** The permittee shall provide the Security Fund to the Village in the form, at the permittee's election, of cash, a surety bond in a form acceptable to the Village, or an unconditional

letter of credit in a form acceptable to the Village. Any surety bond or letter of credit provided pursuant to this paragraph shall, at a minimum:

- (1) Provide that it will not be canceled without prior notice to the Village and the permittee;
- (2) Not require the consent of the permittee prior to the collection by the Village of any amounts covered by it; and
- (3) Shall provide a location convenient to the Village and within the State of Illinois at which it can be drawn.

(C) **Amount.** The dollar amount of the Security Fund shall be sufficient to provide for the reasonably estimated cost to restore the right-of-way to at least as good a condition as that existing prior to the construction under the permit, as determined by the Superintendent, and may also include reasonable, directly related costs that the Village estimates are likely to be incurred if the permittee fails to perform such restoration. Where the construction of facilities proposed under the permit will be performed in phases in multiple locations in the Village, with each phase consisting of construction of facilities in one location or related group of locations, and where construction in another phase will not be undertaken prior to substantial completion of restoration in the previous phase or phases, the Superintendent may, in the exercise of sound discretion, allow the permittee to post a single amount of security which shall be applicable to each phase of the construction under the permit. The amount of the Security Fund for phased construction shall be equal to the greatest amount that would have been required under the provisions of this paragraph (C) for any single phase.

(D) **Withdrawals.** The Village, upon **fourteen (14) days'** advance written notice clearly stating the reason for, and its intention to exercise withdrawal rights under this paragraph, may withdraw an amount from the Security Fund, provided that the permittee has not reimbursed the Village for such amount within the **fourteen (14) day** notice period. Withdrawals may be made if the permittee:

- (1) Fails to make any payment required to be made by the permittee hereunder;
- (2) Fails to pay any liens relating to the facilities that are due and unpaid;
- (3) Fails to reimburse the Village for any damages, claims, costs or expenses which the Village has been compelled to pay or incur by reason of any action or non-performance by the permittee; or
- (4) Fails to comply with any provision of this Article that the Village determines can be remedied by an expenditure of an amount in the Security Fund.

(E) **Replenishment.** Within **fourteen (14) days** after receipt of written notice from the Village that any amount has been withdrawn from the Security Fund, the permittee shall restore the Security Fund to the amount specified in paragraph (C) of this Section.

(F) **Interest.** The permittee may request that any and all interest accrued on the amount in the Security Fund be returned to the permittee by the Village, upon written request for said withdrawal to the Village, provided that any such withdrawal does not reduce the Security Fund below the minimum balance required in paragraph (C) of this Section.

(G) **Closing and Return of Security Fund.** Upon completion of the work authorized under the permit, the permittee shall be entitled to the return of the Security Fund, or such portion thereof as remains on deposit, within a reasonable time after account is taken for all offsets necessary to compensate the Village for failure by the permittee to comply with any provisions of this Article or other applicable law. In the event of any revocation of the permit, the Security Fund, and any and all accrued interest therein, shall become the property of the Village to the extent necessary to cover any reasonable costs, loss or damage incurred by the Village as a result of said revocation, provided that any amounts in excess of said costs, loss or damage shall be refunded to the permittee.

(H) **Rights Not Limited.** The rights reserved to the Village with respect to the Security Fund are in addition to all other rights of the Village, whether reserved by this Article or otherwise authorized by law, and no action, proceeding or exercise of right with respect to said Security Fund shall affect any other right the Village may have. Notwithstanding the foregoing, the Village shall not be entitled to a double monetary recovery with respect to any of its rights which may be infringed or otherwise violated.

33-4-11 PERMIT SUSPENSION AND REVOCATION.

(A) **Village Right to Revoke Permit.** The Village may revoke or suspend a permit issued pursuant to this Article for one or more of the following reasons:

- (1) Fraudulent, false, misrepresenting, or materially incomplete statements in the permit application;
- (2) Noncompliance with this Article;
- (3) Permittee's physical presence or presence of permittee's facilities on, over, above, along, upon, under, across, or within the rights-of-way presents a direct or imminent threat to the public health, safety, or welfare; or
- (4) Permittee's failure to construct the facilities substantially in accordance with the permit and approved plans.

(B) **Notice of Revocation or Suspension.** The Village shall send written notice of its intent to revoke or suspend a permit issued pursuant to this Article stating the reason or reasons for the revocation or suspension and the alternatives available to permittee under this **Section 33-4-11**.

(C) **Permittee Alternatives Upon Receipt of Notice of Revocation or Suspension.** Upon receipt of a written notice of revocation or suspension from the Village, the permittee shall have the following options:

- (1) Immediately provide the Village with evidence that no cause exists for the revocation or suspension;
- (2) Immediately correct, to the satisfaction of the Village, the deficiencies stated in the written notice, providing written proof of such correction to the Village within **five (5) working days** after receipt of the written notice of revocation; or
- (3) Immediately remove the facilities located on, over, above, along, upon, under, across, or within the rights-of-way and restore the rights-of-way to the satisfaction of the Village providing written proof of such removal to the Village within **ten (10) days** after receipt of the written notice of revocation.

The Village may, in its discretion, for good cause shown, extend the time periods provided in this paragraph.

(D) **Stop Work Order.** In addition to the issuance of a notice of revocation or suspension, the Village may issue a stop work order immediately upon discovery of any of the reasons for revocation set forth within paragraph (A) of this Section.

(E) **Failure or Refusal of the Permittee to Comply.** If the permittee fails to comply with the provisions of paragraph (C) of this Section, the Village or its designee may, at the option of the Village:

- (1) correct the deficiencies;
- (2) upon not less than **twenty (20) days** notice to the permittee, remove the subject facilities or equipment; or
- (3) after not less than **thirty (30) days** notice to the permittee of failure to cure the noncompliance, deem them abandoned and property of the Village. The permittee shall be liable in all events to the Village for all costs of removal.

33-4-12 CHANGE OF OWNERSHIP OR OWNER'S IDENTITY OR LEGAL STATUS.

(A) **Notification of Change.** A utility shall notify the Village no less than **thirty (30) days** prior to the transfer of ownership of any facility in the right-of-way or change in identity of the utility. The new owner of the utility or the facility shall have all the obligations and privileges enjoyed by the former owner under the permit, if any, and all applicable laws, ordinances, rules and regulations, including this Article, with respect to the work and facilities in the right-of-way.

(B) **Amended Permit.** A new owner shall request that any current permit be amended to show current ownership. If the new owner fails to have a new or amended permit issued in

its name, the new owner shall be presumed to have accepted, and agreed to be bound by, the terms and conditions of the permit if the new owner uses the facility or allows it to remain on the Village's right-of-way.

(C) **Insurance and Bonding.** All required insurance coverage or bonding must be changed to reflect the name of the new owner upon transfer.

33-4-13 GENERAL CONSTRUCTION STANDARDS.

(A) **Standards and Principles.** All construction in the right-of-way shall be consistent with applicable ordinances, codes, laws, rules and regulations, and commonly recognized and accepted traffic control and construction principles, sound engineering judgment and, where applicable, the principles and standards set forth in the following IDOT publications, as amended from time to time:

- (1) Standard Specifications for Road and Bridge Construction;
- (2) Supplemental Specifications and Recurring Special Provisions;
- (3) Highway Design Manual;
- (4) Highway Standards Manual;
- (5) Standard Specifications for Traffic Control Items;
- (6) Illinois Manual on Uniform Traffic Control Devices (92 Ill. Adm. Code § 545);
- (7) Flagger's Handbook; and
- (8) Work Site Protection Manual for Daylight Maintenance Operations.

(B) **Interpretation of Municipal Standards and Principles.** If a discrepancy exists between or among differing principles and standards required by this Article, the Superintendent shall determine, in the exercise of sound engineering judgment, which principles apply and such decision shall be final. If requested, the Superintendent shall state which standard or principle will apply to the construction, maintenance, or operation of a facility in the future.

33-4-14 TRAFFIC CONTROL.

(A) **Minimum Requirements.** The Village's minimum requirements for traffic protection are contained in IDOT's Illinois Manual on Uniform Traffic Control Devices and this Code.

(B) **Warning Signs, Protective Devices, and Flaggers.** The utility is responsible for providing and installing warning signs, protective devices and flaggers, when necessary, meeting all applicable federal, state, and local requirements for protection of the public and the utility's workers when performing any work on the public rights-of-way.

(C) **Interference with Traffic.** All work shall be phased so that there is minimum interference with pedestrian and vehicular traffic.

(D) **Notice When Access is Blocked.** At least **forty-eight (48) hours** prior to beginning work that will partially or completely block access to any residence, business or institution, the utility shall notify the resident, business or institution of the approximate beginning time and duration of such work; provided, however, that in cases involving emergency repairs pursuant to **Section 33-4-20** of this Article, the utility shall provide such notice as is practicable under the circumstances.

(E) **Compliance.** The utility shall take immediate action to correct any deficiencies in traffic protection requirements that are brought to the utility's attention by the Village.

33-4-15 LOCATION OF FACILITIES.

(A) **General Requirements.** In addition to location requirements applicable to specific types of utility facilities, all utility facilities, regardless of type, shall be subject to the general location requirements of this paragraph.

- (1) **No Interference with Village Facilities.** No utility facilities shall be placed in any location if the Superintendent determines that the proposed location will require the relocation or displacement of any of the Village's utility facilities or will otherwise interfere with the operation or maintenance of any of the Village's utility facilities.

- (2) **Minimum Interference and Impact.** The proposed location shall cause only the minimum possible interference with the use of the right-of-way and shall cause only the minimum possible impact upon, and interference with the rights and reasonable convenience of property owners who adjoin said right-of-way.
- (3) **No Interference with Travel.** No utility facility shall be placed in any location that interferes with the usual travel on such right-of-way.
- (4) **No Limitations on Visibility.** No utility facility shall be placed in any location so as to limit visibility of or by users of the right-of-way.
- (5) **Size of Utility Facilities.** The proposed installation shall use the smallest suitable vaults, boxes, equipment enclosures, power pedestals, and/or cabinets then in use by the facility owner, regardless of location, for the particular application.

(B)

Parallel Facilities Located Within Highways.

- (1) **Overhead Parallel Facilities.** An overhead parallel facility may be located within the right-of-way lines of a highway only if:
 - (a) Lines are located as near as practicable to the right-of-way line and as nearly parallel to the right-of-way line as reasonable pole alignment will permit;
 - (b) Where pavement is curbed, poles are as remote as practicable from the curb with a minimum distance of **two (2) feet (0.6m)** behind the face of the curb, where available;
 - (c) Where pavement is uncurbed, poles are as remote from pavement edge as practicable with minimum distance of **four (4) feet (1.2m)** outside the outer shoulder line of the roadway and are not within the clear zone;
 - (d) No pole is located in the ditch line of a highway; and
 - (e) Any ground-mounted appurtenance is located within **one (1) foot (0.3m)** of the right-of-way line or as near as possible to the right-of-way line.
- (2) **Underground Parallel Facilities.** An underground parallel facility may be located within the right-of-way lines of a highway only if:
 - (a) The facility is located as near the right-of-way line as practicable and not more than **eight (8) feet (2.4m)** from and parallel to the right-of-way line;
 - (b) A new facility may be located under the paved portion of a highway only if other locations are impracticable or inconsistent with sound engineering judgment (e.g., a new cable may be installed in existing conduit without disrupting the pavement); and
 - (c) In the case of an underground power or communications line, the facility shall be located as near the right-of-way line as practicable and not more than **five (5) feet (1.5m)** from the right-of-way line and any above-grounded appurtenance shall be located within **one (1) foot (0.3m)** of the right-of-way line or as near as practicable.

(C)

Facilities Crossing Highways.

- (1) **No Future Disruption.** The construction and design of crossing facilities installed between the ditch lines or curb lines of Village highways may require the incorporation of materials and protections (such as encasement or additional cover) to avoid settlement or future repairs to the roadbed resulting from the installation of such crossing facilities.
- (2) **Cattle Passes, Culverts, or Drainage Facilities.** Crossing facilities shall not be located in cattle passes, culverts, or drainage facilities.

- (3) **90 Degree Crossing Required.** Crossing facilities shall cross at or as near to a **ninety (90) degree** angle to the centerline as practicable.
- (4) **Overhead Power or Communication Facility.** An overhead power or communication facility may cross a highway only if:
 - (a) It has a minimum vertical line clearance as required by ICC's rules entitled, "Construction of Electric Power and Communication Lines" (83 Ill. Adm. Code 305);
 - (b) Poles are located within **one (1) foot (0.3m)** of the right-of-way line of the highway and outside of the clear zone; and
 - (c) Overhead crossings at major intersections are avoided.
- (5) **Underground Power or Communication Facility.** An underground power or communication facility may cross a highway only if:
 - (a) The design materials and construction methods will provide maximum maintenance-free service life; and
 - (b) Capacity for the utility's foreseeable future expansion needs is provided in the initial installation.
- (6) **Markers.** The Village may require the utility to provide a marker at each right-of-way line where an underground facility other than a power or communication facility crosses a highway. Each marker shall identify the type of facility, the utility, and an emergency phone number. Markers may also be eliminated as provided in current Federal regulations. (49 C.F.R. §192.707 (1989)).

(D) **Facilities to be Located Within Particular Rights-of-Way.** The Village may require that facilities be located within particular rights-of-way that are not highways, rather than within particular highways.

(E) **Freestanding Facilities.**

- (1) The Village may restrict the location and size of any freestanding facility located within a right-of-way.
- (2) The Village may require any freestanding facility located within a right-of-way to be screened from view.

(F) **Facilities Installed Above Ground.** Above ground facilities may be installed only if:

- (1) No other existing facilities in the area are located underground;
- (2) New underground installation is not technically feasible; and
- (3) The proposed installation will be made at a location, and will employ suitable design and materials, to provide the greatest protection of aesthetic qualities of the area being traversed without adversely affecting safety. Suitable designs include, but are not limited to, self-supporting armless, single-pole construction with vertical configuration of conductors and cable. Existing utility poles and light standards shall be used wherever practicable; the installation of additional utility poles is strongly discouraged.

(G) **Facility Attachments to Bridges or Roadway Structures.**

- (1) Facilities may be installed as attachments to bridges or roadway structures only where the utility has demonstrated that all other means of accommodating the facility are not practicable. Other means shall include, but are not limited to, underground, underwater, independent poles, cable supports and tower supports, all of which are completely separated from the bridge or roadway structure. Facilities transmitting commodities that are volatile, flammable, corrosive, or energized, especially those under significant pressure or potential, present high degrees of risk and such installations are not permitted.
- (2) A utility shall include in its request to accommodate a facility installation on a bridge or roadway structure supporting data demonstrating the impracticability of alternate routing. Approval or disapproval of an

application for facility attachment to a bridge or roadway structure will be based upon the following considerations:

- (a) The type, volume, pressure or voltage of the commodity to be transmitted and an evaluation of the resulting risk to persons and property in the event of damage to or failure of the facility;
- (b) The type, length, value, and relative importance of the highway structure in the transportation system;
- (c) The alternative routings available to the utility and their comparative practicability;
- (d) The proposed method of attachment;
- (e) The ability of the structure to bear the increased load of the proposed facility;
- (f) The degree of interference with bridge maintenance and painting;
- (g) The effect on the visual quality of the structure; and
- (h) The public benefit expected from the utility service as compared to the risk involved.

(H)

Appearance Standards.

- (1) The Village may prohibit the installation of facilities in particular locations in order to preserve visual quality.
- (2) A facility may be constructed only if its construction does not require extensive removal or alteration of trees or terrain features visible to the right-of-way user or to adjacent residents and property owners, and if it does not impair the aesthetic quality of the lands being traversed.

(A)

Methods.

CONSTRUCTION METHODS AND MATERIALS.

Standards and Requirements for Particular Types of Construction

(1) **Boring or Jacking.**

- (a) **Pits and Shoring.** Boring and jacking under rights-of-way shall be accomplished from pits located at a minimum distance specified by the Superintendent from the edge of the pavement. Pits for boring or jacking shall be excavated no more than **forty-eight (48) hours** in advance of boring or jacking operations and backfilled within **forty-eight (48) hours** after boring or jacking operations are completed. While pits are open, they shall be clearly marked and protected by barricades. Shoring shall be designed, erected, supported, braced, and maintained so that it will safely support all vertical and lateral loads that may be imposed upon it during the boring or jacking operation.
- (b) **Wet Boring or Jetting.** Wet boring or jetting shall not be permitted under the roadway.
- (c) **Borings With Diameters Greater than Six (6) Inches.** Borings over **six (6) inches (0.15m)** in diameter shall be accomplished with an auger and following pipe, and the diameter of the auger shall not exceed the outside diameter of the following pipe by more than **one (1) inch (25mm)**.
- (d) **Borings with Diameters Six (6) Inches or Less.** Borings of **six (6) inches** or less in diameter may be accomplished by either jacking, guided with auger, or auger and following pipe method.
- (e) **Tree Preservation.** Any facility located within the drip line of any tree designed by the Village to be preserved shall be bored under or around the root system.

- (2) **Trenching.** Trenching for facility installation, repair, or maintenance on rights-of-way shall be done in accord with the applicable portions of Section 603 IDOT's "Standard Specifications for Road and Bridge Construction".
- (a) **Length.** The length of open trench shall be kept to the practicable minimum consistent with requirements for pipe-line testing. Only one-half of any intersection may have an open trench at any time unless special permission is obtained from the Superintendent.
 - (b) **Open Trench and Excavated Material.** Open trench and wind rowed excavated material shall be protected as required by Chapter 6 of the Illinois Manual on Uniform Traffic Control Devices. Where practicable, the excavated material shall be deposited between the roadway and the trench as added protection. Excavated material shall not be allowed to remain on the paved portion of the roadway. Where right-of-way width does not allow for wind rowing excavated material off the paved portion of the roadway, excavated material shall be hauled to an off-road location.
 - (c) **Drip Line of Trees.** The utility shall not trench within the drip line of any tree designated by the Village to be preserved.
- (3) **Backfilling.**
- (a) Any pit, trench, or excavation created during the installation of facilities shall be backfilled for its full width, depth, and length using methods and materials in accordance with IDOT's "Standard Specifications for Road and Bridge Construction". When excavated material is hauled away or is unsuitable for backfill, suitable granular backfill shall be used.
 - (b) For a period of **three (3) years** from the date construction of a facility is completed, the utility shall be responsible to remove and restore any backfilled area that has settled due to construction of the facility. If so ordered by the Superintendent, the utility, at its expense, shall remove any pavement and backfill material to the top of the installed facility, place and properly compact new backfill material, and restore new pavement, sidewalk, curbs, and driveways to the proper grades, as determined by the Superintendent.
- (4) **Pavement Cuts.** Pavement cuts for facility installation or repair shall be discouraged but may be permitted only upon location specific approval by the Superintendent and only if that portion of the roadway is closed to traffic.
- (a) Any excavation under pavements shall be backfilled and compacted as soon as practicable with granular material of CA-6 or CA-10 gradation, as designated by the Superintendent.
 - (b) Restoration of pavement, in kind, shall be accomplished as soon as practicable, and temporary repair with bituminous mixture shall be provided immediately. Any subsequent failure of either the temporary repair or the restoration shall be rebuilt upon notification by the Village.
 - (c) All saw cuts shall be full depth.
 - (d) For all rights-of-way which have been reconstructed with a concrete surface/base in the last **seven (7) years**, or resurfaced in the last **three (3) years**, permits shall not be issued unless such work is determined to be an emergency repair or other work considered necessary and unforeseen

before the time of the reconstruction or unless a pavement cut is necessary for a J.U.L.I.E. locate.

(5) **Encasement.**

- (a) Casing pipe shall be designed to withstand the load of the highway and any other superimposed loads. The casing shall be continuous either by one-piece fabrication or by welding or jointed installation approved by the Village.
- (b) The venting, if any, of any encasement shall extend within **one (1) foot (0.3m)** of the right-of-way line. No above-ground vent pipes shall be located in the area established as clear zone for that particular section of the highway.
- (c) In the case of water main or service crossing, encasement shall be furnished between bore pits unless continuous pipe or Village approved jointed pipe is used under the roadway. Casing may be omitted only if pipe is installed prior to highway construction and carrier pipe is continuous or mechanical joints are of a type approved by the Village. Bell and spigot type pipe shall be encased regardless of installation method.
- (d) In the case of gas pipelines of **60 psig** or less, encasement may be eliminated.
- (e) In the case of gas pipelines or petroleum products pipelines with installations of more than **60 psig**, encasement may be eliminated only if:
 - (i) extra heavy pipe is used that precludes future maintenance or repair and
 - (ii) cathodic protection of the pipe is provided;
- (f) If encasement is eliminated for a gas or petroleum products pipeline, the facility shall be located so as to provide that construction does not disrupt the right-of-way.

- (6) **Minimum Cover of Underground Facilities.** Cover shall be provided and maintained at least in the amount specified in the following table for minimum cover for the type of facility:

Type of Facility	Minimum Cover
Electric Lines	30 inches (0.8m)
Communication, Cable or Video Service Lines	18 to 24 inches (0.6m, as Determined by Village)
Gas or Petroleum Products	30 inches (0.8m)
Water Line	Sufficient Cover to Provide Freeze Protection
Sanitary Sewer, Storm Sewer, Or Drainage Line	Sufficient Cover to Provide Freeze Protection

(B)

Standards and Requirements for Particular Types of Facilities.

(1) **Electric Power or Communication Lines.**

- (a) **Code Compliance.** Electric power or communications facilities within Village rights-of-way shall be constructed, operated, and maintained in conformity with the provisions of 83 Ill. Adm. Code 305 (formerly General Order 160 of the Illinois Commerce Commission) entitled "Rules for Construction of Electric Power

and Communications Lines”, and the National Electrical Safety Code.

- (b) **Overhead Facilities.** Overhead power or communication facilities shall use single pole construction and, where practicable, joint use of poles shall be used. Utilities shall make every reasonable effort to design the installation so guys and braces will not be needed. Variances may be allowed if there is no feasible alternative and if guy wires are equipped with guy guards for maximum visibility.

- (c) **Underground Facilities.**

- (i) Cable may be installed by trenching or plowing, provided that special consideration is given to boring in order to minimize damage when crossing improved entrances and side roads.

- (ii) If a crossing is installed by boring or jacking, encasement shall be provided between jacking or bore pits. Encasement may be eliminated only if:

- a. the crossing is installed by the use of “moles”, “whip augers”, or other approved method which compress the earth to make the opening for cable installation or

- b. the installation is by the open trench method which is only permitted prior to roadway construction.

- (iii) Cable shall be grounded in accordance with the National Electrical Safety Code.

- (iv) **Burial of Drops.** All temporary service drops placed between **November 1** of the prior year and **March 15** of the current year, also known as snowdrops, shall be buried by **May 31** of the current year, weather permitting, unless otherwise permitted by the Village. Weather permitting, utilities shall bury all temporary drops, excluding snowdrops, within **ten (10) business days** after placement.

- (2) **Underground Facilities Other Than Electric Power or Communication Lines.** Underground facilities other than electric power or communication lines may be installed by:

- (a) The use of “moles”, “whip augers”, or other approved methods which compress the earth to move the opening for the pipe;

- (b) jacking or boring with vented encasement provided between the ditch lines or toes of slopes of the highway;

- (c) open trench with vented encasement between ultimate ditch lines or toes of slopes, but only if prior to roadway construction; or

- (d) tunneling with vented encasement, but only if installation is not possible by other means.

- (3) **Gas Transmission, Distribution and Service.** Gas pipelines within rights-of-way shall be constructed, maintained, and operated in a Village approved manner and in conformance with the Federal Code of the Office of Pipeline Safety Operations, Department of Transportation, Part 192 – Transportation of Natural and Other Gas by Pipeline: Minimum Federal Safety Standards (49 CFR §192), IDOT’s “Standard Specifications for Road and Bridge Construction”, and all other applicable laws, rules, and regulations.

- (4) **Petroleum Products Pipelines.** Petroleum products pipelines within rights-of-way shall conform to the applicable sections of ANSI Standard Code for Pressure Piping. (Liquid Petroleum Transportation Piping Systems ANSI-B 31.4).
- (5) **Waterlines, Sanitary Sewer Lines, Storm Water Sewer Lines or Drainage Lines.** Water lines, sanitary sewer lines, storm sewer lines, and drainage lines within rights-of-way shall meet or exceed the recommendations of the current "Standard Specifications for Water and Sewer Main Construction in Illinois".
- (6) **Ground Mounted Appurtenances.** Ground mounted appurtenances to overhead or underground facilities, when permitted within a right-of-way, shall be provided with a vegetation-free area extending **one (1) foot (305mm)** in width beyond the appurtenance in all directions. The vegetation-free area may be provided by an extension of the mounting pad, or by heavy duty plastic or similar material approved by the Superintendent, shrubbery surrounding the appurtenance may be used in place of vegetation-free area. The housing for ground-mounted appurtenances shall be painted a neutral color to blend with the surroundings.

(C)

Materials.

- (1) **General Standards.** The materials used in constructing facilities within rights-of-way shall be those meeting the accepted standards of the appropriate industry, the applicable portions of IDOT's "Standard Specifications for Road and Bridge Construction", the requirements of the Illinois Commerce Commission, or the standards established by other official regulatory agencies for the appropriate industry.
- (2) **Material Storage on Right-of-Way.** No material shall be stored on the right-of-way without the prior written approval of the Superintendent. When such storage is permitted, all pipe, conduit, wire, poles, cross arms, or other materials shall be distributed along the right-of-way prior to and during installation in a manner to minimize hazards to the public or an obstacle to right-of-way maintenance or damage to the right-of-way and other property. If material is to be stored on right-of-way, prior approval must be obtained from the Village.
- (3) **Hazardous Materials.** The plans submitted by the utility to the Village shall identify any hazardous materials that may be involved in the construction of the new facilities or removal of any existing facilities.

(D)

Operational Restrictions.

- (1) Construction operations on rights-of-way may, at the discretion of the Village, be required to be discontinued when such operations would create hazards to traffic or the public health, safety, and welfare. Such operations may also be required to be discontinued or restricted when conditions are such that construction would result in extensive damage to the right-of-way or other property.
- (2) These restrictions may be waived by the Superintendent when emergency work is required to restore vital utility services.
- (3) Unless otherwise permitted by the Village, the hours of construction are from **6:00 A.M. to 6:00 P.M.**

(E)

Location of Existing Facilities. Any utility proposing to construct facilities in the Village shall contact J.U.L.I.E. and ascertain the presence and location of existing above-ground and underground facilities within the rights-of-way to be occupied by its proposed facilities. The Village will make its permit record available to a utility for the purpose of identifying possible facilities. When notified of an excavation or when requested by the Village or by J.U.L.I.E., a utility shall locate and physically mark its underground facilities within **forty-eight (48) hours**, excluding weekends and holidays, in accordance with the Illinois Underground Facilities Damage Prevention Act (220 ILCS 50/1 *et seq.*)

33-4-17 VEGETATION CONTROL.

(A) **Electric Utilities - Compliance with State Laws and Regulations.** An electric utility shall conduct all tree-trimming and vegetation control activities in the right-of-way in accordance with applicable Illinois laws and regulations, and additionally, with such local franchise or other agreement with the Village as permitted by law.

(B) **Other Utilities - Tree Trimming Permit Required.** Tree trimming that is done by any other utility with facilities in the right-of-way and that is not performed pursuant to applicable Illinois laws and regulations specifically governing the same, shall not be considered a normal maintenance operation, but shall require the application for, and the issuance of, a permit, in addition to any other permit required under this Article.

(1) **Application for Tree Trimming Permit.** Applications for tree trimming permits shall include assurance that the work will be accomplished by competent workers with supervision who are experienced in accepted tree pruning practices. Tree trimming permits shall designate an expiration date in the interest of assuring that the work will be expeditiously accomplished.

(2) **Damage to Trees.** Poor pruning practices resulting in damaged or misshapen trees will not be tolerated and shall be grounds for cancellation of the tree trimming permit and for assessment of damages. The Village will require compensation for trees extensively damaged and for trees removed without authorization. The formula developed by the International Society of Arboriculture will be used as a basis for determining the compensation for damaged trees or unauthorized removal of trees. The Village may require the removal and replacement of trees if trimming or radical pruning would leave them in an unacceptable condition.

(C) **Specimen Trees or Trees of Special Significance.** The Village may require that special measures be taken to preserve specimen trees or trees of special significance. The required measures may consist of higher poles, side arm extensions, covered wire or other means.

(D) **Chemical Use.**

(1) Except as provided in the following paragraph, no utility shall spray, inject or pour any chemicals on or near any trees, shrubs or vegetation in the Village for any purpose, including the control of growth, insects or disease.

(2) Spraying of any type of brush-killing chemicals will not be permitted on rights-of-way unless the utility demonstrates to the satisfaction of the Superintendent that such spraying is the only practicable method of vegetation control.

33-4-18 REMOVAL, RELOCATION, OR MODIFICATION OF UTILITY FACILITIES.

(A) **Notice.** Within **ninety (90) days** following written notice from the Village, a utility shall, at its own expense, protect, support, temporarily or permanently disconnect, remove, relocate, change or alter the position of any utility facilities within the rights-of-way whenever the corporate authorities have determined that such removal, relocation, change or alteration, is reasonably necessary for the construction, repair, maintenance, or installation of any Village improvement in or upon, or the operations of the Village in or upon, the rights-of-way.

(B) **Removal of Unauthorized Facilities.** Within **thirty (30) days** following written notice from the Village, any utility that owns, controls, or maintains any unauthorized facility or related appurtenances within the rights-of-way shall, at its own expense, remove all or any part of such facilities or appurtenances from the rights-of-way. A facility is unauthorized and subject to removal in the following circumstances:

(1) Upon expiration or termination of the permittee's license or franchise, unless otherwise permitted by applicable law;

- (2) If the facility was constructed or installed without the prior grant of a license or franchise, if required;
- (3) If the facility was constructed or installed without prior issuance of a required permit in violation of this Article; or
- (4) If the facility was constructed or installed at a location not permitted by the permittee's license or franchise.

(C) **Emergency Removal or Relocation of Facilities.** The Village retains the right and privilege to cut or move any facilities located within the rights-of-way of the Village, as the Village may determine to be necessary, appropriate or useful in response to any public health or safety emergency. If circumstances permit, the Municipality shall attempt to notify the utility, if known, prior to cutting or removing a facility and shall notify the utility, if known, after cutting or removing a facility.

(D) **Abandonment of Facilities.** Upon abandonment of a facility within the rights-of-way of the Village, the utility shall notify the Village within **ninety (90) days**. Following receipt of such notice the Village may direct the utility to remove all or any portion of the facility if the Superintendent determines that such removal will be in the best interest of the public health, safety and welfare. In the event that the Village does not direct the utility that abandoned the facility to remove it, by giving notice of abandonment to the Village, the abandoning utility shall be deemed to consent to the alteration or removal of all or any portion of the facility by another utility or person.

33-4-19 CLEANUP AND RESTORATION. The utility shall remove all excess material and restore all turf and terrain and other property within **ten (10) days** after any portion of the rights-of-way are disturbed, damaged or destroyed due to construction or maintenance by the utility, all to the satisfaction of the Village. This includes restoration of entrances and side roads. Restoration of roadway surfaces shall be made using materials and methods approved by the Superintendent. Such cleanup and repair may be required to consist of backfilling, regrading, reseeding, resodding, or any other requirement to restore the right-of-way to a condition substantially equivalent to that which existed prior to the commencement of the project. The time period provided in this Section may be extended by the Superintendent for good cause shown.

33-4-20 MAINTENANCE AND EMERGENCY MAINTENANCE.

(A) **General.** Facilities on, over, above, along, upon, under, across, or within rights-of-way are to be maintained by or for the utility in a manner satisfactory to the Village and at the utility's expense.

(B) **Emergency Maintenance Procedures.** Emergencies may justify noncompliance with normal procedures for securing a permit:

- (1) If an emergency creates a hazard on the traveled portion of the right-of-way, the utility shall take immediate steps to provide all necessary protection for traffic on the highway or the public on the right-of-way including the use of signs, lights, barricades or flags. If a hazard does not exist on the traveled way, but the nature of the emergency is such as to require the parking on the shoulder of equipment required in repair operations, adequate signs and lights shall be provided. Parking on the shoulder in such an emergency will only be permitted when no other means of access to the facility is available.
- (2) In an emergency, the utility shall, as soon as possible, notify the Superintendent or his or her duly authorized agent of the emergency, informing him or her as to what steps have been taken for protection of the traveling public and what will be required to make the necessary repairs. If the nature of the emergency is such as to interfere with the free movement of traffic, the Village police shall be notified immediately.
- (3) In an emergency, the utility shall use all means at hand to complete repairs as rapidly as practicable and with the least inconvenience to the traveling public.

(C) **Emergency Repairs.** The utility must file in writing with the Village a description of the repairs undertaken in the right-of-way within **forty-eight (48) hours** after an emergency repair.

33-4-21 VARIANCES.

(A) **Request for Variance.** A utility requesting a variance from one or more of the provisions of this Article must do so in writing to the Superintendent as a part of the permit application. The request shall identify each provision of this Article from which a variance is requested and the reasons why a variance should be granted.

(B) **Authority to Grant Variances.** The Superintendent shall decide whether a variance is authorized for each provision of this Article identified in the variance request on an individual basis.

(C) **Conditions for Granting of Variance.** The Superintendent may authorize a variance only if the utility requesting the variance has demonstrated that:

- (1) One or more conditions not under the control of the utility (such as terrain features or an irregular right-of-way line) create a special hardship that would make enforcement of the provision unreasonable, given the public purposes to be achieved by the provision; and
- (2) All other designs, methods, materials, locations or facilities that would conform with the provision from which a variance is requested are impracticable in relation to the requested approach.

(D) **Additional Conditions for Granting of a Variance.** As a condition for authorizing a variance, the Superintendent may require the utility requesting the variance to meet reasonable standards and conditions that may or may not be expressly contained within this Article but which carry out the purposes of this Article.

(E) **Right to Appeal.** Any utility aggrieved by any order, requirement, decision or determination, including denial of a variance, made by the Superintendent under the provisions of this Article shall have the right to appeal to the Village Board, or such other board or commission as it may designate. The application for appeal shall be submitted in writing to the Village Clerk within **thirty (30) days** after the date of such order, requirement, decision or determination. The Village Board shall commence its consideration of the appeal at the Board's next regularly scheduled meeting occurring at least **seven (7) days** after the filing of the appeal. The Village Board shall timely decide the appeal.

33-4-22 PENALTIES. Any person who violates, disobeys, omits, neglects or refuses to comply with any of the provisions of this Article shall be subject to fine in accordance with the penalty provisions of this Code. There may be times when the Village will incur delay or other costs, including third party claims, because the utility will not or cannot perform its duties under its permit and this Article. Unless the utility shows that another allocation of the cost of undertaking the requested action is appropriate, the utility shall bear the Village's costs of damages and its costs of installing, maintaining, modifying, relocating, or removing the facility that is the subject of the permit. No other administrative agency or commission may review or overrule a permit related cost apportionment of the Village. Sanctions may be imposed upon a utility that does not pay the costs apportioned to it. **(See Section 1-1-20 for additional penalties.)**

33-4-23 ENFORCEMENT. Nothing in this Article shall be construed as limiting any additional or further remedies that the Village may have for enforcement of this Article.

(Ord. No. 742; 06-17-08)

ARTICLE V - STREET IMPROVEMENTS

33-5-1 SIDEWALKS.

(A) **Grade.** No sidewalk shall be built above or below the established grade of the Village and in all cases where no grade is established, any person building a sidewalk shall build the same according to the instructions of the Street Superintendent and the Village Board. No one shall build a sidewalk unless it consists of new construction. No one shall remove or destroy a sidewalk without replacing the same with a new sidewalk.

(B) **Permit.** It shall be unlawful for any person to build, lay or construct any sidewalk along any property in the Village or along any of the streets, alleys, or public highways thereon, without first filing an application for a permit with the Village Clerk and approved by the Village Board.

(C) **Cost to Owner.** If the funds are available and the Village Board approves the request, the property owner shall pay **one-half (1/2)** of the cost of the construction, including engineering fees, and thereafter, the sidewalk shall be maintained by the Village.

(D) **Subdivisions.** This Section is not applicable to new subdivisions.
(65 ILCS 5/11-80-13)

33-5-2 CURBS AND GUTTERS.

(A) **Request in Writing.** Any person owning property within the Village who desires to have new curbs and gutters constructed, along with street adjoining his premises shall file a request with the Street Superintendent, giving the location of the property and the length of the curbs and gutters requested. All installations shall conform to the requirements of **65 ILCS 5/11-8-11** and the **Environmental Barriers Act**.

(B) **Cost to Owner.** If the funds are available and the Village Board approves the request, the property owner shall pay **one-half (1/2)** of the cost of the construction, including engineering fees, and thereafter, the curbs and gutters shall be maintained by the Village.

(C) **Approval by Village Board.** The approval of the request for construction of curbs and gutters by the Village Board shall be dependent upon the approval of funds, priority of projects and continuity of construction for the best benefit of the Village as determined by the Village Board.

(D) **Subdivisions.** This Section is not applicable to new subdivisions.
(65 ILCS 5/11-80-11)

33-5-3 STORM SEWERS.

(A) **Description of Storm Water Sewers.** Storm water sewers shall be any pipe or sewer used for the carrying of surface drains, ground waters, roof leaders, or storm waters, rain waters, or other waters other than sanitary sewage.

(B) **Supervision.** The Superintendent of the Water and Sewer Departments shall supervise all connections made to the public storm sewer system or excavations for the purposes of installing or repairing the same.

(C) **Permits.** Before any connection is made to the public storm water sewers, a permit shall be applied for and approved by the Superintendent or his designated representative.

(D) **Requirements: Use of Storm Water Sewers.** Where a storm water sewer is accessible in a street, alley or easement to a building or premises abutting thereon, the surface drains, ground waters, roof leaders, or storm waters shall be discharged into the storm water sewer unless otherwise authorized by the Village. Under no conditions shall sanitary sewage or wastes or any substance other than surface waters, ground waters, roof waters or storm waters be permitted to flow into or be connected to the storm water sewer; and no sanitary sewer shall be connected to the storm water sewer system.

(E) **Drainage Culverts.** The Village may budget **Fifteen Thousand Dollars (\$15,000.00)** annually for the replacement or repair of failed culverts and catch basins in storm water drainage easements on private property. **Ten Thousand Dollars (\$10,000.00)** from MFT funds to be spent on culverts and catch basins in storm water drainage easements eligible under MFT regulations.

Five Thousand Dollars (\$5,000.00) from Road and Bridge funds to be spent on culverts and catch basins in storm water drainage easements that would not qualify for MFT regulations.

- (1) Any failed culverts and catch basins not in storm water drainage easements could be replaced or repaired with the property owner absorbing **fifty percent (50%)** of the cost. The funds would be taken from the same funds listed above. The property owner must grant the Village a construction easement.
- (2) This agreement would not contribute any funds to the new installation of new culverts on storm water drainage easements or in ditches on private property.

(65 ILCS 5/11-80-7)

ARTICLE VII - DRIVEWAYS

33-7-1 PERMITS REQUIRED. No person shall construct a driveway for vehicles or animals across any sidewalk in the Village without having first obtained a permit therefor.

Applications for such permits shall be made to the Village Clerk and shall be accompanied by the fee required.

No permit for construction of a driveway for commercial use, or for the habitual use of other than the owner or occupant of the premises served shall be issued except upon the order of the Village Clerk.

33-7-3 GRADE SURFACE. No driveway shall be so constructed or graded as to leave a step, sharp depression or other obstruction in the sidewalk. 33-7-5 BREAKING CURB - BOND REQUIRED. Before a permit can be issued to break a curb in the Village for the installation of a driveway or any other purpose, a bond or cash in the amount of **One Hundred Dollars (\$100.00)** is required to be posted with the Village Clerk.

(65 ILCS 5/11-80-2)

ARTICLE VIII - SNOW REMOVAL

33-8-1 DEFINITIONS. The following definitions shall apply in the interpretation and enforcement of this Article.

"BUSINESS DAY" is any day not a Sunday or a National Holiday.

"BUSINESS DISTRICT" shall include all those areas zoned for business, commercial and industrial purposes in the Zoning Code and accompanying map as amended or other applicable regulations.

"BUSINESS HOURS" are the hours between **8:00 A.M.** and **5:00 P.M.** on any business day.

"ROADWAY" means that portion of a street or highway improved, designed, or ordinarily used for vehicular travel, exclusive of the berm or shoulder.

"SIDEWALK" means that portion of a street between the curb lines or the lateral lines of a roadway and the adjacent property lines intended for the use of pedestrians.

"STREET" OR "HIGHWAY" means the entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel.

33-8-2 SNOW AND ICE TO BE REMOVED FROM SIDEWALKS BY PRIVATE PERSONS.

(A) Every person in charge or control of any building or lot of land within the Village fronting or abutting on a paved sidewalk, whether as owner, tenant, occupant, lessee or otherwise, shall remove and clear away, or cause to be removed and cleared away, snow and ice from a path from so much of a sidewalk as is in front or abuts on said building or lot of land. Snow and ice shall be so removed from sidewalks in all business districts within the Village by **twenty-four (24) hours** after cessation of any fall of snow, sleet or freezing rain. The path required to be cleared in the business district shall be **six (6) feet** in width, or the whole width of the sidewalk, whichever is smaller.

(B) However, in the event snow and ice on a sidewalk has become so hard that it cannot be removed without likelihood of damage to the sidewalk, the person charged with its removal shall, within the time mentioned in subsection (A) above, cause enough sand, cinders or other abrasive to be put on the sidewalk to make travel thereon reasonably safe; and shall then, as soon thereafter as weather permits, cause a path on said sidewalk of at least **six (6) feet** in width to be thoroughly cleaned.

33-8-3 DEPOSITING OF SNOW AND ICE RESTRICTED. No person shall deposit or cause to be deposited any snow and ice on or against a fire hydrant or on any sidewalk, roadway, or loading or unloading areas of a public transportation system, except that snow and ice may be windrowed on curbs incident to the cleaning of sidewalks in business districts. **(65 ILCS 5/11-80-13)**

33-8-4 MAYOR'S AUTHORITY. The Mayor is hereby authorized on behalf of the Village to cause sidewalks to be cleared upon the request of the person or entity charged with snow and ice removal. Any person or entity whose sidewalk is cleared pursuant to this Section shall reimburse the Village for the costs of such clearing.

ARTICLE IX - MOVING BUILDINGS

33-9-1 PERMIT REQUIRED. It shall be unlawful for any person to move or cause to be moved, any building in, into, through, or from the Village without first obtaining a permit therefor from the Village Clerk. Such permit shall be known as a **"House Moving Permit"**.

33-9-2 APPLICATION FOR PERMIT. Any person desiring such a permit shall file with the Village Clerk an application therefor in writing on a form to be furnished by the Street Superintendent for that purpose. Such application shall specify the following:

- (A) The character and size of the building to be moved;
- (B) The reason for such moving;
- (C) The use, purpose and occupancy for which said building or structure is to be used;
- (D) The location from which and to which said building is to be moved;
- (E) A plot plan showing the proposed location of the building upon the property to which said building is to be moved, provided said location is in the Village;
- (F) The streets on, over or through which it is desired to move said building;
- (G) Whether the building conforms to the Zoning Code or other applicable regulations in the location to which it is to be moved.

33-9-3 INVESTIGATION. Upon the filing of the application, the Street Superintendent shall cause the Zoning Administrator, or other authorized representative of the Village, to investigate the building and report to him the results of such investigation, together with recommended action thereon.

33-9-4 DENIAL OF PERMIT. No person shall be issued to move any building or structure which, in the opinion of the Street Superintendent:

- (A) Is so constructed or in such condition as to be dangerous;
- (B) Is infested with pests or unsanitary;
- (C) If it is a dwelling or habitation, is unfit for human habitation;
- (D) Is so dilapidated, defective, unsightly, or in such a condition of deterioration or disrepair that its relocation at the proposed site would cause appreciable harm to or be materially detrimental to the property or improvements in the district within a radius of **one thousand (1,000) feet** from the proposed site;
- (E) If the proposed use is prohibited by the Zoning laws of the Village;
- (F) If the structure is of a type prohibited at the proposed location by any ordinance of the Village; or
- (G) If the moving of the building or structure causes unreasonable damage to the trees, plants and/or shrubs on and along the public streets.

Provided, however, that if the condition of the building or structure, in the judgment of the Street Superintendent, admits of practicable and effective repair, the permit may be issued upon the terms and conditions as set forth herein.

33-9-5 TERMS AND CONDITIONS OF PERMIT. When a house moving permit is granted such terms and conditions as may be deemed reasonable and proper may be imposed, including, but not limited to the public streets or other public property in the Village on, over, or through which the building or structure shall be moved, and the requirements of changes, alterations, additions or repairs to be made to or upon the building or structure, to the end that the relocation thereof will not be materially detrimental or injurious to public safety or to public welfare or to the property and improvements, or either, in the district to which it is to be moved. Such terms and conditions shall be written upon the permit or appended in writing thereto.

33-9-6 ESTIMATE OF COST AND DEPOSIT. The applicant shall also deposit with the Village Clerk a cash deposit sufficient to cover the cost to the Village as estimated by the Street Superintendent of trimming, moving, removing or replanting of trees or shrubs, and of moving, removing and displacing any pole or other structure, supporting any wires, cables or other equipment belonging to the Village or the cutting, displacing or changing the location of any wire, cable or other equipment upon said poles or structures belonging to the Village.

33-9-7 LIABILITY INSURANCE. Every person moving a building in the Village shall file with the Village Clerk a liability insurance policy issued by the solvent corporation holding a certificate of authority to do insurance business in the State, which policy shall conform in all respects to the requirements of this Section.

In lieu of filing the insurance policy herein referred to, a certificate of insurance issued by an insurance corporation may be filed. The certificate must show that a policy meeting the requirements of this Section has been issued, and shall set forth the expiration date of said policy.

The liability policy required under this Section shall insure the person moving a building against loss from the liability imposed by law for injury to, or death of any person, or damage to any property growing out of the moving of such building to the amount or limit of **Fifty Thousand Dollars (\$50,000.00)** exclusive of interest and costs, on account of injury to or death of any **one (1) person**, of **One Hundred Thousand Dollars (\$100,000.00)** exclusive of interest and costs, on account of moving any **one (1) building** resulting in injury to or death of more than **one (1) person**, and of **Twenty-Five Thousand Dollars (\$25,000.00)** for damage to property of others, resulting from moving any **one (1) building**.

33-9-8 OWNER'S COMPLETION BOND OR SAVINGS AND LOAN CERTIFICATE AND SHARE. Prior to the issuance of a permit to move a building, the owner or lessee of the property upon which the building is to be located shall file with the Zoning Administrator or other authorized representative of the Village, a corporate surety bond, conditioned as follows:

That all of the work required to be done to complete the relocation, alteration and reconstruction of the building pursuant to the conditions of the permit shall be fully performed and completed within a reasonable time to be specified in the permit by the Zoning Administrator, or other authorized representative of the Village. Such bond shall be in principal amount equal to the estimated cost of the work proposed to be done, plus **ten percent (10%)** thereof, and shall name the Village as obligee, and shall be in a form approved by the Village Attorney.

In lieu of furnishing such a corporate surety bond, the owner or lessee may post a cash deposit in the amount of said bond.

An extension of time for the completion may be granted in writing by the Zoning Administrator or other authorized representative of the Village when, in his discretion, circumstances shall so justify, but no such extension shall release any surety or other security.

33-9-9 CLEARANCE OF SITE AND SAFETY MEASURES REQUIRED. Prior to the issuance of a permit to move a building, the owner or lessee of the property from which the building is to be moved shall file with the Village Clerk a bond or other form of security in favor of the Village, conditioned as follows:

(A) Before any work is started on a building or structure, the permittee or his authorized agent shall notify the appropriate utilities in order that all gas, water and oil pipelines that are to be disconnected from the building may be securely capped and sealed.

(B) Immediately, after the moving of any building or structure, the permittee or his authorized agent shall securely barricade all basement excavations and other holes or openings.

(C) Within **ten (10) days** after the moving of any building or structure, the permittee or his authorized agent shall complete the following work:

(1) Securely close and seal any sanitary piping located on the property.

- (2) Fill with dirt or sand any septic tanks or cesspools located on the property.
- (3) Fill any openings, excavations or basements remaining on the land with dirt or sand to street level or the natural level of adjoining property, unless otherwise directed by the Street Superintendent.
- (4) Remove any buried underground tanks formerly used for storage of flammable liquids.
- (5) Removal all refuse, debris and waste materials from the property.

The bond required by this Section shall be an amount equal to the cost of the work proposed to be done, as estimated by the Street Superintendent.

The bond may be in the form of a corporate surety bond, cash deposit, savings and loan certificate, or an instrument of credit.

An extension of time for completion of the work required by this Section may be granted by the Street Superintendent when, in his discretion, circumstances justify such an extension; but no such extension shall release any bond or other security furnished pursuant to this Section.

33-9-10 INSPECTION FEE AND PERMIT FEE. An inspection fee in the sum of **Fifteen Dollars (\$15.00)** shall be paid to the Village Clerk upon filing of each application for a house moving permit.

A permit fee in the sum of **Ten Dollars (\$10.00)** shall be paid to the Village Clerk upon the issuance of each house moving permit.

33-9-11 ISSUANCE OF PERMIT. The Street Superintendent shall approve the issuance of a house moving permit when all the necessary requirements and conditions of this Article have been complied with. It shall then be the duty of the Village Clerk to issue the permit.

33-9-12 SUSPENSION OR REVOCATION OF PERMIT. The Street Superintendent, at any time, and for sufficient cause, may revoke or suspend any permit granted under this Article.

33-9-13 CONTROL AND SUPERVISION. Every building which is moved on, over, or through any public street, way or park in the Village shall be under the control of the Street Superintendent and every such building shall be moved in a careful manner and the work shall be prosecuted with diligence and to the satisfaction and approval of the Street Superintendent. This Section in no way relieves the person having charge of the moving of any building of his obligation to furnish proper supervision.

33-9-14 NOTICE REQUIRED. Notice must be given to both the Street Department and the Police Department of the Village by the person or his representative to whom the permit is issued not less than **forty-eight (48) hours** nor more than **seventy-two (72) hours** before the actual work of moving a building or structure is to commence.

33-9-15 DEFAULT IN PERFORMANCE OF CONDITIONS. Whenever a default has occurred in the performance of any term or condition of any permit, written notice thereof shall be given to the permittee by the Street Superintendent; said notice to state the work to be done, the estimated cost thereof, and the period of time deemed to be reasonably necessary to complete such work. After receipt of such notice, the permittee must, within the time therein specified, either cause the work to be done, or pay over to the Village Clerk the estimated cost of doing the work, as set forth in the notice, plus **ten percent (10%)** of said estimated cost. Upon receipt of notice from the Village Clerk that the

permittee has deposited such money, the Street Superintendent shall cause the required work to be performed and completed.

If the permittee defaults, the Village shall have the option in lieu of completing the work required to demolish the building or structure and to clear, clean and restore the site or sites.

33-9-16 APPROVAL OF ROUTE. The streets over which any building or structure is to be moved must be recommended by the Street Superintendent and the Chief of Police to the Village Board for approval.

33-9-17 OBSTRUCTING STREETS. No person owning or having charge of the moving of any building into, on, over, through, or from any public streets, ways or parks in the Village shall permit said building to remain in any one location on any such street, way or park for a period longer than **twenty-four (24) hours**, except by written permission obtained from the Chief of Police, or to obstruct traffic on any railroad.

33-9-18 LIGHTS AND BARRICADES. The person having charge of the moving of any structure shall maintain proper lights and barricades whenever such structure is on any public street, way or park during the hours of darkness.

33-9-19 WIRES AND STRUCTURAL SUPPORTS. In the event that the moving of any building for which a permit shall have been granted hereunder makes it necessary to move, remove or displace any pole or other structure supporting the wires, cables or other equipment of any public utility or of the Village, or to cut, displace or change the location of any wire, cable or other equipment upon said pole or structure, the person to whom such permit has been granted, or his authorized representative, shall obtain permission in writing from the owner or owners of such pole, structure or wires, cables or other equipment thereon, and shall notify such owner or owners at least **seventy-two (72) hours** prior to the time that the moving of such building will necessitate the removal of such obstructions.

The person to whom the permit is granted shall not, at the expiration of said time of notice or at any time, cut, move or in any way disturb such public utility or Village property; and such work shall be done only by the authorized workmen of the utility or the Village, whichever is the owner.

The person to whom the permit is granted shall pay to the public utility, or to the Village, as the case may be, any and all costs or expense for the removal, rearrangement or replacement of any pole or structural support of wires, cables or equipment thereon or of any damage to such property.

33-9-20 TREES, PLANTS AND SHRUBS. In the event that the moving of any building for which a permit shall have been granted hereunder makes it necessary to trim, move, remove or replant any tree, plant or shrub belonging to or under the control of the Village, the person to whom such permit has been granted or his authorized representative shall notify the Street Superintendent at least **seventy-two (72) hours** prior to the time that the moving of such building will necessitate the removal of such obstructions.

The person to whom the permit is granted shall not, at the expiration of the time of notice, or at any time, trim, move, remove, replant, or otherwise disturb such trees, plants or shrubs; and such work shall be done only by the authorized workmen of the Village unless otherwise approved and so ordered by the Street Superintendent.

The person to whom the permit is granted shall pay to the Village, any and all costs or expenses for the trimming, moving, removing or replanting of any trees, plants or shrubs or of any damage thereto.

33-9-21 REPAIRS TO PUBLIC PROPERTY. In the event that the moving of any building for which a permit shall have been granted hereunder causes damage to the public streets or other public property, in addition to any other remedies the Village may have, the Street Superintendent may cause such damage to be repaired and the cost thereof shall be deducted from the deposit required herein, or he may require the person to whom such a permit has been granted, or his authorized representative, upon written notification from the Street Superintendent to make all necessary repairs to such streets or property; provided, however, that should the person to whom the permit has been granted and to whom the notice has been given, or his authorized representative, fails to make the necessary repairs within the period of time designated in the written notice, the Street Superintendent may cause such necessary repairs to be made and the cost thereof deducted from the deposit required herein.

33-9-22 REFUNDING OF DEPOSITS. When the moving of any building for which a permit has been granted is completed, and all damage to public streets or other public property has been repaired to the satisfaction of the Street Superintendent, and all costs of repairing damages or performing other work as provided herein have been paid and the deposit as required by **Section 33-9-6**, or such portion thereof then remaining unused under the provisions of this Article, shall be refunded upon surrender of the deposit receipt representing the money so deposited. However, should the cost of repairing damages and/or performing other work, as in this Article provided, exceed the total amount of money deposited, the person to whom the permit was granted shall be held liable for the amount of damage and/or other costs which are in excess of the amount deposited. It shall be the duty of the Village Clerk, upon receipt of the request from the Street Superintendent, to collect such part of the claim which is in excess of the deposit from the person to whom the permit was granted.

SUBDIVISION CODE

ARTICLE I – SCOPE AND PURPOSE

34-1-1 **TITLE.** This Code shall be known, referred to and cited as "The Subdivision Code of the Village of Smithton".

34-1-2 **SCOPE.** For the purpose of present and future development of the Village and for the promotion of the public health, safety, comfort, morals and welfare of persons living within the territory governed, the provisions and regulations hereinafter contained shall govern the subdividing and platting of lands lying within the area of jurisdiction of the Village, as now or hereafter existing, except as otherwise provided in **Section 34-5-1**. Within the area of jurisdiction of the Village, the provisions of the Statutes of the State of Illinois are hereby adopted as part of the Official Plan of the Village.

This Code prescribes procedures for the subdivision or resubdivision of land within the area of jurisdiction of the Village and comprises the procedures, requirements, standards and specifications with respect thereto.

34-1-3 **INTENT AND PURPOSE.** This Code is intended for the purpose of providing adequate service and utilities, safe convenient access, a desirable and attractive living environment through good subdivision design, and utilizing development standards directed toward reasonable costs for initial development and continuing maintenance including the following:

34-2-1 PRE-APPLICATION CONFERENCE. Before submitting a preliminary plat, the applicant is encouraged to confer with the Village Administrative Officer, Zoning Administrator and other official units of government affected thereby as well as those providing services to the area in question to initiate pre-planning activities and obtain information and guidance before entering into binding commitments or incurring substantial expense in the preparation of detailed plans, surveys and other data.

34-2-2 PROCEDURE REQUIRED TO FOLLOW REGULATIONS. In order to subdivide any tract of land (with the exception of division or subdivision of land into parcels or tracts of **five (5) acres** or more in size and not involving a new street or easement of access, or the sale or exchange of existing parcels or tracts of land, or the division of lots and blocks in recorded subdivisions), an owner or subdivider shall follow the procedure set forth in this Code.

34-2-3 PRELIMINARY PLAT.
(A) Subdivider. The subdivider shall file with the Village Board at the office of the Village Clerk, **ten (10) copies** of the preliminary plat, at least **ten (10) days** prior to the regularly scheduled Zoning Administrator meeting. Such application shall include the following:

- (1) The Village Clerk shall immediately distribute **one (1) copy** to the Village Engineer, **one (1) copy** to the Superintendent of Schools, **one (1) copy** to the Village Board and **two (2) copies** to the Zoning Administrator.
- (2) **Time Constraints.** The Zoning Administrator shall review the Preliminary Plat, within **sixty (60) days** from the date of application or the filing by the subdivider of the last item of required supporting data, whichever date is later, unless such time is extended by written mutual consent, and shall determine whether the Preliminary Plat shall be approved as submitted; shall be approved subject to certain conditions or modifications; or shall be disapproved.
- (3) **Zoning Administrator Review.** The action of the Zoning Administrator shall be noted in writing and if such Preliminary Plat is disapproved or is conditionally approved, the Zoning Administrator shall furnish written notice of such action to the applicant setting forth the reasons for disapproval or conditional approval and specifying with particularity the aspects in which

the Preliminary Plat fails to conform to the Village's Code, including the Official Map.

- (4) **Village Board Review.** The Village Board shall accept or reject said Preliminary Plat within **thirty (30) days** after its next regularly scheduled meeting following the action granting approval of the Preliminary Plat by the Zoning Administrator, unless such time is extended by written mutual agreement of the Village Board and the applicant, the Village Board shall issue by order or resolution, whether the Preliminary Plat is approved or disapproved as submitted. If the Preliminary Plat is disapproved, the resolution shall state the reasons for disapproval.

The applicant may, during this period, submit all or part or parts of said Preliminary Plat for final approval. In the event that the subdivision is being developed in stages, the applicant may, by written mutual agreement with the Zoning Administrator, have final approval of the last part of the Plat delayed for a period not to exceed **three (3) years** from the date of the Preliminary Plat approval. Any part of a subdivision which is being developed in stages shall contain a tract of land at least **one (1) block** in length.

DIVISION III - MINIMUM STANDARDS OF DESIGN

34-2-7 GENERAL STATEMENT. The subdivider shall conform to the following principals and standards of land subdivision in the design of each subdivision or portion thereof. No Preliminary Plat shall be approved unless it conforms to the following minimum standards of design.

34-2-8 STREETS AND ALLEYS.

(A) The street and alley arrangement shall be such as to not impose undue hardship upon the owners of adjoining property when they plat their own land and seek to provide for convenient access thereto. Reserve strips controlling access to streets are prohibited, except where there control is placed with the Village Board.

(B) The arrangement of rights-of-way in a subdivision shall provide for the continuation of the existing streets or rights-of-way in adjoining areas, unless the Zoning Administrator deems such continuation undesirable for reasons of topography or design. Subdivision streets or rights-of-way, widths shall be of the same or greater width as the existing street or right-of-way, except they shall not be of less width than hereinafter provided in **Section 34-2-8.**

(C) Where, in the opinion of the Zoning Administrator, it is desirable to provide future street access to adjoining areas, the streets and rights-of-way in the subdivision shall be extended to the property line. If deemed necessary by the Zoning Administrator, any temporary dead-end street shall be provided with a temporary turn-around. In no case, shall access be denied to any parcel or part of a parcel of ground by the subdividing of land.

(D) Streets shall intersect, as nearly as possible at right angles.

(E) Local street curb intersections shall be rounded by radii of at least **fifteen (15) feet**; intersections involving collector or arterial streets shall have radii of not less than **twenty-five (25) feet**.

(F) Street jogs with centerline offsets of less than **one hundred twenty-five (125) feet** are prohibited.

(G) Unless topography indicates a need for a greater length, dead-end streets designed to be permanent shall be no longer than **five hundred (500) feet** and shall terminate in a circular open space having a radius at the outside of the pavement of at least **forty (40) feet** and a diameter at the outside of the right-of-way of at least **one hundred (100) feet**.

(H) Local streets shall be designed so as to discourage through traffic.

(I) No local street grade shall be in excess of **ten percent (10%)** and no collector street or arterial street grade shall be in excess of **seven percent (7%)** except as otherwise approved by the Zoning Administrator due to adverse topographic conditions. For adequate drainage, the minimum grade of any new street shall not be less than **one half (1/2)** of **one percent (1%)**.

(J) The Zoning Administrator shall not approve streets which will be subject to frequent inundation or flooding.

(K) Alleys shall be avoided in a single-family and two-family district, except as required by this Section. Alleys, however, may be required in multiple-family districts and commercial or industrial districts unless other definite and assured provision is made for service access, such as off-street loading, unloading and parking consistent and adequate for the use proposed.

(L) Dead-end alleys shall not be permitted, except where provided with adequate turn-around facilities at the dead-end, or where such dead-end alleys provide the only access to off-street parking.

(M) Alleys, where provided, shall have a right-of-way of not less than **twenty (20) feet**.

(N) The minimum right-of-way of local street, including marginal access streets and cul-de-sacs, shall be **fifty (50) feet**.

(O) The minimum right-of-way of collector streets shall be **sixty (60) feet**.

(P) The minimum right-of-way of arterial streets shall be **eighty (80) feet**.

(Q) Intersections of more than **two (2) streets** at **one (1) point** shall be avoided.

(R) Where the subdivision abuts in or contains an existing or proposed arterial street, the Zoning Administrator may require that marginal access streets be provided in order that no lots front on such existing or proposed arterial street.

(S) Dedication of half-streets shall be discouraged, but may be permitted whenever there is no other logical method of platting. However, wherever there exists a dedicated or platted half-street or alley adjacent to the tract to be subdivided, the other half of the street or alley shall be platted, unless otherwise permitted by the Zoning Administrator.

34-2-9 DRAINAGE. No plat shall be approved for any subdivision which is subject to flooding unless the plat conforms to the applicable requirements of this Code.

(A) No plat shall be approved for any subdivision or part thereof which is subject to periodic flooding or which contains inadequate drainage of streets. However, if the subdivider agrees in writing to make improvements at his expense which will, in the opinion of the Zoning Administrator, make the area safe for human occupancy and use and further provide adequate drainage for streets, then the preliminary and final plat may be approved.

(B) Storm water drainage shall be discharged to marshlands, swamps, detention basins or other treatment facilities. Diversion of storm water to marshlands or swamps shall be considered by the Zoning Administrator for existing or planned surface drainage. Marshlands and swamps used for storm water shall provide for natural or artificial water level control.

(C) No existing ditch, stream, drain or drainage canal shall be deepened, widened, filled, rerouted or filled without written permission from the Village.

(D) Where artificial channels must be constructed to augment the natural drainage system, such channels as well as the natural drainageways may be planned as part of a recreation trail system. Channels shall be designed to be aesthetically compatible for recreational trail use.

(E) The drainage system shall be constructed and operational during construction; or as approved by the Village.

(F) The natural drainage system shall be used as far as is feasible for the storage and flow of runoff.

(G) No plat shall be recorded for any subdivision situated within **five hundred (500) feet** of any surface drain or watercourse serving a tributary area of **six hundred forty (640) acres** or more, until such plat or map has been reviewed by the Department of Transportation, either independently or in cooperation with Federal, State or local agencies, for the purpose of determining, for the protection of persons and property, the flood hazards involved, and a report thereon filed by that Department with the County Recorder.

34-2-10 EROSION AND SEDIMENT CONTROL. The following standards shall be applied in the subdivision and construction of land areas:

(A) The development shall conform to the natural limitations presented by topography and soil so as to create the least potential for soil erosion.

(B) Natural plant covering shall be retained and protected so far as is consistent with developing the site.

(C) When soil is exposed, the exposure shall be for the shortest feasible period of time.

(D) Land shall be developed in increments of workable size such that adequate erosion and siltation controls can be provided as construction progresses. The smallest practical area of land shall be exposed at any one period of time.

(E) Erosion and siltation control measures shall be coordinated with the different stages of development. Appropriate control measures shall be installed prior to development when necessary to control erosion.

(F) Provision shall be made to effectively accommodate the increased run-off caused by changed soil and surface conditions during and after development.

(G) Sediment basins, debris basins, desilting basins, or silt traps shall be installed and maintained to remove sediment from run-off waters undergoing development.

(H) Temporary vegetation or, where appropriate, mulching or other non-viable cover shall be used to protect areas exposed during development.

(I) Where the topsoil is removed, sufficient arable soil shall be set aside for respreading over the developed area. The soil shall be restored to a depth of **four (4) inches** and shall be of a quality at least equal to the soil quality prior to development.

(J) Permanent, final plant covering or structures shall be installed as soon as possible.

34-2-11 EASEMENTS.

(A) Easements of not less than **ten (10) feet** in width shall be provided on each side of all rear lot lines, and alongside lot lines where necessary for storm and sanitary sewers, gas, water and other mains, and for electric and telephone lines or for other public utilities. Easements of greater width may be required along or across lots when necessary for the extension of main sewers or other utilities or where both water and sewer lines are located in the same easement. A **two (2) foot** easement shall be required on **one (1) side** of and adjacent to an alley to accommodate pole lines.

(B) Adequate easements for storm water drainage shall be established along any natural drainage, channel and in such other locations as may be necessary to provide satisfactory disposal of storm water from streets, alleys and all other portions of the subdivision. The location and minimum widths of such easements shall be determined by the administrative officer.

(C) No tree, shrub or building shall be placed or erected in any easement for utility or drainage purposes or within the right-of-way of any street, except at the owner's risk as to all costs for demolition, removal or reconstruction, and the proper authorities may have free access to and use of the easements at any time.

34-2-12 BLOCKS.

(A) No block shall be longer than **one thousand four hundred (1,400) feet** or less than **five hundred (500) feet** in length. Except where the continuity of the existing neighborhood would be disrupted.

(B) All blocks, whenever it is deemed essential to provide access to schools, playgrounds, shopping centers and other community facilities, shall have a crosswalk with a right-of-way of at least **ten (10) feet** in width near the center of the block.

(C) The length, width and shapes of blocks shall be determined with due regard to building sites, land use, zoning requirements, access, safety and convenience.

(D) Where a subdivision adjoins an arterial or collector, the greater dimension of the block shall generally front or back upon such arterial or collector to avoid unnecessary ingress or egress.

34-2-13 PARKS AND OTHER PUBLIC AREAS.

(A) Where any area is specifically designated on the general development plan of the Village, for a public park, playground, school or other public use, and is owned by the subdivider, such area shall be reserved for such use on all subdivision plans and plats; and the acquisition of such area may then be secured by the Village Board or arrangements be made for its acquisition within a period not to exceed **one (1) year** from the date of approval of the final plan. The value of such lands shall be established by **three (3)** qualified appraisers; **one (1)** of whom shall be appointed by the Zoning Administrator, **one (1)** by the Subdivider, and **one (1)** of whom shall be mutually agreed upon by the other two.

(B) Should the Village Board decide to take such premises, then, and in that case, it shall make arrangements to pay the subdivider therefor the appraised value as determined by the above described appraisers, or a sum that is mutually agreed upon. The Village Board may accept any donation of land as above described should the subdivider desire to contribute the same to the Village.

34-2-14 UTILITIES.

(A) Source of domestic water supply and type of sewage disposal.

(B) Storm water drainage.

(1) Complete storm sewer system, including pipe sizes, inlets, and inverts.

(2) A proposed surface water drainage pattern for each individual lot, block and street.

(C) All easements as required shall be indicated.

(D) **Protective Covenants.** An outline of all proposed protective covenants shall accompany the preliminary plat and shall include a protection against the obstruction of any surface water drainage easement.

34-2-15 LOTS.

(A) Lots shall not be less than **seventy-five (75) feet** wide or less than **ninety (90) feet** in length.

(B) The lot arrangement and design shall be such that all lots will provide satisfactory and desirable building sites, properly related to topography and the character of surrounding development.

(C) All side lines of lots shall be at right angles to straight street right-of-way lines and radial to curved street right-of-way lines except where a variation of this rule will provide a better street and lot design.

(D) All remnants of lots below minimum lot area size left over after subdividing of a larger tract shall be added to adjacent lots, rather than allowing to remain as unusable land, except when designated for utility purposes or accepted for public space for park or other public uses.

(E) Lots which cannot be served by either a public or private sanitary sewer, and/or a public water system, shall comply with the applicable provisions of the applicable zoning ordinance or shall not be less than **one (1) acre** in size per lot or household unit, whichever is greater. Such lots shall have a width of not less than **one hundred twenty-five (125) feet** or a depth in excess of **three (3) times** its width, unless otherwise permitted and approved by the Zoning Administrator.

(F) Lots with double frontage shall be avoided where possible. Corner lots and lots with double frontage shall have extra dimension sufficient to permit the establishment of front building setback lines on the adjoining streets.

(G) The subdividing of the land shall be such as to provide each lot with satisfactory access to public street. The Zoning Administrator may require additional reservation of land to insure adequate access to prevent land locking of the adjoining territory.

[Legal Description]

We shall make payouts from this irrevocable commitment as follows:

If we have not been notified by the municipality of a default by the owner and/or developer, we
 shall disburse the funds for labor and materials furnished by contractors in accordance with the sworn
 statement on order of the owner, the submission of proper lien waivers from the contractors engaged in
 such work, and the certificate by the Municipal Engineer, _____

36-2-1 **TAX IMPOSED.** A tax is imposed on the following acts or privileges:

(A) The act or privilege of originating in the Village or receiving in the Village intrastate telecommunications by a person at a rate of **six percent (6%)** of the gross charge for such telecommunications purchased at retail from a retailer by such person. (B) The act or privilege of originating in the Village or receiving in the Village interstate telecommunications by a person at a rate of **six percent (6%)** of the gross charge for such telecommunications purchased at retail from a retailer by such person. To prevent actual multi-state taxation of the act or privilege that is subject to taxation under this Article, any taxpayer, upon proof that the taxpayer has paid a tax in another state on such event, shall be allowed a credit against any tax enacted pursuant to this Article to the extent of the amount of such tax properly due and paid in such other state which was not previously allowed as a credit against any other State or local tax in this State. However, such tax is not imposed on the act or privilege to the extent such act or privilege may not, under the Constitution and statutes of the United States, be made the subject of taxation by municipalities in this State.

36-2-2 **COLLECTION OF TAX.**

(A) The tax authorized by this Article shall be collected from the taxpayer by a retailer maintaining a place of business in this State and making or effectuating the sale at retail and shall be remitted by such retailer to the Village. Any tax required to be collected pursuant to this Article and any such tax collected by such retailer shall constitute a debt owed by the retailer to the Village. Retailers shall collect the tax from the taxpayer by adding the tax to the gross charge for the act or privilege of originating or receiving telecommunications when sold for use. The tax authorized by this Article shall constitute a debt of the purchaser to the retailer who provides such taxable services until paid and, if unpaid, is recoverable at law in the same manner as the original charge for such taxable services.

(B) Whenever possible, the tax authorized by this Article shall, when collected, be stated as a distinct item separate and apart from the gross charge for telecommunications.

(C) The tax authorized by this Article may be collected from the taxpayer by a retailer not maintaining a place of business within this State upon application by such retailer, who to the satisfaction of the Village, furnishes adequate security to insure collection and payment of the tax. Such retailer shall be issued, without charge, a permit to collect such tax. When so authorized, it shall be the duty of such retailer to collect the tax upon all of the gross charges for telecommunications in such municipality in the same manner and subject to the same requirements as a retailer maintaining a place of business within such municipality.

36-2-3 DEFINITIONS. For the purpose of the taxes imposed by this Article, the following definitions shall apply:

"Service Address": The location of telecommunications equipment from which telecommunications services are originated or at which telecommunications services are received by a taxpayer. If this is not a defined location, as in the case of mobile phones, paging systems, maritime systems, air-to-ground systems and the like, "service address" shall mean the location of a taxpayer's primary use of the telecommunication equipment as defined by telephone number, authorization code or location in Illinois where bills are sent.

Carrier access charges, right of access charges, charges for use of inter-company facilities, and all telecommunications resold in the subsequent provision used as a component of, or integrated into, end-to-end telecommunications service shall be nontaxable as sales for resale.

36-2-4 RESALE OF TELECOMMUNICATIONS.

(A) If a person, who originates or receives telecommunications in the Village claims to be a reseller of such telecommunications, such person shall apply to the Village for a resale number. Such applicant shall state facts which will show the Village why such applicant is not liable for tax under this Article on any of such purchases and shall furnish such additional information as the Village may reasonably require.

(B) Upon approval of the application, the Village shall assign a resale number to the applicant and shall certify such number to the applicant. The Village may cancel any number which is obtained through misrepresentation, or which is used to send or receive such telecommunication tax-free when such actions in fact are not for resale, or which no longer applies because of the person's having discontinued the making of resales.

(C) Except as provided hereinabove in this Section, the act or privilege of sending or receiving telecommunications in this State shall not be made tax-free on the ground of being a sale for resale unless the person has an active resale number from the Village and furnishes that number to the retailer in connection with certifying to the retailer that any sale to such person is nontaxable because of being a sale for resale.

36-2-6 OVERPAYMENT OF TAX. If it shall appear that an amount of tax during under this Article has been paid which was not in fact due, whether as the result of a mistake of fact or an error of law, then such amount shall be credited against any tax due, or to become due, under this Article from the taxpayer who made the erroneous payment. However, no amount erroneously paid more than **three (3) years** prior to the filing of a claim therefor shall be so credited.

(B) Pursuant to **65 ILCS 5/8-11-2**, the rates set forth in subsection (A) above shall be effective **January 1, 2016**.

36-4-2 EXCEPTIONS. None of the taxes authorized by this Article may be imposed with respect to any transaction in interstate commerce or otherwise to the extent to which the business or privilege may not, under the Constitution and statutes of the United States, be made the subject of taxation by this State or any political subdivision thereof; nor shall any persons engaged in the business of distributing, supplying, furnishing, or selling or transmitting gas, water, or electricity, or engaged in the business of transmitting messages, or using or consuming electricity acquired in a purchase at retail, be subject to taxation under the provisions of this Article for those transactions that are or may become subject to taxation under the provisions of the **"Municipal Retailer's Occupation Tax Act"** as authorized by **65 ILCS 5/8-11-1**; nor shall any tax authorized by this Article be imposed upon any person engaged in a business or on any privilege unless the tax is imposed in like manner and at the same rate upon all persons engaged in businesses of the same class in the Municipality. All accounts of the Village shall be exempt from the taxes imposed by this ordinance.

36-4-3 ADDITIONAL TAXES. Such tax shall be in addition to other taxes levied upon the taxpayer or its business.

36-4-4 COLLECTION. The tax authorized by this Article shall be collected from the purchaser by the person maintaining a place of business in this State who delivers the electricity to the purchaser. This tax shall constitute a debt of the purchaser to the person who delivers the electricity to the purchaser and if unpaid, is recoverable in the same manner as the original charge for delivering the electricity. Any tax required to be collected pursuant to this Article and any such tax collected by a person delivering electricity shall constitute a debt owed to the Village by such person delivering the electricity. Persons delivering electricity shall collect the tax from the purchaser by adding such tax to the gross charge for delivering the electricity, and taxes so collected shall be remitted to the Village monthly. Persons delivering electricity shall also be authorized to add to such gross charge an amount equal to **three percent (3%)** of the tax to reimburse the person delivering electricity for the expense incurred in keeping records, billing customers, preparing and filing returns, remitting the tax and supplying data to the Village upon request. If the person delivering electricity fails to collect the tax from the purchaser, then the purchaser shall pay the tax monthly, directly to the Village, in the manner prescribed by the Village.

36-4-5 REPORTS TO VILLAGE. On or before the last day of each month, each taxpayer shall make a return to the Village for the preceding month stating:

- (A) His name.
- (B) His principal place of business.
- (C) His gross receipts and/or kilowatt-hour usage during the month upon the basis of which the tax is imposed.
- (D) Amount of tax.
- (E) Such other reasonable and related information as the corporate authorities may require.

The taxpayer making the return herein provided for shall, at the time of making such return, pay to the Village, the amount of tax herein imposed; provided that in connection with any return, the taxpayer may, if he so elects, report and pay an amount based upon his total billings of business subject to the tax during the period for which the return is made (exclusive of any amounts previously billed) with prompt adjustments of later payments based upon any differences between such billings, and the taxable gross receipts.

36-4-6 CREDIT FOR OVER-PAYMENT. If it shall appear that an amount of tax has been paid which was not due under the provisions of this Article, whether as the result of a mistake of fact or an error of law, then such amount shall be credited against any tax due, or to become due, under this Article from the taxpayer who made the erroneous payment; provided that no amounts erroneously paid more than **three (3) years** prior to the filing of a claim therefor shall be so credited.

No action to recover any amount of tax due under the provisions of this Article shall be commenced more than **three (3) years** after the due date of such amount.

36-4-7 PENALTY. Any taxpayer who fails to make a return, or who makes a fraudulent return, or who willfully violates any other provision of this Article is guilty of a misdemeanor and, upon conviction thereof, shall be fined not less than **One Hundred Dollars (\$100.00)** nor more than **Two Hundred Dollars (\$200.00)** and in addition, shall be liable in a civil action for the amount of tax due.

36-5-1 **TITLE.** This Article shall be known as, and may be cited as, the "Locally Imposed and Administered Tax Rights and Responsibility Code".

36-5-2 **SCOPE.** The provisions of this Article shall apply to the Village's procedures in connection with all of the Village's locally imposed and administered taxes.

(C) **Locally Imposed and Administered Tax or "Tax".** "Locally Imposed and Administered Tax" or "Tax" means each tax imposed by the Village that is collected or administered by the Village not an agency or department of the State. It does not include any taxes imposed upon real property under the Property Tax Code or fees collected by the Village other than infrastructure maintenance fees.

(D) **Local Tax Administrator.** "Local Tax Administrator", the Village Clerk, is charged with the administration and collection of the locally imposed and administered taxes, including staff, employees or agents to the extent they are authorized by the local tax administrator to act in the local tax administrator's stead. The local tax administrator shall have the authority to implement the terms of this Code to give full effect to this Code. The exercise of such authority by the local tax administrator shall not be inconsistent with this Code and the Act.

(E) **Village.** "Village" means the Village of Worden, Illinois.

(F) **Notice.** "Notice" means each audit notice, collection notice or other similar notice or communication in connection with each of the Village's locally imposed and administered taxes.

(G) **Tax Ordinance.** "Tax Ordinance" means each ordinance adopted by the Village that imposes any locally imposed and administered tax.

(H) **Taxpayer.** "Taxpayer" means any person required to pay any locally imposed and administered tax and generally includes the person upon whom the legal incidence of such tax is placed and with respect to consumer taxes includes the business or entity required to collect and pay the locally imposed and administered tax to the Village.

36-5-4 **NOTICES.** Unless otherwise provided, whenever notice is required to be given, the notice is to be in writing mailed not less than **seven (7) calendar days** prior to the day fixed for any applicable hearing, audit or other scheduled act of the local tax administrator. The notice shall be sent by the local tax administrator as follows:

(A) First class or express mail, or overnight mail, addressed to the persons concerned at the persons' last known address, or

(B) Personal service or delivery.

36-5-5 **LATE PAYMENT.** Any notice, payment, remittance or other filing required to be made to the Village pursuant to any tax ordinance shall be considered late unless it is:

(A) physically received by the Village on or before the due date, or

(B) received in an envelope or other container displaying a valid, readable U.S. postmark dated on or before the due date, properly addressed to the Village, with adequate postage prepaid.

36-5-6 **PAYMENT.** Any payment or remittance received for a tax period shall be applied in the following order:

- (A) first to the tax due for the applicable period;
- (B) second to the interest due for the applicable period; and
- (C) third to the penalty for the applicable period.

36-5-7 **CERTAIN CREDITS AND REFUNDS.**

(A) The Village shall not refund or credit any taxes voluntarily paid without written protest at the time of payment in the event that a locally imposed and administered tax is declared invalidly enacted or unconstitutional by a court of competent jurisdiction. However, a taxpayer shall not be deemed to have paid the tax voluntarily if the taxpayer lacked knowledge of the facts upon which to protest the taxes at the time of payment or if the taxpayer paid the taxes under duress.

(B) The statute of limitations on a claim for credit or refund shall be **four (4)** or less years after the end of the calendar year in which payment in error was made. The Village shall not grant a credit or refund of locally imposed and administered taxes, interest, or penalties to a person who has not paid the amounts directly to the Village.

(C) The procedure for claiming a credit or refund of locally imposed and administered taxes, interest or penalties paid in error shall be as follows:

- (1) The taxpayer shall submit to the local tax administrator in writing a claim for credit or refund together with a statement specifying:
 - (a) the name of the locally imposed and administered tax subject to the claim;
 - (b) the tax period for the locally imposed and administered tax subject to the claim;
 - (c) the date of the tax payment subject to the claim and the cancelled check or receipt for the payment;
 - (d) the taxpayer's recalculation, accompanied by an amended or revised tax return, in connection with the claim; and
 - (e) a request for either a refund or a credit in connection with the claim to be applied to the amount of tax, interest and penalties overpaid, and, as applicable, related interest on the amount overpaid; provided, however, that there shall be no refund and only a credit given in the event the taxpayer owes any monies to the Village.
- (2) Within **ten (10) days** of the receipt by the local tax administrator of any claim for a refund or credit, the local tax administrator shall either:
 - (a) grant the claim; or
 - (b) deny the claim, in whole or in part, together with a statement as to the reason for the denial or the partial grant and denial.
- (3) In the event the local tax administrator grants, in whole or in part, a claim for refund or credit, the amount of the grant for refund or credit shall bear interest at the rate of **five percent (5%)** per annum, based on a year of **three hundred sixty-five (365) days** and the number of days elapsed, from the date of the overpayment to the date of mailing of a refund check or the grant of a credit.

36-5-8 **AUDIT PROCEDURE.** Any request for proposed audit pursuant to any local administered tax shall comply with the notice requirements of this Code.

- (A) Each notice of audit shall contain the following information:
 - (1) the tax;
 - (2) the time period of the audit; and

(3) a brief description of the books and records to be made available for the auditor.

(B) Any audit shall be conducted during normal business hours and if the date and time selected by the local tax administrator is not agreeable to the taxpayer, another date and time may be requested by the taxpayer within **thirty (30) days** after the originally designated audit and during normal business hours.

(C) The taxpayer may request an extension of time to have an audit conducted. The audit shall be conducted not less than **seven (7) days** nor more than **thirty (30) days** from the date the notice is given, unless the taxpayer and the local tax administrator agreed to some other convenient time. In the event taxpayer is unable to comply with the audit on the date in question, the taxpayer may request another date within the **thirty (30) days**, approved in writing, that is convenient to the taxpayer and the local tax administrator.

(D) Every taxpayer shall keep accurate books and records of the taxpayer's business or activities, including original source documents and books of entry denoting the transactions which had given rise or may have given rise to any tax liability, exemption or deduction. All books shall be kept in the English Language and shall be subject to and available for inspection by the Village.

(E) It is the duty and responsibility of every taxpayer to make available its books and records for inspection by the Village. If the taxpayer or tax collector fails to provide the documents necessary for audit within the time provided, the local tax administrator may issue a tax determination and assessment based on the tax administrator's determination of the best estimate of the taxpayer's tax liability.

(F) If an audit determines there has been an overpayment of a locally imposed and administered tax as a result of the audit, written notice of the amount of overpayment shall be given to the taxpayer within **thirty (30) days** of the Village's determination of the amount of overpayment.

(G) In the event a tax payment was submitted to the incorrect local governmental entity, the local tax administrator shall notify the local governmental entity imposing such tax.

36-5-9 APPEAL.

(A) The local tax administrator shall send written notice to a taxpayer upon the local tax administrator's issuance of a protestable notice of tax due, a bill, a claim denial, or a notice of claim reduction regarding any tax. The notice shall include the following information:

- (1) the reason for the assessment;
- (2) the procedure for appealing the assessment; and
- (3) the obligations of the Village during the audit, appeal, refund and collection process.

(B) A taxpayer who receives written notice from the local tax administrator of a determination of tax due or assessment may file with the local tax administrator a written protest and petition for hearing, setting forth the basis of the taxpayer's request for a hearing. The written protest and petition for hearing must be filed with the local tax administrator within **forty-five (45) days** of receipt of the written notice of the tax determination and assessment.

(C) If a timely written notice and petition for hearing is filed, the local tax administrator shall fix the time and place for hearing and shall give written notice to the taxpayer. The hearing shall be scheduled for a date within **fourteen (14) days** of receipt of the written protest and petition for hearing, unless the taxpayer requests a later date convenient to all parties.

(D) If a written protest and petition for hearing is not filed within the **forty-five (45) day** period, the tax determination, audit or assessment shall become a final bill due and owing without further notice.

(E) Upon the showing of reasonable cause by the taxpayer and the full payment of the contested tax liability along with interest accrued as of the due date of the tax, the local tax administrator may reopen or extend the time for filing a written protest and petition for hearing. In no event shall the time for filing a written protest and petition for hearing be reopened or extended for more than **ninety (90) days** after the expiration of the **forty-five (45) day** period.

36-5-10 HEARING.

(A) Whenever a taxpayer or a tax collector has filed a timely written protest and petition for hearing under **Section 36-5-9**, above, the local tax administrator shall conduct a hearing regarding any appeal.

(B) No continuances shall be granted except in cases where a continuance is absolutely necessary to protect the rights of the taxpayer. Lack of preparation shall not be grounds for a continuance. Any continuance granted shall not exceed **fourteen (14) days**.

(C) At the hearing the local tax administrator shall preside and shall hear testimony and accept any evidence relevant to the tax determination, audit or assessment. The strict rules of evidence applicable to judicial proceedings shall not apply.

(D) At the conclusion of the hearing, the local tax administrator shall make a written determination on the basis of the evidence presented at the hearing. The taxpayer or tax collector shall be provided with a copy of the written decision.

36-5-11 INTEREST AND PENALTIES. In the event a determination has been made that a tax is due and owing, through audit, assessment or other bill sent, the tax must be paid within the time frame otherwise indicated.

(A) **Interest.** The Village hereby provides for the amount of interest to be assessed on a late payment, underpayment, or nonpayment of the tax to be **five percent (5%)** per annum, based on a year of **three hundred sixty-five (365) days** and the number of days elapsed.

(B) **Late Filing and Payment Penalties.** If a tax return is not filed within the time and manner provided by the controlling tax ordinance, a late filing penalty, of **five percent (5%)** of the amount of tax required to be shown as due on a return shall be imposed; and a late payment penalty of **five percent (5%)** of the tax due shall be imposed. If no return is filed within the time or manner provided by the controlling tax ordinance and prior to the Village issuing a notice of tax delinquency or notice of tax liability, then a failure to file penalty shall be assessed equal to **twenty-five percent (25%)** of the total tax due for the applicable reporting period for which the return was required to be filed. A late filing or payment penalty shall not apply if a failure to file penalty is imposed by the controlling ordinance.

36-5-12 ABATEMENT. The local tax administrator shall have the authority to waive or abate any late filing penalty, late payment penalty or failure to file penalty if the local tax administrator shall determine reasonable cause exists for delay or failure to make a filing.

36-5-13 INSTALLMENT CONTRACTS. The Village may enter into an installment contract with the taxpayer for the payment of taxes under the controlling tax ordinance. The local tax administrator may not cancel any installment contract so entered unless the taxpayer fails to pay any amount due and owing. Upon written notice by the local tax administrator that the payment is **thirty (30) days** delinquent, the taxpayer shall have **fourteen (14) days** to cure any delinquency. If the taxpayer fails to cure the delinquency within the **fourteen (14) day** period or fails to demonstrate good faith in restructuring the installment contract with the local administrator, the installment contract shall be canceled without further notice to the taxpayer.

36-5-14 STATUTE OF LIMITATIONS. The Village, through the local tax administrator, shall review all tax returns in a prompt and timely manner and inform taxpayers of any amounts due and owing. The taxpayer shall have **forty-five (45) days** after receiving notice of the reviewed tax returns to make any request for refund or provide any tax still due and owing.

(A) No determination of tax due and owing may be issued more than **four (4) years** maximum after the end of the calendar year for which the return for the applicable period was filed or for the calendar year in which the return for the applicable period was due, whichever occurs later.

(B) If any tax return is not filed or if during any **four (4) year** period for which a notice of tax determination or assessment may be issued by the Village, the tax paid was less than **seventy-five percent (75%)** of the tax due, the statute of limitations shall be **six (6) years** maximum after the end of the calendar year in which return for the applicable period was due or end of the calendar year in which the return for the applicable period was filed.

(C) No statute of limitations shall not apply if a fraudulent tax return was filed by the taxpayer.

36-5-15 VOLUNTARY DISCLOSURE. For any locally imposed and administered tax for which a taxpayer has not received a written notice of an audit, investigation, or assessment from the local tax administrator, a taxpayer is entitled to file an application with the local tax administrator for a voluntary disclosure of the tax due. A taxpayer filing a voluntary disclosure application must agree to pay the amount of tax due, along with interest of **one percent (1%)** per month, for all periods prior to the filing of the application but not more than **four (4) years** before the date of filing the application. A taxpayer filing a valid voluntary disclosure application may not be liable for any additional tax, interest, or penalty for any period before the date the application was filed. However, if the taxpayer incorrectly determined and underpaid the amount of tax due, the taxpayer is liable for the underpaid tax along with applicable interest on the underpaid tax, unless the underpayment was the result of fraud on the part of the taxpayer, in which case the application shall be deemed invalid and void. The payment of tax and interest must be made by no later than **ninety (90) days** after the filing of the voluntary disclosure application or the date agreed to by the local tax administrator. However, any additional amounts owed as a result of an underpayment of tax and interest previously paid under this Section must be paid within **ninety (90) days** after a final determination and the exhaustion of all appeals of the additional amount owed or the date agreed to by the local tax administrator, whichever is longer.

36-5-16 PUBLICATION OF TAX ORDINANCES. Any locally administered tax ordinance shall be published via normal or standard publishing requirements. The posting of a tax ordinance on the Internet shall satisfy the publication requirements. Copies of all tax ordinances shall be made available to the public upon request at the Village Clerk's office.

36-5-17 LIENS. The local tax administrator shall establish an internal review procedure regarding any liens filed against any taxpayers for unpaid taxes. Upon a determination by the local tax administrator that the lien is valid, the lien shall remain in full force and effect. If the lien is determined to be improper, the local tax administrator shall:

- (A) timely remove the lien at the Village's expense;
- (B) correct the taxpayer's credit record; and
- (C) correct any public disclosure of the improperly imposed lien.

36-5-18 APPLICATION. This Ordinance shall be liberally construed and administered to supplement all of the Village's tax ordinances. To the extent that any tax ordinance is in conflict with or inconsistent with this ordinance, this ordinance shall be controlling.

38-1-1 DEPARTMENTS ESTABLISHED. There shall be an executive department of the Village known as the **Waterworks and Sewage Departments**. It shall include the Superintendent of Utilities and employees of the Department. The designated office shall be the Village Hall.

38-1-2 STREET AND UTILITY COMMITTEE. The Village Board standing committee on Street & Utility shall exercise a general supervision over the affairs of the Departments. They shall ascertain the condition and needs thereof; and shall, from time to time, report the same to the Mayor and Village Board so that a full understanding thereof shall be had; and generally, shall do all acts necessary to promote the efficiency of the Departments.

38-1-3 SUPERINTENDENT. The Superintendents of Utilities shall be subject to the supervision of the Street & Utility Committee and shall hereinafter be referred to as the **"Superintendent"**. He shall receive such salary as may be provided by the annual budget of the Village Board at the time of his appointment.

38-1-4 DUTIES OF THE SUPERINTENDENT. The Superintendent shall exercise general management and control over his respective department.

(A) He shall supervise over and be responsible for the conduct and performance of all employees of the department as a Department Head in accordance with the Employee Code, if any.

(B) He shall be responsible for the operation and maintenance of the Village's water system and sewer system as provided in this Code.

(C) He shall be the custodian of all vehicles, equipment, structures, and property provided by the Village for the use of his department.

(D) He shall enforce the provisions of this Chapter and make such inspections, measurements, and tests as necessary for that purpose.

(E) He shall perform such other duties as may be assigned to him by the provisions of this Code or by the Village Board.

ARTICLE II – UTILITY REGULATIONS

38-2-1 CONTRACT FOR UTILITY SERVICES.

(A) **Customer Accepts Service.** The rates, rules and regulations contained in this Chapter shall constitute and be considered a part of the contract with every person, company or corporation who is supplied with water and sewer services from the waterworks and sewer system and every person, company or corporation, hereinafter called a “customer” who accepts and uses Village water and sewer services shall be held to have consented to be bound thereby. The term “utilities” shall mean water service and sewer service provided by the Village.

(B) **Not Liable for Interrupted Service.** The Department shall endeavor at all times to provide a regular and uninterrupted supply of service, however, in case the supply of service shall be interrupted or irregular or defective or fail from causes beyond its control or through ordinary negligence of employees, servants or agents, the Departments shall not be liable therefor.

(C) **Using Services Without Paying.** Any person using utility services from the Village without paying therefor, or who shall be found guilty of breaking the seal of any meter or appurtenances, or bypassing any meter, shall be guilty of violating this Code, and upon conviction, shall be fined a sum as provided in **Section 1-1-20** of the Revised Code.

(D) **Destroying Property.** Any person found guilty of defacing, tampering, injuring or destroying, or in any manner, limiting the use or availability of any meter or any property of the waterworks system and sewer system, or erecting signs on the property of the Department without permission shall, upon conviction of such act, be fined as provided in **Section 1-1-20** of the Revised Code.

(E) **Service Obtained By Fraud.** All contracts for water and sewer services shall be made in the name of the head of the household, firm or corporation using the established spelling of that person's or firm's name. Attempts to obtain service by the use of other names, different spellings or by substituting other persons or firms shall be considered a subterfuge and service shall be denied. If service has been discontinued because of nonpayment of bills, or any unpaid obligation and service has again been obtained through subterfuge, misrepresentation or fraud, that service shall be promptly disconnected and the whole or such part of the advanced payment as may be necessary to satisfy the unpaid obligation shall be retained by the Village and credited to the appropriate account.

(F) **Failure to Receive Bill.** Failure to receive a bill shall not excuse a customer from his obligation to pay within the time specified. Should the Department be unable to bill a customer for services used during any month, the following billing shall include the charges for services used during the unbilled month.

(G) **Request to Discontinue Service.** Services shall have been deemed to have been supplied to any property connected to the Water and Sewer Systems during a month unless the customer notifies the Village prior to the first day of the new billing month in which the services are to be discontinued.

(H) **Discontinuing Service.** Water and sewer service may be shut off and discontinued to any property in which an owner/consumer/customer/tenant has allowed billing charges to become delinquent as hereinafter defined. It shall be the responsibility of any party requesting the restoration of water and sewer service to pay all fees, deposits, and delinquent charges attributable to the property for which the water and sewer is provided. When the ownership of property is transferred to a new owner, it shall be the responsibility of the new owner to pay all fees, deposits and delinquent charges prior to water and sewer service being turned on or otherwise restore to property.

(I) **Removal of Meters.** All meters shall remain the property of the Department and may be removed from the customer's premises at any time without notice for the purpose of testing and repairing the same or upon discontinuances of service. Upon discovery of any unlawful act by any customer, his agent, or employee herein prohibited or upon failure to comply with any other rules and regulations of the Department, such service shall be disconnected.

(J) **Billing; Utility Shut-off.**

- (1) All utility bills shall be mailed to customers on or before the **fifth (5th) day** of each month and shall be due and payable upon receipt thereof,

which is presumed to be no later than **four (4) days** after the date said utility bill is mailed.

- (2) If any said utility bill is not paid by the **twentieth (20th) day** of each month, the amount due shall be declared delinquent. When the last day of any payment period falls on a Saturday, Sunday, or legal holiday, such period shall be automatically extended to include the following first full business day.
- (3) All utility bills shall be payable at the Village Hall.
- (4) If a bill is not paid by the **twentieth (20th) day** of each month, a penalty equal to **ten percent (10%)** of the amount due on said bill shall be added thereto. This penalty shall be in addition to the charges heretofore established for the utility services provided.
- (5) Any customer who fails to pay the utility bill forwarded and presented by the Village within the time herein provided and specified, shall have said utility services disconnected.
- (6) If the customer who has been notified for nonpayment of utility bills is not the owner of record, then the Village shall also notify the owner of the property by first-class mail.
- (7) Once utility services have been disconnected the same shall not again be connected or utilized until all delinquent accounts and bills for services previously rendered are paid in full, including a fee of **One Hundred Dollars (\$100.00)** for each connection for each utility service, plus expenses incurred with regard to reconnecting said utility services. **(Ord. No. 914; 5-1-18)**

(K) **Lien Notice.** Whenever a bill for utility services remains unpaid for **sixty (60) days** after it has been rendered, the Village Clerk or Village Attorney shall file with the County Recorder of Deeds a statement of lien claim. This statement shall contain the legal description of the premises served, the amount of the unpaid bill, and a notice that the municipality claims a lien for this amount to the period covered by the bill.

If the consumer of utility services whose bill is unpaid is not the owner of the premises and the Village Clerk has notice of this, then notice shall be mailed to the owner of the premises if his address is known to the Village Clerk whenever such bill remains unpaid for a period of **thirty (30) days** after it has been rendered.

The failure of the Village Clerk to record such lien or to mail such notice, or the failure of the owner to receive such notice shall not affect the right to foreclose the lien for unpaid utility bills as mentioned herein.

The Village shall be entitled to collect all reasonable attorney's fees incurred to prepare the Lien and the Release of Lien and all recording fees including, but not limited to, the recording of the Lien and recording of the Release of Lien from any person liable for utility services and any property subject to a lien for unpaid utility charges including, but not limited to, principal and penalties. All charges for unpaid utility charges, attorney's fees, and recording fees shall be paid in full prior to the recording of any Release of Lien. **(65 ILCS 5/11-139-8)**

(L) **Foreclosure of Lien.** Property subject to a lien for unpaid water charges may be sold for non-payment of the same, and the proceeds of such sale shall be applied to pay the charges, after deducting costs, as is the case in the foreclosure of statutory liens. Such foreclosure shall be by bill-in-equity in the name of the Village.

The Village Attorney is hereby authorized to institute such proceedings in the name of the Village in any Court having jurisdiction over such matters against any property for which the bill for water service has remained unpaid **ninety (90) days** after it has been rendered. **(65 ILCS 5/11-139-8)**

38-2-2 **INSUFFICIENT FUNDS.** A **Twenty-Five Dollar (\$25.00)** fee shall be charged for any check returned to the Village due to insufficient funds. The offender will be notified by first-class mail and given **twenty-four (24) hours** to reimburse the Village in the amount of the insufficient check and fee. If the offender does not reimburse the Village within the given time, water service shall be terminated at the residence of the offender until the Village is reimbursed for the full

amount of the insufficient check and fees. All such payments shall be accepted only if made by cash, money order or cashier's check. This fee shall not apply to the owner of any lot, parcel of land or premises, unless said owner is the user of the utility services. Except as otherwise provided herein, the owner, occupant, and user shall be jointly and severally liable for all other charges as more fully stated in **Section 38-2-4.**

38-2-3 CONSUMER LISTS. It is hereby made the duty of the Clerk to prepare or cause to be prepared a complete and accurate list of all premises and properties receiving water service, showing the name and address of the occupant and the owner of the same. The list shall be kept up-to-date, and shall be corrected from time to time to allow changes in the occupancy or ownership of any such property or premises. It shall be presented at the regular monthly meeting if requested.

38-2-4 LIABILITY FOR CHARGES. The owner of any lot, parcel of land or premises and the user of the services shall be jointly and severally liable for the payment of the services to such lot, parcel of land or premises, and all services are rendered to the premises by the Village only on the condition that such owner, occupant and user shall be jointly and severally liable therefor to the Village.

38-2-5 ESTIMATED CHARGE. Whenever any meter, by reason of its being out of repair or from any cause fails to properly register the utilities passing through the same, the consumer shall be charged the average charge of the **previous three (3) months usage.** If no record of the previous **three (3) months** exists, then it shall be the duty of the Water Clerk to estimate the amount of utilities consumed during the time the meter fails to operate and the consumer shall be charged with such estimated amount. Bills may be estimated whenever it is impossible to read the meters during inclement weather.

38-2-6 NO FREE UTILITY SERVICE. No free water service shall be furnished to any person, public or private, and all rates and charges shall be non-discriminatory, provided that the Mayor and Village Board reserve the right to impose special rates and charges in cases where particular circumstances render the regular rates inadequate or unjust.

38-2-7 UTILITY DEPOSITS.
(A) **Residential Owner.** A utility deposit of **Two Hundred Dollars (\$200.00)** shall be paid to the Clerk by any applicant who is not the record owner of residential property, before any water will be turned on to any premises. The deposit shall be retained by the Village until the user discontinues water use from the Village at which time the deposit will be returned to the user, provided however, that said user shall have a good payment record, making all monthly payments timely. **(Ord. No. 789; 10-05-10)**

(B) **Commercial.** If the customer is a commercial or industrial user the deposit shall be a minimum of **Two Hundred Fifty Dollars (\$250.00)** or an amount equal to **three (3) months** consumption. **(Ord. No. 621; 09-03-02)**

(C) **Security for Payment - No Interest.** The deposits made under the provisions of this Chapter shall be held by the Village as security for the payment of utility services used by the applicant upon the premises to which his application pertains, and may be so applied when any default is made in the payment in the utilities bill in accordance with this Chapter. The depositor shall earn no interest on the deposit. **(Ord. No. 471; 04-25-95)**

(D) **Liability for Deposit.** The owner of the premises and the tenant thereof shall be jointly and severally liable to pay the required deposit herein established before water and sewer services shall be made available to the tenant-occupied premises. In the case a portion of the deposit is used as aforesaid, the tenant or owner of the premises shall immediately deposit with the Village Clerk an amount sufficient to bring the deposit to the established rate of deposit.

(A) Mains shall be sized so that fire protection service may be rendered to all lots or premises to be served by the main and any possible extension thereof.

(B) Fire hydrants shall be so located that no premises will be more than **four hundred (400) feet** from a fire hydrant.

(C) In determining the length of pipe lines to be installed to serve a main extension, the main shall be extended to fully cover the front of the property, and if the last lot to be served is a corner lot or a lot immediately adjacent to a corner lot, the terminal point of the extension made hereunder shall be located so that the main laid hereunder ties with the existing main located in the intersecting street; and further provided that if there is no main located on the intersecting street, or no intersecting street, the terminal point of the extension made hereunder shall be located at the nearest street line of the intersecting street, or extend to the furthest end of the development.

(D) The Village may require the proposed main to be connected to its distribution system at a point which, in its judgment, is necessary to adequately furnish water to premises to be served and nothing herein shall require the Village to allow connection to the closest point of existing service, if such service is inadequate for the extension proposed. Main trunk lines may be installed by the Village at no cost to the developer, however, lots or properties fronting directly thereon which may be served by a service connection to the main will be charged the average amount per connection as found in subdivisions currently being constructed.

(E) The Village reserves the right to further extend its water mains from and beyond the terminus of each water main extension made under this Chapter. The applicant, or the applicant's agent paying for an extension shall not be entitled to any refund for the attaching of customers to any further extension or branch mains so involved.

(F) Extensions made under this rule shall be and remain the property of the Village.

- (2) Irrespective of the thickness, tinting, texture or finish of any asphalt affected by work performed by the Village, said asphalt shall be replaced with **two (2) inches** of smooth surface hot mix asphalt in accordance with the Illinois Department of Transportation's Standard Specifications for Road and Bridge Construction latest edition, "Section 408, Incidental Hot Mix Asphalt Surfacing", in the alternative, the Village may in its discretion reimburse the owner of the property affected, the cost of said repair or replacement in accordance with the specifications stated herein.
- (3) The Municipality may in its discretion reuse rock removed or displaced during construction, however, any additional rock will be **one and one-half (1 1/2) inches** minus crushed limestone.
- (4) Oil and chip surfaces will only be replaced during the period provided pursuant to the municipal yearly motor fuel tax oil and chip maintenance program.
- (5) The Municipality shall not, under any circumstances whatsoever, replace precast pavers which are removed. The Municipality shall only reimburse the homeowner the cost of providing concrete as specified in paragraph (1) herein.

(Ord. No. 836; 02-05-13)

38-4-9**RESERVED.****DIVISION III - PRIVATE SEWAGE DISPOSAL**

38-4-10 **PRIVATE SEWAGE SYSTEM.** Where a public sanitary sewer is not available under the provisions of **Section 38-4-7**, the building sewer shall be connected to a private sewage disposal system complying with the provisions of this division.

38-4-11 HEALTH DEPARTMENT APPROVAL. Before commencement of construction of a private sewage disposal system the owner shall first obtain a written permit from the appropriate Health Department. The application for such permit shall be made on a form furnished by the Village (**reference Appendix #3**) which the applicant shall supplement by any plans, specifications and other information as deemed necessary by the Superintendent. A permit and inspection fee of **One Hundred Dollars (\$100.00)** shall be paid to the Village at the time the application is filed.

38-4-12 PERMIT APPROVAL. A permit for a private sewage disposal system shall not become effective until the installation is completed to the satisfaction of the Superintendent. He shall be allowed to inspect the work at any stage of construction and, in any event, the applicant for the permit shall notify the Superintendent when the work is ready for final inspection, and before any underground portions are covered. The inspection shall be made within **forty-eight (48) hours** of the receipt of written notice by the Superintendent.

38-4-13 COMPLIANCE WITH STATE REQUIREMENTS. The type, capacities, location and layout of a private sewage disposal system shall comply with all recommendations of the State of Illinois Private Sewage Disposal Licensing Act and Code and with the State of Illinois Environmental Protection Agency. No permit shall be issued for any private sewage disposal system employing subsurface soil absorption facilities where the area of the lot is less than **five thousand (5,000) square feet**. No septic tank or cesspool shall be permitted to discharge to any natural outlet.

38-4-14 AVAILABILITY OF PUBLIC SEWER. At such time as a public sewer becomes available to a property served by a private sewage disposal system, as provided in **Section 38-4-7**, a direct connection shall be made to the public sewer in compliance with this Code, and any septic tanks, cesspools, and similar private sewage disposal facilities shall be abandoned and filled with suitable material.

38-4-15 OPERATION OF PRIVATE SYSTEM. The owner shall operate and maintain the private sewage disposal facilities in a sanitary manner at all times, and at no expense to the Village.

38-4-16 ADDITIONAL RESTRICTIONS. No statement contained in this Article shall be construed to interfere with any additional requirements that may be imposed by the Local Health Officer.

38-4-17 TIME CONSTRAINTS FOR PUBLIC WASTEWATER. When a public sewer becomes available, the building sewer shall be connected to said sewer within **sixty (60) days** and the private sewage disposal system shall be cleaned of sludge and filled with clean bank-run gravel or dirt.

38-4-18 - 38-4-20 RESERVED.

DIVISION IV - BUILDING SEWERS AND CONNECTIONS

38-4-21 DISTURBING SYSTEM UNLAWFUL. No unauthorized person shall uncover, make any connections with, or opening into; use; alter; or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Village.

38-4-22 COMPLIANCE WITH REGULATING AUTHORITIES. All disposal by any person into the sewer system is unlawful except those discharges in compliance with Federal Standards promulgated pursuant to the Federal Act and more stringent State and local standards.

38-4-23 CLASSES OF PERMITS.

(A) There shall be **two (2)** classes of building sewer permits:

- (1) for residential and commercial service, and
- (2) for service to establishments producing industrial wastes.

(B) In either case, the owner or his agent shall make application on a special form furnished by the Village. **(See Appendix #4)** The permit application shall be supplemented with any plans, specifications, or other information considered pertinent in the judgment of the Village. A permit and inspection fee shall be paid pursuant to this Article.

(C) The permit application shall be supplemented by any plans, specifications, or other information considered pertinent in the judgment of the Superintendent. The industry, as a condition of permit authorization, shall provide information describing its wastewater constituents, characteristics and type of activity.

38-4-24 COST BORNE BY OWNER. All costs and expense incident to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the Village from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

38-4-25 SEPARATE WASTEWATER: EXCEPTION. A separate and independent building sewer shall be provided for every building, except that where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer, except for sewer connection charges accruing from such buildings or properties.

38-4-26 OLD BUILDING WASTEWATER. Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the Village to meet all requirements of this Code.

38-4-27 CONSTRUCTION METHODS. The size, slope, depth and alignment, of the building sewer shall be subject to the approval of the Superintendent. In no case shall the inside diameter of the building sewer be less than **four (4) inches**. If **six (6) inch** diameter pipe is used, the slope shall not be less than **one-eighth (1/8) inch** per foot. If **four (4) inch** or **five (5) inch** diameter pipe is used, the slope shall not be less than **one-fourth (1/4) inch** per foot. The depth of the building sewer shall be sufficient to afford protection from frost. The building sewer shall be laid at a uniform grade and in straight alignment, insofar as possible. Changes in direction shall be made only with properly curved pipe and fittings, unless the break in alignment is made at a manhole facilitating servicing. Installation shall be in accordance with Standard Specifications for Water and Sewer Main Construction in Illinois.

All building sewer shall be constructed of materials approved by the Village. Generally all building sewer shall be constructed of the following materials:

- (A) Cast or ductile iron pipe
- (B) ABS solid wall plastic pipe (6" diameter maximum)
- (C) PVC solid wall plastic pipe (6" diameter maximum SDR-35)

All pipe joints must be gastight and watertight and are subject to the approval of the Village. Transition joints from one pipe material to another shall be made using fittings manufactured for such transitions.

38-4-28 PLUMBING CODE REQUIREMENTS. The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing, and backfilling the trench, shall all conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Village. In the absence of code provisions or in amplification thereof, the materials and procedures set forth in appropriate specifications of the American Society of Testing Materials, **Water Pollution Control Federation Manual of Practice No. 9**, and the latest edition of the **Standard Specifications for Water and Sewer Main Construction in Illinois** shall apply.

38-4-29 ELEVATION. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by a means which is approved in accordance with **Section 38-4-22** and discharged to the building sewer.

38-4-30 PROHIBITED CONNECTIONS. No person(s) shall make connection of roof downspouts, exterior foundation drains, areaway drains, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.

38-4-31 CONNECTIONS TO WASTEWATER MAINS. Building sewer connections with any sewer shall be made only at manholes or other such junctions as may be provided or designated by the Village, and then only in such manner as directed. The connection of the building sewer shall be made at a wye branch, if such branch is available. The building service sewer shall generally enter the sewer main or lateral by way of an existing wye. In the event of absence of the wye, the connection to the sewer main or lateral shall be made by one of the methods indicated below.

(A) Installation of a manhole

(B) Circular saw-cut sewer main by proper tools ("Sewer Tap" machine or similar), and proper installation of hub wye saddle, in accordance with manufacturer's recommendation. This method shall not be allowed when the wye branch is larger than **four (4) inches** in diameter. The entire sewer main in the location of the wye and the wye shall be encased in concrete.

(C) Using the pipe cutter only, neatly and accurately cut out desired length of pipe for insertion of proper fitting. Remove both hub and bell ends, or other compression couplings from wye branch fitting to allow the wye branch to be inserted with no more than a total of **one-half (1/2) inch** gap. Use "Band Seal" couplings, or similar couplings, and shear rings and clamps to fasten the inserted fitting and hold it firmly in place. The entire section shall then be encased in concrete having a minimum thickness of **four (4) inches** and extending **eight (8) inches** beyond each joint.

If another method is desired, a detail shall be submitted for review and approval by the Village before the connection is made. Indiscriminate breaking of the sewer main pipe is not allowed.

On Site Inspection. After the wye branch has been inserted and jointed, and before any additional fittings have been placed in the service line, the installation shall be approved by the Superintendent, or his authorized representative. After approval is granted the contractor shall encase the work area as specified herein.

Backfill. To be placed in accordance with The Standard Specifications for Water and Sewer Main Construction in Illinois, Current Edition. In addition, any building sewer crossing any street, or traveled alley shall be backfilled with CA-86 backfill material.

Concrete Encasement. When a riser is constructed and its height is **four (4) feet** or more measured from the flowline of the sewer main to the top of the riser pipe, the wye connection shall be

encased in concrete to a height of at least **one foot six inches (1'6")** above the flowline of the sewer main. When the height of the riser is less than **four (4) feet** above the flowline of the sewer main, the wye connection shall be backfilled to the top of the riser pipe with carefully placed and compacted granular backfill.

38-4-32 CAPACITY OF WASTEWATER. A building sewer permit will only be issued and a sewer connection shall only be allowed if it can be demonstrated that the downstream sewer facilities, including sewer, pump stations and sewer treatment facilities, have sufficient reserve capacity to adequately and efficiently handle the additional anticipated waste load.

38-4-33 TAP-IN SUPERVISION AND TESTING. The applicant for the building sewer permit shall notify the Village when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the Village.

38-4-34 INSPECTION. After the building sewer has been constructed in the trench but before the sewer is backfilled, the applicant for the building sewer permit shall notify the Superintendent that the building sewer is ready for inspection. If the sewer has been constructed properly, permission will be given to backfill the trench. If the sewer construction is found to be unsuitable, the permit applicant will correct the installation to meet Village's requirements.

38-4-35 PROTECTION OF PROPERTY. All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the Village at no expense to the Owner.

38-4-36 BOND REQUIRED. If the applicant for the building sewer permit does not have a general bond on file with the Village, the applicant shall furnish a corporate surety bond in an amount **one and one-half (1 ½) times** the cost of the contemplated work for which the permit is to be issued.

Any experienced sewer builder or drain layer may furnish to the Village a continuing surety bond in the sum of **Five Thousand Dollars (\$5,000.00)** to apply to all building sewer permits issued to such builder or to the principals thereof for a term of **one (1) year** from the date thereof subject to renewal from year to year, and such continuing bond may be accepted in behalf of the Village in lieu of a special bond to cover each permit issued during the term of the bond.

38-4-37 UNLAWFUL DISCHARGES. All disposal by any person into the sewer system is unlawful except those ordinances in compliance with Federal Standards promulgated pursuant to the Federal Act and more stringent State and local standards.

38-4-38 PUBLIC SEWER CONNECTION. The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code, or other applicable rules and regulations of the Village, or the procedures set forth in appropriate specifications of the American Society of Testing Materials, Water Pollution Control Federation Manual of Practice No. 9, and Standard Specifications for Water and Sewer Main Construction in Illinois. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Village before installation.

38-4-39 - 38-4-41 RESERVED.

DIVISION V - EXTENSION OF COLLECTING WASTEWATERS

38-4-42 PERMIT REQUIRED; AUTHORIZED PERSONNEL. No person, other than an authorized employee of the Village, shall make any connection with, uncover, alter or disturb a Village sewer, or open any manhole, intercepting chamber, or any appurtenance thereof without first obtaining a written permit to do so from the Village, and no person shall make any connection or opening into any sewer, the flow of which is directly or indirectly discharged into any Village sewer, without first obtaining a written permit to do so from the Village. **(See Appendix #2)**

38-4-43 EXTENSION PERMITS. Issuance of sewer extension permits shall be initiated by an application for construction permit. The application shall be made on the forms provided by the IEPA, shall be fully completed by the applicable persons or parties, and shall be accompanied by a set of plans, specifications, and any other information as may be required by the Village.

Plans and specifications shall be prepared by a registered professional engineer and approval thereof must be obtained from the Village and IEPA.

If the application is in proper form, and the sewer extension indicated therein appears to be in accordance with this ordinance and all state and federal requirements, the Village shall issue the permit for construction of the sewer. If otherwise, the application for permit shall be denied by the Village. There shall be no fee charged for sewer extension application or permits.

If the application is denied by the Village, they shall state the reason or reasons therefore in writing, mailed or personally delivered to the applicant. The applicant shall have the right to amend such application in conformity with the reasons given for denial, and resubmit it to the Village for further consideration.

All permits issued under this Article V shall have an expiration date of **two (2) years** after the date of issuance. Any sewer not constructed prior to the date of expiration shall have a new application submitted and a new permit issued prior to their construction.

The applicant for the permit shall furnish a corporate surety bond in an amount **one and one-half (1 1/2) times** the cost of the contemplated work for which the permit is to be issued.

38-4-44 MATERIALS. All sewer extensions shall be constructed of the following materials:

(A) Sewer pipe with diameters **eight (8) inches** and larger shall be one of the following:

- (1) ABS composite pipe conforming to ASTM D-2680 with solvent weld joints or O-ring rubber gasket joints as referenced in ASTM D-2680.
- (2) PVC sewer pipe SDR-35 conforming to ASTM 03033 or D3034 with joints conforming to ASTM D3212.

(B) Laterals and fittings from the sewer to the property lines shall be **six (6) inch** diameter and

- (1) of comparable material to the sewer main for VCP and PVC pipe.
- (2) for ABS pipe use ABS solid wall pipe SDR-23.5 conforming to ASTM D-2751.

38-4-45 INSPECTIONS OF CONSTRUCTION. Construction of the sewer shall be inspected under competent supervision supplied by a registered professional engineer and upon completion of construction, accurate detailed plans as constructed ("record drawings") shall be certified and submitted by the professional engineer to the Village before any applications for building sewer permits are filed; all at the expense of the Owner. These plans shall show all elevations as installed as well as accurate measurements showing the locations of service connections. The Engineer shall also submit a certified statement showing the source, place and volume of foreign waters.

All sewer shall be subjected to:

(A) A lamp test which shall provide that from one manhole to another, at least **one-half (1/2)** of the pipe end area shall be visible.

(B) Infiltration or exfiltration test with acceptable allowance of 200 gallons per day per inch diameter per mile;

(C) Under special circumstances, when approved by the Village, air pressure testing with allowance to be specified by the Village.

When any sewer line fails to pass the infiltration test, the exfiltration test, or an air pressure test, the sewer line shall be televised in the presence of the Village 's representatives to determine points of faulty construction. The Owner shall repair all defects; the method of repair shall be subject to the approval of the Village. **(See Appendix #5)**

38-4-46 MANHOLES REQUIRED. Manholes shall be installed at all changes in grade and/or direction and at distances not greater than **four hundred (400) feet** apart. All manhole covers shall be watertight and self-sealing, incorporating an "O" ring gasket. All covers shall have concealed pick holes. Where manhole covers may be subjected to frequent and extreme submergence, additional watertightness shall be ensured by using bolt down covers.

38-4-47 - 38-4-48 RESERVED.

DIVISION VI - USE OF PUBLIC SEWERS

38-4-49 DISCHARGE OF STORM WATER. No person shall discharge, or cause to be discharged, any stormwater, surface water, groundwater, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.

In forming his opinion as to the acceptability of these wastes, the Village will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and maximum limits established by regulatory agencies. The substances prohibited are:

(L) Waters or wastes containing substances which are not amendable to treatment or reduction by the sewage treatment processes employed, or are amendable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of agencies having jurisdiction over discharge to the receiving waters.

38-4-53 HARMFUL WASTES; APPROVAL.

(A) If any waters or wastes are discharged or are proposed to be discharged to the public sewer, which waters contain the substances or possess the characteristics enumerated in **Section 38-4-52** of this Division, and/or which are in violation of the standards for pretreatment provided in 40 CFR 403, June 26, 1978 and any amendments thereto, and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

- (1) reject the wastes;
- (2) require pretreatment to an acceptable condition for discharge; and/or
- (3) require control over the quantities and rates for discharge; and/or
- (4) require payment to cover the added costs of handling and treating the wastes not covered by existing taxes or sewer charges, under the provisions of **Section 38-4-42.**

(B) If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent, and subject to the requirements of all applicable codes, ordinances, and laws.

(C) The owner of the pretreatment or equalization facilities shall obtain construction and operating permits from the Illinois Environmental Protection Agency prior to the issuance of final approval by the Superintendent.

(D) Where multiple process or discharges are present or contemplated at an industry, the Village shall have the authority to require the owner or person to furnish and install more than one control manhole with appurtenances and/or require that all sewer be discharged through a single control manhole or structure with appurtenances described herein.

38-4-54 INTERCEPTORS PROVIDED.

(A) Grease, oil, and sand interceptors shall be provided in accordance with the Illinois State Plumbing Code to assure the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Village and shall be located as to be readily and easily accessible for cleaning and inspection. All grease interceptors shall be serviced and emptied of accumulated waste content as required or at a minimum of once every **four (4) months** in order to maintain minimum design capability or effective volume of the grease interceptor and to prevent carry over of grease into the sanitary sewer system. All fast food and sit-down restaurants shall install a grease interceptor with a capacity of at least **one thousand five hundred (1,500) gallons**, and designed in accordance with **Appendix "A"**. Food establishments that serve a minimum amount of fried foods such as deli sandwich shops, shall install a grease interceptor with a capacity of at least **one thousand (1,000) gallons**, and designed in accordance with **Appendix "B"**.

(B) Users whose operations cause or allow excessive grease to discharge or accumulate in the Village wastewater collection and treatment system may be liable to the Village for costs related to service calls for sewer line blockages, line cleaning, line and pump repairs, etc. including all labor, materials, and equipment. Failure to pay all service related charges may also be grounds for sewer service discontinuance.

(C) **Maintenance Log.** A grease trap cleaning/maintenance log indicating each pumping for the previous **twenty-four (24) months** shall be maintained by each Food Service Facility. This log shall include the date, time, amount pumped, hauler, and disposal site and shall be kept in a conspicuous location for inspection. Said log shall be made available to the Village or his representative upon request.

(D) **Submittal of Records.** Each user shall submit all cleaning and maintenance records to the Village. The maintenance records shall include the following information:

- (1) Facility name, address, contact person, and phone number.
- (2) Company name, address, phone number, and contact name of person responsible for performing the maintenance, cleaning, pumping, or repair of grease trap.

- (3) Types of maintenance performed.
- (4) Dates maintenance was performed.
- (5) Date of next scheduled maintenance.
- (6) Copies of manifests.
- (7) The user shall be required to submit maintenance records to the Village on an annual basis. Records shall be submitted by **September 1st** of each year. The records shall be submitted to:
Attn: Wastewater Superintendent

(E) The Village will perform periodic inspections of these facilities and shall notify the user of any additional required maintenance or repairs. Upon written notification by the Village, the user shall be required to perform the maintenance and records of said maintenance within **fourteen (14) calendar days**. Upon inspection by the Village the user may be required to install, at his expense, additional controls to provide a complete system which prevents discharges of undesirable materials into the wastewater collection system.

(F) **Control Plan for Fats, Oils, Greases (FOG) and Food Waste.**

- (1) Any new construction, renovation, or expansion of Food Service Facilities shall be required to submit to the Village a FOG and food waste control plan that will effectively control the discharge of undesirable materials into the wastewater collection system.
- (2) Any existing Food Service facilities shall also be required to submit a FOG and food waste control plan that will effectively control the discharge of undesirable materials into the wastewater collection system. Existing facilities shall not be exempt from the requirements of this Section. There will be no "Grandfathering".

(G) **Exceptions to the Above.** Should existing facilities be hampered by space constraints or restrictions caused by unchangeable plumbing, an alternative interceptor may be approved, provided that:

- (1) Said interceptor and installation is endorsed by a licensed plumbing contractor in regard to its operability.
- (2) Said interceptor and installation is endorsed by the Village Engineer.
- (3) Said interceptor and installation is approved by the Superintendent and the Water and Sewer Committee.

Such installations may be subject to more stringent inspections and maintenance schedules.

38-4-55 FLOW-EQUALIZING FACILITIES. Where preliminary treatment or flow-equalizing facilities are provided, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

38-4-56 INDUSTRIAL WASTES CONTROL MANHOLE. Each industry shall be required to install a control manhole and, when required by the Village, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessible and safely located, and shall be constructed in accordance with plans approved by the Village. The manhole shall be installed by the owner at his expense and shall be maintained by him in proper and satisfactory operating condition so as to be safe and accessible at all times. Where multiple process or discharges are present or contemplated at an industry, the Village shall have the authority to require the owner or person to furnish and install more than one control manhole with appurtenances and/or require that all wastewater be discharged through a single control manhole or structure with appurtenances described herein.

38-4-57 INDUSTRIAL WASTE TESTING.

(A) The owner of any property serviced by a building sewer carrying industrial wastes shall provide laboratory measurements, tests, and analyses of waters and wastes to demonstrate compliance with this Code and any special conditions for discharge established by the Village or regulatory agencies having jurisdiction over the discharge.

(B) The number, type, and frequency of laboratory analyses to be performed by the owner shall be as stipulated by the Village, but no less than once per year the industry must supply a complete analysis of the constituents of the wastewater discharge to assure that compliance with the Federal, State, and local standards are being met. The owner shall report the results of measurements and laboratory analyses to the Village at such times and in such a manner as prescribed by the Village. The owner shall bear the expense of all measurements, analyses, and reporting required by the Village. At such times as deemed necessary the Village reserves the right to take measurements and samples for analysis by an outside laboratory service.

38-4-58 MEASUREMENTS AND TESTS. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this Code shall be determined in accordance with the latest edition of "**Standard Methods for the Examination of Water and Wastewater**", published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at the control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a **twenty-four (24) hour** composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from **twenty-four (24) hour** composites of all outfalls, whereas pH's are determined from periodic grab samples.)

38-4-59 SPECIAL ARRANGEMENTS. No statement contained in this Article shall be construed as preventing any special agreement or arrangement between the Village and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the Village for treatment, subject to payment therefore, in accordance with the Chapter, hereof, by the industrial concern, provided such payments are in accordance with Federal and State guidelines for User Charge System and Industrial Cost Recovery System.

38-4-60 - 38-4-64 RESERVED.**DIVISION VII - INSPECTIONS**

38-4-65 DAMAGE. No unauthorized person shall maliciously, willfully, or negligently break, damage, destroy, or tamper with any structure, appurtenance, or equipment which is part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

The Village may revoke any permit for sewage disposal as a result of any violation of any provision of this ordinance, or violation of regulations of other agencies having lawful jurisdiction. Upon revocation of any permit to discharge, the person violating the ordinance or regulation shall cease and desist discharge of wastewater or industrial waste to the public sewer system and treatment works, and shall not continue the discharge in any manner which would violate State, Federal or local pollution control laws and regulations.

38-4-72 CONTINUED VIOLATIONS. Any person who shall continue any violation beyond the time limit provided for in **Section 38-4-71** shall be guilty of a misdemeanor, and on conviction thereof shall be fined in the amount not exceeding **Seven Hundred Fifty Dollars (\$750.00)** for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.

38-4-73 LIABILITY TO VILLAGE. Any person violating any of the provisions of this Chapter shall become liable to the Village by reason of such violation.

38-4-74 - 38-4-76 RESERVED.

DIVISION IX - WASTEWATER SERVICE CHARGES

38-4-77 BUILDING UNIT DEFINED. All persons or families residing in a building under one roof, be it an apartment or homes converted into more than one dwelling place, each family or individual resident residing therein shall be deemed an individual customer or such homes or apartments or dwellings shall be billed for at least one minimum water and/or sewer account according to the number of families or individual residents residing therein.

38-4-78 SEWER REVENUES. All revenues and moneys derived from the operation of the sewer system shall be deposited in the Combined Water and Sewer Fund. All such revenues and moneys shall be held by the Treasurer separate and apart from his private funds and separate and apart from all other funds of the Village and all of said sum, without any deductions whatever, shall be delivered to the Treasurer not more than **ten (10) days** after receipt of the same, or at such more frequent intervals as may, from time to time, be directed by the Village Board.

The Treasurer shall receive all such revenues from the water and sewer systems and all other funds and moneys incident to the operation of such system as the same may be delivered to him and deposit the same in the account of the fund designated as the "Water and Sewage Fund of the Village".

The Treasurer shall administer such fund in every respect in the manner provided by **65 ILCS 5/3.1-35-40 et seq.**

38-4-79 SEWER ACCOUNTS. The Treasurer shall establish a proper system of accounts and shall keep proper books, records, and accounts in which complete and correct entries shall be made of all transactions relative to the water and sewer systems and at regular annual intervals, he shall cause to be made an audit by an independent auditing concern of the books to show the receipts and disbursements of the water and sewer systems.

In addition to the customary operating statements, the annual audit report shall also reflect the revenues and operating expenses of the sewer facilities, including a replacement cost, to indicate that sewer service charges under the waste cost recovery system and capital amounts required to be recovered under the industrial cost recovery system do, in fact, meet these regulations. In this regard, the financial information to be shown in the audit report shall include the following:

- (A) Flow data showing total gallons received at the sewer plant for the current fiscal year.
- (B) Billing data to show total number of gallons billed.
- (C) Debt service for the next succeeding fiscal year.
- (D) Number of users connected to the system.
- (E) Number of non-metered users.
- (F) A list of users discharging non-domestic wastes (industrial users) and volume of waste discharged.

38-4-80 NOTICE OF RATES. A copy of this Article, properly certified by the Village Clerk, shall be filed in the office of the County Recorder of Deeds and shall be deemed notice to all owners of real estate of the charges of the sewer system of the Village on their properties. Each user shall be notified at least annually, in conjunction with a regular bill, of the rate and that portion of the user charges which are attributable to sewer treatment services.

38-4-81 ACCESS TO RECORDS. The Illinois Environmental Protection Agency, United States Environmental Protection Agency, or its authorized representative shall have access to any books, documents, papers and records of the Village which are applicable to the Village's system of user charges or industrial cost recovery for the purpose of making audit, examination, excerpts and transcriptions thereof to insure compliance with the terms of the special and general conditions to any state grant.

38-4-82 APPEALS. The method for computation of rates and service charges established for user charges shall be made available to a user within **fifteen (15) days** of receipt of a written request for such. Any disagreement over the method used, or in the computation thereof, shall be remedied by a third party selected by both parties within **ninety (90) days** after notification of a formal written appeal outlining the discrepancies.

38-4-83 BASIS FOR WASTEWATER SERVICE CHARGES. The wastewater service charge for the use of and for service supplied by the wastewater facilities of the Village shall consist of a basic user charge, applicable surcharges, and debt service charge.

(A) The **debt service charge** is computed by dividing the annual debt service of all outstanding bonds by the number of users.

(B) The **basic user charge** shall be based on water usage as recorded by water meters for wastes having the following normal domestic concentrations:

(1) A **five (5) day twenty degree centigrade (20°C)** biochemical oxygen demand **BOD of 200 mg/l.**

(2) A suspended solids (SS) content of **250 mg/l.**

(C) It shall be computed as follows:

(1) Estimate wastewater volume, pounds of SS and pounds of BOD to be treated.

(2) Estimate the projected annual revenue required to operate and maintain the wastewater facilities including a replacement fund for the year, for all work categories.

(3) Proportion the estimated operation, maintenance and replacement (OM&R) costs to each user class by volume, BOD, and SS.

(4) Proportion the estimated operation, maintenance and replacement (OM&R) costs to wastewater facility categories by Volume, Suspended Solids and BOD.

(5) Compute costs per 1000 gallons for normal sewage strength.

(6) Compute surcharge costs per pound per 1000 gallons in excess of normal sewage strength for BOD and SS.

(D) A **surcharge** will be levied to all users whose wastewaters exceed the normal domestic concentrations of **BOD (200 mg/l) and SS (225 mg/l).** The surcharge will be based on water usage as recorded by water meters or sewage meters for all wastes which exceed the **200 mg/l and 225 mg/l** concentration for BOD and SS respectively. (**Section 38-4-80** specifies the procedure to compute a surcharge.)

(E) The **adequacy of the wastewater service charge** shall be reviewed, not less often than annually, by Certified Public Accountants for the Village in their annual audit report. The wastewater service charge shall be revised periodically to reflect a change in operation and maintenance costs, replacement costs and reserve fund costs.

(F) The **capital improvement charge** is levied on users to provide for capital improvements, extensions or reconstruction of the sewage treatment works. The capital improvement charge is computed by apportioning the annual amount to be accrued as a charge per 1000 gallons.

(G) The **users** of wastewater treatment services will be notified annually, in conjunction with a regular bill, of the rate and that portion of the user charges which are attributable to the wastewater treatment operation, maintenance and replacement.

38-4-84 MEASUREMENT OF FLOW. The volume of flow used for computing basic user charges and surcharges shall be the metered water consumption read to the lowest even increments of **one hundred (100) gallons** or **one thousand (1,000) gallons**, depending on which meter is installed.

(A) If the person discharging wastes into the public sewers procures any part, or all, of his water from sources other than the Public Waterworks System, all or a part of which is discharged into the public sewers, the person shall install and maintain, at his expense, water meters of a type

approved by the Village for the purpose of determining the volume of water obtained from these other sources.

(B) Devices for measuring the volume of waste discharged may be required by the Approving Authority if these volumes cannot otherwise be determined from the metered water consumption records.

(C) Metering devices for determining the volume of waste shall be installed, and maintained by the person and owned by the Village. Following approval and installation, such meters may not be removed, unless service is canceled, without the consent of the Village.

38-4-85 USER CHARGE SYSTEM.

(A) The following rates and charges for use and services of the sanitary sewer system tributary to the North Collection System of the Village, based on the amount of water consumed, are hereby established:

Flat Fee (Minimum) July 1, 2011	\$13.65 per month
Each 1,000 gallons or fractions thereof	\$6.83 per month

(B) All sanitary sewer connections inside the corporate limits of the Village tributary to the Wildwood Lagoon Lift Station shall be charged the following:

Flat Fee (Minimum) July 1, 2011	\$18.00 per month
Each 1,000 gallons or fractions thereof	\$6.83 per month

When the debt service on the IEPA loan for the Wildwood Lagoon System (1998-2018) is paid in full, the flat fee minimum rate will be frozen until the rates for the North Collection System customers equal the rate for the Wildwood Lagoon lift station customers.

(C) All sanitary sewer connections outside of the corporate limits of the Village shall be charged the following:

Flat Fee (Minimum) July 1, 2011	\$26.25 per month
Each 1,000 gallons or fractions thereof	\$6.83 per month

The service charge is based on the accounting system as outlined in Appendix #7. This projected accounting system shall be reviewed on an annual basis by the Village accountant at the time of the Village's Fiscal Audit. The accountant's recommendations shall be reflected in necessary ordinances to assure the system revenues meet the requirements of the operation and maintenance, the depreciation account, and the debt service of the sanitary sewer system as outlined in Appendix #7.

(Ord. No. 1015; 3-21-23) (Ord 1035; 3/19/24)

38-4-86 COMPUTATION OF WASTEWATER SERVICE CHARGE.

The wastewater service charge shall be computed by the following formula:

$$CW = CC + CD + CM + (Vu-X)CU + CS$$

Where	CW	=	Amount of waste service charge (\$) per bill period.
	CC	=	Capital Improvement Charge
	CD	=	Debt Service Charge
	CM	=	Minimum Charge for Operation, Maintenance and Replacement.
	Vu	=	Wastewater Volume for the billing period.
	X	=	Allowable consumption in gallons for the minimum charge.
	CU	=	Basic User Rate for Operation, Maintenance and Replacement.
	CS	=	Surcharge, if applicable. (Section 38-4-83).

38-4-87 SURCHARGE RATE.

The rates for surcharges for BOD and SS shall be as follows:

Per lb. of BOD:	\$0.26 in excess of 200 mg/l
Per lb. of SS:	\$0.39 in excess of 225 mg/l

38-4-88 SEWER TAP-IN FEE.

(A) **Residential.** Any premise connected to the sewerage system, a charge of **Two Thousand Dollars (\$2,000.00)** shall be made for each connection to system. However, if no riser exists and main line has to be tapped, the customer shall be liable for all expenses, including labor and materials.

(B) **Commercial.** Any commercial premises connected to the sewerage system, a charge of **Two Thousand Five Hundred Dollars (\$2,500.00)** shall be made for each connection to the system. However, if no riser exists and main line has to be tapped, the customer shall be liable for all expenses, including labor and materials.

(Ord. No. 822; 08-07-12)

38-4-89 RESERVED.

DIVISION X - INDUSTRIAL COST RECOVERY

38-4-90 INDUSTRIAL COST RECOVERY REQUIRED. Each industrial user shall pay that portion of any State grant which has been obtained by the Village for the financing of the construction of wastewater treatment works allocable to the treatment of the wastewater from such user. Such users share shall not include an interest component.

38-4-91 DETERMINATION OF INDUSTRIAL POPULATION EQUIVALENT. An industrial user's portion of any State grant shall be based on the population equivalents attributable to wastewater of such user tributary to the wastewater treatment works of the Village.

The population equivalents shall be determined as follows:

(A) **Volume Population Equivalent.** This population equivalent equals the average daily rate of water consumption as determined by the consumption records of the past year divided by **one hundred (100) gallons** per day (the average domestic water consumption) or, where water consumption does not reflect the actual quantity of wastewater tributary to the treatment works from such user, then the average daily flow as recorded in the control manhole required by **Section 38-4-56**, divided by **one hundred (100) gallons** per day (the average domestic water consumption).

(B) **BOD Population Equivalent.** This population equivalent equals the average daily pounds of BOD in the wastewater as determined by the Village, in accordance with **Section 38-4-1** divided by 0.17 pounds of BOD per day (the average per capita BOD of non-industrial discharges).

(C) **SS Population Equivalent.** This population equivalent equals the average daily pounds of suspended solids in the wastewater from such user as determined by the Village, in accordance with **Section 38-4-1** divided by 0.20 pounds of suspended solids per day (the average per capita SS of non-industrial discharges).

38-4-92 COST PER CAPITA. The dollar cost per capita shall be determined as follows:

ICR_{QI}/P.E. = Industrial Cost Recovery per capita (Population Equivalent – P.E.) attributed to flow

(Capital Cost of Treatment Facility Attributable to Industry) (% attributed to flow)
ICR_{QI}/P.E. = Design P.E., Grant Project

$$\begin{aligned}
 ICR_{Qi}/P.E. &= \frac{(\$437,875) (0.338) \times .75}{1250} \\
 ICR_{Qi}/P.E. &= \$88.80/\text{Capita} \\
 \\
 ICR_{BODi}/P.E. &= \text{Industrial Cost Recovery per capita (Population Equivalent - P.E.) attributed to BOD} \\
 &= \frac{(\text{Capital Cost of Treatment Facility Attributable to Industry}) (\% \text{ attributed to BOD})}{\text{Design P.E., Grant Project}} \\
 ICR_{BODi}/P.E. &= \frac{(\$437,875) (0.237) \times .75}{1250} \\
 ICR_{BODi}/P.E. &= \$62.26/\text{Capita} \\
 \\
 ICR_{SSi}/P.E. &= \text{Industrial Cost Recovery per capita (Population Equivalent - P.E.) attributed to Suspended Solids (SS)} \\
 &= \frac{(\text{Capital Cost of Treatment Facility Attributable to Industry}) (\% \text{ attributed to SS})}{\text{Design P.E., Grant Project}} \\
 ICR_{SSi}/P.E. &= \frac{(\$437,875) (0.425) \times .75}{1250} \\
 ICR_{SSi}/P.E. &= \$111.66/\text{Capita}
 \end{aligned}$$

38-4-93 COST FOR INDUSTRIAL USER. The cost to be recovered from an industrial user (CI) shall be determined as follows:

$$\begin{aligned}
 AICR_i &= \frac{\frac{\text{Average Daily Flow Gallons}}{100} (\$88.80)}{\text{Useful Life (Treatment Works)}} \\
 AICR_{BODi} &= \frac{\frac{\text{Average Daily BOD, Pounds}}{0.17} (\$62.26)}{\text{Useful Life (Treatment Works)}} \\
 AICR_{SSi} &= \frac{\frac{\text{Average Daily SS, Pounds}}{0.20} (\$111.66)}{\text{Useful Life (Treatment Works)}} \\
 CI &= AICR_{Qi} + AICR_{BODi} + AICR_{SSi}
 \end{aligned}$$

Where $AICR_{Qi}$	=	Annual Industrial Cost Recovery payment attributable to flow
$AICR_{BODi}$	=	Annual Industrial Cost Recovery payment attributable to BOD
$AICR_{SSI}$	=	Annual Industrial Cost Recovery payment attributable to Suspended Solids
CI	=	Total Annual Industrial Cost Recovery Payment

38-4-94 CHARGE FOR INDUSTRIAL COST RECOVERY. Each year during the industrial cost recovery period, each industrial user of the treatment works shall pay the cost recovery amount determined by **Section 38-4-88** for such industry, divided by the recovery period. Where an industry is connected to a public sewer after the start-up of the facilities constructed under a State grant, such industry shall only pay its portion of the State grant for each month remaining in the recovery period. Such industry will not be required to pay for those months of the recovery period prior to connection to a public sewer.

38-4-95 LENGTH OF INDUSTRIAL COST RECOVERY PERIOD. The industrial cost recovery period shall be equal to the useful life of the treatment works which shall be **thirty (30) years** from 1977.

38-4-96 PAYMENTS AND BILLING PERIODS FOR INDUSTRIAL COST RECOVERY. All industrial users of the Village shall pay the cost as determined by **Section 38-4-89** for industrial cost recovery and such payments shall be made monthly on the **first (1st) day** of the month immediately following the expiration of the month for which service has been supplied, and such charge shall be payable by the **fifteenth (15th) day** of the month of rendition thereof, and in the event such bills are not paid by said **fifteenth (15th) day** of the month, a service charge of **ten percent (10%)** shall be added thereto.

An industrial user may wish to fulfill its industrial cost recovery obligation by making a lump sum payment for its entire share of the cost of construction of the treatment works. In this event, such payments may be accepted by the Village and either processed as a normal Industrial Cost Recovery payment, or set aside in a separate account to be drawn on annually for the remainder of the industrial cost recovery period. Lump sum payments by an industry will not relieve an industrial user from the obligation of making additional future payments should its wastewater flow or load increase. Discounts from the total industrial cost recovery requirement will not be given to industrial users making advance or lump sum Industrial Cost Recovery Payments. No interest component shall be included in the cost component charged to an industrial user, irregardless of the lump sum or monthly payment method selected by the industrial user. Any interest earned by the Village on Industrial Cost Recovery payments set aside will be recoverable in the same manner as if the payments were made as due (40 CFR 35.928-2a).

38-4-97 DELINQUENCY AND TERMINATION OF SERVICE. If the delinquency in the payment of the recovery cost continues for a period of more than **thirty (30) days**, the sewer service shall be discontinued. In the event the charges for industrial cost recovery are not paid within **sixty (60) days** after the rendition of that bill, then such service charges shall be deemed and are hereby declared to be delinquent, and thereafter such delinquent charge shall constitute a lien upon the real estate for which such sewer services were supplied. The Village Clerk is hereby authorized and directed each month to file sworn statements showing such delinquencies in the office of the Recorder of Deeds of St. Clair County, Illinois, and the filing of such statements shall be deemed notice of a lien for the payment of such charges for sewer service.

38-4-98 TIME OF FIRST PAYMENT. The initial payment made by an industrial user which is connected to a public sewer after the start-up of the treatment works constructed with a State grant shall be made by the next scheduled due date as defined in **Section 38-4-91** and shall be equal to **one-twelfth (1/12)** of the amount as determined by **Section 38-4-89**.

38-4-99 ADJUSTMENT OF CHARGE DUE TO STRENGTH OF VOLUME CHANGES. If there is a change in the strength and/or volume introduced into the treatment works by an industrial user as determined by the previous year records, the Village shall adjust the users portion of any State Grant accordingly.

38-4-100 ADJUSTMENT OF CHARGE DUE TO PLANT IMPROVEMENT UTILIZING STATE GRANT FUNDS. If there is an expansion or upgrading of the treatment works utilizing a State grant, each existing industrial user's share shall be adjusted accordingly.

38-4-101 NO CHARGE FOR UNUSED OR UNRESERVED CAPACITY. An industrial user's portion of any State grant shall not include any portion of the grant amount allocable to unused or reserved capacity.

38-4-102 COMMITMENT FOR INCREASED USE. An industrial user's portion of any State Grant shall include allowance for the cost of any firm commitment to the Village for any increased use by such user.

38-4-103 PAYMENT TO THE STATE OF ILLINOIS REQUIRED. The Village shall retain **fifty percent (50%)** of the amounts recovered from industrial users. The remainder, together with any interest earned thereon, shall be returned to the State of Illinois Anti-Pollution Fund on an annual basis.

38-4-104 DISPOSITION OF RETAINED AMOUNTS. **Eighty percent (80%)** of the retained amounts, together with interest earned thereon, shall be used solely for the eligible costs of the expansion or reconstruction of treatment works associated with the project and necessary to meet the requirements of the Federal Act and the State of Illinois. The Village, prior to commitment of the retained amounts, shall obtain written approval of the Illinois Environmental Protection Agency for any expansion or reconstruction. The remainder of the retained amounts may be used for such expenditures as the Village deems appropriate.

38-4-105 INVESTMENT OF RETAINED AMOUNTS REQUIRED. Pending use, the Board of Trustees shall invest the retained amounts for reconstruction and expansion in:

- (A) Obligations of the U.S. Government; or
- (B) obligations guaranteed as to principal and interest by the U.S. Government or any agency thereof; or
- (C) shall deposit such amounts in accounts fully collateralized by obligations of the U.S. Government or by obligations fully guaranteed as to principal and interest by the U.S. Government or any agency thereof.

38-4-106 VILLAGE CLERK RESPONSIBILITY. The Village Clerk shall maintain the necessary records for determination of user share of the cost and shall provide the billing and collection services as required by **Section 38-4-77** and **Section 38-4-85**.

38-4-107 VILLAGE TREASURER RESPONSIBILITY. The Village Treasurer shall be responsible for the investment and expenditure of all moneys collected for industrial cost recovery in accordance with **Section2 38-4-98, 38-4-99, and 38-4-100.**

38-4-108 MONITORING REQUIRED. The Village shall maintain a program of monitoring industrial user discharges as the Village deems necessary, provided that any major contributing industry shall be monitored no less than **twelve (12) times** annually and any industrial user that has a population equivalent as determined by **Section 38-4-86** greater than or equal to **fifty (50)** shall be monitored no less than once annually. All other industrial users shall be monitored at such frequency as deemed necessary by the Village for determination of the population equivalent of the industrial user. The monitoring data collected shall be used to determine the population equivalent in accordance with **Section 38-4-86.**

38-4-109 APPEAL AND ARBITRATION. The Village shall establish industrial cost recovery charges as set forth herein, and in accordance with applicable State and Federal guidelines and requirements, and shall notify any industry which requests a permit to discharge into the public sewerage system of the industrial cost recovery charges to be levied. The notification from the Village to the industry shall be in writing, and shall be submitted to the industry within **thirty (30) days** after the industry has made application for a connection/discharge permit (reference, Appendix No. 2, attached hereto), and has provided complete and satisfactory information regarding the volume and character of the waste, and has submitted plans for a control manhole with appurtenances, and has received a permit from the Environmental Protection Agency. The Village may provide preliminary information regarding industrial cost recovery charges to be levied, but actual charges to be levied shall not be determined until after the above and other stipulations of the ordinance have been complied with by the industrial user to the satisfaction and approval of the Village.

In the event that the industrial user, or other persons affected by the industrial cost recovery system and charges, wishes to have a hearing regarding the reasonableness of the industrial cost recovery charges imposed by the Village in accordance with State and Federal regulations, the industry or person shall duly notify the Board of Trustees in writing and request an administrative hearing before the Board of Trustees within **thirty (30) days** after the industry has been informed of the actual charges to be levied by the Village. Actual discharge of industrial waste to the Village system shall not commence until the industry has issued to the Board of Trustees written concurrence with the industrial cost recovery charges. The Village shall conduct the administrative hearing within **thirty (30) days** after receipt of written request for the hearing, and the Village shall duly notify the industrial user or person, and other interested parties in writing at least **fifteen (15) days** prior to the hearing date, and identify the time, date, and location of the administrative hearing. The President of the Village shall serve as the hearing officer, and all testimony received (including written documents) shall be entered into the records of the Village, as an official meeting of the Board of Trustees. The notice of the administrative hearing shall be published in the legal notice section of a newspaper of local distribution at least **fifteen (15) days** prior to the date of the hearing. The legal notice shall state the purpose of the hearing, time, date, and place of the hearing. All interested parties shall be given ample opportunity to enter testimony into the record of the administrative hearing.

In the event the Village and industrial user cannot agree to the reasonableness of the charges, and the compliance of the charges with regulations set forth by the State and Federal EPA, the industry may request a hearing before representatives of EPA within **ten (10) days** after the Village administrative hearing has been conducted. The Village and industrial user, or person, shall abide by the decision of EPA regarding the reasonableness of the industrial cost recovery charges to be levied by the Village. In all cases, the Industrial Cost Recovery System and charges shall be in accordance with applicable State and Federal regulations.

38-4-110 DISCONTINUANCE OF USE BY INDUSTRIAL USERS. If an industrial user discontinues use of the treatment works (including termination of any agreement for use of reserve

capacity), its payment for industrial cost recovery will cease. There shall be no requirement for other industrial users using the treatment works at that time to assume the portion of the Industrial Cost Recovery System payment which is unrecovered due to the departure or discontinuance of service by an industrial user.

If the Village chooses to require an industrial user to pay termination of services charges allocable to costs associated with the Industrial Cost Recovery System, payment to the Village for such charges shall be in accordance with an agreement stipulating such conditions at the time the Village and industrial user mutually agree to conditions of service. Such an agreement shall be in writing, and cannot contain an interest component. Funds covered in such a manner may become the property of the Village, unless otherwise stipulated by applicable State or Federal regulations.

38-4-111 RESERVE CAPACITY. The Village may choose to permit industrial users to reserve capacity in the treatment works. Such capacity shall be reserved through a formal, written agreement which shall be subject to requirements of the Industrial Cost Recovery System contained herein and in State and Federal regulations.

If the Village agrees to allow an industrial user to reserve capacity in the treatment works, the industrial user shall be required to pay the full amount of the industrial cost recovery charges calculated on the full reserved capacity plus additional industrial cost recovery charges for use above the limits of the reserved capacity or any element thereof.

In the event the treatment works are expanded or upgraded in the future with State or Federal grant assistance, an industrial user that has executed a reserve capacity agreement and has made industrial cost recovery payments based upon full reserved capacity will not incur additional industrial cost recovery charges associated with the cost of expansion of capacity of existing unit processes associated with secondary treatment, until the industrial user's actual use of the treatment works exceeds its reserved, agreed upon capacity.

Industrial users without reserved capacity contracts will be required to pay any additional industrial cost recovery charges associated with the cost of expanding or upgrading the treatment works.

38-4-112 - 38-4-114 RESERVED.

DIVISION XI – USE OF GROUNDWATER AS POTABLE WATER SUPPLY PROHIBITED

38-4-115 APPLICABILITY. The use or attempt to use as a potable water supply groundwater from all depths within the hatched marked area, as shown on Figure 1 attached hereto, (hereinafter referred to as the "Groundwater Limitation Area"), by the installation or drilling of wells or by any other method is hereby prohibited. This limitation applies to the Village or any other person's construction or attempt to construct a well.

38-4-116 PENALTIES. Any person violating the provisions of this Division shall be subject to a fine of up to **Five Hundred Dollars (\$500.00)** for each violation.

38-4-117 DEFINITIONS.

"Person" is any individual, partnership, co-partnership, firm, company, limited liability company, corporation, association, joint stock company, trust, estate, political subdivision, or any other legal entity, or their legal representatives, agents, or assigns.

"Potable Water" is any water used for human or domestic consumption, including, but not limited to, water used for drinking, bathing, swimming, washing dishes, or preparing foods.

APPENDIX #1

VILLAGE OF SMITHTON

APPLICATION FOR WATER SYSTEM SERVICE CONNECTION

40-5-4 DIVISION OF ZONING LOTS. No improved zoning lot shall hereafter be divided into **two (2)** or more zoning lots, unless all improved zoning lots resulting from each such division shall conform with all the applicable regulations of the zoning district in which the property is located.

40-5-5 ACCESSORY BUILDINGS. No accessory building shall be used for residential purposes except as otherwise provided in this Code. For regulating and restricting the use and placement of temporary portable storage or cargo containers zoning, see **Section 40-5-20.**

40-5-6 LOCATION OF REQUIRED OPEN SPACE. All yards, courts, and other open spaces allocated to a building or dwelling group shall be located on the same zoning lot as such building or dwelling group unless otherwise specifically provided for herein.

40-5-7 REQUIRED YARDS FOR EXISTING BUILDINGS. No yards now or hereafter provided for a building existing on the effective date of this Code shall subsequently be reduced below or further reduced below if already less than, the minimum yard requirements of this Code for equivalent new construction.

40-5-8 REDUCTION OF LOT - LIMITATION ON NUMBER OF PRINCIPAL BUILDINGS ON LOT. No part of an area, frontage, or yard required for any lot, building, or use for the purpose of complying with the provisions of this Code shall be included as an area, frontage or yard for another lot, building or use. Except as otherwise specifically provided in this Code, only **one (1)** principal building shall be permitted on a lot.

[ED. NOTE: After a division of a lot the new lots shall equal the minimum square footage for that zone district.]

40-5-9 CORNER LOTS AND THROUGH LOTS. For any through lot, both frontages shall comply with the front yard requirements of the district in which it is located.

40-5-10 FRONTAGE REQUIREMENTS. Any lot in any district shall have minimum frontage abutting a public street the width of which shall be the greater of:

- (A) **Fifty (50) feet;**
- (B) The width of the building located on the lot; or
- (C) The lot width required by the Zoning District in which the lot is located as shown in

Section 40-3-6(D).

40-5-11 GENERAL PERFORMANCE STANDARDS.

(A) Any lot shall be properly graded for drainage and maintained in good condition, free from trash and debris.

(B) No obnoxious, toxic, corrosive or radioactive matter, smoke, fumes or gases shall be discharged across the boundaries of any lot in such concentrations as to be detrimental to or endanger the public health, safety, comfort or welfare or to cause injury or damage to property or business.

40-5-12 OCCUPANCY OF TEMPORARY STRUCTURES. No temporary structure (including travel trailers or mobile homes) shall be used or occupied for any residential, commercial or industrial use, except as specifically permitted or required by this Code. However, the Zoning Board of Appeals may, upon application therefor, permit the use of such temporary structure for such reasonable time and for such use as the Zoning Board of Appeals deems to be compatible with the character of the area in which the structure is located, and in compliance with reasonable consideration of the general health, safety and welfare.

40-5-13 CONTIGUOUS PARCELS. When **two (2)** or more parcels of land, each of which lacks adequate area and/or minimum dimensions to qualify for a permitted use under the requirements of the use district in which they are located, are contiguous, and are held in one ownership, they shall be used as **one (1) zoning lot** for such use.

40-5-14 INDIVIDUAL WATER AND SEWAGE SYSTEMS. Private individual water and/or sanitary sewage systems shall not be permitted, public water and/or sanitary sewer facilities shall be used exclusively. Exception to this requirement may be granted by written order of the Village Board of Trustees and only after a public hearing before the Zoning Board of Appeals as required by **Section 40-10-26 through 40-10-32**. Provided that such exception is granted by the Village Board, no zoning lot for which the exception is granted shall be less than required for the district in which the use is located or less than **one (1) acre** in area, whichever is greater; and shall have not less frontage than **one hundred twenty-five (125) feet** and shall have not less mean depth than **one hundred (100) feet**.

40-5-15 MAXIMUM HEIGHT OF BUILDINGS - EXCLUSIONS. The height limitations of this Code shall not apply to church spires, belfries, cupolas, penthouses or domes not used for human occupancy, nor to chimneys, ventilators, skylights, water tanks, silos, parapet walls, cornices without windows, antennas, or necessary mechanical appurtenances usually carried above the roof level or to public buildings or structures located more than **one (1) foot** horizontally from the property line for each foot of building height.

40-5-16 MINIMUM YARDS - EXCEPTIONS. Subject to the requirements that there be a minimum distance of **six (6) feet** between any point on a principal building and any point on any principal building on an adjacent lot, the following exceptions shall apply:

(A) Cornices, chimneys, planters, or other similar architectural features may extend **two (2) feet** into a required yard.

(B) Open, unenclosed, uncovered porches at ground level may extend into a required yard not more than **six (6) feet**.

(C) Fire escapes may extend into a required yard not more than **four (4) feet**.

(D) Patios extending into required rear yards may be covered by a roof, but shall not be enclosed by walls.

(E) Canopies, eaves, balconies, roof overhangs, or other similar features not included in the foregoing parts of this Section, may extend into a required yard not more than **four (4) feet**.

(F) **Average Front Yard Exception.** Except as otherwise provided in this Section regarding yards adjoining "Arterial" or "Collector Streets" in all SR and MR Districts, where lots comprising **fifty percent (50%)** or more of the frontage on **one (1) side** of a street between intersecting streets are developed with buildings having an average front yard with a variation of not more than **ten (10) feet**, the average front yard of such buildings shall be the minimum required, provided such an average requirement is not less than **twenty (20) feet** or more than **thirty-five (35) feet**.

40-5-17 PUBLIC UTILITY DISTRIBUTION FACILITIES - EXCEPTION. Public utility transmission and distribution facilities may be exempt from minimum rear yard requirements, except as provided for each Zoning District.

40-5-18 RESERVED. (Ord. No. 807; 08-16-11)

40-5-19 REGULATING AERIALS, TOWERS, ANTENNAS AND TELECOMMUNICATION FACILITIES. The purpose of this Section is to provide specific municipal regulations governing the placement, location, construction, size, modification and appearance of aerials, antennas, towers and like personal wireless service telecommunication facilities within the Village.

The provisions of this Section are not intended and shall not be interpreted to prohibit or have the effect of prohibiting the provision of personal wireless service telecommunication facilities, nor shall the provisions of this Section be applied in such a manner to unreasonably discriminate among providers of functionally equivalent services, or favor one competitor over another.

(A) **Goals.** The goals of this Section are as follows:

- (1) To regulate, direct and manage the installation, placement, construction, size, modification and appearance of telecommunication facilities within the Village.
- (2) To enhance the ability to provide telecommunication services to the Village, and accommodate the growing need for communication facilities.
- (3) To promote and encourage shared use to location of existing and new communications tower or a primary option rather than construction of additional single use towers, and to reduce and minimize the number of such structures needed in the future.
- (4) To protect residential areas and land uses from the potential adverse impact of aerials, antennas, towers, and like telecommunication facilities and to encourage the location of said facilities in non-residential areas.
- (5) To minimize adverse visual impacts of communication facilities through careful design, setup, landscape screening and innovative camouflaging techniques.
- (6) To minimize potential damage to adjacent properties.
- (7) To protect the public health and safety.

(B) **Technical Consultation.** The Village is authorized at its discretion, to employ on its behalf an independent technical expert to review all technical material submitted by the applicant or requested by the Village. All costs of any kind or nature associated or related to said hiring incurred for such review, including administrative costs, shall be paid by the Applicant.

(C) **Definitions.** For purposes of this Section, certain terms or words used herein are hereby defined as follows:

- (1) **"Antenna"** shall mean any exterior apparatus designed for telephonic, radio or television communications through the sending and/or receiving of electromagnetic waves; an antenna attached to a principal building for the purpose of providing wireless telecommunications services, utilizing frequencies authorized by the Federal Communications Commission for "cellular," "enhanced special mobile radio" and "personal communications systems" telecommunications services, and its attendant base station.
- (2) **"Antenna Height"** shall mean the vertical distance measured from the base of the antenna support structure at grade to the highest point of the structure even if said highest point is an antenna. Measurement of communications tower height shall include antenna, base pad, and other appurtenances and shall be measured from finish grade to the top of the antenna. If the support structure is on a sloped grade, then the average between the highest and lowest grades shall be used in calculating the antenna height.
- (3) **"Antenna Support Structure"** shall mean any pole, telescoping mast, tower, tripod, building, or other structure which supports a device used in the transmitting or receiving of radio frequency energy.
- (4) **"FAA"** shall mean the Federal Aviation Administration.
- (5) **"FCC"** shall mean the Federal Communications Commission.
- (6) **"Governing Authority"** shall be the President and Board of Trustees of the Village.
- (7) **"Personal Wireless Service" and "Personal Wireless Facilities"** as used in this Section shall be defined in the same manner as in Title 47, United States Code, Section 332(c)(7)(C), as amended now or in the future.
- (8) **"Satellite Receive Dish"** shall mean a generally dish-shaped signal-receiving device, the purpose of which is to receive communications or other signals from satellites in earth orbit and other extra-terrestrial sources.
- (9) **"Telecommunications Facility"** means a facility that transmits and/or receives electromagnetic signals. It includes antennas, microwave dishes, horns, and other types of equipment for the transmission and receipt of such signals, telecommunication towers or similar structures supporting said equipment, equipment buildings, parking area and other accessory development.
- (10) **"Tower"** shall mean any structure that is designed and constructed primarily for the purpose of supporting one or more antennas, including self-supporting lattice towers, guy towers or monopole towers, or other wireless communication equipment for either transmitting or receiving. The term includes radio and television transmission towers, microwave towers, common-carrier towers, cellular telephone towers, alternative tower structures and the like.
- (11) **"Co-Location" (Co-Use)** shall mean the location of two or more antenna or other telecommunication devices on a single telecommunication tower or other supporting structure.

(D) **Compliance.** All new telecommunication facilities shall comply with this Section upon the date of passage. All telecommunications facilities existing on the date of passage of this Section shall be allowed to continue their usage as they presently exist and in accordance with continuance of

nonconformity regulations. New construction, other than routine maintenance on existing telecommunications facilities shall comply with the requirements of this Section.

(E) **Authorization.** In all zoning districts communication facilities shall be permitted only if specifically authorized with a Special Use Permit by the President and Board of Trustees of the Village. In granting a special use permit, the governing authority may impose zoning conditions to the extent the governing authority concludes such conditions are necessary to buffer or otherwise minimize any adverse effect of the proposed telecommunications facility on adjoining properties.

(F) **Agreement.** No approval granted hereunder shall be effective until the applicant and the Village have executed a written agreement setting forth the particular terms and provisions under which the approval to occupy and use public ways of the Village will be granted. Such agreement shall provide for complete indemnification for the Village and also provide for such liability insurance as the Village may require.

(G) **Nonexclusive Grant.** No approval granted under this Section shall confer any exclusive right, privilege, license or franchise to occupy or use the public ways of the Village for delivery of telecommunications services or any other purposes.

(H) **Rights Granted.** No approval granted under this Section shall convey any right, title or interest in the public ways, but shall be deemed approval only to use and occupy the public ways for the limited purpose and term stated in the approval. Further, no approval shall be construed as any warranty of title.

(I) **Registration and Fee.**

- (1) All telecommunications carriers and providers that offer or provide any telecommunications services for a fee directly to the public within the Village or outside the corporate limits from telecommunications facilities within the Village shall register with the Village pursuant to this Section on forms provided by the Village which shall include:
 - (a) The identity and legal status of the registrant, including any affiliates.
 - (b) The name, address and telephone number of the officer, agent or employee responsible for the accuracy of the registration statement.
 - (c) All of the information listed below for a permit.
- (2) Any person, firm, or corporation wishing to construct, install or modify any telecommunication facility shall file an application with the Zoning Code Administrator prior to commencing any work of any kind or nature. Said application shall be accompanied with an application fee of **Five Hundred Dollars (\$500.00).**

(J) **Permit.** A proper building permit must be obtained for any telecommunications facility installation. Applications for special use permit and building permit shall include any combination of site plans, surveys, maps, technical reports or written narratives necessary to convey the following information:

- (1) A scaled site plan clearly indication the location, type and height of any proposed communications facility, on site land uses and zoning, adjacent land uses and zoning, adjacent roadways, proposed means of access, setbacks from property lines, elevation drawings of the proposed facilities and any other structures.
- (2) Map and/or aerial photograph showing the proposed facility location and surrounding area within **fifteen hundred (1,500) feet.**
- (3) Legal description of the property proposed for telecommunication facility.
- (4) Exact distances, locations and identifications of surrounding residential properties and other telecommunications facilities.
- (5) Method of fencing, color of facilities, and where applicable, the method of camouflage and illumination.
- (6) Plans must be completed and sealed by a professional engineer registered with the State of Illinois and must include a statement that the facilities will

comply with the Electronic Industries Associations standards and all applicable Village building and construction codes.

- (7) A statement by the applicant on the ability of the construction of the facility to accommodate the co-location of additional antenna installations.
- (8) Any telecommunications company must demonstrate that it is licensed by the FCC.
- (9) The applicant must demonstrate how the proposed site fits into its overall network within the Village and plans must include any expected future facilities desired to be constructed within the Village.

(K) **Bond.** Any person, firm or corporation wishing to construct a telecommunications tower and/or facility, shall provide a bond to the Village in the amount of **Twenty Thousand Dollars (\$20,000.00) or twenty percent (20%)** of the construction costs, whichever is less. Said bond shall be kept in full force and effect during the entire period of time their tower and/or communication facility is in operation and thereafter, as provided for herein.

That said bond shall be utilized to indemnify the Village in the event that the facility should become obsolete and the owner fails to remove said tower and/or facility within **six (6) months** after the same shall become obsolete or no longer be in service, or in the event the tower or facility falls into a state of disrepair, or in the event that the owner has not at any time made reasonable accommodations to facilitate co-location.

(L) **Co-Location.** Co-location of communications antennas is desired to minimize adverse visual impacts associated with the proliferation and clustering of communication facilities. Co-location of communication facilities by more than one carrier on existing or new antenna support structures shall take precedence over the construction of new single use communication facilities. An applicant for a new antenna support structure shall demonstrate that a diligent effort has been made to locate the proposed communications facilities in accordance with the site selection and protocol requirements of this Section and that, due to valid considerations including physical restraints and economic or technological feasibility, no more appropriate location is available. The telecommunications company is required to demonstrate that it contacted, in writing, the owners of tall structures within a **fifteen hundred (1,500) foot** radius of the site proposed, asked for permission to install the antenna on those structures, and was denied in writing, for reasons other than economic ones. The Village may deny the application to construct a new facility if the applicant has not made a diligent effort, described in writing, to mount the antenna on an existing structure.

In order to reduce the number of antenna support structures needed in the Village in the future, any new proposed support structure shall be designed to accommodate antennas for more than one user, unless the applicant demonstrates in writing why such design is unfeasible for technical or physical reasons. Unless co-location has been demonstrated to be unfeasible, the site plan shall delineate an area near the base of the tower to be used for the placement of additional equipment/buildings for other users.

No person, firm or corporation shall refuse co-location of other equipment. All new telecommunication towers and compound areas shall be erected to allow for a minimum of **three (3) users**.

(M) **Abandonment.** In the event the use of any communications facility has been discontinued for a period of **one hundred eighty (180) consecutive days**, the facility shall be deemed to be abandoned. Determination of the date of abandonment shall be made by the Village which shall have the right to request documentation and/or affidavits from the communications facility owner/operator regarding the issue of facility usage. Upon such abandonment the owner/operator of the facility shall have **ninety (90) days** to reactivate the use of the facility, transfer the tower to another owner/operator who makes actual use of the facility, or dismantle and remove the facility. If there are two or more users of a single facility then this provision shall not become effective until all users cease using the facility. When a facility has been abandoned and removed the Village will take necessary action to vacate any previous special use approval for the particular abandoned facility.

(N) **Site Selection.**

- (1) As a fundamental element of this Section, the telecommunications company proposing to construct an antenna support structure or mount an antenna on an existing structure, is required to demonstrate, using technological evidence, that the antenna must go where it is proposed in

order to satisfy its function in the company's grid system. Further, the company must demonstrate by technological evidence that the height requested is the minimum height necessary to fulfill the communications facilities function in the grid system.

- (2) Give the unquestioned visual impact of communications towers on their surrounding environment, no antenna support structure may be constructed on a speculative basis. Applications for necessary permits will only be processed when the applicant has in place agreements with an FCC licensed telecommunications provider for lease/utilization of the support structure, space, written proof of which must be offered by the applicant.
- (3) Telecommunications facilities must be located and designed to minimize any adverse effect they may have on residential property values. Site shall be placed in locations where the existing topography, vegetation, buildings or other structures provide the greatest amount of screening. Location and design of all sites shall consider the impact of the site on the surrounding neighborhood. In residential districts and residential land use areas, the minimum lot size for commercial communications tower shall be **three (3) acres**, except for government owned properties.
- (4) Specific locations will be evaluated using the following criteria which are not listed in order of priority:
 - (a) Topography as it relates to line of sight transmissions for optimum efficiency in service.
 - (b) Availability of road access.
 - (c) Availability of electrical power.
 - (d) Availability of land based telephone lines or microwave link capability.
 - (e) Leasable lands and landlords who want facilities to be located on their property.
 - (f) Screening of potential and existing vegetation, structures and topographic features.
 - (g) Compatibility with adjacent land uses.
 - (h) The least number of sites to cover the desired area.
 - (i) The greatest amount of coverage, consistent with physical requirements.
 - (j) Opportunities to mitigate possible visual impact.
 - (k) Availability of suitable existing structures for antenna mounting.

(O) **Protocols.** The following establishes the planning order of priorities for locating new communications facilities:

- (1) Place towers and antennas on commercial or government property.
- (2) Place towers and antennas on other non-residential property.
- (3) Place antennas on other appropriate existing structures such as buildings, communication towers, water towers, and smoke stacks.
- (4) Place new communication towers in residential districts only if locations for which a need has been demonstrated are not available on existing structures or in non-residential districts. The telecommunications company is required to demonstrate that it contacted, in writing, the owners of other more appropriate properties and was denied, in writing, for reasons other than economic ones.

(P) **Design Criteria.** The following is a list of Design Criteria:

- (1) New communications facilities shall be located in accordance with the site selection and protocol requirements of the ordinance and shall be designed to accommodate antennas for more than one user. All facilities must be architecturally compatible with surrounding buildings and land uses or otherwise integrated, through location and design, to blend in with the existing characteristics of the site to the extent practical. All facilities must

- meet or exceed current standards and regulations of the FAA, the FCC, and any other agency of the federal government with the authority to regulate such facilities. If such standards and regulations are changed, then the owners of the communications facilities shall bring those facilities into compliance with the revised standards and regulations within **three (3) months** of the effective date of such standards and regulations unless a more stringent schedule is mandated by the controlling federal agency. Failure to bring facilities into compliance with such revised standards and regulations shall constitute grounds for the removal of the facility.
- (2) All telecommunications facilities must be located on properties that comply with the lot area requirements of the Zoning Code. Additionally, any telecommunications facility located in a residential zoning district must be located on a lot with a minimum size of **three (3) acres**.
 - (3) All communications facilities must be separated from communications facilities on other properties by at least **fifteen hundred (1,500) feet**.
 - (4) The maximum height for any antenna support structure shall be **one hundred fifty (150) feet** upon property zoned heavy commercial, **one hundred twenty (120) feet** on property zoned light commercial, and **one hundred (100) feet** on all other properties, unless additional height is approved by variation by the President and Board of Trustees.
 - (5) The distance from the outermost edge of any portion or part of an aerial, antenna or telecommunication tower or any apparatus utilized to support same to the nearest property line, shall not be less than the height of said aerial, antenna, tower or supporting apparatus.
 - (6) Communications towers shall have a non-contrasting blue, grey, or black finish, or a similar color that minimizes their visibility, unless a different color is required by the FCC or FAA.
 - (7) All telecommunications facilities shall be lighted only if required by the FCC or FAA. Where tower lighting is required, it shall be shielded or directed to the greatest extent possible in such a manner as to minimize the amount of light that falls onto nearby properties, particularly residences. A manually-operated or motion detection light above the equipment shed door is permitted, but shall be kept off except when personnel are actually present at night.
 - (8) Communications towers shall be constructed in accordance with standards of the Electronic Industries Association and all applicable construction and building codes, as may be amended from time to time. Surrounding areas shall not be negatively affected by support structure failure, falling ice or other debris or interference. All support structures shall be fitted with anti-climbing devices as approved by the manufacturers.
 - (9) Building mounted facilities must be architecturally compatible with the building on which they are mounted and designed and located so as to minimize any adverse aesthetic impact. Any support structure or mechanical equipment must be screened or enclosed in such a manner as to mask such equipment. Such screening shall be of noncombustible material and of the same color, character and design as the building upon which the screening is erected. An antenna must be mounted to the wall of a building or extend above the roof of a building without said screening provided the antenna is painted, or otherwise made to match the color of the building or structure or background against which they are most commonly seen. Communications facilities shall not occupy more than an aggregate total of **ten percent (10%)** of the roof area of any building.
 - (10) Site location and development shall preserve the preexisting character of the site as much as possible. Existing vegetation must be preserved or improved, and disturbance of the existing topography of the site must be

minimized. All ground mounted facilities and equipment, including the base and guy anchors of all telecommunication facilities, shall be enclosed with a solid **six (6) foot** high security fence. Landscaping shall be required to screen as much of the support structure as possible, the fence surrounding the support structure and any other ground level features, and in general soften the appearance of the facility. At a minimum, closely planted evergreen trees or shrubs at least **six (6) feet** high shall be planted around the exterior of any security fencing and around the base and guy anchor of any telecommunications facility. Additional deciduous trees at least **two (2) inches** in girth, plus evergreen trees at least **six (6) feet** in height, shall be planted around the perimeter of the property (near the property lines) upon which a telecommunications facility is located. As a condition of a permit, the Village may set other conditions concerning existing vegetation, topography, walls, fences or other landscaping to achieve an acceptable degree of screening.

- (11) Driveways and parking areas constructed in compliance with Village ordinances must be provided as necessary for each telecommunications facility. If any site is not automated, the number of required parking spaces shall equal the number of people on the largest shift. Any security fencing must be of a color and design to blend into the character of the existing environment.
- (12) No telecommunications facility shall cause interference with the reception of television and radio broadcasts to the property which they are located or to surrounding properties.
- (13) The telecommunications tower then fully loaded with antennas, transmitters, other equipment and camouflaging (if needed), shall be designed to withstand the forces expected during the "maximum credible earthquake." All equipment mounting racks and equipment used shall be anchored in such a manner that such a quake with not tip them over, throw the equipment off the shelves, or otherwise act to damage it. Measures shall be taken to keep the facility operational in the event of disaster.
- (14) Backup generators shall only be operated during power outages and for testing and maintenance purposes. If the facility is located within **one hundred (100) feet** of a residential dwelling unit, noise attenuation measures shall be included to reduce noise levels to an exterior noise intensity level of at least 60 dB (decibels) at the property line and an interior level of 45 dB.
- (15) The aerial, antenna or tower and all related appurtenances shall be kept in a clean and well maintained condition.
- (16) The construction and design of the aerial, antenna or tower shall provide reasonable structured integrity.
- (17) No building, aerial, antenna, tower or part thereof shall encroach onto any recorded easement.
- (18) No facility should encroach onto an existing septic field.
- (19) Any facility located in a special flood hazard area, flood plain, or wetland shall meet all legal requirements and restrictions governing use and occupation of said lands.
- (20) Existing trees more than **three (3) inches** in diameter should be preserved if reasonably feasible during construction. If any tree more than **three (3) inches** in diameter is removed during construction, a tree **three (3) inches** or more in diameter of the same or similar species shall be planted or replaced. Tree diameters shall be measured at a joint **three (3) feet** above ground level.

- (21) Any building that is part of a facility located adjacent to a residentially zoned area should be designed with exterior materials and colors that are reasonably compatible with the residential character of the area.
- (Q) **Exemptions.** The following are considered exemptions:
- (1) Proposed communications antennas may, and are encouraged to, co-locate onto existing approved structures. Provided such co-locations are accomplished in a manner consistent with the terms of this Section, then such co-locations may be approved without any new or additional special use or approval. Proper plans must be submitted and permits obtained for such co-location facilities as required by this Section.
 - (2) Any communications facilities on properties owned by the Village are exempt from the terms of this Section subject to any conditions set by the President and Board of Trustees.
 - (3) Nothing in the Code shall apply to "receive only" communications facilities for use by an individual residential dwelling unit or business provided such facilities comply with the height requirements of the zoning district in which they are located.
- (R) **Consideration and Decision.**
- (1) The President and Board of Trustees shall act upon any request within a reasonable period of time after the request is duly filed in accordance with the terms and provisions herein, taking into account the nature, scope and complexity of said request and whether technical consideration is required.
 - (2) Any decision by the President and Board of Trustees to deny a request to place, construct or modify personal wireless service facilities pursuant to the terms and provisions of this Section shall be in writing, stating the reasons in support thereof.
- (S) **Severability and Conflict Resolution.**
- (1) **Severability.** The provisions of this Code are hereby declared to be severable and should any provision, clause, sentence, paragraph, sub-paragraph, section, or part of this Code be determined to be in conflict with any law, statute or regulation by a court of competent jurisdiction, said provision shall be excluded and deemed inoperative, unenforceable, and as though not provided for herein, and all other provisions shall remain unaffected, unimpaired, valid and in full force and effect. It is hereby declared to be the legislative intent of the Board of Trustees that this Code would have been adopted had such unconstitutional or invalid provision, clause, sentence, paragraph, subparagraph, section or part thereof not been included.
 - (2) **Conflict Resolution.** All code provisions, ordinances, resolutions and orders, or parts thereof, in conflict herewith, are to the extent of such conflict hereby superseded.

40-5-20 TEMPORARY PORTABLE STORAGE. No person shall place, allow or permit another to place on private property a temporary portable storage container, cargo container, locker, storage unit, storage pod, conex container, sea cans, ISO container or storage trailer or other similar structure or facility constructed of any material whatsoever unless and until said person shall obtain from the Village a permit upon payment of a **Ten Dollar (\$10.00)** fee. Said structure shall be used for the sole purpose of temporary storage only, no occupancy or permanent placement of structure shall be permitted. No such storage facility shall be placed on public property, a public street, a public right-of-way or easement, whether said easement is on private or public property. No storage facility shall exceed **forty (40) feet** in length, or **ten (10) feet** in width or **ten (10) feet** in height. The permit shall allow for the placement of said storage facility for a maximum period of **thirty (30) days**. One **thirty (30) day** extension of said permit may be granted in the sole discretion of the Board of Trustees. A violation of this Section shall result in a minimum fine of **Fifty Dollars (\$50.00)** and a maximum fine of **Two Hundred Dollars (\$200.00)**. Each day that a violation exists constitutes a separate offense for purpose of this Section. **(Ord. No. 783; 06-15-10)**

40-5-21 PORTABLE TOOL SHED. The placing of a portable tool shed shall be permitted on lots and easements, providing that the building can be moved within **twenty-four (24) hours** or less notice. They shall have no foundation, pad, shall not be permanently attached to the ground, and shall be no larger than **two hundred (200) square feet**. The building shall meet the setback lines of an accessory building, shall not interfere with the normal flow of drainage water, and shall not interfere with access to sewer manholes. The distance from a sewer manhole will be at the discretion of the Village Engineer. The placement of these portable tool sheds will require a normal building permit. The owners will be notified by the Village if the shed is required to be moved for utility easement work. The Village will make every effort to give **twenty-four (24) hours'** notice to move the shed, but less notice may be given for emergency utility service or repair. The movement of the shed shall be the owner's responsibility and expense. **(Ord. No. 810; 10-04-11)**

ARTICLE VII - NON-CONFORMING USES

40-7-1 NON-CONFORMING USE. A non-conforming use is a use of land or building(s) within the Village that does not conform (does not meet the regulations of this Code in some way). A non-conforming use may often have a detrimental effect on the land use around it, such as increased traffic on residential streets, not enough parking space, the emission of noxious fumes, the creation of loud noises or a depressing effect on property values. These regulations are intended to minimize the existing and/or potential problems created by non-conforming uses.

(A) **Continuation of a Non-Conforming Use.**

- (1) Any lawful building, structure, or use existing at the time of the enactment of this Code may be continued even though such building, structure, or use does not conform to the provisions of this Code for the district in which it is located and whenever a district shall be changed hereafter, the then existing lawful use may be continued, subject to the provisions of this Code.
- (2) Any legal, non-conforming building or structure may be continued in use provided there is no structural change other than normal maintenance and repairs, except as otherwise permitted herein.
- (3) Any building for which a permit has been lawfully granted prior to the effective date of this Code or of amendments hereto, may be completed in accordance with the approved plans, provided construction is started within **one hundred eighty (180) days** and diligently pursued to completion. Such building shall be thereafter deemed to be a lawfully established building.

40-7-2 CHANGE OR EXTENSION OF NON-CONFORMING USE.

(A) A non-conforming use shall not be extended, but the extension of a conforming use to any portion of a non-conforming building shall not be deemed the extension of such non-conforming use.

(B) A non-conforming use shall not be changed to a use of the same or greater non-conformity with the district regulations of the district in which it is located, and when so changed to a use of a greater conformity, shall not thereafter be changed to a use of lesser conformity; however, in the I-1 Industrial District, a non-conforming use shall not be changed to any non-conforming residential use.

(C) A non-conforming use shall not be altered, extended or restored so as to displace any conforming use.

40-7-3 ABANDONMENT OR DISCONTINUANCE.

(A) When any non-conforming use has been discontinued for a period of **twelve (12) consecutive months**, such use shall not thereafter be resumed and any future use of the premises shall be in conformity with the provisions of this Code, provided that such non-conforming use may be resumed when the owner, during the period of discontinuance, has been actively attempting to continue such non-conforming use.

(B) Proof of fact in writing must be furnished to the Zoning Board of Appeals by the applicant to establish intent not to abandon.

40-7-4 REPAIRS, MAINTENANCE AND ALTERATION.

(A) Ordinary repairs and maintenance of a non-conforming building shall not be deemed an extension of such non-conforming building and shall be permitted.

(B) No structural alteration shall be made in a building or other structure containing a non-conforming use, except in the following situations:

- (1) When the alteration is required by law.

- (2) When the alteration will actually result in elimination of the non-conforming use.
- (3) When a building in a residence district containing residential non-conforming uses may be altered in a way to improve livability, provided no structural alteration shall be made which would increase the number of dwelling units or the bulk of the building.

40-7-5 RESTORATION. If a building, excluding single-family dwellings, or other structure containing a non-conforming use is damaged or destroyed by any means to the extent of **fifty percent (50%)** or more of its value at the time, the building or other structure can be rebuilt or used thereafter only for a conforming use and in compliance with the provisions of the district in which it is located. In the event the damage or destruction is less than **fifty percent (50%)** of its value, based upon the prevailing costs, the building may then be restored to its original condition and the occupancy or use of such building may be continued which existed at the time of such partial destruction.

(A) In the event that the Zoning Administrator's estimate of the extent of damage or fair market value is not acceptable to the applicant for the building permit to repair or reconstruct such building or structure, the applicant may appeal to the Zoning Board of Appeals.

(B) In any event, restoration or repair of the building or other structure must be started within a period of **six (6) months** from the date of damage or destruction and diligently pursued to completion.

(C) **Conditions.** The Zoning Administrator may issue, or cause to be issued, a building permit if the subject matter thereof is otherwise permitted by the provisions of this Section, provided that the Zoning Administrator may impose such conditions and requirements to the issuance of the permit as are reasonably necessary to promote compatibility of the non-conforming use or building with its immediate neighborhood and to protect adjacent property from any adverse effects of the non-conforming use.

(A) Merely changing the message displayed on a nonconforming sign shall not be construed as a prohibited alteration;

(B) Whenever any sign is nonconforming solely because it is appurtenant to a nonconforming commercial/industrial use located in the Agricultural District or in any residential district, said sign shall be treated in the same manner as it would be if it were appurtenant to a commercial/industrial use located in any Business District or in the Industrial District.

40-10-6 ISSUANCE OF BUILDING PERMIT. A building permit shall be either issued or refused by the Zoning Administrator within **fourteen (14) days** after the receipt of an application therefore, or within such further period as may be agreed to by the applicant. When the Zoning Administrator refuses to issue a building permit, he shall advise the applicant in writing of the reasons for the refusal.

40-10-7 PERIOD OF VALIDITY. A building permit shall become null and void **six (6) months** after the date on which it is issued unless, within such **six (6) month** period, construction, moving, or reconstruction of a structure is commenced or a use is commenced.

40-10-8 OCCUPANCY PERMITS. No structure or addition thereto constructed, moved, or reconstructed after the effective date of this Code shall be occupied or used for any purpose and no land vacancy on the effective date of this Code shall be used for any other use, unless an occupancy permit shall first have been obtained from the Zoning Administrator certifying that the proposed use or occupancy complies with all the provisions of this Code.

40-10-9 APPLICATION FOR OCCUPANCY PERMIT. Every application for a building permit shall be deemed to be an application for an occupancy permit. Every application for an occupancy permit for a new or changed use of land or structures where no building permit is required shall be filed with the Zoning Administrator and be in such form and contain such information as the Zoning Administrator shall provide by general rule.

No occupancy permit for a new use of any structure or land shall be issued until the premises have been inspected by the Zoning Administrator and determined to be in full and complete compliance with all the applicable regulations for the zoning district in which it is located. Pending the issuance of a permanent occupancy permit, a temporary occupancy permit may be issued to be valid for a period not to exceed **six (6) months** from its date, pending the completion of any addition or during partial occupancy of the premises. An occupancy permit shall be issued or written notice shall be given to the applicant stating the reasons why a certificate cannot be issued, within **fourteen (14) days** after the receipt of an application therefor, or after the Zoning Administrator is notified in writing that the structures or premises are ready for occupancy.

40-10-11 PENALTIES.

(B) In the event that the issuance of a Building Permit is ultimately denied, then whatever portion of any object, improvement, building or structure, of any kind or nature, that has been erected, begun or initiated without the said certificate, shall in its entirety be dismantled and removed upon notification of the Village.

DIVISION IV - APPEALS

40-10-21 NATURE OF AN APPEAL. Any person aggrieved by any decision or order of the Zoning Administrator in any matter related to the interpretation or enforcement of any provision of this Code may appeal to the Zoning Board of Appeals on a prescribed form. Every such appeal shall be made and treated in accordance with Illinois law and the provisions of this Division. **(65 ILCS 5/11-13-12)**

40-10-22 FILING, RECORD TRANSMITTAL. Every appeal shall be made within **forty-five (45) days** of the matter complained of by filing with the Administrator and the Zoning Board of Appeals a written notice specifying the grounds for appeal. Every appeal shall also be filed with the **Soil and Water Conservation District** pursuant to State law. Not more than **five (5)** working days after the notice of appeal has been filed, the Administrator shall transmit to the Zoning Board of Appeals all records pertinent to the case. **(65 ILCS 5/11-13-12) (70 ILCS 405/22.02A)**

40-10-23 STAY OF FURTHER PROCEEDINGS. An appeal stays all further action on the matter being appealed unless the Zoning Administrator certifies to the Zoning Board of Appeals after the notice of appeal has been filed with him, that for reasons stated in the certificate, a stay would cause imminent peril to life or property. In such case, further action shall not be stayed unless the Zoning Board of Appeals or the Circuit Court grants a restraining order for due cause and so notifies the Zoning Administrator. **(65 ILCS 5/11-13-12)**

40-10-24 PUBLIC HEARING, NOTICE. The Zoning Board of Appeals shall hold a public hearing on every appeal within a reasonable time after the filing of the appeal notice. At the hearing, any interested party may appear and testify, either in person or by duly authorized agent or attorney. Notice indicating the time, date, and place of the hearing, and briefly describing the issue to be decided shall be given not more than **thirty (30) days** nor less than **fifteen (15) days** before the hearing:

- (A) By publication in a newspaper of general circulation within this Municipality; and
- (B) By certified mail to the applicant; and,
- (C) By first-class mail to all owners of property contiguous to any property affected by the appeal.

(65 ILCS 5/11-13-12)

40-10-25 DECISION BY ZONING BOARD OF APPEALS. The Zoning Board of Appeals shall render a decision on the appeal within **thirty (30) days** after the hearing therein. The Zoning Board of Appeals may reverse or affirm, wholly or partly, or may modify or amend the decision or order appealed from the extent and in the manner that they deem appropriate. In so doing, the Zoning Board of Appeals has all the power of the Zoning Administrator. **(65 ILCS 5/11-13-3 and 5/11-13-12)**

ED. NOTE: The Zoning Board of Appeals is delegated the task of hearing appeals from the decisions of the Zoning Administrator or other official charged with enforcement of an ordinance passed pursuant to the Zoning Enabling Act. This may, for example, entail determining whether there has been a discontinuance of a nonconforming use. It is important for the applicant to note the appeal process because of the requirement of exhaustion of administrative remedies before suit is filed as well as the more obvious reason of using a less expensive administrative process for correcting a mistake or error which may have been made by the Zoning Administrator. (65 ILCS 5/11-13-3)

40-10-26 RESERVED.

DIVISION V - VARIATIONS

40-10-27 AUTHORIZATION. The Zoning Board of Appeals may authorize such variations from the terms of this Code as will not be contrary to the public interest. Variations may be authorized only in those specific instances enumerated herein, and then only when the Zoning Board of Appeals has made findings of fact, based upon the standards set out herein, that owing to special conditions, a literal enforcement of the provisions of this Code will, in an individual case, result in practical difficulties or particular hardship for the owner, lessee, or occupant of land or a structure.

40-10-28 APPLICATION FOR VARIATION. An application for a variation shall be filed in duplicate with the Zoning Administrator who shall forward without delay, a copy to the Secretary of the Zoning Board of Appeals. The application shall contain the following information as well as such additional information as may be prescribed by rule of the Zoning Board of Appeals:

- (A) The particular requirements of this Code which prevent the proposed use or construction;
- (B) The characteristics of the subject property which prevent compliance with said requirements of this Code;
- (C) The reduction of the minimum requirements of this Code which would be necessary to permit the proposed use or construction; and
- (D) The practical difficulty or particular hardship which would result if said particular requirements of this Code were applied to the subject property.

40-10-29 HEARING AND NOTICE. The Zoning Board of Appeals shall select a reasonable time and place for the hearing. Public notice of such hearing shall be published at least once, not less than **fifteen (15) days** nor more than **thirty (30) days** before such hearing in a newspaper published within the Village, or in a newspaper of general circulation within the Village. Such notice shall contain the date, time, and place of the hearing, the street address or common description of the property involved, the legal description of the property involved, and a brief description of the relief sought. The Zoning Board of Appeals may give such additional notice as it may, from time to time, by rule, provide. Any party in interest may appear and be heard at the hearing in person, by agent, or by attorney.

40-10-30 AUTHORIZED VARIATIONS. Variations from the regulations of this Code shall be granted only in accordance with the standards set out in **Section 40-10-31**, and may be granted only in the following instances, and in no others.

(A) To vary the applicable lot area, lot width, and lot depth requirements, subject to the following limitations:

- (1) The minimum lot width and lot depth requirements shall not be reduced more than **twenty-five percent (25%)**.
- (2) The minimum lot area for a single-family or two-family dwelling shall not be reduced more than **twenty percent (20%)**.
- (3) The minimum lot area per dwelling unit requirements for multiple-family dwellings shall not be reduced so as to permit more than **one (1) dwelling** unit in addition to the number that would be permitted by strict application of the minimum lot area requirements.

(B) To vary the applicable bulk regulations, including maximum height, maximum lot coverage, maximum floor-area ratio, and minimum yard requirements.

(C) To vary the applicable off-street parking and off-street loading requirements contained in **Article IX** of this Code.

(D) To vary the regulations relating to restoration of damaged or destroyed non-conforming structures or uses contained in **Section 40-7-5** of this Code.

(E) To permit the expansion or structural alteration of a non-conforming structure or use.

(F) To permit a use not otherwise permitted by the applicable district regulations.

40-10-31 STANDARDS FOR VARIATIONS. The Zoning Board of Appeals shall not vary the regulations of this Code unless it shall make findings of the fact based upon the evidence as presented that:

(A) The property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations of the district in which it is located.

(B) The proposed variation will not merely serve as a convenience to the applicant, but will alleviate some demonstrable and unusual hardship which will result if the strict letter of the regulations were carried out and which is not generally applicable to property within the same district.

(C) The alleged hardship has not been created by any person presently having a proprietary interest in the premises.

(D) The proposed variation will not be materially detrimental to the public welfare or injurious to other property or improvements in the neighborhood.

(E) The proposed variation will not impair an adequate supply of light and air to adjacent property, substantially increase congestion in the public streets, increase the danger of fire, or endanger the public safety.

(F) The proposed variation will not alter the essential character of the neighborhood.

(G) The proposed variation is in harmony with the spirit and intent of this Code.

The Zoning Board of Appeals may impose such conditions and restrictions upon the location, construction, design, and use of the property benefited by a variation as may be necessary or appropriate to comply with the foregoing standards and to protect adjacent property and property values. (**Ord. No. 919; 09-04-18, Ord. No. 947;8-18-2020**)

40-10-32 DECISION ON VARIATIONS. The concurring vote of **four (4) members** of the Zoning Board of Appeals shall be necessary to grant a variation. The order of the Zoning Board of Appeals shall be by written resolution and shall contain its findings of fact. If the Zoning Board of Appeals denies a variance, the applicant shall not resubmit the request for at least **six (6) months**.

40-10-33 PERIOD OF VALIDITY. No decision granting a variation shall be valid for a period longer than **twelve (12) months** from the date of such decision unless:

(A) an application for a building permit is obtained within such period and construction, moving, remodeling, or reconstruction is started, or

(B) an occupancy certificate is obtained and a use is commenced.

The Zoning Board of Appeals may grant additional extensions of time not exceeding **one hundred eighty (180) days** each, upon written application made within the initial **twelve (12) month** period, without further notice or hearing, but said right to so extend said time shall not include the right to grant additional relief by expanding the scope of the variation.

40-10-34 PENALTIES.

(A) In the event that any person, firm, business, corporation, association or other entity of any kind or nature begins or initiates any improvement or builds, constructs or erects any building, structure or other object of any kind or nature, in whole or in part within the Village which requires a variance but prior to having been granted said variance, then said person or entity shall be subject to the penalties imposed by **Article XII, Section 40-12-1 et seq.**

(B) In the event that the issuance of a variance is ultimately denies, then whatever portion of any object, improvement, building or structure of any kind or nature that has been erected, begin, or initiated without the said variance shall in its entirety be dismantled and removed upon notification by the Village.

DIVISION VI - SPECIAL USES

40-10-37 SPECIAL-USE PERMITS. This Code divides the Municipality into various districts, and permits in each district as a matter of right only those uses which are clearly compatible with one another. Certain other uses, because of their special operational or physical characteristics, may or may not have a detrimental impact on nearby permitted uses, depending upon their precise location, manner of operation and other factors. Such "special uses" require careful case-by-case review, initially by the Zoning Board of Appeals which issues an advisory opinion only and that said request shall thereafter be considered and then granted or denied in whole or in part by the Board of Trustees as provided for herein. **(65 ILCS 5/11-13-1.1) (Ord. No. 830; 11-06-12)**

40-10-38 APPLICATION. Every applicant for a special-use permit shall submit to the Zoning Administrator in narrative and/or graphic form, the items of information enumerated below. In the event the application fails to designate either (1) or (2) as hereinabove states, then the Zoning Board of Appeals shall assume that the special use permit if granted in whole or in part, shall expire with the sale, assignment, gift, lease or other transfer of any kind or nature of the subject property by the applicant to any other person or entity at any time. **(Ord. No. 830; 11-06-12)**

40-10-39 PUBLIC HEARING, NOTICE. The Zoning Board of Appeals shall hold a public hearing on every special-use permit application within **sixty (60) days** after the application is submitted to them. At the hearing, any interested party may appear and testify, either in person or by duly authorized agent or attorney. (E) Whether there are any facilities near the proposed special-use (such as schools or hospitals) that require special protection. **(65 ILCS 5/11-13-7)**
(Ord. No. 830; 11-06-12)

40-10-41 DECISION - FINDINGS OF FACTS. The Zoning Board of Appeals shall recommend a special use permit only upon evidence that such use meets standards established for such classification and the Zoning Code, and that the grant of permission may be subject to any conditions, qualification or limitations reasonably necessary to meet and be in conformity with such standards.

All decisions of the Zoning Board of Appeals which either grants or denies a request for a special use permit, either in whole or in part, shall be advisory only. All said advisory reports shall be submitted to the Village Board of Trustees which shall act on each request and advisory report at its next regularly scheduled meeting following issuance of the Zoning Board of Appeals Advisory Report. The Village Board of Trustees may accept, deny, alter or amend the advisory report in whole or in part and may change, alter, amend or add conditions, qualifications or limitations that it deems in its discretion reasonably necessary to fulfill the requirements of this Code. The decision of the Board of Trustees shall be recorded with the office of the St. Clair County Recorder of Deeds and appear in the chain of title of the property in question and shall constitute notice to all subsequent purchasers, possessioners or occupiers of said property who shall be bound by said decision. **(65 ILCS 5/11-13-1.1 and 5/11-13-11) (Ord. No. 830; 11-06-12)**

[ED. NOTE: The applicants and property owners for a variation or special-use should review Sec. 5/11-13-7A of the Illinois Compiled Statutes relative to subpoenas for persons to appear at the zoning hearings.]

40-10-42 TEMPORARY USE PERMITS: PROCEDURE FOR. As set forth at **Section 40-3-7**, requests for temporary use permits shall be treated in the same manner as requests for special use permits. The Zoning Board of Appeals shall issue no temporary use permit for a period longer than **one (1) year** but may renew any such permit as they see fit.

40-10-43 TIME LIMITATION. Any special use permit lawfully issued prior to the effective date of this Code or any amendment to it, shall be deemed to be and continue valid after such effective date subject to any conditions placed hereon at the time of issuance.

40-10-44 PENALTIES.
 (A) In the event that any person, firm, business, corporation, association or other entity of any kind or nature begins or initiates or begins the use of property or structure of any kind or nature, in whole or in part, within the Village, that requires the issuance of a special use permit but prior to having been granted said permit, then said person or entity shall be subject to the penalties imposed by **Article XII, Section 40-12-1 et seq.**
